WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with several firms and contractors for labor, supplies, etc. Communications from the heads of the departments interested were as follows:

OVERSEERS OF THE PUBLIC WELFARE.

BOSTON, May 21, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to the awarding of a contract to Walter Curley and Son, 21 King street, Roxbury, for hauling wood from the Wayfarers' Lodge to various sections of the city.

This company submitted the lowest bid, which amounted to \$1,022.59. The cost for the same period last year was \$1,091.03. The saving for this year will amount to \$68.44.

Very truly yours,

JAMES A. McMURRY,
Chairman.

PARK DEPARTMENT.

BOSTON, May 29, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR—Your authority is respectfully asked to award to the American Coin Lock Company a lease for a term of three years from June 1, 1936, of the coin lock privilege in the convenience stations on Boston Common.

The American Coin Lock Company is to provide the services of three attendants to care for said convenience stations, also to furnish such cleaning material as may be necessary and, in addition, pay the sum of \$50 per annum.

The present lease, which expires on May 31, 1936, provides for the services of three attendants and for the payment of the sum of \$200 per year. This proposed new lease provides for the services of three attendants and for the payment of the sum of \$50 per year, a reduction from the sum of \$200 per year under the old lease.

The Board believes that it would be difficult to get better service than that supplied by the American Coin Lock Company in the convenience stations on Boston Common for the past twelve years and recommends that the lease be awarded to the above-named company in accordance with conditions outlined above and contained in the proposed new lease.

Respectfully yours,

WILLIAM P. LONG,
Chairman.

PUBLIC WORKS DEPARTMENT.

BOSTON, June 24, 1936.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract, without

advertising, to M. H. Loonie, 512 Adams street, Dorchester, for furnishing two 5-ton trucks to be used in the Sanitary Division during the month of July at the rate of \$2.95 per hour for each truck, said price being in accordance with the dump truck owners' code price.

Despite the number of new trucks purchased under the snow-removal equipment contract, conditions are continually arising whereby additional trucks are needed to meet the immediate demands of the department for collecting ashes and sanding streets.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, May 25, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of May 6, 1936; your Honor approved a contract to the Fitzhenry-Guptill Company for furnishing power sprayers to the Park Department. Five old horse-drawn sprayers were turned in on this contract, and allowance was made to the City of Boston of \$75 each for same.

Since the signing of this permission to award, the Fitzhenry-Guptill Company has increased the allowance on the old machines turned in from \$75 to \$100 each.

This increases the total allowance for the old sprayers turned in from \$375 to \$500, and I would ask your approval to make this change in the contract which would make a net gain to the city of \$125.

Respectfully yours,

D. FRANK DOHERTY,
Superintendent of Supplies.

BOSTON, June 8, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—On May 19, 1936, your Honor approved a contract between the City and the Fore River Coal Company for furnishing approximately 7,500 gross tons of nut and slack coal to be delivered by vessel to the Long Island Hospital, Institutions Department, at a price of \$5.89 per gross ton. Bids had been received on the basis of two alternative options: (1) nut and slack coal, on which Fore River Coal Company was the low bidder with a bid of \$5.89 per gross ton; and (2) run of mine coal, on which the White Fuel Corporation was the low bidder with a bid of \$6.34 per gross ton. Because the price of nut and slack is substantially lower than run of mine coal and because nut and slack coal had been used at the Long Island Hospital to a certain extent on 1934-35 contract, I recommended award of the contract to the low bidder for nut and slack coal.

As a result of the use of the first delivery of the nut and slack coal under the contract, however, it has become apparent that because of the increased load on the boilers at the Long Island Hospital during the last year, including the use of a new incinerator, nut and slack coal will not yield satisfactory results and it will be necessary to return to the use of run of mine coal.

The Fore River Coal Company is willing to furnish run of mine coal for the requirements at Long Island Hospital during the remainder of the term of its present contract at the price of \$6.34 per gross ton, the amount originally bid by

the lowest bidder for run of mine coal and to cancel its present contract for nut and slack coal.

Inasmuch as nut and slack coal will not yield satisfactory results, and inasmuch as the Fore River Coal Company is willing to give up whatever rights it has under its present contract for furnishing nut and slack coal to the Long Island Hospital, if it is awarded a contract for furnishing run of mine coal to said hospital for the remainder of the term of its present contract at \$6.34 per gross ton, the lowest price originally bid, it is my opinion that the best interests of the city will be served by cancelling the present contract with the Fore River Coal Company as of this date and entering into a new contract with said company for furnishing run of mine coal to said hospital at \$6.34 per gross ton for the remainder of said term, without publicly advertising therefor, and I, therefore, respectfully request your permission to enter into such new contract.

I have conferred with the Corporation Counsel and he is in agreement with me upon the procedure I have outlined in this letter.

Respectfully yours,

D. FRANK DOHERTY,
Superintendent of Supplies.

TRAFFIC COMMISSION.

BOSTON, May 27, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—This commission respectfully requests your approval to award a contract, without advertising, to the Edison Electric Illuminating Company of Boston to construct underground conduit and supply cable for service to automatic traffic signals at the intersections of Beacon street and Exeter street, Beacon street and Fairfield street, Beacon street and Gloucester street, and Beacon street and Hereford street, at a cost not to exceed \$3,996.

Since the Edison Electric Illuminating Company of Boston is the only person or corporation having facilities available for supplying electrical energy no benefit would accrue from publicly advertising.

This commission has voted, subject to your approval, to award this contract.

Respectfully yours,

WILLIAM P. HICKEY,
Commissioner.

EXTRA WORK UNDER CONTRACT.

Quincy Dry Dock and Yacht Corporation has been directed to perform the following extra work under the contract for repairing hull, etc., of ferryboat "Charles C. Donoghue," dated May 13, 1936. Items ordered: 1, repair sea chest for main injection instead of Item 23, under contract, estimated cost, \$46.08; 2, make and fit eight (8) wrist pins on high and low pressure valve links, main engines, at \$30 each, estimated cost, \$160. Estimated cost of extra work, \$206.08.

On uncovering work it was found that new sea chest, as called for under Item 23, was not necessary and that repairs would be sufficient. On taking down valve gear it was found that new wrist pins in blocks were necessary.

POLICE DEPARTMENT ORDERS.

General Order No. 206.

For the purpose of simplifying the clerical work at station houses and Headquarters, a new Arrest Book, Arrest Ledger, Daily Report and Arrest File will be inaugurated on Monday, June 22, 1936, at 8 a. m.

1. Arrest Book: The new Arrest Book is similar to the one which was discontinued on October 1, 1932, under General Order No. 98, paragraph 2.

2. Arrest Ledger: The new Arrest Ledger will serve as an index to the Arrest Book, will be loose leaf and will contain the following information: Booking number, date and name and address of the person arrested.

3. Daily Report: The new Form 71 (Daily Report) is the same as the one now in use by the department, with the exception that on the reverse side will be listed the booking number, name, etc., of the persons arrested at the respective stations.

NOTE.—In case of arrest of delinquents, the specific charge shall be inserted. Also, in case of larcenies (where money or other property is stolen) the amount will be stated in addition to the charge.

4. Arrest File: This form will contain the necessary information for the Bureau of Records and the Statistical Division, and will be completed in the office of the superintendent.

The following forms will be discontinued as of Monday, June 22, 1936, at 8 a. m.:

1. Form 197, loose leaf Arrest Book.
2. Present Form 71, Daily Report.
3. Three-way Forms 198, 199, 200.

Commanding officers of divisions, the Bureau of Criminal Investigation and the Special Service Squad shall make requisition on the Property Clerk immediately for the following books and form:

1. Arrest Book.
2. Arrest Ledger.
3. New Form 71, Daily Report.

The new system of booking prisoners will in no way affect the present method of assigning a number to each individual arrest. The numbering system will be continued without interruption.

When officers have persons before the court for miscellaneous offences who have not been previously brought to a station house, the information required for the Arrest Book shall be inserted on Form 10.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. McSWEENEY,
Police Commissioner.

General Order No. 207.

The following transfers are hereby ordered to take effect Monday, June 22, 1936, at 7.45 o'clock a. m.:

Patrolmen.

Charles W. Abbott and Thomas A. Davis, from Property Clerk's Office to Division 2; Napoleon R. Amelotte, from Property Clerk's Office to Division 4.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. McSWEENEY,
Police Commissioner.

FIVE PER CENT OF CITY BUDGET PAID FOR REFUSE DISPOSAL.

Nearly one million dollars, or about 5 per cent of the total cost of the general city government of Los Angeles, Cal., is spent every year for the collection and disposal of refuse, under the direction of the Bureau of Engineering of that city. The Refuse Collection Division operates six days a week, and enough men are provided to compensate for a five-day week for all the personnel employed.

\$50,000,000 WATER-SUPPLY PROJECT IN CALIFORNIA.

The city of San Jose has entered into contract with the Water Properties Company, Ltd., of San Francisco, to provide the city water from the head waters of the American river in the vicinity of Lake Tahoe. The agreement is for thirty years, during which time the municipality will acquire title to the local distribution system and receive a proportionate share of the production and transmission systems.

PROCEEDINGS OF CITY COUNCIL.

SPECIAL MEETING.

Thursday, June 18, 1936.

Adjourned special meeting of the City Council in the Council Chamber, City Hall, at 1 p. m., President FITZGERALD in the chair and all the members present except Coun. Roberts, Shattuck and Wilson.

RECESS.

The Council voted, on motion of President FITZGERALD, at 1.20 p. m. to take a recess subject to the call of the Chair. The Council reassembled in the Council Chamber at 2 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GALLAGHER, for the Executive Committee, submitted the following:

1. Report on message of the Mayor and order (referred June 15) for loan of \$4,000,000 against tax titles—recommending that the order ought to pass.

Coun. DOWD—Mr. President, for the record and speaking personally for myself, realizing the credit of the City of Boston throughout the country, realizing that we have never defaulted on any of our bonds or any of our payments, I think we should serve notice on the great banking institutions in this city that we realize that something is going on, in view of the fact that on temporary loans in the past there have always been from three to five bidders, but as explained by the City Auditor, the last two times there has been only one bidder. Now it is very evident that the banking institutions of the City of Boston, who are willing to loan money to outside industries in outside cities, are trying to create a monopoly in the City of Boston. We find in large cities throughout Massachusetts that the local institutions are only too willing to loan the cities their money, and I cannot see any real, sound, logical reason why a city like Boston, with the credit we have, should only have one bidder. To my mind it is an attempt to create a monopoly by the banking institutions in Boston.

Coun. NORTON—The City of Boston pays the highest price for its loans of any city in Massachusetts. We are paying more for money than Fall River, New Bedford, Lowell, Lawrence and Brockton, who were hit greatly by the depression. Boston is paying more money for short-term loans, tax-anticipation notes, than any other city in Massachusetts. It is only a question of time when there are no bidders and when the banking institutions refuse to accept and do business with the city, when the crisis comes, and when that comes, things are going to move fast and God help certain folks at the Hall. Those are the people I would like to protect and keep the old house going as long as possible. I asked the auditor why this unusual procedure was adopted of borrowing on tax titles to pay off short term bonds. The reason is, they do not want to go into the market. They are afraid. No one knows what the bankers would say to the city today if they asked for \$4,000,000.

The report was accepted, and the order was read once and passed, yeas 19, nays 0.

The order will come up for second reading and passage in not less than fourteen days.

2. Report on message of Mayor and order (referred June 15) for transfer of \$5,000 for the purpose of providing ice for the drinking fountains—recommending that same ought to pass.

Report accepted; said order passed, yeas 19, nays 0.

3. Report on message of Mayor and order (referred June 15) for transfer of \$25,000 from the Reserve Fund to the Public Works Department, Paving Service, for P. W. A. projects—recommending that order ought to pass.

Report accepted; said order passed, yeas 19, nays 0.

4. Report on message of Mayor and orders (referred June 15) for transfer in various departments—recommending that orders ought to pass.

Report accepted; orders severally passed, yeas 19, nays 0.

5. Report on message of Mayor and order (referred June 15) for loan of \$85,000 for Police Communication System—recommending reference of order to the Committee on Finance.

Report accepted and order referred to Committee on Finance.

The purposes for which the meeting was called having been accomplished, the President declared the meeting adjourned at 2.10 p. m., to meet on Monday, June 29, 1936, at 2 p. m.

THE NOISE NUISANCE.

That city officials are serious about eliminating noise is noted from studies of new anti-noise ordinances enacted by a growing number of municipalities listed in the "United States Municipal News," bulletin of the American Municipal Association and the United States Conference of Mayors. Among the more important of these cities are Philadelphia, Gary, Ind., Louisville, New York and Boston.

CIRCULAR LETTER NO. 8.

CITY OF BOSTON,

MAYOR'S OFFICE, June 16, 1936.

To All Heads of Departments.

Federal Project No. 1, W. P. A., also known as the Writers Project, consists of a survey of historical records in order that they may be properly segregated and preserved. To this end officials in charge of the project and members of their staff desire to have access to all historical records subsequent to the year 1900.

Heads of departments are hereby authorized to place such records at the disposal of the workers on this project with the proviso that they be not removed from department offices and with the further proviso that if, for any reason a head of a department feels that examination of the records ought not to be permitted, he is to take the matter up with the Mayor and representatives of the project.

Yours truly,

FREDERICK W. MANSFIELD, Mayor.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 8, 1936.

Regular meeting of the City Council in Council Chamber, City Hall, at 2 p. m., President FITZGERALD in the chair. Absent, Coun. Agnew, Kilroy, Norton and Wilson.

ACCEPTANCE OF BRUNSWICK AND FOWLE STREETS.

The following was received:

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Board of Street Commissioners relative to your orders of May 11, 1936, concerning the acceptance and laying out as public highways of the following streets:

1. That section of Brunswick street in Ward 14 from number 198 to Columbia road.
2. Fowle street in Ward 19.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Street Laying-Out Department,
June 3, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Your Honor,—Inclosed please find City Council orders requesting the acceptance and laying out of Brunswick street, Ward 14, and Fowle street, Ward 19, together with request for consideration and report.

At the present time the W. P. A. program has been suspended owing to the failure of the Federal authorities to approve any projects for the construction of new streets. If and when the W. P. A. officials authorize the continuation of new street construction, the Board of Street Commissioners will be glad to give consideration to Brunswick and Fowle streets.

In the meantime there are no city funds available for these projects.

Respectfully yours,
OWEN A. GALLAGHER, Chairman.
Placed on file.

W. P. A. BAND CONCERTS, FRANKLIN PARK.

The following was received:

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the chairman of the Park Department relative to your order of May 18, 1936, concerning the advisability of making arrangements for W. P. A. band concerts at Franklin Park at least three afternoons a week during the summer months.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Park Department, May 27, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have your memorandum of May 25, with inclosure, order from the City Council that the Park Commission consider the advisability of making arrangements for W. P. A. band concerts at Franklin Park at least three afternoons a week during the summer months.

The department will be pleased to try and make such arrangements. Partial plans for summer band concerts have already been made and we will endeavor to have additional concerts allocated to us.

Very respectfully yours,
WILLIAM P. LONG, Chairman.
Placed on file.

LIFE GUARDS, CASTLE ISLAND BEACH.

The following was received:

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the chairman of the Park Department relative to your order of May 18, 1936, concerning the making of arrangements for additional life guards to cover Castle Island Beach, Ward 6.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Park Department, May 27, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have your memorandum of May 25, with inclosure, order from the City Council that the Park Department make arrangements for additional lifeguards to cover Castle Island Beach.

Please be assured the department is doing everything possible to obtain the proper number of lifeguards, and a project has been forwarded to the Federal Government to increase the number over last year.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

VETO OF GRANOLITHIC SIDEWALK ORDERS.

The following were received:

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.

Gentlemen,—I return herewith disapproved and without my signature an order adopted by your Honorable Body on June 1, 1936, for the making of an artificial stone sidewalk with granite edgestones on both sides of the entire length of Bogandale road, Ward 20.

I am informed by the Commissioner of Public Works that there are no funds available at the present time for this construction. Under the circumstances I am constrained to veto the order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.

Gentlemen,—I return herewith disapproved and without my signature an order adopted by your Honorable Body on June 1, 1936, for the making of a granolithic sidewalk with granite edgestones on both sides of Assabet street in Ward 16.

I am informed by the Commissioner of Public Works that there are no funds available at the present time for this construction. Under the circumstances I am constrained to veto the order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.

Gentlemen,—I return herewith disapproved and without my signature an order adopted by your Honorable Body on May 18, 1936, for the making of a sidewalk with granite edgestones on K street, between Broadway and Third street, in Ward 6.

I am informed by the Commissioner of Public Works that there are no funds available at the present time for this construction. Under the circumstances I am constrained to veto the order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.
Severally placed on file.

LOAN AGAINST TAX TITLES.

The following was received:

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.

Gentlemen,—From present indications the city will hold at the beginning of next month unencumbered tax titles of approximately \$4,000,000. I propose that under the provisions of chapter 281 of the Acts of 1936 that the city shall borrow from the Commonwealth against these tax titles for the purpose of liquidating a temporary loan issued in 1935 in the amount of \$4,000,000 which becomes due and payable on July 10. I submit herewith an order covering this proposal and respectfully recommend its adoption by your Honorable Body.

Tax titles represent delinquent taxes. Taxes of this character when paid are used to meet current financial requirements of the city. The payment of temporary loans as they become due and payable is a current financial requirement. In recommending, therefore, that tax titles in the possession of the city be used to liquidate a temporary loan I am recommending the same procedure as would be followed if the delinquent taxes represented by such tax titles had actually been collected by the city.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That under the provisions of section 1, chapter 281, of the Acts of 1936, amending section 2 of chapter 49 of the Acts of 1933, the City Treasurer be authorized to

secure the approval of the Emergency Finance Board to the issuance of notes of the city in the amount of \$4,000,000, said notes to be sold at their face value to the Commonwealth and the proceeds to be used to pay revenue loans of 1935.

Referred to the Committee on Finance.

INVOICES FOR DELIVERY OF COAL AND OIL.

The following was received:

City of Boston,
Office of the Mayor, June 3, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the City Auditor relative to your order of May 11, 1936, concerning invoices for delivery of coal and oil to welfare recipients during the past winter.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Auditing Department, June 1, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—At your request I have considered the following order adopted by the City Council at the meeting of May 11, 1936:

"Ordered, That the City Auditor be respectfully requested, through his Honor the Mayor, to advise the City Council whether all invoices for delivery of coal and oil to welfare recipients during the past winter season have been accompanied by certificates as to quality, and whether such invoices have therefore been paid only when deliveries have been made in accordance with contract specifications."

Invoices covering deliveries of coal and oil to welfare recipients when forwarded by the Welfare Department to this office for examination and audit prior to payment are accompanied by weigher's certificates, indicating that the quantities involved are correct. No certificates as to quality are submitted to this office.

The Welfare Department has an annual contract with a reputable laboratory which provides for spot tests of the quality of coal and oil. The Welfare Department relies upon the reports submitted as a result of these tests, and under the general practice of the city any adjustments in the way of premiums or penalties are made when the last invoice submitted by the various vendors is ready for payment. In short, the responsibility for checking the quality of coal and oil is considered to be that of the Welfare Department.

Respectfully,
CHARLES J. FOX, City Auditor.

Placed on file.

CONTRACTS WITH BABCOCK COAL COMPANY.

The following was received:

City of Boston,
Office of the Mayor, June 4, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Corporation Counsel relative to your order of April 27, 1936, concerning your request to cancel existing contracts between the Babcock Coal Company and the City of Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Law Department, June 3, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—I have received a memorandum from your office dated April 30, 1936, with which was submitted the following order of the City Council:

"Ordered, That his Honor the Mayor be requested to comply with City Council order of December 16, 1935, and cancel any existing contracts between the Babcock Coal Company and the City of Boston."

The contract between the City of Boston and the Babcock Coal Company, providing for delivery of coal to welfare recipients, contemplated deliveries upon request of the Welfare Department up to and including April 30, 1936. It is my understanding that no deliveries have been received from the Babcock Coal Company since that time. No payments have been made by the city to the Babcock Coal Company since that date and none will be made until we are able to satisfy ourselves as to whether or not the Babcock Coal Company has properly performed its contract.

Very truly yours,
HENRY E. FOLEY, Corporation Counsel.
Placed on file.

PAVING OF RILL STREET AND JOHNSTON ROAD.

The following was received:

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.
Gentlemen,—I transmit herewith two letters from the Commissioner of Public Works relative to your orders of May 18, 1936, concerning,

1. Paving of Rill street, Dorchester, with smooth paving.
2. Resurfacing of Johnston road, Ward 14, with smooth paving.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department, June 1, 1936.
Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.
Dear Sir,—I beg leave to acknowledge receipt of your note of May 25 with attached City Council order dated May 18, 1936, and reading as follows:

"Ordered, That his Honor the Mayor request the Public Works Commissioner to pave with smooth pavement Rill street, Dorchester," and to state that Rill street, from Hancock street to southwest of Ware street, has a length of 570 feet, roadway width 23 to 26 feet and sidewalks on either side. The existing pavement is gravel, which was covered with an asphalt blanket coat in 1921. One half of the street has granite edgestones and about three fourths of the sidewalk is artificial stone with loam spaces on one side. To place a smooth pavement on a concrete base and the necessary regulating will cost \$5,800. At the present time there is no money available for this work, as at date the Reconstruction of Streets loan has not been authorized.

Respectfully yours,
C. J. CARVEN,
Commissioner of Public Works.

City of Boston,
Public Works Department, June 1, 1936.
Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.
Dear Sir,—I beg leave to acknowledge receipt of your note of May 25 with attached City Council order dated May 18, 1936, and reading as follows:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface with smooth paving Johnston road, Ward 14," and to state that Johnston road, from Blue Hill avenue to Harvard street, has a length of 808 feet, roadway width of 34 feet and sidewalks on either side of 8 feet in width. The existing pavement is asphalt macadam with granite edgestones; four and one half foot artificial stone sidewalks with loam spaces, all laid in 1912. To construct a smooth pavement on a concrete base with necessary regulating will cost \$10,200. At the present time there is no money available for this work, as at date the Reconstruction of Street loan has not been authorized.

Respectfully yours,
C. J. CARVEN,
Commissioner of Public Works.

ACCEPTANCE OF TAYLOR TERRACE AND STARR LANE.

The following was received:

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.
Gentlemen,—I transmit herewith a letter from the Board of Street Commissioners relative to your orders of May 4, 1936, concerning:

1. Acceptance and laying out as a public highway, Taylor Terrace, in Ward 15.
2. Acceptance and laying out as a public highway, Starr Lane, in Ward 19.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Street Laying-Out Department,
June 3, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.
Your Honor,—Inclosed please find City Council orders requesting the acceptance and laying out of Taylor terrace, Ward 15, and Starr lane, Ward 19, together with request for consideration and report.

At the present time the W. P. A. program has been suspended owing to the failure of the Federal authorities to approve any projects for the construction of new streets. If and when the W. P. A. officials authorize the con-

tinuance of new street construction, the Board of Street Commissioners will be glad to give consideration to Taylor terrace and Starr lane.

In the meantime there are no city funds available for these projects.

Respectfully yours,
OWEN A. GALLAGHER, Chairman.

OVERHEAD PASS, WARD 14.

The following was received:

To the City Council.
Gentlemen,—I transmit herewith a letter from the Board of Street Commissioners relative to your order of March 30, 1936, concerning the advisability of the erection of an overhead pass leading from Blue Hill avenue, facing Hosmer street and extending up to Duke street, in Ward 14.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Street Laying-Out Department,
June 3, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.
Your Honor,—Inclosed please find City Council order relative to the erection of an overhead pass leading from Blue Hill avenue, facing Hosmer street and extending up to Duke street, together with your request for consideration and report thereon.

This would be a rather expensive project which would have to be undertaken on city funds. At the present time there are no funds available for such a project, therefore favorable consideration cannot be given by the Board of Street Commissioners.

Very truly yours,
OWEN A. GALLAGHER, Chairman.

ACCEPTANCE OF CRESCENT STREET.

The following was received:

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.
Gentlemen,—I transmit herewith a letter from the Board of Street Commissioners relative to your order of May 18, 1936, concerning the acceptance and laying out as a public highway of Crescent street, Charlestown.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Street Laying-Out Department,
June 3, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.
Your Honor,—Inclosed please find City Council order requesting the acceptance and laying out of Crescent street, Charlestown, as a public way, together with request for consideration and report.

At the present time the W. P. A. program has been suspended owing to the failure of the Federal authorities to approve any projects for the construction of new streets. If and when the W. P. A. officials authorize the continuation of new street construction, the Board of Street Commissioners will be glad to give consideration to Crescent street.

REPORT OF COMMITTEE ON CLAIMS.

Coun. SELVITELLA, for the Committee on Claims, submitted the following:

Report on petition (referred May 18) of Eugene O'Keefe to be reimbursed for amount of judgment issued against him on account of his acts as operator of motor truck belonging to Paving Division, Public Works Department, recommending the passage of accompanying order, viz.:

Ordered, That the sum of fifteen hundred dollars be allowed and paid to Eugene O'Keefe in reimbursement for amount of judgment issued against him on account of his acts as operator of a motor truck belonging to the Paving Division, Public Works Department, said sum to be charged to the Reserve Fund.

Report accepted; said order passed.

PRECAUTIONS AGAINST INJURY ON FEDERAL WORK.

Coun. McGRATH submitted, for purposes of the record, the following letter received by him from Congressman John W. McCormack:

Congress of the United States,

House of Representatives,

Washington, D. C.,

May 23, 1936.

John J. McGrath, City Councillor, City Hall, Boston, Mass.

Dear John,—I am in receipt of a letter from Admiral Peoples of the Procurement Division of the Treasury Department in relation to the supervision of Federal Construction Work, which you wrote me about some

time ago. In his letter, Admiral Peoples states: "As a result of a comprehensive study with regard to this matter, this division is incorporating the following quoted paragraph in all future specifications for work under control of this office:

"The Contractor shall take all precautions necessary for the protection against injury of all persons engaged at the site in the performance of the contract. He shall comply with all applicable provisions of the Manual of Accident Prevention in Construction, dated 1930, of the Associated General Contractors of America."

I have sent the original of this letter to Jim Moriarty. This appears to represent a very splendid victory.

With best wishes, I am,

Sincerely yours,

JOHN W. MCCORMACK.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

Coun. GALLAGHER called up, under unfinished business, No. 1 on the calendar, viz.: 1. Action on appointment submitted by the Mayor June 1, 1936, of Martha E. Mathiasen, to be Weigher of Coal.

The question came on confirmation of the appointment. Committee, Coun. Finley and Selvitella. Whole number of ballots 13; yes 12, no 1, and the appointment was confirmed.

Coun. SELVITELLA called up, under unfinished business, under No. 2 on the calendar, the names of Paul J. Cavicchi and Americo A. DeSimone, appointments submitted by the Mayor May 25, 1936, of constables authorized to serve civil process upon filing bonds.

The question came on confirmation. Committee, Coun. Selvitella and Finley. Whole number of ballots 14; yes 12, no 2, and the appointments were confirmed.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families for the month of June, 1936. Report accepted; order passed.

COMMITTEE ON JITNEY LICENSES.

Coun. MURRAY, for the Committee on Jitney Licenses, submitted the following: Report on petition (referred May 11) of Boston Elevated Railway Company to operate motor vehicles between City square and Chelsea line on Chelsea Bridge, recommending that leave be granted.

Coun. McGRATH—Mr. President, I would like to know what Councilor Mellen has to say about this?

Coun. MELLEN—I know nothing about it. I would like to hear what the story on it is.

Coun. PETER A. MURRAY—The license had been granted some time ago, and now the Elevated has taken over the Eastern Massachusetts and would like a renewal of the license.

Coun. MELLEN—Is it a routine thing?

Coun. PETER A. MURRAY—Yes.

The report was accepted and leave granted on usual conditions.

THE NEXT MEETING.

On motion of Coun. ROBERTS it was voted that when the Council adjourns it be to meet on Monday, June 29, 1936, at 2 p. m.

Adjourned at 2.25 p. m., on motion of Coun. ROSENBERG, to meet on Monday, June 29, 1936, at 2 p. m.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

PROCEEDINGS OF CITY COUNCIL.

SPECIAL MEETING.

Monday, June 15, 1936.

Special meeting of City Council in the Council Chamber, City Hall, at 2 p. m., President FITZGERALD in the chair. Absent, Coun. Agnew, Brackman, Gleason, McGrath, Mellen, Norton, Roberts, Shattuck, Wilson.

The meeting was held pursuant to the following call:

City of Boston,

Office of the Mayor, June 11, 1936.

To the Members of the City Council.

Gentlemen,—You are hereby requested to assemble in the City Council Chamber, City Hall, on Monday, June 15, 1936, at two o'clock p. m., to take action on the proposed loan order of \$4,000,000 against tax titles held by the city, and on such other financial orders as may be submitted by me for your consideration.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.

Placed on file.

SOUTH BAY FLATS, ETC.

The following was received:

City of Boston,

Office of the Mayor, June 15, 1936.

To the Honorable the City Council.

Gentlemen,—I submit for your consideration a letter addressed to me by the Corporation Counsel, under date of June 15, 1936, relating to possible ownership by the city of property which once constituted flats and which now constitutes partly flats and partly filled land situate in that part of Boston known as South Bay. I am also submitting a form of order referred to in said letter.

In view of the matters stated in said letter and of the obvious importance, in the interests of the city, of making the investigation therein referred to, I strongly recommend the passage of the order herewith submitted.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.

City of Boston,

Law Department, June 15, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—The ownership of that property which once constituted flats and which now constitutes partly flats and partly filled land situate in that part of Boston known as South Bay has long been a matter of inquiry and consideration. All of this land was within the territorial limits of the early towns of Boston, Roxbury and Dorchester, and is now within the territorial limits of the City of Boston. A large portion of the original flats have already been filled by persons and corporations other than the City of Boston and some of the original upland which surrounded the South Bay has been removed and used for filling in the old South Cove and other places.

Prior to the Colonial Ordinance of 1647 all land between high and low water marks belong to the Crown. The said ordinance of 1647 transferred to the owners of the upland all land between high and low water marks to a distance of not more than 100 rods.

There is reason to believe that a large portion of the land constituting these original flats always remained the property of the several towns during their separate corporate existence and became the property of the City of Boston as successor of the said towns. If title to this land or any part thereof is in the city, it will be necessary for the city to assert its ownership in the near future so that the city may not lose its rights through adverse possession. As the city may have title to a very substantial portion of said land, it is, in my opinion, most essential in the interests of the city to proceed promptly with a determination of the matter. Accurate information as to the ownership of said flats can be obtained only by making engineering surveys and by a thorough search and examination of all early records, plans, surveys and engineering reports relating to the boundaries between said towns of Boston, Roxbury and Dorchester and to the various allotments and conveyances of the upland and flats surrounding the South Bay.

It seems, therefore, imperative to obtain expert assistance, plans, surveys and engineering records to accomplish the very important result of ascertaining the true ownership to said land and I am inclosing an order for an appropriation from Reserve Fund to meet the necessary expenses of making this determina-

tion which, if it meets with your Honor's approval, should be introduced in the City Council.

Very truly yours,

HENRY E. FOLEY,
Corporation Counsel.

Whereas, The City of Boston may have title to certain land originally constituting flats and situate in that part of Boston called the South Bay; and

Whereas, It is necessary to determine whether the city has such title and, if it has, promptly to preserve the same by appropriate legislation; now, therefore it is hereby ordered, that the sum of ten thousand dollars be, and it hereby is, appropriated, to be expended by the Corporation Counsel, for such expert assistance and for the acquisition and making of such maps, plans, surveys and engineering data as he may deem necessary for the purpose of determining and enforcing the rights, if any, of the city in and to the lands and flats abutting on or included in the South Bay, the sum so appropriated to be charged to the Reserve Fund.

Referred to Executive Committee.

TRANSFER TO H. RELIEF PROJECTS.

The following was received:

City of Boston,

Office of the Mayor, June 15, 1936.
To the City Council.

Gentlemen,—I am in receipt of the inclosed communication from the Acting Commissioner of Public Works requesting a transfer of \$25,000 from the Reserve Fund to the H. Relief Projects, item in the Paving Service budget for the current year.

This sum is to be used to carry on the construction work now being done on about fifty streets under W. P. A. projects, and on which work 1,800 men are employed. I therefore submit herewith an order providing for the transfer of the above mentioned sum from the Reserve Fund and respectfully recommend adoption by your Honorable Body.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.

City of Boston,

Public Works Department, June 11, 1936.
To His Honor the Mayor.

The money which was allocated to the Highway Division of the Public Works Department under Item H on Emergency Relief Projects is exhausted.

In order to carry on the projects which have been started the sum of \$25,000 is necessary. I respectfully recommend that this sum be transferred from the Reserve Fund.

At the present time in the Paving Service we have about fifty (50) streets under construction, on which 1,800 men are employed, and this money which is now being requested is absolutely necessary to carry on the work.

Respectfully yours,

JOSHUA ATWOOD,

Acting Commissioner of Public Works.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$25,000, to the appropriation for Public Works Department, Paving Service, H. Relief Projects, \$25,000.

Referred to Executive Committee.

LOAN FOR POLICE RADIO SYSTEM.

The following was received:

City of Boston,

Office of the Mayor, June 15, 1936.
To the Honorable the City Council.

Gentlemen,—On February 28, 1934, your Honorable Body gave its second and final reading and passage to a loan order, under the provisions of chapter 366 of the Acts of 1933, in the sum of \$350,000, for a police communications system, and on May 7, 1934, your Honorable Body authorized me to enter into a grant agreement with the United States of America for a grant to the city to aid in financing said project.

On September 9, 1935, your Honorable Body passed an order rescinding a loan order, in the sum of \$75,000, given its second and final reading and passage on March 14, 1933, for a police radio system.

I am transmitting to your Honorable Body a copy of a letter from the Police Commissioner to me dated June 3, 1936, in which he requests the appropriation of an additional sum of \$85,000 in order "to complete the work already begun and now nearing completion" and in which he requests that an application be made to the Federal Government for an ad-

ditional Federal grant to complete said project. The commissioner also states that the original estimates upon which former Commissioner Hultman based his request for the appropriation of \$350,000 were insufficient, and that for the estimated cost of \$435,000 the city will have a complete two-way radio system for seventy-seven cars instead of a one-way system for seventy-two cars and a two-way service in five cars, the proper estimated cost of which originally should have been \$485,000.

I submit to your Honorable Body a form of loan order for said additional sum of \$85,000 for your consideration and action.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Police Department,
Office of the Commissioner,
June 3, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.
Public Works Project No. 8200, Boston Police Communication System.

Dear Mayor Mansfield,—In 1934 Eugene C. Hultman, Police Commissioner, undertook the initial steps of providing a modern police communication system for the City of Boston and suggested an appropriation of \$350,000, then estimated to be sufficient by Commissioner Hultman, the sum being based on a previous survey made by the Massachusetts Institute of Technology. The system then to be provided included, in addition to extensive changes in the wired communication system, the installation of a new radio system which was to be essentially a complete one-way system plus two-way radio equipment for five police cars to operate in Division 9. This radio installation was conceived as the first step toward a complete two-way radio system, incorporating in this first step just enough car response equipment (two-way feature) to test its practicability and police value; this to be followed by a city-wide extension of the two-way feature when successfully demonstrated.

At the time Commissioner Hultman suggested this appropriation of \$350,000 (separate from the \$75,000 which had been previously appropriated but was later rescinded) he had already executed a contract with the General Electric Company for the installation of a broadcasting station at Police Headquarters, one-way radio receiving equipment for seventy-two cars and, for the car response (two-way feature), a receiving station at Division 9 and two-way radio equipment in five cars only, at a price of \$89,800. This provided the equipment for the first step referred to above. The same contract contained an option for the purchase of additional equipment to provide city-wide two-way radio service (i. e., the additional station house receivers and the car response equipment for the seventy-two additional cars) at an additional price of approximately \$63,700. Other necessary charges in connection with this extension would have increased the total additional funds required to approximately \$75,000. It is therefore clear that when the appropriation of \$350,000 was suggested for the first step it was expected that the cost of the system when completed would be approximately \$425,000.

This \$350,000 was thereafter appropriated in connection with a Public Works Administration grant of \$88,500. After the project was approved by the P. W. A., Commissioner Hultman signed a new contract with the General Electric Company without change of price, incorporating certain general clauses required by P. W. A. At the same time the new contract required the complete installation by February 23, 1935, with a subsequent test period requiring final completion of a tested system by May 24, 1935.

It now appears that the original estimates upon which Commissioner Hultman based his request for the first appropriation were insufficient and that this first step could not be completed within that appropriation nor could the final complete system have been provided—under the proposals then effective—within the estimated sum of \$425,000.

In the meantime, however, two breaches of contract had been made by the General Electric Company: One, in not completing the installation by February 23, 1935, and the other, in not complying strictly with the wave band specifications. On January 16, 1935, prior to my taking office, the engineers notified my immediate predecessor, Commissioner Leonard, that these breaches were impending.

For a period of some nine months, commencing with my appointment, negotiations of an exceedingly technical and delicate nature were carried on relative to these breaches of contract, the waiver of them, and the modification of the contract. As a result of these long negotiations a modification of the contract was secured in consideration of the waiver of these breaches. This modifica-

tion, approved by yourself and P. W. A., provides a suitable guarantee for a period of five years by the General Electric Company in case of interference with the Boston Police radio by outside broadcasting stations (thus covering the wave-band breach), and, in addition, the installation of all the additional radio equipment necessary for city-wide two-way radio communication i. e., the equipment for a sufficient number of the remaining station houses to provide satisfactory pick-up from all points in the city and equipping the extra seventy-two cars; originally estimated to cost \$63,700, plus certain other parts, raising this to about \$66,000). To effect this modification it was necessary to exclude from the contract and to pay separately for certain spare parts and service equipment, which are estimated to cost approximately \$12,000.

The effect of this modification is to save the city some \$54,000 net at a sacrifice of some additional spare parts and service equipment not immediately required.

By virtue of this negotiation it has been made possible to provide the complete city-wide two-way radio system, together with the modernization of the wired communication system for \$435,000, or substantially the amount originally estimated for the complete system, whereas, without this modification, the total cost would have been in excess of \$485,000. However, it is necessary to complete the entire system (i. e., the second step as well as the first) at this time, and to provide the additional funds required for that purpose. It should be noted that the two-way equipment on the five cars has been in operation for some ten months, and has demonstrated the police value of this feature.

I am attaching hereto an estimate (Table 1) prepared by Jackson & Moreland, the engineers employed by Commissioner Hultman, who are in charge of this work. This estimate with its notes is self-explanatory and covers the total requirements of the project except for certain items (shown on Table 2 and totaling \$8,104.72) which have been paid out of Police Department operating budgets of 1934 and 1935 and which, therefore, need not be considered in the additional appropriation required.

It should be noted that the engineers' estimate does not allow credit for certain savings to the city, outside this appropriation, which should be considered as reducing the city's net cost for the project. These savings include \$8,500 for the salaries of civil service personnel, permanently employed by the Police Department, to be paid under this project, which would otherwise have been charged to the Police Department's operating budget. Similarly, against the engineers' estimated cost of \$11,000 for interest during construction, there would be considered the fact that the Police Department has had the use of a one-way radio system since July, 1934, and two-way for one division since June, 1935, without as yet any payment to the General Electric Company. Interest on this equipment in actual service would ordinarily be attributable to operation and would be paid by the city independently of the project appropriation, and would amount to at least

\$6,000. In addition, there will be a direct payment to the city, as a result of this project but not credited to this particular appropriation, for the salvage value of old cable to be removed, amounting to another \$6,000.

Allowing for these three savings (totaling \$20,500) outside this appropriation, the net cost to the city for this complete communication system will be approximately \$415,000, excluding items above mentioned which have already been paid out of the Police Department's ordinary budgets for 1934 and 1935.

It is understood that under the provisions of the grant agreement it is necessary that adequate funds for the completion of the entire project covered by the agreement shall be available before any payment under the \$88,500 grant is made.

It will, therefore, be necessary to provide approximately \$85,000 to complete the work already undertaken and now nearing completion.

I understand that this Public Works project (Docket No. 8200, Police Communication System) is not closed to a supplementary grant. It may, therefore, be possible to secure an additional Federal grant in connection with the additional appropriation. I believe that recent Federal grants on some projects have been at the rate of approximately fifty per cent.

It should be noted that any application for supplementary Federal grant in connection with the additional appropriation should provide for reincluding within the scope of the project the spare apparatus spare parts and service equipment which were originally included in the project, but were excluded under Item 3 of the "Application to Amend application for Grant," dated January 27, 1936. This equipment was excluded at that time in order that the scope of the project might correspond in that respect with the amended contract with the General Electric Company, but this equipment is required for the satisfactory completion of the project and should, therefore be reincluded at the time when application is made for supplementary grant. The cost of this equipment, approximately \$12,000, is included in Table 1.

Similarly, the item for installation charges for telephone and electric service equipment (\$5,000) should be reincluded within the scope of the project, in order that it may be covered in the same appropriation. This item is not eligible for Federal grant, and for that reason was previously excluded from the scope of the project. The Public Works Administration now regards such expenditures as properly within the scope of the project even though not eligible for grant.

I should be glad to supplement this letter by verbal discussion and can readily arrange for the presence of the engineers at such a discussion, should you consider this desirable. I should also be glad to assist in the preparation of an application for a supplementary Federal grant if you consider this procedure advisable.

Very truly yours,
E. M. MCSWENEY,
Police Commissioner.

ICE FOR DRINKING FOUNTAINS.

The following was received:

City of Boston,
Office of the Mayor, June 15, 1936.
To the City Council.

Gentlemen,—I am in receipt of a request from the Acting Commissioner of Public Works that an appropriation be made available for the purchase of ice for the public drinking fountains. In accordance with this request, I submit the attached order providing for the furnishing of the required amount from the Reserve Fund and respectfully recommend approval of this order by your Honorable Body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department, June 13, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I respectfully recommend that an appropriation of \$5,000 be made from the Reserve Fund to cover the cost of furnishing ice for drinking fountains during the coming summer season.

Respectfully yours,
JOSHUA ATWOOD,
Acting Commissioner of Public Works.

Ordered, That the Commissioner of Public Works be authorized to expend a sum not exceeding \$5,000 for the purpose of furnish-

ing ice for the public drinking fountains during the summer season, said sum to be charged to the Reserve Fund.

Referred to Executive Committee.

ORDER RECALLED FROM FINANCE COMMITTEE.

Coun. DOWD—Mr. President, I now move that the order for a \$4,000,000 tax title loan before the Finance Committee be recalled and referred to the Executive Committee.

The rule was suspended and the Council voted to recall the order from the Committee on Finance and refer it to the Executive Committee.

RECESS.

On motion of Coun. GALLAGHER the Council voted at 2.28 p. m. to take a recess subject to the call of the Chair, and the City Messenger was directed to notify City Auditor Fox to attend the executive meeting. The members reassembled in the Council Chamber and were called to order by President FITZGERALD at 2.44 p. m.

POLICE MOTOR BUSINESS IN JERSEY CITY.

The motor police of Jersey City, N. J., are concentrated in the Traffic Bureau and the Motor Patrol Bureau. The rolling equipment consists of thirty-three motorcycles, thirty-five automobiles, three emergency trucks, seven patrol wagons, an armored payroll car, two wreckers, and a touring car for distinguished visitors.

The Traffic Bureau has charge of the motorcycles, all Harley-Davidsons of 1928-33, which are attached to the eight precincts. Eighteen of these are on duty sixteen hours per day, 8 a. m. to midnight; two are on duty from midnight to 8 a. m. They patrol the heavy-duty highways and the Pulaski Skyway from the Holland vehicular tunnel under the North river.—*American City Magazine.*

FURNISHING AND INSTALLING FURNITURE AND EQUIPMENT IN THE SPECIAL CLASS CENTER SCHOOL IN THE JOHN MARSHALL DISTRICT, REGINA ROAD AND PARK STREET, DORCHESTER DISTRICT, FOR THE DEPARTMENT OF SCHOOL BUILDINGS, CITY OF BOSTON, MASSACHUSETTS. P. W. A. PROJECT, DOCKET NO. MASS. 1089.

NOTICE TO CONTRACTORS.

Sealed proposals for furnishing and installing the furniture and equipment for the Special Class Center School in the John Marshall District, Dorchester,

Furniture and Equipment,
Window shades,
Steel wardrobes,
Refrigerators,
Gas ranges,
Sheet metal Equipment,

will be received by the Superintendent of Construction at the office of the Department of School Buildings, 11 Beacon street, Boston, Mass., until 2 o'clock p. m., daylight saving time, of Wednesday, July 8, 1936, and at that place and time will be publicly opened and read. The proposal submitted to the Superintendent of Construction shall not be separated from the book of specifications. The additional copy of the proposal shall be removed from the book of specifications and after filling out shall be sealed in an envelope and delivered to the Auditor of the City of Boston at the City Hall, School street, Boston, Mass., before the time for the opening of the proposals.

A bidder may submit a proposal on one or more items.

The project is to be financed and constructed under the terms of the Emergency Relief Appropriation Act of 1935 and chapter 366 of the Acts of 1933 of the Commonwealth of Massachusetts as amended. The attention of bidders is directed to the construction regulations prescribed by the P. W. A. Attention is called to the fact that minimum wage rates are established for the project, and are set forth in the contract documents. The employment agency designated by the Government for this project is Edward L. Hanna, Manager, 100 Nashua street, Boston, Mass. All bids must be accompanied by a certified check on a bank located in the Federal Reserve District (5) payable to the City of Boston in the sum of five (5) per cent of the amount of the bid, except that a minimum amount of check shall be fifty (50) dollars. The certified check shall be attached to the proposal, sealed and delivered to the Superintendent of Construction. The right is reserved to reject any or all proposals and to waive informalities, or to accept any proposal deemed best for the City of Boston, subject to the approval of the State Director, P. W. A. The certified checks of the three lowest bidders will be retained until the contract has been signed by all interested parties. All other certified proposal checks will be returned not less than forty-eight hours after the date of the opening of the proposals.

A bond of an approved surety company will be given by the successful bidder in the full amount of the contract price, except that no bond will be required for contracts under \$1,000. All contracts are subject to the approval of the Mayor. No award can be made without the approval of the State Engineer, P. W. A.

A deposit of a certified check for \$50, made payable to the City of Boston, will be required for each set of plans and specifications, said sum to be refunded not later than seven days after the opening of bids. Mutilation or failure to return the plans or the specifications shall be deemed sufficient cause for the forfeiture of the said deposit.

Specifications and forms of proposals may be obtained at the office of the Superintendent of Construction, Department of School Buildings, 11 Beacon street, Boston, Mass.

RELIEF-ROLL EMPLOYEES FOR SNOW REMOVAL.

It was good news to cities throughout the country when the Federal Emergency Relief Administration notified State Emergency Relief Administrations that men on relief rolls might be used for snow-removal projects in all communities where there was need for such labor. This action gave work to thousands of men who were in urgent need of help, and at the same time it aided materially in keeping streets and sidewalks open for traffic in many communities where street cleaning departments were financially unable to cope with the storm.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR STORING, WASHING AND DEODORIZING GARBAGE TRUCKS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for storing, washing and deodorizing garbage trucks and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Storing, Washing and Deodorizing Garbage Trucks," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. on Friday, July 8, 1936, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

HOW BOSTON'S TAX RATE OF \$38 IS DIVIDED — BUT 40 PER CENT OF CITY'S TAX DOLLAR, OR \$14.41, AT DISPOSAL OF MAYOR FOR DEPARTMENTAL EXPENDITURES — FINANCIAL CHART PREPARED BY MUNICIPAL EXPERTS SHOWS DIFFICULTIES FACING MAYOR MANSFIELD IN EFFORTS TO GIVE ECONOMICAL ADMINISTRATION AND YET NOT IMPAIR SERVICES — DEPARTMENTS NOT UNDER HIS CONTROL WILL SPEND \$23.59 OUT OF EVERY \$38 OF THE 1936 TAX.

A chart prepared by the city's financial experts to explain how Boston's tax rate of \$38 is divided reveals that only \$14.41, or 40 per cent, is under the control of the Mayor, while the balance of \$23.59 is beyond his control.

These facts challenge attention by the public as the annual burden imposed by the tax levy is studied. They emphasize the contention that, though strict economies may be practised among the departments over which the Mayor has complete supervision, there are such municipal considerations as the courts, the construction of school buildings, school department maintenance, school and county debt, municipal debt, police, Finance Commission, the Licensing Board, the Boston Elevated assessment, the Metropolitan District assessments, the State Tax and the Pension Accumulation Fund where control is variously divided.

The largest segment in the chart is that for school maintenance which requires \$8.78 from the total levy. While the Mayor has veto power over school budgets, a vote of four of the five members of the School Committee can override the veto, which frequently has been done. Thus the School Committee is a power unto itself and increasing expenditures have been a source of worry year after year.

Municipal debt, which requires \$5.23 of this year's tax rate, is also a burden, but one common to all municipalities, like the expenditures for public welfare and relief, which this year accounts for \$3.01 in the tax rate of Boston. This latter demand is almost equal to that of the Public Works Department, which is concerned with such vital services as the maintenance of bridges, the ferries, the lighting, the paving, snow removal and sanitary and sewer services.

Three Departments Under Governor's Sway.

There are three departments requiring \$2.92 of the tax rate whose heads are appointed by the Governor — Police, Finance Commission and the Licensing Board.

The Police Department, with its \$2.87 requirement, shows a big increase this year because of the fact that \$1,000,000 was borrowed last year to provide for salaries of the patrolmen. Also on the ascending scale is the requirement this year for the Park Department, largely because of the extensive W. P. A. program. Municipal indebtedness, however, shows a decrease from \$5.60 to \$5.23 in the tax rate, due to lower interest rates and debt reduction.

There is an increase from 81 cents to 88 cents in the Pension Fund requirement, due to actuarial computations, and an increase from 58 to 83 cents in the Boston Elevated assessment to provide for the annual deficit.

There are several striking observations in a detailed summary of the tax rate division. For instance, those who would save more money in the Fire and Police Departments should be interested to know that the entire cost of protection of persons and property, as included in the Police, Fire, Traffic, Building and Weights and Measures Departments, is only \$5.22 in the tax rate, or, roughly, 44 cents a month.

Moreover, public health, including the functions of the Health Department, with its nursing and inspection service, and the work of the Hospital Department is conserved for \$2.35 of the tax rate, or 20 cents a month.

Under public welfare and relief the city lists, not only the Public Welfare Department with its \$12,000,000 disbursement, per year, but the Institutions Department and the Soldiers' Relief, all such services requiring \$3.01.

Against such relatively high disbursements the Library Department is spending only 59 cents for a service which, since the beginning of the business depression, has largely expanded, and for public recreation there is an outlay of only 77 cents.

ADDITIONS TO CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon June 26 the Mayor approved the following request of William W. Drummey, Superintendent of Construction, Department of School Buildings:

BOSTON, June 18, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

Re: P. W. A. Project, Docket No. Mass. 1088R, Intermediate School, Dudley District.

DEAR SIR,—I respectfully ask the approval of your Honor to the issuance of an order of change, making an addition

in the sum of \$2,088 to the contract of the Thomas O'Connor & Co., Inc., for the erection and completion of the Dudley District School on Roxbury street, at Eliot square, Roxbury, Mass.

This amount is necessary in order to pay for installing cantilever beams and change floor construction, to extend dead load of gymnasium wall further in from the edge of a precipitous cliff. All in accordance with drawings prepared by J. R. Worcester & Co., engineers. This work has been approved by the State Director of the P. W. A. as a structural necessity.

The amount of work is 116 cubic yards of reinforced concrete at \$18 a yard, \$2,088.

As the cost of this work, \$2,088, submitted by the owner, is not acceptable to the contractor, the contractor is proceeding in accordance with Article 5, page 12, of the contract.

The cost of \$2,088 is approved by the State Director of the P. W. A. and entered in the Scheduled Costs with the understanding that a subsequent change order shall be issued indicating acceptance by the owner and contractor of a final cost for this work before final grant can be paid on this docket.

I trust that this will meet with your Honor's approval.

Very truly yours,

WM. W. DRUMMEY,
Superintendent of Construction.

POLICE MOTOR BUSINESS IN JERSEY CITY.

The motor police of Jersey City, N. J., are concentrated in the Traffic Bureau and the Motor Patrol Bureau. The rolling equipment consists of thirty-three motorcycles, thirty-five automobiles, three emergency trucks, seven patrol wagons, an armored payroll car, two wreckers, and a touring car for distinguished visitors.

The Traffic Bureau has charge of the motorcycles, all Harley-Davidsons of 1928-33, which are attached to the eight precincts. Eighteen of these are on duty sixteen hours per day, 8 a. m. to midnight; two are on duty from midnight to 8 a. m. They patrol the heavy-duty highways and the Pulaski Skyway from the Holland vehicular tunnel under the North river.—*American City Magazine*.

A NEW POSITIVE WATER-METER TESTER.

The large majority of waterworks, particularly the smaller ones, seldom have accurate or positive means of testing their meters. Often when a meter is repaired, the man making the repairs simply blows through the meter to see if it runs, when it is again put into service with the assumption that it is accurate. Sometimes meters are hooked up in series with a new meter and water is run through to see if the readings check. This is better than the lung-power method, but still is far from accurate or dependable, in that the test meter may be in error by 2 per cent or even more. Several states have regulations governing water utilities, both municipal and private, and require a positive method of testing water meters in every meter shop.—*American City Magazine*.

Upon June 30 the Mayor approved the following request of the Superintendent of Public Buildings:

BOSTON, June 29, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—In connection with the attached order for a change in the contract for repairs to Quincy Market with the Daniel Cunningham Construction Company, Incorporated, I respectfully submit the following information in order to clarify matters:

The appropriation by the city for this work and approved by P. W. A. is \$460,000. Definite and determinable work is covered in the contract documents and amounts to \$375,400.

In addition, a contingency amount of \$32,975 is set up in the cost schedules. Of this amount \$23,800 is definitely allocated in the specifications to construction changes known to be required but impossible to accurately determine until the tenants vacated the building.

To date the construction changes are well within the \$23,800 item and we do not anticipate at this time that the extras for such work will exceed the amount allocated.

Changes requested by the tenants are items over which we have no control and are not intended to be considered as part of the \$23,800 item. The amount of money available for such changes under the original appropriation is limited to \$9,175.

A summary sheet for all changes to date is also inclosed.

Respectfully yours,

ROSSELL G. HALL,
Superintendent of Public Buildings.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon June 24 permission was given by the Mayor to award contracts as requested in the following letters:

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

BOSTON, June 20, 1936.

Re: P. W. A. Project Docket No. Mass. 4217W.R. Robert Gould Shaw Addition,
Furniture and Equipment.

DEAR SIR,—The bids for furnishing and setting in place as directed the pupils' furniture in the Robert Gould Shaw Addition, submitted to me and opened on May 28, 1936, were as per the list attached to my letter of May 28, 1936. Subject to your Honor's approval, I have awarded a contract to McCarthy Brothers of 218 Dudley street, Roxbury, for Item VII-1, 280 sets of pupils' desks and chairs, in the sum of \$3,066. This award has the approval of the P. W. A. authorities. This selection was made in the proper manner as per the quoted paragraph from the P. W. A. letter of approval of June 16:

"In this case, you have conducted your examination of samples in the proper way, with all tags placed in opaque envelopes and having the engineer from this office present."

I trust that this award will meet with the approval of your Honor.

Respectfully yours,

WM. W. DRUMMEY,
Superintendent of Construction.

BOSTON, June 15, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

* Contract awarded.

Upon June 30 the Mayor approved the following request of the Superintendent of Supplies:

BOSTON, June 25, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of June 11, 1936, your Honor approved awards of contracts on proposals for furnishing equipment to the new Center Building Dining Hall, Boston City Hospital, bids on which were publicly opened and read at this office on March 27, 1936.

In the letter requesting permission to award, I stated that I was unable to recommend an award at that time upon Item 18, calling for 468 posture-type chairs, as I was awaiting recommendation from the Superintendent of the City Hospital as to which of the three different makes of chairs bid upon was best suited for his uses.

The Superintendent of the City Hospital has selected the Walkins posture-type chair, which was specified in the proposal, as being best suited for his purposes, and the best value, and I would therefore request that permission be granted me to award a contract for furnishing 468 No. 107 Walkins posture-type chairs to McCarthy Brothers, the only bidder on this make of chair, at a price of \$3.11 each.

The amount of the contract will be \$1,455.48.

Respectfully yours,

D. FRANK DOHERTY,
Superintendent of Supplies.

Upon June 30 the Mayor approved permission to award a contract to A. Steiert & Son for furnishing approximately six to ten tons broom wire for the Sanitary Division shops, Public Works Department, at \$198.20 a ton. The approximate amount of the contract was \$1,585.60.

To be delivered, as required, until December 31, 1936. Same as sample which may be seen at the Supply Department. Bids, opened June 24, were as follows:

Approximately 6 to 10 Tons Broom Wire, Per Ton.—A. Steiert & Son, \$198.20; P. J. Dinn & Co., \$240; minimum of six tons to be taken at one time; price holds for thirty days.

Total, Figured at Average of 8 Tons.—A. Steiert & Son, \$1,585.60; P. J. Dinn & Co., \$1,920.

Cash Discount, Ten Days.—A. Steiert & Son, one half of 1 per cent; P. J. Dinn & Co., one half of 1 per cent.

FELLOWSHIP STUDIES IN TRAFFIC CONTROL.

Fifteen graduate fellowships, each with a stipend of \$1,200-plus up to \$200 for travel and field investigation have been announced by the Bureau for Street Traffic Research of Harvard University. The regular annual tuition fee of \$400 will be deducted from the fellowships, which have been made available through a gift to the University by the Automobile Manufacturers' Association. The officers of instruction are Miller McClintock, Director of the Bureau, and Maxwell Halsey, Assistant Director. Each of two full courses in street and highway traffic control consists of three one-hour periods a week, and additional problems, assignments and field work.

MAYOR MANSFIELD SUBMITS COAL EVIDENCE TO DISTRICT ATTORNEY.

The following is a copy of a letter from the Mayor to the District Attorney:

BOSTON, June 25, 1936.

HON. WILLIAM J. FOLEY, *District Attorney*, Suffolk County Court House, Boston, Mass.

DEAR MR. FOLEY,—I am sending herewith additional testimony given before me by certain coal dealers who had complained that in a prior hearing held by the Boston Finance Commission they had not had a chance to present testimony or cross-examine witnesses.

Since the Finance Commission sent to you the testimony taken at its hearing, and their conclusions based thereon, I assume that you may wish to have the testimony presented before me by the coal dealers involved in the controversy.

Yours truly,

FREDERICK W. MANSFIELD, *Mayor*.

LAND-TAKING IN BRIGHTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Flagg street, Brighton district, as a highway, from Lake street to Willoughby street, with the name of Flagler street or some other distinctive name, bounded and described as follows:

A highway named Cenacle road is hereby laid out, from Lake street to Willoughby street, and ordered constructed, the cost thereof to be charged to Federal Funds.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northwesterly by Lake street, thirty-three and 17-100 feet; northeasterly by the northeasterly line of said Cenacle road as hereby laid out, one hundred sixty and 94-100 feet; again northwesterly by the northwesterly line of said Cenacle road as hereby laid out, two feet; again northeasterly by the northeasterly line of said Cenacle road as hereby laid out, one hundred one and 77-100 feet; southeasterly by Willoughby street, thirty-five feet; and southwesterly by the southwesterly line of said Cenacle road as hereby laid out, two hundred sixty-five and 80-100 feet.

Voted. That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Cenacle road (formerly Flagg street), Brighton district, as a highway, from Lake street to Willoughby street, under the order of the Board of June 29, 1936, and awards no damages therefor.

THE NOISE NUISANCE.

That city officials are serious about eliminating noise is noted from studies of new anti-noise ordinances enacted by a growing number of municipalities listed in the "United States Municipal News," bulletin of the American Municipal Association and the United States Conference of Mayors. Among the more important of these cities are Philadelphia, Gary, Ind., Louisville, New York and Boston.

POLICE DEPARTMENT ORDERS.

General Order No. 208.

On December 4, 1935, on Division 6, in an attempted robbery, a man was beaten over the head with a hatchet by an unknown assailant. The severe wounds suffered by the victim about the head and face later resulted in his death. The criminal made his get-away without leaving any tangible clues.

Sergt. Nicholas E. Kenney and Patrolmen William R. Sutliff and John J. Heffernan of Division 6 and Patrolman Edward F. Shea of the Special Service Squad (then of Division 6) were immediately dispatched to the scene. They worked ceaselessly on every possible angle of the case until the perpetrator of this brutal crime was taken into custody on the early morning of December 5, within six hours of the time it was reported.

The commissioner highly commends Sergeant Kenney and Patrolmen Sutliff, Heffernan and Shea for their ingenuity and intelligence, and for the efficient manner in which they applied their practical police experience to the solution of this atrocious murder. The efficient preparation and prosecution of this case, which was of the utmost public importance, resulted in a life sentence for the defendant in the Suffolk Superior Criminal Court.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. McSWEENEY,
Police Commissioner.

General Order No. 209.

Recently, on Divisions 6 and 11, there was a man at large who had been committing felonious assaults upon women of the Dorchester and South Boston districts in the night time. This pervert had, with extreme atrocity and cruelty committed criminal attacks on defenceless women, and during the period that he remained at large was a source of terror to the inhabitants of those sections of the city. The suddenness with which this fiend struck down his victims did not, however, prevent their getting a good description of him, which later proved very valuable for identification purposes.

Sergt. Mortimer T. O'Connor and Patrolmen John J. Murphy and Timothy J. Wallace of Division 6, acting on information obtained from the victims, after an exhaustive investigation and search, succeeded in apprehending a suspect who was later identified by the victims as the perpetrator of these heinous crimes, and who was found guilty and sentenced to a term of eighteen to twenty years in State Prison. These officers worked tirelessly and gave unstintingly of their own time in order to bring this case to a successful conclusion.

The commissioner is pleased to highly commend Sergeant O'Connor and Patrolmen Murphy and Wallace for the excellent service rendered by them in the solution of this very important police matter. This accomplishment has increased the confidence of the citizens of Boston in their Police Department and reflects great credit upon the officers hereby commended.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. McSWEENEY,
Police Commissioner.

General Order No. 210.

The Police Commissioner urges all members of the Force to use every possible effort to insure for the citizens of Boston a safe and sane celebration of the Fourth of July.

Prior to last year the people anticipated the annual Fourth of July celebration with very definite fear of the consequences from the careless use of fireworks which, in many cases, has previously resulted in the loss of lives and serious personal injuries. Furthermore, the horrifying and unnecessary noises created in the vicinity of hospitals and homes where the ill were confined had a most serious effect upon the health of the patients. To this end the department initiated and conducted an intensive safe and sane Fourth of July program which resulted in not a fatal or serious injury from the use of fireworks.

The department received hundreds of grateful letters, not only from hospital heads, superintendents of homes for convalescents, aged and infirm, but from individuals seriously ill in their own homes. This should, and undoubtedly will, be sufficient inspiration and incentive for all of us to do an even better job this year.

The department's Fourth of July Safety Program this year will include warning posters displayed in the vicinity of every public and private hospital, on every traffic box in the city, on street cars, and all over the city in prominent locations.

The splendid cooperation given by the Boston newspapers and radio stations last year will again be tremendously helpful in conducting a successful program for a safe and sane Fourth of July.

Particular attention shall be given to hospitals and other places where people are confined, and commanding officers shall see to it that all hospitals on their respective divisions are visited at least once every forty-five minutes to insure as far as possible freedom from disturbance.

Officers shall be instructed that it is a violation of the law to discharge or set off any kind of fireworks within three hundred yards of a hospital or building in which a patriotic concert, exhibition or exercise is in progress. The selling, keeping, exploding or discharging of any firecrackers exceeding two inches in length and three-eighths of an inch in diameter, is illegal. The use of revolvers, even to discharge blank cartridges, is a violation of law.

The law provides that fireworks may be set off on Independence Day between the hours of 6 a. m. and 7 p. m., and fireworks for display, only, may be set off from 7 p. m. to 10 p. m.

Attention should be given to the prevention of damage to property, such as old or unused buildings, fences, billboards, etc., which might be used to build bonfires in the public streets or vacant land adjacent to buildings.

The Police Department urges the public, especially parents, to cooperate in preventing the horrible accidents and mutilations which result from the careless use of fireworks by children.

It should be understood that the Police Department has no intention or desire to curtail the natural and lawful demonstration of patriotism on Independence Day. The efforts of the department should be to the end that all demonstrations are conducted in a safe and sane

manner with due regard for the peace, quietude and safety of the public.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. MCSWEENEY,
Police Commissioner.

LAND-TAKING IN ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Penryth street, Roxbury district, as a highway, from Columbus avenue to Centre street, bounded and described as follows:

A highway named Penryth street is hereby laid out, from Columbus avenue to Centre street, and ordered constructed, the cost thereof to be charged to Federal Funds.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Westerly by Columbus avenue, forty and 16-100 feet; northerly by the northerly line of said Penryth street as hereby laid out, two hundred forty-five and 22-100 feet; easterly by Centre street, forty and 40-100 feet; and southerly by the southerly line of said Penryth street as hereby laid out, two hundred thirty-six feet.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Penryth street, Roxbury district, as a highway, from Columbus avenue to Centre street, under the order of the Board of June 24, 1936, and awards no damages therefor.

MAYOR MAKES PLANS FOR NEW COURT HOUSE WORK.

The following are copies of an exchange of telegrams—Mayor to Congressman McCormack and Congressman McCormack to Mayor Mansfield, also one to President Roosevelt in interest of new Court House:

BOSTON, MASS., June 25, 1936.

HON. JOHN W. McCORMACK, *Member of Congress*, Washington, D. C.

Am assured that the new Court House can be completed before July first, nineteen hundred thirty-eight. Legislation has passed and commission has been appointed. Architect has already been chosen without competition. Working drawings can be completed within six weeks. Arrangements have not been made for city's share of cost, but can be very easily and before July fifteenth this year if necessary. Bill provides money to be raised by sale of bonds or by borrowing and the money can be raised within a month. Commission appointed consists of Joseph A. Rourke representing the Governor, Bentley W. Warren representing the Bar Association and J. Emmet Logue representing City of Boston.

FREDERICK W. MANSFIELD,
Mayor of Boston.

WASHINGTON, D. C., June 25, 1936.

HON. FREDERICK W. MANSFIELD, *Mayor*, City Hall, Boston.

Wire received with desired information. Fine. Suggest time is now ripe to wire President and Ickes, urging favorable consideration. Foundation, I believe, is now laid.

JOHN W. McCORMACK, M. C.

Copy of telegram sent by the Mayor to President Franklin D. Roosevelt and Harold L. Ickes, Public Works Administrator:

BOSTON, June 26, 1936.

HON. FRANKLIN D. ROOSEVELT, *President of the United States*, Washington, D. C.

Respectfully urge that Suffolk County Court House project for City of Boston be included among projects for allocation of funds under Deficiency Act, recently passed. Project can be finished before July first, nineteen thirty-eight, and all necessary information has been forwarded to Washington through Congressman John W. McCormack.

FREDERICK W. MANSFIELD,
Mayor of Boston.

Same to Harold L. Ickes, Public Works Administrator, Washington, D. C.

MAYOR ACTS ON BEANO GAME CHARGES.

The following is a copy of a letter from the Mayor to District Attorney Foley:

BOSTON, June 27, 1936.

HON. WILLIAM J. FOLEY, *District Attorney of Suffolk County*, Boston, Mass.

DEAR SIR,—In view of the statement appearing in the press recently, attributed to Councilor Norton, in which he charges irregularity in the conduct of Beano games, I respectfully request and urge you to summon Councilor Norton before you for the purpose of obtaining whatever evidence he may have of violation of the law by Beano promoters.

Yours truly,

FREDERICK W. MANSFIELD, *Mayor.*

On the report of the Superintendent, leaves of absence for study or for rest were granted as follows:

Rigelow District—Pauline R. Powers, master's assistant, from Sept. 1, 1936, to Aug. 31, 1937, for study.

Thomas A. Edison Intermediate District—Anna L. Cronin, assistant, intermediate, from Sept. 1, 1936, to Aug. 31, 1937, for rest.

REORGANIZATION OF SCHOOLS IN WEST END

On motion of the Superintendent, it was

ORDERED, That the William Blackstone Intermediate District is hereby established, to take effect Sept. 1, 1936, to take the place of the Washington Intermediate District.

On motion of the Superintendent, it was

ORDERED, That the Wells District shall include the following-named schools, to take effect Sept. 1, 1936:

Wells School, Elizabeth Peabody School, and Mayhew School.

On motion of the Superintendent, it was

ORDERED, That the boundary lines of school districts are hereby amended as follows:

Washington Intermediate District, for Boys and Girls. Strike out the heading and substitute in place thereof "William Blackstone Intermediate District, for Boys and Girls."

PAYMENT OF SALARY DUE AT DEATH

On motion of the Superintendent, it was

ORDERED, That the amount due Eleanor Bonnie, late assistant leader in the Department of Extended Use of the Public Schools, be paid to her daughter, Josephine B. Roche.

PAYMENT TO DR. WARREN S. SHIELDS

On motion of the Superintendent, it was

ORDERED, That Warren S. Shields, M. D., school physician, Department of School Hygiene, be allowed and paid, in addition to the regular salary of his rank, compensation at the rate of five dollars (\$5) per day for thirty-eight days, Mar. 5 to Apr. 24, 1936, for service rendered at the Health Department Laboratory in connection with the threatened outbreak of meningitis in the schools.

ATTENDANCE AT CONVENTION

On motion of the Superintendent, it was

ORDERED, That Edward J. Rowse, Commercial Coordinator, is hereby authorized, as representative of the Superintendent, to attend the conference of Superintendents of Schools to be held by the Works Progress Administration at Washington, D. C., June 8 and 9, 1936, at an expense to the city not to exceed seventy-five dollars (\$75).

ACCEPTANCE OF BEQUEST

On motion of the Superintendent, it was

ORDERED, That the bequest under the will of Francis A. Morse, late Master Emeritus, Robert Gould Shaw District, to the School Committee of the City of Boston for the benefit of pupils in the Robert Gould Shaw District, be and the same hereby is accepted under the terms and conditions set forth in said will, the bequest to be held as the Francis A. Morse School Fund.

NAMING OF NEW SCHOOL

The following was offered:

ORDERED, That the new intermediate school on Cummins Highway, Roslindale, is hereby named the John F. Cummins School, in memory of Reverend John F. Cummins, late Pastor of the Sacred Heart Church, Roslindale. Father Cummins was born in Charlestown, Sept. 17, 1852. He was ordained a priest at Troy, N. Y., Dec. 18, 1875, and was immediately assigned to St. Mary's Church, Cambridge. He was later transferred to SS. Peter and Paul's Church, South Boston; St. Mary's Church, Holliston; St. Thomas' Church, Jamaica Plain, and St. Peter's Church, Plymouth. He was appointed Pastor of St. John's Church, Hopkinton, and later was transferred to the pastorate of the Sacred Heart Church, Roslindale. During his forty-six years of service in the Sacred Heart Parish, Roslindale, he saw the section develop

into a thriving community and he was a great factor in this development. The fine church and school erected during his pastorate at the Sacred Heart Church bear testimony to his great vision and his skill as an administrator. Father Cummins served his country as chaplain in the Spanish-American War and was decorated by the Government for courage in volunteering to minister to the fever-stricken soldiers at Montauk Point. The new public school building which will bear his name will be an appropriate memorial to a priest and citizen who contributed materially to the welfare of the district, and through the district to the City of Boston.

Laid over.

ESTABLISHMENT OF SPECIAL CLASS

A communication was received from the Superintendent under date of June 1, 1936, reporting that subject to the approval of the School Committee, he has established an additional special class, making two in all, in the Julia Ward Howe District.

Approved.

APPROPRIATIONS—LAND AND BUILDINGS AND ALTERATIONS AND REPAIRS.

The following communication was received:

1. Administration Expenses:	
(a) Administration expenses from tax levy.....	\$165,994.99
(b) Administration expenses, unexpended balance for the fiscal year 1935.....	1,610.67
(c) Expenses due to change of location of Department of School Buildings (office and storeroom)	9,042.00
Total	\$176,647.66
2. Tools, materials and trucking in connection with the W.P.A. program	150,000.00
3. Alterations and changes in the Washington School to provide offices and storehouse accommodations for the Department of School Buildings	51,000.00
4. Alterations and repairs, in addition to the amounts hereinbefore specified:	
(a) From tax levy	\$672,177.11
(b) Unexpended balance for the fiscal year 1935.....	175.23
Total	672,352.34
Grand Total for Alteration and Repair of School Buildings, etc.....	\$1,050,000.00

The Board of Commissioners of School Buildings having considered the same in accordance with the provisions of Chapter 351 of the Acts of 1929 now make formal report thereon.

It is understood as in previous years that the detailed figures accompanying these orders do not constitute a part of the orders as passed except that we consider, as doubtless you intend, that the special items for alteration and changes in the Washington School Building to provide offices and storehouse accommodations for the Department of School Buildings, an item for which \$51,000 was appropriated and the item marked "Expense due to change of location of the Department of School Buildings" for which \$9,042 was appropriated must be allocated for these items as specified or be eliminated from appropriation orders. We will report on these particular items later in this report.

CITY OF BOSTON—DEPARTMENT OF SCHOOL BUILDINGS

May 25, 1936.

School Committee,
City of Boston,
15 Beacon Street,
Boston, Mass.

Gentlemen:

Under date of May 13, 1936, the School Committee forwarded to the Board of Commissioners of School Buildings the following proposed appropriation orders:

ORDERED, That in accordance with the provisions of Section 2 of Chapter 224 of the Acts of 1936, the following appropriations are hereby made:

LAND AND BUILDINGS FOR SCHOOLS

Item 1—Administration Expenses:	
(a) From tax levy \$81,347.23	
(b) Unexpended balance for the fiscal year 1935.....	732.77
Total	\$82,080.00
Item 2—Rent of Hired Accommodations:	
(a) From tax levy \$15,881.15	
(b) Unexpended balance for the fiscal year 1935	9,488.85
Total	\$25,370.00
Grand Total.....	\$107,450.00

ORDERED, That in accordance with the provisions of Section 2 of Chapter 224 of the Acts of 1936, and out of the amount available for "alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection of existing buildings, and for improving existing school yards" for the financial year January 1 to December 31, 1936, appropriations are hereby made as follows:

Under date of May 6.h. having received information of the total amount of your appropriation orders for this Department, we wrote the School Committee, pointing out the inadequacy of the same, and that your proposed cut of \$197,147.66 from our budget was in our opinion so large as to prevent this Department from performing its necessary and statutory functions.

In that letter we pointed out in detail many reasons for our position, and asked you to restore the amount of this proposed cut in order that we might have the necessary money to protect the school plant and to enable us to keep the school property of the City in proper and safe condition. We are forced to the conclusion, therefore, in not heeding our warning and requests, that you have arbitrarily decided on the amount that you will appropriate for this Department for the year 1936.

We can, therefore, only advise you that many of the requisitions

you are forwarding cannot be fulfilled. The masters in the schools and the general school service should understand this fact, and relieve this Department from any criticism for failing to perform work that they may consider vital and necessary. We will continue to give our particular attention to the safety of the children in the schools as far as our appropriation allows us to do so. Many needs that will add to the comfort, health and happiness of the children will have to be neglected.

We would be remiss in our duty if we did not call your attention to the following particular matters; you have cut from our Land and Building Budget an item of \$1000 necessary for the employment of a temporary clerk necessitated by PWA clerical requirements. The PWA program is large particularly this year and to discharge a man who is a Civil Service appointee from the top of the list will cripple and retard the necessary work of this Department. We view it an unjustifiable interference with the legitimate functions of this department.

The Legislative Act of 1936 regulating school appropriations allowed you to appropriate up to \$.50 on each \$1000 of valuation of the City for this Land and Building Budget. You have allowed only approximately \$.05 plus. We have six large buildings now being constructed involving total appropriations of approximately \$1,800,000 and a safe margin for special emergencies. Experience shows should be 2 per cent of that amount. If you will visit the location of the new school in Eliot Square, you will get some idea of what difficulties are met in foundation work on new schools.

We have been cutting into our reserves until we have reduced the same to a point from which we do not dare to go any lower. We are wondering if you allow the time for appropriating money to pass by without appropriating for such a possible item where you expect the money to be obtained from.

Another item in point is the furnishing of the new Intermediate School in the Washington Irving District. Bids for furnishing this school are approximately \$47,000, and only \$25,000 is available. An additional amount should be provided for this item. Each cent approximates \$16,300 according to the best estimate available at the present time and our request again to you is to add at least an additional 3 cents or approximately \$50,000 to this land and building Budget. Unless this is done, you must understand that you must assume the responsibility.

The Legislative Act of 1936 allowed you to appropriate for the alterations and repairs of School Buildings for fire protection and improvement of schoolyards 85 cents on each \$1000 of valuation which would amount to approximately \$1,400,000. You have appropriated only \$1,050,000 for our alteration and repair budget although you appropriated the full amount allowed by the Legislature for school purposes which comes under your own direct supervision, namely,

ly, the amount of \$15,160,000, which with balances on hand amounts to \$16,215,999.04.

The safety of the children in existing school buildings is the responsibility of this Department, and we cannot but resent the way in which you have arbitrarily, and without reason, cut our appropriation, though we have notified you of the dangers connected therewith. In preparing our budget requirements for 1936, which we had every reason to expect would be the basis of your appropriations, we had already cut to a point which we knew had reached the very limit of reduction. To cut approximately \$197,147.66 or approximately one-sixth of this total budget is unjustified, dangerous and unbusinesslike. In view of the fact that we have acquainted you so often with the details of our requirements, we feel it will serve no useful purpose to here again reiterate them.

The appropriations as presented to us when decreased by the following items, namely:—

- (a) Administration Expenses
- (b) Amount expended to date
- (c) W. P. A. requirements
- (d) Specific insertions in our budget by the School Committee leaves a scant \$300,000 for the proposed alterations and repairs of the \$70,000,000 plant for seven and one half months. The requisitions received through the Superintendent of Schools to date are pro rata in excess of those received last year by approximately 70 per cent and yet we had last year in this same budget \$160,000 more than we have been allowed this year and despite the fact that the appropriation last year was substantially exhausted by the middle of October.

As we understand your program you intend to abandon the Washington School in the West End at the close of the school year 1935-1936. When abandoned, this piece of property which has cost the taxpayers approximately \$820,000 would then be idle and unoccupied. It has been proposed by you that this department occupy this building and house our administration offices, storehouse and garaging therein. There are many serious objections to this department occupying this building. The streets surrounding the building are narrow and much congested. There is continuous heavy trucking in and out of our warehouse that these streets are ill adapted to accommodate. The building will have to be remodeled for our use especially that part that will be needed for warehouse purposes which will entail a large expense. We will have to furnish fuel and light, employ janitors, engineer, firemen and watchmen. The School Committee budget will be reduced and relieved of the cost of maintenance of this building yet our budget makes no provisions for the additional cost to this department of such maintenance; instead our budget has been drastically cut. We included in the cost of change an item of \$3000 for the cost of maintenance for the balance of the year which has been cut out from the Budget. This was included in the \$12,000.00 item reduced to \$9000.00.

For this remodeling item you allow the sum of \$51,000 and, although you have no organization capable of estimating the cost of this remodeling, you apparently will not accept our engineer's and architect's estimate of cost of \$55,000.

In connection with the reallocation of the pupils in the Blackstone and Wells Schools of this district the necessary remodeling will cost \$18,600 more than you have allowed for. In your budget you have only allowed the sum of \$25,000 for the remodeling of the Blackstone and Wells Schools. Our report to you on this item of the Blackstone and the Wells School of course now is that we will spend the \$25,000 to the best advantage and then we will have to stop, and if this amount is not sufficient to remodel the buildings according to your educational requirements, as planned for, the fault will not be ours.

One member of our Commission, Mr. Egan is opposed to this Department occupying the Washington School and his objections have much weight and merit. Mr. Bangs and Mr. Lane believe that while the cost of remodeling this building is large and that the building is poorly adapted for our purposes, yet we are reluctant to see this expensive property remain idle and a loss to the City because we know of no other department that will occupy the same. We do believe that it would be a much better plan for the School Committee itself to transfer its own Supply Department now on Brookline Avenue to this location as the Brookline Avenue location is such that a purchaser might readily be found for the same.

In view of the fact therefore that it would seem advantageous to the City for us to occupy this building rather than have it remain idle with the attendant depreciation, we will do so only on the condition that the School Committee appropriates in addition to what it already has indicated its willingness to appropriate, the full amount that we estimate will be the cost of remodeling this building for our particular uses and maintaining it for the balance of the year.

You tabulate a reserve item of \$7823. The same does not exist on account of the failure of sufficient amounts in your appropriation to provide for your requests in Item 14. If you intend to establish a reserve item of \$7823 and provide the necessary money for remodeling the Washington, Wells, Blackstone and Washington Irving and the cost of the operation and maintenance of the Washington School by us for the balance of the year, without any addition to our alteration and repair regular budget, it will be necessary to add \$27,800 to your appropriation orders.

This \$27,800, of course, is entirely separate from the amount of the deficiencies pointed out throughout this communication. We therefore request you to appropriate at least in addition 9 cents per \$1000 of valuation for the general alteration and repair budget, especially in view of the fact that your requisitions to date are pro rata 70 per cent in excess of the same period in 1935.

In view of the importance to the citizens and taxpayers of Boston of matters contained in this report, we expect this entire report to be spread upon the records in full and we are sending a copy of same to the Press.

Respectfully yours,
Board of Commissioners of School Buildings,

Chairman.

CITY OF BOSTON—DEPARTMENT OF SCHOOL BUILDINGS

May 28, 1936.

School Committee
City of Boston
15 Beacon Street
Boston, Mass.
Gentlemen:

It has been called to our attention that through a clerical error the draft budget of this department furnished to the School Committee did not include an item of \$1000 for a temporary employee, the omission of which in the proposed budget of the School Committee for this department was strenuously objected to in the report of the Department of School Buildings forwarded to the School Committee under date of May 25, 1936.

The proposed budget figures have been changed so often that it is not difficult to understand how this omission may have occurred.

In view of this fact it is only right and proper therefore to strike out the fourth paragraph of our report on page 3 which concerns this particular item, and we so request.

We do trust, however, that in view of the explanation in relation to this \$1000 that the School Committee will restore it to the Land and Building budget of this department.

Respectfully yours,
Board of Commissioners
of School Buildings,

Chairman.

STATEMENT OF CHAIRMAN IN RE THE COMMUNICATIONS FROM THE BOARD OF COMMISSIONERS OF SCHOOL BUILDINGS.

In connection with the communication from the Board of Commissioners of School Buildings, under date of May 25, 1936, which is printed above in accordance with the provisions of Chapter 351 of the Acts of 1929, the Chairman made the following statement as expressing the views of the School Committee:

The School Committee is disappointed and chagrined by the tenor and the contents of the communication from the Board of Commissioners of School Buildings. This communication fails to distinguish between the statutory powers and functions of the Board of Commissioners of School Buildings and those of the Superintendent of Construction. The powers and duties of the Board of Commis-

sioners seem to be limited to electing a Superintendent of Construction, establishing his salary, and reporting to the School Committee upon certain proposed budgets and appropriation orders. The Superintendent of Construction is placed in charge of the Department of School Buildings and is the legal successor of the former Board of Schoolhouse Commissioners, possessed of all the powers and authority conferred upon that Board as well as the powers and authority conferred by Chapter 351 of the Acts of 1929.

The communication likewise fails to give due recognition to the duties and responsibilities of the Boston School Committee, which, as the body duly elected by the people, is charged with the duty and responsibility of making appropriations for all school purposes and of certifying to the Board of Assessors the amount to be raised on the tax levy. The spirit of pique which seems to characterize the communication of the Board of Commissioners of School Buildings and the openly expressed resentment at the proposed action of the School Committee which is termed "arbitrary and without reason, unjustified, dangerous and unbusinesslike" might be ignored, were it not for certain unwarranted assumptions, erroneous conclusions, half-truths, and plain misstatements of facts which the communication contains.

Before commenting in detail upon particular items in the communication of the Board of Commissioners of School Buildings, the School Committee would take this occasion to state that its general policy in regard to the school budget for 1936 has been and is to conduct the public schools as economically as is consistent with efficiency, with due regard both to the needs of the children and to the financial situation of the city. To this end it has eliminated all new construction items and has fixed its maintenance appropriations below the amount authorized by the Acts of 1936 and much below its original estimates as submitted to the Legislative Committee on Municipal Finance. It is appropriating \$17,239,838.59 out of a total of \$18,477,606.25 authorized by law, a saving to the taxpayers of \$1,237,767.66; and of the total appropriation of \$17,239,838.59 there will appear in the tax levy for 1936 the amount of \$16,171,832.03.

The School Committee in effecting economies for 1936 does not purpose to discharge personnel, to curtail essential activities or to reduce basic salaries. The annual step-rate increments will be continued for this year. Retrenchments wherever possible will be made in appropriations for books, supplies, equipment and other materials.

LAND AND BUILDINGS

Accordingly, no appropriation is made for the construction of new school buildings, the only appropriation for the Land and Buildings item being for administrative expenses and for the rent of hired accommodations.

The School Committee, therefore, cannot act favorably on the suggestion of the Board of Commissioners of School Buildings that

\$50,000.00 additional be appropriated for the Land and Buildings item with special reference to furnishing the new intermediate school in the Washington Irving District. In the first place, there is question as to the legality of using money from the tax levy to make up a deficiency in the P. W. A. allotment, and in the second place, if such a transfer were possible, it could be made from existing balances without adding to the tax levy.

The statement that the School Committee "cut from our Land and Building budget an item of \$1,000 necessary for the employment of a temporary clerk necessitated by P. W. A. clerical requirements" is erroneous. No such item appeared in the estimates submitted.

The acknowledgment of the Chairman of the Board of Commissioners of School Buildings under date of May 28, 1936, that through clerical error this item was omitted from the official estimates submitted by the Department of School Buildings should serve as a reminder to the Board of the necessity of carefully checking the facts upon which its conclusions are based before releasing official communications to the Press. It is rather a sad commentary on excessive zeal that under the terms of the statute and by specific request of the Board of Commissioners of School Buildings the charge of "unjustifiable interference with the legitimate functions of this Department" is "to be spread upon the records in full" when the charge itself has absolutely no foundation in fact.

ALTERATIONS AND REPAIRS

Another erroneous statement is that "You appropriated the full amount allowed by the Legislature for school purposes which comes under your own direct supervision, namely, the amount of \$15,160,000, which with balances on hand amounts to \$16,215,999.04." The fact is that the amount named in the communication of the Board of Commissioners of School Buildings is the total amount available for maintenance, exclusive of Alterations and Repairs, while the appropriation of the School Committee for this item is \$16,082,388.59, or \$133,610.45 less than the statute permits.

The Board of Commissioners of School Buildings requests that approximately \$150,000 be added to the general Alteration and Repair budget. Such an additional appropriation the School Committee deems inadvisable this year in view of the financial situation of the city and the generous federal grants which are available for labor and materials.

The Boston School Committee agrees with the Commissioners of School Buildings on "the importance to the citizens and taxpayers of Boston of matters contained in this report." In order that the citizens and taxpayers may have a true and complete picture of the amount of money expended for repairs and alterations of school buildings the following facts are presented:

Since the creation of the Department of School Buildings in 1930 the School Committee will have ap-

propriate for alterations and repairs during the seven-year period beginning January 1, 1930, and ending December 31, 1936, a total sum of \$9,052,540.12, which amounts to an average yearly appropriation of \$1,293,220. In addition to these amounts so appropriated, the United States Government under the C. W. A., E. R. A. and W. P. A. programs during the last three years has made to the Department of School Buildings generous cash allotments which were expended by that department for alterations and repairs. The Government allotments from December 14, 1933, up to May 1, 1936, to that department have been \$2,011,704.87. During the financial years 1934, 1935 and 1936 the School Committee will have appropriated for alterations and repairs the total sum of \$3,471,746.59. If to this sum is added \$2,011,704.87, or the amount already allotted to the Department of School Buildings by the United States Government, the total expenditure for these three years for alterations and repairs will amount to \$5,483,451.46, or a yearly average of \$1,827,817.15. This latter amount represents the greatest yearly expenditure for alterations and repairs in any single year since the creation of the old Schoolhouse Department in 1901.

From December 1, 1935, to May 1, 1936, the Government has allotted for both labor and materials approximately \$451,971.00, or about \$90,394 per month during this period. If Government allotments continue—and there is every reason to believe that they will continue—the Department of School Buildings will benefit by them during the present financial year by an amount of approximately \$1,084,730. With this amount added to the \$1,050,000 which the School Committee proposes to appropriate, a sum of approximately \$2,134,730 will be provided to maintain the school buildings in safe condition and to make desirable, permanent improvements.

At the risk of making this statement unduly long the School Committee would direct attention to certain other items of the report. There is throughout the report an assumption that the School Committee is in some way responsible for specific estimates of the cost of certain items. For example, in connection with the remodeling of the Blackstone and Wells Schools the report states that the remodeling "necessary will cost \$18,600 more than you have allowed for. In your budget you have only allowed the sum of \$25,000 for the remodeling of the Blackstone and Wells Schools." As a matter of fact this estimate of \$25,000 was furnished by the Department of School Buildings, and the same is true of every similar estimate for remodeling. After this estimate had been furnished by the Department and as the result of a personal inspection of the two buildings by the Department of School Buildings and representatives of the Superintendent of Schools, the Superintendent of Schools suggested certain changes in the original plans which would eliminate much of the expense originally contemplated, and should decrease rather than increase the original estimate submitted by the Department.

The School Committee regrets that the Board of Commissioners did not investigate the facts connected with the taking over of the Washington School Building for the use of the Department of School Buildings before issuing a statement which misrepresents the situation.

A cursory perusal of the correspondence between the Superintendent of Construction and the Superintendent of Schools on this subject, available, doubtless, in the files of the Department of School Buildings, would have shown that as early as May 1, 1935—more than a year ago—the Superintendent of Construction in writing agreed to take over the Washington School Building to house all the activities of his department, and on several occasions thereafter urged the Superintendent of Schools to secure prompt action by the School Committee to surrender formally the Washington School Building to the Department of School Buildings, and finally presented to the Superintendent of Schools sketch plans of the proposed changes in the structure. The action of the Superintendent of Construction was doubtless prompted in very large part by the knowledge that a saving of \$33,130 in annual rental would result. It seems hardly credible that this action of the Superintendent of Construction would be taken without the knowledge and approval of the Board of Commissioners.

All the estimates of the cost of the changes necessitated by this project were made by the Department of School Buildings in the budgetary figures presented to the School Committee. The original figure—\$45,000—was later increased at the request of the Department of School Buildings to the figure \$51,000 which was appropriated by the School Committee. These were the only figures submitted to the School Committee by the Department of School Buildings and there is, therefore, no ground for the statement of the Board that "you apparently will not accept our engineer's and architect's estimate of \$55,000." This figure is now for the first time brought to the attention of the School Committee. The Board of Commissioners is likewise in error in the matter of the item of \$3,000 which it asserts was included in the larger item of \$12,042 for expenses due to change of location. The \$12,042 item as submitted specifically excluded personnel and definitely included only the expense of moving. It was reduced to \$9,042 because a tentative bid for moving received by the Department was \$8,500.

The following words of the communication on this subject, "although you have no organization capable of estimating the cost of this remodeling," the School Committee considers a gratuitous and unwarranted reflection upon the ability and experience of an engineer without superior in either department. The School Committee deprecates the exclusive assumption of civic virtue with which the Board of Commissioners now informs the people of Boston that they, the Commissioners, will rescue the School Committee from its dilemma and save the School Committee from the odium of abandoning to decay a school build-

ing which cost the taxpayers of Boston \$820,000, when the dilemma was itself created by the Board of Commissioners in countenancing an attempt on the part of its members at what might properly be termed "unjustifiable interference with the legitimate functions" of the Department of School Buildings and with its orderly procedure under statutory provisions.

The Board of Commissioners of School Buildings is, in the opinion of the School Committee, needlessly disturbed over the apparent increase in the number of requisitions for alterations and repairs which have been forwarded to the Department of School Buildings this year. In the first place, the communication seems to be in error in stating "your requisitions to date are about 70% in excess for the same period in 1935." From the figures on file in the office of the Superintendent of Schools for the period from January 1, 1935, to May 27, 1935, 5277 requisitions were forwarded to the Department of School Buildings and for the corresponding period this year 7180 requisitions were forwarded, an increase not of 70% but of less than 37%. The probability is that the change in the method of handling these requisitions is largely responsible for the apparent increase, in that all requisitions, whatsoever the character, are now forwarded through the office of the Superintendent of Schools, whereas, heretofore, inspectors of the Department were privileged to initiate such requisitions and in some instances to have the work completed without the Superintendent's knowledge. As stated, the increase is more apparent than real and the ultimate result of the new procedure will be a considerable saving rather than any additional expense to the city.

Nor should the Board of Commissioners be unduly alarmed because it failed to include in its estimates an item of \$1000 for clerical assistance and an item of \$3000 for maintenance charges.

As the report clearly indicates, the budgets are not segregated in the sense that the detailed estimates which accompany the School Committee orders may not be exceeded. The Superintendent of Construction on his own initiative may make such transfers as he sees fit within the specific items listed in the School Committee orders, and the School Committee may make transfers from one item to another. It is obvious that a very slight saving in budgets of over a million dollars will care for these small items which were omitted from the estimates as submitted.

In addition to the large sums spent annually for alterations and repairs there has been a generous annual expenditure for new construction. Since the establishment of the Department of School Buildings in 1930 twenty-seven new school buildings have been completed or are in process of construction, and substantial additions have been made to nineteen existing buildings. Thirty-seven old buildings have been abandoned, and the number of portables has been reduced from 220 to 58. It is only natural, therefore, that the citizens, after so great an outlay,

should expect at least some decrease in the amount of money required for the upkeep of the school plant.

In 1932 there was appropriated for alterations and repairs the sum of \$1,200,000 and on September 21, 1932, the former Superintendent of Construction wrote the Superintendent of Schools in part as follows:

"In view of the large amount of repair work accomplished during the past three years I consider the school plant is now in very good condition. As a result of the new construction accomplished during the past three years, several of the old buildings, and 137 portable buildings, have been vacated.

"As a result of the above, I believe that the levy of 50c on the tax levy (it would net approximately \$1,000,000) would be sufficient to keep the plant in adequate repair during the year 1933."

The appropriation for alterations and repairs for the year 1933 was accordingly fixed at \$1,009,260.84. The School Committee believes that there is no need of a larger appropriation in 1936 than there was in 1933, especially in view of the federal grants which equal the amount appropriated by the School Committee.

In view of all the foregoing, the School Committee cannot agree with the contention of the Board of Commissioners of School Buildings that the proposed budget will fail to provide "the necessary money to protect the school plant and to enable us to keep the school property of the city in proper and safe condition." On the contrary, the School Committee believes that an unjust burden would be imposed upon the taxpayers if additional money were appropriated this year when the city is forced to borrow for the payment of current expenses.

In connection with the reference in the communication of the Chairman of the Board of Commissioners of School Buildings to the proposed occupancy of the Washington School Building for department headquarters, the following communication from the Superintendent of Construction, Mr. William W. Drummey, to the Superintendent of Schools, was read and ordered spread upon the records:

CITY OF BOSTON—DEPARTMENT OF SCHOOL BUILDINGS

May 1, 1935

Dr. Patrick T. Campbell,
Superintendent of Public Schools,
15 Beacon Street,
Boston, Mass.

Dear Sir:—

After due investigation I am convinced that the Washington School will entirely suit the purposes of this department as a combined office, warehouse and garage. This will confirm my conversation with you in this regard yesterday.

I respectfully request that you will take up with the School Committee the matter of this building and have it allocated definitely to us as permanent quarters for the operation under one roof of the Department of School Buildings.

I understand that this involves some changes that will be forthcoming in the Blackstone and one

or two other schools to take care of the children who will be transferred from the Washington School. I also understand that it will be possible to postpone for one year the alterations that you anticipated at the Mechanic Arts High School and to use that money in whole or in part for the renovation of the Washington and such changes in the other buildings as is inferred above. This is perfectly agreeable to me in all respects. Of course this is all stated with the expectation that there will be no change whatsoever downward insofar as the alteration and repair budget is concerned as approved in the sum of \$1,210,000, at the conference meeting held some months ago with the School Committee.

I respectfully request that you will make known your pleasure at the first possible moment so that I can make the necessary preparations to secure drawings for this work so that it may be done this summer. My lease here and in the warehouse is something in excess of this year. Of course this will save the City of Boston approximately \$25,000.00 a year beginning in the year 1936 and if that sum is put back onto the amount allocated for the improvement and alteration of the Mechanic Arts High School, instead of costing \$35,000.00 it will cost \$25,000.

Kindly express your pleasure at your first convenience.

Very truly yours,

Wm. W. Drummey
Superintendent of Construction.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt \$100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

Question came on the passage of the four orders notifying the Board of Assessors of appropriations made by the School Committee for the current financial year and certifying the amount to be raised by taxation for school purposes, totaling \$16,171,832.03.

The four orders passed by the following vote:

YEAS—Messrs. Smith, Sullivan, and Tobin—3.

NAYS—0.

ABSENT—Dr. Mackey—1.

NOT VOTING—Dr. Lyons, who had been obliged to withdraw before the close of the meeting—1

The Business Manager called attention to the fact that the amount to be raised by taxation for 1936 is \$242,000 less than last year on the tax rate.

APPROPRIATIONS AND EXPENDITURES TO JUNE 1, 1936

A communication was received from the Business Manager, under date of May 31, 1936, submitting, pending the adoption of the maintenance budget, a statement showing the expenditures for maintenance of the public schools for the first five drafts of the current financial year, the expenditures for the first five drafts of the financial year 1935 and the increases and decreases in the several items.

Placed on file.

The Committee adjourned.

PROFITABLE MUNICIPAL MARKETS.

Municipal markets, "white elephants" in many cities, can be made self-supporting and even profitable, according to recent reports on two of them. The Department of Public Markets of New York City reports that within the administration of its present Mayor, Fiorello LaGuardia, the city's markets have changed from inefficient and expensive undertakings into profitable investments. The Benton Harbor, Mich., municipal fruit and vegetable market is described as doing a three-million-dollar annual business by its City Manager in the February issue of "Public Management."

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING FRUITS AND VEGETABLES.

The Supply Department of the City of Boston invites proposals for furnishing to the various city department, fruits and vegetables, as per specifications to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex. *There will be a charge of thirty cents (\$0.30) for each blank proposal taken out.* The bidder must leave his proposal with a certified check for \$300, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read on Thursday, July 16, 1936, at 12 m., at Room 801, City Hall Annex. The successful bidder must furnish a bond for one quarter the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

D. FRANK DOHERTY,
(July 4.) Superintendent of Supplies.

PITTSBURGH'S TRAFFIC SAFETY RECORD.

Pittsburgh has been adjudged the safest city in the United States in 1932, and the second safest in 1933 and 1934 among cities with populations over 500,000. Registrations in the city increased 4.4 per cent, gasoline consumption 7.7 per cent. In 1935, despite a 2.4 per cent decrease in traffic volume, adult fatalities increased 30 per cent, total fatalities 24 per cent, as compared with 1934.

FURNISHING AND INSTALLING FURNITURE AND EQUIPMENT IN THE SPECIAL CLASS CENTER SCHOOL IN THE JOHN MARSHALL DISTRICT, REGINA ROAD AND PARK STREET, DORCHESTER DISTRICT, FOR THE DEPARTMENT OF SCHOOL BUILDINGS, CITY OF BOSTON, MASSACHUSETTS, P. W. A. PROJECT, DOCKET NO. MASS. 1089.

NOTICE TO CONTRACTORS.

Sealed proposals for furnishing and installing the furniture and equipment for the Special Class Center School in the John Marshall District, Dorchester,

Furniture and equipment,
Window shades,
Steel wardrobes,
Refrigerators,
Gas ranges,
Sheet metal equipment.

will be received by the Superintendent of Construction at the office of the Department of School Buildings, 11 Beacon street, Boston, Mass., until 2 o'clock p. m., daylight saving time, of Wednesday, July 8, 1936, and at that place and time will be publicly opened and read. The proposal submitted to the Superintendent of Construction shall not be separated from the book of specifications. The additional copy of the proposal shall be removed from the book of specifications and after filling out shall be sealed in an envelope and delivered to the Auditor of the City of Boston at the City Hall, School street, Boston, Mass., before the time for the opening of the proposals.

A bidder may submit a proposal on one or more items.

The project is to be financed and constructed under the terms of the Emergency Relief Appropriation Act of 1935 and chapter 366 of the Acts of 1933 of the Commonwealth of Massachusetts as amended. The attention of bidders is directed to the construction regulations prescribed by the P. W. A. Attention is called to the fact that minimum wage rates are established for the project, and are set forth in the contract documents. The employment agency designated by the Government for this project is Edward L. Hanna, Manager, 100 Nashua street, Boston, Mass. All bids must be accompanied by a certified check on a bank located in the Federal Reserve District (5) payable to the City of Boston in the sum of five (5) per cent of the amount of the bid, except that a minimum amount of check shall be fifty (50) dollars. The certified check shall be attached to the proposal, sealed and delivered to the Superintendent of Construction. The right is reserved to reject any or all proposals and to waive informalities, or to accept any proposal deemed best for the City of Boston, subject to the approval of the State Director, P. W. A. The certified checks of the three lowest bidders will be retained until the contract has been signed by all interested parties. All other certified proposal checks will be returned not less than forty-eight hours after the date of the opening of the proposals.

A bond of an approved surety company will be given by the successful bidder in the full amount of the contract price, except that no bond will be required for contracts under \$1,000. All contracts are subject to the approval of the Mayor. No award can be made without the approval of the State Engineer, P. W. A.

A deposit of a certified check for \$50, made payable to the City of Boston, will be required for each set of plans and specifications, said sum to be refunded not later than seven days after the opening of bids. Mutilation or failure to return the plans or the specifications shall be deemed sufficient cause for the forfeiture of the said deposit.

Specifications and forms of proposals may be obtained at the office of the Superintendent of Construction, Department of School Buildings, 11 Beacon street, Boston, Mass.

URGES SOCIAL AND ECONOMIC AS WELL AS POLITICAL FREEDOM AS PRESERVER OF OUR DEMOCRATIC INSTITUTIONS FOUNDED UPON THE DECLARATION OF INDEPENDENCE — FARIS S. MALOUF, JULY FOURTH ORATOR AT FANEUIL HALL EXERCISES, WARNS OF DANGERS THAT THREATEN GOVERNMENT OF COUNTRY, USING AS SUBJECT, "THE FUNDAMENTALS OF TRUE FREEDOM" — CALLS FOR REDEDICATION OF NATION TO NATIONAL RIGHTEOUSNESS, LOYALTY WITH CLEAN HEARTS AND A NEW SPIRIT.

The following address was delivered by Faris S. Malouf, Esq., orator of the day, at the Fourth of July exercises in Faneuil Hall, upon the subject "The Fundamentals of True Freedom."

Speaking for the American citizens who can trace their birth or ancestry to Syria, which country includes the beautiful and historic mountains of Lebanon and Palestine, and is better known to America as the Holy Land, I wish to express our gratitude to his Honor the Mayor of Boston for the great privilege which he extended to our people in appointing me to deliver Boston's message to the nation and to the world as part of the city's celebration of the one hundred and sixtieth birthday of our nation as a republic.

In making this appointment Mayor Mansfield is faithfully applying the spirit of democracy by giving recognition to a race which is among the most recent additions to American life and citizenry,— a race small in number but greatly inspired, and whose ancestors gave utterance to the eternal spiritual truth which has been the source of whatever social and civic liberties the civilized world has yet enjoyed. I say this as a tribute to the fathers of American democracy, who more than any other race in the world saw that eternal truth and put it into practice. This I shall explain more clearly.

In this celebration we commemorate an event, the significance of which is not confined to the people of the United States, but it transcends the geographic lines and penetrates the hearts of man everywhere. It is beyond the frail conception of the human mind fully to appreciate, and much less give adequate utterance to, the blessings which have come to mankind as a result of the adoption of the spiritual and political principles set forth in that sacred document which gave birth to our country, the Declaration of Independence.

By comparison and contrast we determine true values. In respect to its power for the transformation of the hearts of men; in respect to its guidance and inspiration for the organization of good government; in respect to its invitation to every creed, color or race, saying, "Come to me all ye that are oppressed and stricken with poverty and tyranny, and I will give you liberty and opportunity"; in respect to its removal of the curse of class distinction, and its recognition that "All men are created equal"; in respect to its creation of a government "deriving its powers from the consent of the governed"; in respect to all, and more than these, our American Declaration of Independence is our political sermon on the mountain, greater than the Magna Charta, conforming to the Ten Commandments and in the spirit of the greatest of all events, the Crucifixion on Mount Calvary.

National Glories and Dangers.

Though these attributes be true of our Declaration of Independence and however glorious our accomplishments thereunder, we must not forget that the greater the glories the greater are the dangers that accompany them. You and I are aware that there lives today on this earth races of men who have not kept pace with the march of progress, but whose ancestors have in past generations organized the human race in religion, in science, in government, and in commerce,— ancestors whose culture, art, literature, architecture and democratic principles are among the world's most precious treasures. These races whom we tend to consider as backward were at one time or another willing to be content with the glories of their fathers and forefathers. They were willing to enjoy the material wealth left to them by their ancestors, forgetting the moral and spiritual forces which had been exerted. They were so pitifully deluded that they mistook the pleasures of life for its vitality, and the externals of life for its inward essence.

It is most fitting then that we, the American people of today, representing practically all the races of mankind, should pause on our country's birthday, not only to pledge our allegiance anew, but to inquire whether we are merely resting on the laurels of the past, or conforming to, and enlarging upon, the letter and the spirit of our Declaration of Independence. Are we drifting away from it as other races drifted from their glories for the sake of expediency and easy living, or abiding by its injunctions and fairly executing its dictates?

Thoughtful men and students of government can find good reasons to doubt whether a Declaration of Independence such as the founders of the American democracy proclaimed could ever have been issued by any people anywhere else than by the American colonists. A brief examination of life in the colonies will shed some light on this question.

On June 15, 1215, and at the age of twenty-eight, King John the First was forced by the nobles and barons to grant to his subjects the Magna Charta, but under it the people did not find sufficient religious freedom, for some were still able to force their views on others. Four hundred and five years later the Plymouth Colony was founded in 1620. The men of the age of discovery and exploration were animated mainly by the quest for adventure and the thirst for gold. But the first settlers of Plymouth Colony came into the forest to seek not gold but God and the right to worship Him in their own way. If we find that the later Puritans were inclined to dominate the Colony of Massachusetts Bay according to their own religious ideas, we must remember that they lived in an age of intolerance. To say that they sought the right to worship God in their own way does not mean that they sought religious freedom. Rather they wished to make their own ideas dominant in England; failing in that, they sought the forests of America.

ACTING MAYOR JOHN I. FITZGERALD STARTS CAMPAIGN AGAINST LONG-TIME PARKERS IN THE CITY STREETS—CONFERENCE IN THE MAYOR'S OFFICE LEADS TO THE SUGGESTION THAT LITTLE PROGRESS WILL BE MADE UNTIL THERE IS A RETURN TO THE ORIGINAL NO-FIX PARKING LAW—MAYOR'S COORDINATING COMMITTEE TO BE APPOINTED.

Meeting in the Mayor's Office at the call of Acting Mayor John I. Fitzgerald, fifteen or more representatives of the Police and Traffic Departments, as well as the Chamber of Commerce and other citizens, appeared unanimously of the opinion that little can be done toward correcting parking evils until there is a return to the no-fix parking law with its original penalties. It was also agreed that the Mayor should appoint a coordinating committee to act in close cooperation with the authorities. This committee will be named by the Acting Mayor.

Capt. John T. O'Dea, in charge of traffic, paid the Acting Mayor the compliment of knowing as much as he did himself about traffic conditions. Captain O'Dea declared that the Acting Mayor was a "great observer" and had many fine ideas as to how traffic conditions could be improved. Mr. Fitzgerald, in opening the hearing, had named the danger spots and had given his ideas on how conditions at those places could be improved. He announced that he had called the conference as no idle gesture, but as a movement which should be given every possible encouragement.

BOSTON IS SUFFERING.

It was Daniel Bloomfield, secretary of the Retail Trade Board, who described conditions in the fewest words when he said that "Boston is suffering from hardening of the arteries . . . traffic." Mr. Bloomfield declared that his organization is perfecting a new plan to assist business through a readjustment of traffic regulations. This plan will soon be made public.

John White, Jr., treasurer of the Mercantile Wharf Corporation, suggested the no-fix law which was amended in 1935. Under the original law the penalty for the first offence was \$2; for the second offence, \$3; third offence, \$5, and for each succeeding violation a fine not exceeding \$50. In 1935 the law was amended so that the first offence carries only a warning, then \$1 and \$2 fines for the second and third offences and after that a criminal charge.

Certain classes of business and professional men were criticized for blocking traffic for personal ends and instances were cited where the Police Department and the Chamber of Commerce had cooperated in making personal appeals.

Acting Mayor Fitzgerald felt that the traffic situation is almost impossible of untangling, but hoped to get somewhere with it by the assistance of various organizations and individuals, through

education. He referred to the Sumner Traffic Tunnel as falling behind in tolls because former patrons find it too inconvenient or too slow to cope with traffic toward the Boston end. He spoke particularly of traffic conditions on Beacon Hill, close to the State House, and along Charles street.

Frederick R. Sullivan, chairman of the Boston School Committee, said the committee is particularly interested in traffic improvement for the benefit of the children. The committee, he said, was considering the advisability of preventing the parking of automobiles by school teachers close to the school buildings.

Criticism of the practice of permitting so many exemptions to Federal, State or City departments was freely made and Traffic Commissioner William P. Hickey announced that he had granted only such cards as his commission felt were absolutely necessary to the proper conduct of affairs. If he had granted all requests of city departments he would have been compelled to give out 250 permits. One department, he said, had asked for seventy-six special permits and had been granted one.

MORE POLICE NEEDED.

Captain O'Dea announced that his department is doing everything possible to improve the situation and his opinion that much has been accomplished appeared to

be the general sentiment. Properly to cope with the situation it would require 180 full-time policemen. Of a total of 191 men under his direction, the work is greatly hindered by vacations, sick leave, Sunday work and covering baseball games. He read several letters from business firms complimenting him for his work. One of the letters was from former Mayor Malcolm E. Nichols, who commented particularly on the improved conditions in the vicinity of the cemeteries on Memorial Day.

Dr. John Sullivan of the School Department suggested the appointment of a coordinating committee, a suggestion which met with favor, though it was admitted that the Chamber of Commerce had been doing much valuable work in assisting the police. Daniel Bloomfield announced that his board favored the establishment of a five-cent bus line from the outskirts to the business district to enable motorists to park their cars outside the congested areas and obtain entrance into the business district at low cost. Such an ordinance was favored by the Boston Elevated when it was offered to the City Council several years ago.

Councilors John J. McGrath and Peter J. Fitzgerald of Dorchester spoke generally of parking conditions in their district, the former pressing for action on the establishment of two traffic lights and for his order in the Council to forbid all parking on a portion of Gallivan Boulevard.

TRAFFIC COMMISSION RULINGS.

Voted, That the Revised Traffic Rules and Regulations, as adopted by the Boston Traffic Commission on October 31, 1935, and on November 6, 1935, are amended as follows, effective July 27, 1936:

Voted, That as urgently required by considerations of public safety and convenience, the following temporary rule, which was adopted May 7, 1936, and was effective May 18, 1936, for a trial period of sixty (60) days, is hereby extended for a further trial period from July 17, 1936, to July 27, 1936:

Parking of vehicles is prohibited in the following street:

Perkins Street, West Roxbury.

South side, from Jamaica way to South Huntington avenue.

JULY FOURTH ORATION.

(Continued from page 905.)

It has been said by eminent historians that not one of the founders of that colony dreamed that his descendants would ever seek independence or separation from the mother country. It is, however, significant that before landing the settlers signed on board the "Mayflower" a compact which revealed the determination of these men to be masters of their own affairs. They were worthy founders of this nation. One is justified in believing that they were destined to bring a new era to the world.

At the outbreak of the Revolution, the population of the colonies was between 2,000,000 and 2,500,000 of whom not less than 400,000 were African slaves. The overwhelming majority of the people were merchants, traders, shopkeepers and small farmers, who in the main, especially in the New England States, were the substantial element of the population. They were of good English stock, socially respected, and from their ranks a great leader frequently rose by dint of genius and character. Agriculture was the principal industry of the colonists. In New England, however, agriculture gave way to industrial supremacy beginning at the close of the Revolution.

RELIGIOUS EDUCATION.

Religion and religious education were the controlling factors in the colonies, especially in New England, where education was highly appreciated, and the means of instruction first in America supplied in Massachusetts in 1635.

Narrowness in their religious life, lack of social vision and lack of any national spirit were the general order of life in the colonies. Each man had his own little kingdom, consisting of his immediate family, house and farm; little encouragement or indication was to be found anywhere that these colonies could ever become one nation. But such conditions of life developed an individualistic state of mind and made the colonists natural lovers of independence and seekers of what they called the "natural rights of man." It is no wonder then that "when a long train of abuses and usurpations" were designed by the King of England to reduce the colonists "under absolute despotism," they declared, fought for, and obtained their independence.

It has been the experience of mankind that oppression, suffering, persecution, and "a long train of abuses and usurpations" create in their victims a certain strength either to bear patiently and silently, or to rebel and fight until victory is achieved. Hence are derived the two philosophies which for centuries have governed the world, the one in the East, the other in the West. Pursuance of the extreme in either direction produces sufferings and retards the progress of the whole. The East suffers from too much patience and meditation only; the West suffers from being too materialistic and too aggressive. To balance these two forces is to serve the world best. Under our government, adhering to the spirit of our Declaration of Independence and our Constitution, we have struck the balance.

UNDERLYING TRUTH.

We come now to that underlying truth, the source of all social and civic liberties, which was first uttered in Syria, and has been applied in the United States in the highest degree yet known to man.

Thomas Jefferson called a part of the one hundred years of English rule "a long

train of abuses." If one were to write a Declaration of Independence for my native land, he would truthfully complain of a train of five thousand years of abuse and suffering. But this suffering was not in vain. From every dark cloud of oppression a great light shone and mankind became richer. In suffering man seeks relief either by creating within himself a philosophy which can sustain him or by the use of forces to overcome the conditions which cause his suffering.

Syria has been the battlefield for every important battle between the East and the West for about five thousand years. Unable to combat by force the powers which oppressed and abused him when his country was time and again run under the heels of the conquerors from Babylonia, Egypt, Persia, Greece, Rome, and even down to Napoleon and Allenby in 1917, the Syrian sought relief from his oppressors who denied him his political and civic freedom by cultivating within himself freedom of conscience and liberty of soul. He developed this sense, that if he was not guilty of wrong conduct, if he was not to blame, then it mattered very little what others might do to him. Hence the philosophy which finds its highest expression in the declarations by Jesus: "Fear not them which kill the body but are not able to kill the soul; but rather fear him which is able to destroy both the soul and the body." "For what is a man profited, if he shall gain the whole world, and lose his own soul? Or what can a man give to regain his soul?" And again "Ye shall know the truth, and the truth shall make you free." Even as long as three thousand years ago when the Psalmist's conscience was troubled, he sang his prayer, "Create in me a clean heart, O God, and renew a right spirit within me."

So the Syrian sought his relief within himself by liberation of his conscience and the freedom of his soul. This is in contrast to his Western neighbor, who, when oppressed, seeks his relief by the amassing of material wealth and force, and the organization of a war machine to gain and maintain his liberty.

In America, however, I can see where the best of both philosophies influenced the action of the colonists. Religious life and training brought about a mental attitude which rebelled against the abuses of the King of England, and resulted in "assuming among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them." This new nation, which, in the words of the immortal Lincoln, "is dedicated to the proposition that all men are created equal" at the time of its birth adopted the two principles by predicated its civil and political independence on the freedom of conscience and the liberty of soul.

AMERICA MAY BE PROUD.

By comparison with other nations, America may well be proud of its accomplishments, but let us not rest on the laurels of the past. Let us judge ourselves by the principles upon which our democracy was founded.

Two opinions rose after the Revolution as to the form and method of administration of our government, the Hamiltonian and the Jeffersonian. The former advocated a strong central government with little, if any, sovereignty in the states; while the latter advocated a central government having a few delegated powers, but the real sovereignty and control to remain in the states. The two theories may be summed up as follows: Hamilton

thought that a too popular government with limited powers is no government at all. Jefferson thought that a too exclusive government is an evil and not a just government.

In support of his theory, Hamilton argues that strength, stability and vigor are natural attributes of good government; that government should have the support of wealth and class; that it should curb the states to "entire subordination" in order to overcome all local and sectional prejudices and influences and to control the people.

In support of his theory, Jefferson contended that government should not be subject to the powerful selfish interests of the rulers; that the central government should not exercise powers beyond the intent and the spirit of the Revolution. Jefferson had unlimited faith in the people, a large faith in their common sense. He believed that by education the ignorance of the people could be eliminated; that human nature is indefinitely perfectible; that majorities rule, therefore, not by force but by right.

This problem of how much authority should be given to the Federal Government and how much should be retained by the states is still with us today. Yes, it is just as much with us today as it was with the framers of the Constitution. Hamilton wanted to save the government from the harm of mob psychology; Jefferson wanted to save it from selfish interests. Today it is our task and duty to save it from both, by striking a balance as did our fathers between the Eastern and the Western philosophies.

FOR FREE GOVERNMENT.

Our government can be maintained free from these two extremes if we interpret the Constitution in accordance with the spirit and intention of the Declaration of Independence, and the preamble to the Constitution itself. Both of these great documents, if broadly interpreted, would conform to the clear and unsophisticated will and pleasure of the people and would not confuse their natural intentions.

Within the last month our two great political parties have held their conventions in preparation for one of the mightiest and gravest political battles in our history. The citizens who can separate the chaff from the wheat in a political campaign realize that the whole performance is a vivid demonstration of the strength of our democracy. Whatever our political preferences may be, the overwhelming majority of the people of this country feels that the continuance of our government in accordance with the principles of the Declaration of Independence is the paramount need of the nation.

While I do not contend that our form of government is beyond research and inquiry for its improvement and for the more efficient administration of the country's affairs, I am earnestly convinced that it is the best form of government man has ever been able to put into practice, and that within our form of government all reforms to further the blessings of liberty can be worked out, provided, that the level of public opinion is raised above the level of the last one third of a century. Let it not be said that we have not been as well governed during the last thirty-five years as we were during the last third of the last century, but I do say that the conception of

MAYOR MANSFIELD PAYS TRIBUTE TO SYRIAN AND LEBANESE PEOPLE IN CITY OF BOSTON FOR CONTRIBUTION THEY ARE MAKING TO PROGRESS AND ADVANCEMENT OF MUNICIPALITY—REJOICES IN OPPORTUNITY TO SO RECOGNIZE GROUP IN ADDRESS PREPARED FOR DELIVERY ON JULY 4 AT EXERCISES IN FANEUIL HALL, FEATURED BY ORATION DELIVERED BY FARIS S. MALOUF—ADDRESS READ BY ACTING MAYOR JOHN I. FITZGERALD AT REQUEST OF MAYOR.

In presenting Faris S. Malouf, chosen by Mayor Mansfield to be Independence Day orator at the Faneuil Hall exercises, Acting Mayor John I. Fitzgerald, who presided in the place of the Mayor, gave the following sketch of the orator's life, reading the address by request of Mayor Mansfield, who was unable to be present.

Mr. Malouf was born in the heart of the coastal chain of the mountains of Lebanon in Syria, on July 16, 1892. He is a descendant of a long line of educators and statesmen. His father was a physician; he received his preliminary education in Arabic with the children of his little mountain village at the hand of the parish priest, under an ancient church cedar tree of his native town. Primary importance in that simple school was given to character building. The training of children for the purpose of earning a living or for success in business or profession was but of small concern to the parents and teachers in the education of their children in Mr. Malouf's native town forty years ago. Reading, writing and honesty were the costs of a good schooling.

Less than two months after his fifteenth birthday, Mr. Malouf left his native land for America, arriving in New York on October 4, 1907. Seven days later found him traveling the dusty and muddy roads of Georgia, Alabama, Tennessee and the Carolinas as a pedler of dry goods and later as a salesman. Having never seen an English-speaking individual nor heard English spoken until he boarded the ship from Bologne, France, to New York, Mr. Malouf had for the first two weeks of his travel as a pedler to accompany him another countryman of his who had preceded him to Atlanta a year earlier. At the end of two weeks Mr. Malouf had learned about thirty English words and has been learning English ever since.

He was successful as a pedler and salesman but did not know how to take care of his health in a new climate, consequently he had to give up and come to Boston in April, 1909, where he engaged in many occupations from a factory worker at the weekly wages of \$7 to the management of an important manufacturing company. He tried his fortune in real estate, and in 1919 he began to attend evening school, beginning at the Franklin Evening School on Waltham street, and graduating with an LL.B. degree from the Northeastern University School of Law in 1928. He was admitted to the practice of law in Massachusetts on May 1, 1929, and during the following year was admitted to practice before the United States courts. He takes special pride in the fact that during his entire school period he was never absent from his classes and never failed in any test or examination. This is in keeping with a principle he often reiterates, "no excuse, no matter how valid, is good enough to take the place of a task well accomplished."

ACTIVE IN CIVIC AFFAIRS.

During his twenty-seven years in Boston Mr. Malouf has constantly engaged in public activities of civic, charitable and educational nature, especially helping to organize Syrian-American citizens clubs and in helping his alien people

to become naturalized American citizens. He held high offices in many such organizations, the latest of which was the presidency of the Syrian and Lebanese American Federation of the Eastern States, a federation composed of thirty-five Syrian and Lebanese American societies in the Eastern States and representing about 130,000 of his people, 40,000 of whom are in Massachusetts.

Mr. Malouf supports good government, regardless of parties, but believes in party responsibility.

His conception of the duties of all the immigrants to the United States is best expressed in the language used in the preamble of the constitution of the Syrian and Lebanese American Federation of the Eastern States, as follows:

"To support the Constitution of the United States; to strengthen their allegiance to its government; to encourage obedience to its laws and respect for its history and traditions; to instill among their groups due appreciation of the privileges of citizenship and the sacred duties attendant therewith; to perpetuate the racial contributions to civilization; to advocate world peace; and to unceasingly urge upon their organizations full participation in the civic, political, and social endeavors of this great Republic and its institutions, to the end that they may create in the communities where they may reside, a real adherence

to good government and uncompromising abhorrence of all forms of political corruption and social immorality."

INTEREST IN RELIGIOUS EDUCATION.

Not the least of his interest is found in religion and religious education. Notwithstanding his wide practice as a lawyer, he finds time to teach Sunday School and preach to many groups. He is a self-made man of culture and enjoys the highest confidence of his people.

I have long been of the opinion that representatives of the various races that make up our cosmopolitan citizenship ought to have the distinguished honor of delivering the patriotic address in Faneuil Hall on July 4th.

While our so-called Syrian colony in Boston is small, it is important and contains many of our very best citizens. They are models of industry, obey our laws cheerfully, and are typical of all that is best among the various European and Asiatic races that have mingled with our native population.

As Mayor of Boston, I am delighted to have the opportunity of recognizing the Syrian and Lebanese people, to thank them for the contribution which they are making to Boston as a municipality, and, through the orator of the day, Mr. Faris S. Malouf, their leader and champion, to recognize their importance as a unit in our modern civilization.

LAND-TAKING IN BRIGHTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Eaton street, Brighton district, as a highway, from North Harvard street to Sorrento street, with the name of Eatonia street or some other distinctive name, bounded and described as follows:

A highway named Eatonia street is hereby laid out, from North Harvard

street to Sorrento street, and ordered constructed, cost thereof to be charged to Federal Funds.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southwesterly by North Harvard street, forty and 7-100 feet; northwesterly by the northwesterly line of said Eatonia street as hereby laid out, four hundred eighty-seven and 4-100 feet; northeasterly by Sorrento street, forty

and 10-100 feet; and southeasterly by the southeasterly line of said Eatonia street as hereby laid out, four hundred eighty-one and 85-100 feet.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Eatonia street, formerly Eaton street, Brighton district, as a highway, from North Harvard street to Sorrento street, under the order of the Board of July 1, 1936, and awards no damages therefor.

JULY FOURTH ORATION.

(Continued from page 908.)

our social and moral obligations has not kept abreast of our scientific and economic progress. Hence most of our troubles.

No democratic government can ever hope to rise above, nor be afraid to sink below, the level where the will of the majority of the people want it to be. There is no danger that America will ever refuse to abide by the will of the majority; for that much we can be given credit. But the danger does not lie in that direction; the danger lies in the forces which influence the majority of the people. Nowhere else in the world do people enjoy as much political liberty as in the United States. We have taken political liberty for granted. We do not think any more about it than about the fresh air we breathe so freely. But unless freedom is founded on a clear conscience and a free soul it may be a curse to a nation and in time bring destruction upon it. Political liberty not supported by a moral and spiritual sense is nothing but a license in the hands of those who reach high positions of responsibility to indulge in graft and corruption, the devastating results of which no country, even one as strong and as rich as ours, can survive.

The Declaration of Independence of 1776 accounted the injuries and usurpations of the King of Great Britain, and the rights and liberties it demanded were political and commercial rights. If a new Declaration of Independence were to be written today, it would deal chiefly with social, moral and economic rights. It would condemn our thoughtlessness, our readiness to accept theories and promises without inquiry or without testing them in the light of experience, our eagerness to make money without giving a proper value for it, our readiness to confuse a false patriotism of compulsion with a true patriotism of the heart.

A new Declaration of Independence would demand that our different racial groups of foreign birth, whose good faith and earnest and careful desire to better their conditions brought them to this country, should make themselves one with the soul of this country. It would also demand that America, having in each generation benefited by the labors, sufferings, and thoughts of the foreign element to the extent of their great opportunities here, should respect them. It would be a just indictment of our democracy and a detriment to true civilization to exclude any creed or race within the United States from our respectful consideration in the social or political life of our country. The power underlying any true civilization is spiritual, and spiritual gifts are human assets which every nation should gather into its own treasure house.

A new Declaration of Independence would state that political freedom is of limited value unless it is accompanied by genuine social and economic freedom, and that these are essential to the maintenance of every democratic institution in the land.

In conclusion let me say, though we be not unmindful of the faults of this infant democracy, our convictions are deeply rooted, that here is a nation whose population has grown during one hundred and sixty years of its life from two millions,—the majority of whom were described in Emerson's immortal verse, as "Fishers, Choppers, and Ploughman," to the most powerful nation on earth, with one hundred and thirty million people leading the world in material as

well as spiritual wealth. Our country possesses untold possibilities of culture and power contributed by the various races that have come to this land and made it their home. It is a solid country of over three million square miles, the mountains and plains of which hold on their surface and in their depth untold wealth. Our brief but glorious history tells the story of men and women who labored and sacrificed so that these United States might forever be the "land of the free and the home of the brave." In the spirit of the forefathers let us again on this, our one hundred and sixtieth birthday, and on this sacred ground in Faneuil Hall, the "Cradle of Liberty," rededicate ourselves anew to national righteousness, to loyal adherence to the spirit and intent of our Declaration of Independence and our Constitution, so that we may continue to think, to plan, to construct, to improve and to serve the future, not only of ourselves, but of all mankind. Let us, under Almighty God, seek national righteousness with clean hearts and a new spirit. Thus we cannot fail.

POLICE DEPARTMENT ORDERS.

General Order No. 211.

The following-named patrolmen, transferred to the service of the Health Department on the dates hereinafter stated, under the provisions of chapter 450, section 7, Acts of 1889, as amended by chapter 287, Acts of 1911, are hereby returned to the service of the Boston Police Department and assigned to the police divisions hereinafter set out, on the respective rolls of which their names will be carried, instead of on the roll of the office of the Superintendent of Police, where they now appear, effective as of Friday, July 3, 1936, at 7.45 o'clock a. m.:

Patrolmen.

Oliver L. Brennan, from Superintendent's Office to Division 2, transferred to service of Health Department, June 1, 1928.

Patrick F. Concannon, from Superintendent's Office to Traffic Division, transferred to service of Health Department, June 4, 1930.

Everett P. Bostwick, from Superintendent's Office to Traffic Division, transferred to service of Health Department, March 11, 1929.

Mark S. Griffin, from Superintendent's Office to Division 2, transferred to service of Health Department, March 4, 1932.

Thomas F. Butler, from Superintendent's Office to Division 2, transferred to service of Health Department, October 27, 1933.

Amendment to Superintendent's Order.

Superintendent's order of July 2, 1936, detailing as of July 3, 1936, the above-named patrolmen from the Superintendent's Office to the police divisions named therein is hereby confirmed.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. MCSWEENEY,
Police Commissioner.

General Order No. 212.

Division commanders, subject to the approval of the Superintendent of Police, will detail officers exclusively to investigating, reporting and prosecuting automobile accidents for such periods as they may determine. This order is not to be construed as modifying in any way the excellent practice followed in some divisions of requiring all route or traffic

officers to handle personally all automobile accident cases coming to their attention while in the performance of duty.

Criminal prosecution of automobile accident cases shall be commenced within ten days, unless the division commander authorizes a longer period for investigation. In such cases the written records must state the reasons for such an extension of time. Before commencing criminal action commanding officers shall scrutinize all such cases, ascertain whether the officer has the facts and records properly assembled and otherwise instruct him in regard to the method to follow in handling these cases in accordance with proper police procedure.

Division commanders shall instruct their officers that in investigating these cases they shall report fully the facts in order that commanding officers may determine whether or not criminal prosecution should result. It must be borne in mind that the Police Department is not concerned with the question of civil liability.

All orders and rules and regulations inconsistent herewith are hereby rescinded.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. MCSWEENEY,
Police Commissioner.

CHANGE IN CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon July 8 the Acting Mayor approved the following request of the Superintendent of Construction, Department of School Buildings:

BOSTON, July 6, 1936.

HON. JOHN I. FITZGERALD,
Acting Mayor.

Re P. W. A. Project, Docket No. Mass. 1088R, Intermediate School, Dudley District.

DEAR SIR,—I respectfully ask your approval for the issuance of an order of change in contract of the Thomas O'Connor & Company, Incorporated, general contractors, for the erection and completion of the Dudley District School, Roxbury street, at Eliot square, Roxbury, Mass.

This amount is necessary in order to pay for additional work in connection with the foundations.

When the operations for the foundations were started they showed that the solid rock occurred at a lower elevation in the two wings than the borings indicated. This made it necessary to ask the State Director of the P. W. A. for his approval to issue a change order to cover the additional cost for excavating between the bottom of the footings as shown on the contract drawings and the actual elevations as they shall have to be built.

This work is to be paid for at the unit prices contained in the proposal, at a preliminary estimate cost of \$9,069. This change has been approved by the State Director of the P. W. A., with the understanding that an additional change will be requested (when the work is completed) for the difference between the estimated cost and the actual cost based on the unit prices in the proposal.

This change does not permit of delay. Hoping that this will meet with your Honor's approval.

Very truly yours,
WM. W. DRUMMEY,
Superintendent of Construction.

ACTING MAYOR JOHN I. FITZGERALD IN ADDRESS AT FANEUIL HALL ON JULY 4 SOUNDS WARNING AGAINST INTERNAL FOES AND AGITATORS WHOSE AIM IS BREAKDOWN OF GOVERNMENT BY CORRUPTION OF YOUTH OF LAND.

The following is the address of Hon. John I. Fitzgerald, Acting Mayor, at the Fourth of July exercises in Faneuil Hall on Saturday:

We are assembled here today to celebrate the one hundred and sixtieth anniversary of the signing of the Declaration of Independence, the immortal document which set forth the great principle of truth and justice that "all men are born free and equal, and are endowed by their Creator with certain inalienable rights, among which are life, liberty and the pursuit of happiness."

On this day, the Birthday of Liberty, we should stop and pause to consider the sacrifices that our forefathers made. They placed their all—life, liberty and worldly possessions—in jeopardy. The British Government classed them as traitors and offered a substantial reward for the arrest of the signers of the Declaration of Independence.

The signers laid the foundation for this government of ours and of our great United States.

For years this land has been looked upon as the land of opportunity, of promise and of freedom. Some of the older people and some of the parents of my listeners fled from far lands to our shores. They fled from lands of oppression and persecution. They who settled here were law-abiding, God-fearing and home-loving people. They worked hard, established homes for themselves

and brought up their families to be good citizens. They are the backbone of our great democracy. We are, to a certain extent, safe from invasion by a foreign nation, and we take it for granted that our safety is secure, and relax in our vigilance. This smug complacency should be thrown off. We have a foe much more dangerous within our gates—the domestic conspirators who poison the minds of our youth with propaganda—the paid hirelings of foreign nations. They use methods which are much the same as those of the high-pressure salesman—they are subtle, adroit and persuasive. They have gained control even of some of our colleges and universities. These agitators care not what they do, nor how they do it—their only aim is to overthrow our form of government. They form clubs and institute movements, using high-sounding phrases and honeyed words, and offer inducements to our young folks. They denounce men in public office, always with the aim to establish a socialistic form of government. Some of these radicals were undesirables in their native lands and others are the idle rich of this country.

If we firmly desire to hold our country and thus preserve it for future generations for "life, liberty and the pursuit of happiness," we must heed these words—"Eternal Vigilance is the Price of Liberty."

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made during the week ending Thursday, July 9:

ASSESSING DEPARTMENT.

The employment of Paul M. Finan as a provisional temporary first assistant assessor has been continued for an additional three months' period, effective July 3, at \$1,700 a year.

The payment of meal allowances to the employees of the Assessing Department, as indicated below, has been approved for extra service performed outside of regular office hours between June 9 and 20, in extension of tax rate on manuscripts and tax bills with a view to earliest possible bill delivery. In addition, approximately 800 hours of extra service were performed from May 25 to June 8, in order to expedite preparation of tax lists, during which no allowance for meals was provided. The total expenditure is \$298, for which provision is made in the 1936 Budget:

M. Ahearn, \$6; W. A. Bothwell, \$3; F. T. Browne, \$4; — Campbell, \$1; W. V. Doherty, \$10; J. P. Donovan, \$9; J. Fay, \$12; J. J. Hastry, \$9; M. Kelley, \$12; A. J. Leary, \$11; M. A. Malley, \$7; J. M. McDowell, \$9; J. L. Murphy, \$10; J. C. Parsons, \$7; T. O. Scottron, \$9; A. J. Fogarty, \$8; D. F. Ryan, \$7; J. B. Doherty, \$9; J. V. Mahan, \$6; J. J. Andreoli, \$6; C. J. Browne, \$4; J. B. Buckley, \$9; J. M. Devine, \$11; D. Donahue, \$5; J. Farrell, \$1; J. Hagerty, \$5; H. P. Ireland, \$10; S. Kostick, \$8; O. L. Lomasney, \$12; P. W. A. Maxwell, \$7; E. McHugh, \$11; W. J. Nash, \$3; L. D. Riley, \$12; W. J. Lynch, \$9; J. A. Coakley, \$11; C. Conley, \$11; R. Flynn, \$3; C. Mehegan, \$11.

AUDITING DEPARTMENT.

Joseph R. McHugh has been transferred from messenger in the Licensing Board to clerk at \$900 a year, effective July 17.

Joseph V. Fallon, clerk, now receiving \$1,500 a year has been granted a sliding scale increase to \$1,600 a year, effective July 3.

The following promotions have been approved to fill a vacancy due to the recent death of William D. Nagle:

City Budget.—Elisha N. Brady, from \$2,700 to \$2,900 a year; Paul H. Keating, from \$2,600 to \$2,700 a year; Edward F. Sullivan, from \$2,500 to \$2,600 a year; Martin A. Fulton, from \$2,300 to \$2,500 a year; James F. McClafferty, from \$2,100 to \$2,300 a year; Joseph P. Lally, from \$1,800 to \$2,000 a year; Edward F. Groden, from \$1,700 to \$1,800 a year; James A. Sullivan, from \$1,500 to \$1,600 a year; John G. Pickett, from \$1,400 to \$1,500 a year; William T. Doyle, from \$1,400 to \$1,500 a year; Robert G. West, from \$1,300 to \$1,400 a year; Edward M. Herlihy, from \$1,100 to \$1,200 a year.

County Budget.—John B. Callahan, from \$1,100 to \$1,200 a year.

DEPARTMENT OF SCHOOL BUILDINGS.

Joseph L. Quinn has been given another ninety days employment at \$40 a week as an architectural draftsman temporarily employed.

ELECTION DEPARTMENT.

Approval has been given for the appointment of James Semonian as a temporary assistant registrar, for a period of one month, effective July 8, at \$5 a day.

FIRE DEPARTMENT.

Capt. Michael Norton has been retired at \$1,350 a year, one half the annual compensation he is now receiving.

Permission has been given to place the name of Hiram Y. Waterhouse, chemist in the Public Works Department, on the pay roll of the Fire Department, beginning July 1, for a period of six months, at \$2,700 a year. The Fire Department has had to use his services in the past in connection with the operations of the Arson Squad and for other activities which required the services of a chemist. Because of this fact his time is divided between the two departments, and an agreement was reached with the Commissioner of Public Works that the Fire Department would carry him on its pay roll for six months and the Public Works Department would carry him for six months of the year. Arrangements have been made with the City Auditor to take care of this and the money for the position has been provided in the Fire Department budget.

HEALTH DEPARTMENT.

Approval has been given for the permanent appointment of Michael McCormack as food inspector at \$1,600 a year, effective July 3.

Approval has been given for the transfer of George Denvir from ward porter at the City Hospital to laborer at \$5 a day, seven days a week.

INSTITUTIONS DEPARTMENT.

The following changes have been made for the week ending Thursday, July 2:

Long Island Hospital.

Appointments: Timothy O'Leary, institution employee, choreman-chauffeur, \$600 a year, temporary; Mary F. Foley, institution employee, waitress, \$316 a year, temporary; William W. Walsh, institution employee, porter, \$526 a year, temporary; Cornelius J. Monahan, institution employee, helper in kitchen, \$526 a year, temporary; Dorothy J. Gately has been promoted to foreman from his present rating of inspector-clerk at a salary of \$2,200 a year. This promotion will permit the promotion of Albert P. McCann, clerk, present salary \$1,300, to be increased to \$1,500 a year.

Approval has been given to continue the temporary employment of John J. Callahan as plumber at \$6 a day, for three months from July 20.

Approval has been given to appoint John J. Callahan, now temporary plumber at \$6 a day in the Water Division, as permanent plumber at the same wages, to fill a vacancy in that division, effective July 10.

PUBLIC WORKS DEPARTMENT (Water Income Division).

Approval has been given to continue the temporary employment of John P. Finnegan as plumber at \$6 a day, for three months from July 12, installing new and taking out old water meters for repairs.

Approval has been given to continue the temporary employment of Albert B. Colantonio as meter reader at \$1,700 a year, for three months from July 24.

SOLDIERS' RELIEF DEPARTMENT.

The temporary employment of William J. Murphy in the capacity of visitor, at \$1,700 a year, has been extended for a period of three months beginning Sunday, June 28.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor and Acting Mayor.

BUILDING DEPARTMENT.

Upon July 7 approval was given by the Acting Mayor to award a contract to the City Building Wrecking Company to take down the buildings at 11, 11A, 15 and 17 Mead street, Ward 2, moving the material from the premises, for the sum of \$135. The following bids were received:

City Building Wrecking Company, \$135; Mystic Building Wrecking Company, Incorporated, \$255; New England Building Wrecking Company, \$295; American Building Wrecking Company, Incorporated, \$300.

PARK DEPARTMENT.

Upon July 7 permission was given by the Acting Mayor to award a contract to Groisser & Shlager Iron Works for furnishing and erecting steel framing for roof and ceilings for the Club House at the George Wright Golf Course, Hyde Park. Bids, opened Thursday, June 25, were as follows:

Groisser & Shlager Iron Works, \$9,835; West End Iron Works, \$10,687; New England Structural Company, \$12,590.

SUPPLY DEPARTMENT.

Upon July 1 permission was approved by the Mayor to award contracts as indicated for furnishing approximately 1,000,000 gallons gasoline for the various city departments, from July 15, 1936, to December 31, 1936, with the privilege of purchasing on the same terms and conditions to July 14, 1937. Bidders were requested to submit prices, exclusive of all Federal and State taxes.

To the Pennsylvania Oil Company, a low bidder, at a posted commercial consumer tank car price on the day of the opening of the bids of 7 cents a gallon, plus a differential of .25 cents a gallon, minus 1 per cent cash discount for payment in ten days, making a net price on the day of the opening of the bids of 7.1775 cents a gallon. At all times during the term of the contract (or any extension thereof) the maximum price (exclusive of all discounts) will be 8 cents a gallon.

The Pennsylvania Oil Company's posted commercial consumer tank car price on the day of the opening of the bids was 7 cents a gallon, while the posted commercial consumer tank car price of the major companies on that day was 7.5 cents a gallon. The Pennsylvania Oil Company has guaranteed that they will maintain a posted commercial consumer tank car price of one half cent (.5) a gallon under the posted commercial consumer tank car price of the major companies.

The approximate amount of the contract was \$72,500, plus the State tax of 3 cents a gallon or \$30,000, making a total of \$102,500.

Bids, opened June 18, were as follows:

Differential from Posted Commercial Consumer Tank Car Price at Time of Delivery.

—The Texas Company, plus .5 cent a gallon; The Quincy Oil Company, plus .4 cent a gallon; Lincoln Oil Company, minus .25 cent a gallon; N. M. Samya, as Superior Petroleum Products Company, plus .5 cent a gallon; Pennsylvania Oil Company, plus .25 cent a gallon; Bonded Oil System, Incorporated, plus .375 cent a gallon; American Oil Company, plus .5 cent a gallon.

Cash Discount, Ten Days. —The Quincy Oil Company, 1 per cent; Socony-Vacuum Oil Company, Incorporated, 2 per cent; Lincoln Oil Company, 1 per cent, thirty days; N. M. Samya, as Superior Petroleum Products Company, net, 15th proximo; Pennsylvania Oil Company,

1 per cent; Tide Water Oil Company, 1 per cent; Cities Service Refining Company, 2 per cent, thirty days; Bonded Oil System, Incorporated, 1 per cent; Colonial-Beacon Oil Company, Incorporated, 2 per cent.

Posted Commercial Consumer Tank Car Price on Day of Opening of Bids, Per Gallon.—The Texas Company, 7.5 cents; The Quincy Oil Company, 7.5 cents; Socony-Vacuum Oil Company, Incorporated, 7.5 cents; alternate, 7 cents; Lincoln Oil Company, 7.5 cents; N. M. Samya, as Superior Petroleum Products Company, 7.5 cents; Pennsylvania Oil Company, 7 cents; Tide Water Oil Company, 7.5 cents; Cities Service Refining Company, 7.5 cents; Shell Eastern Petroleum Products, Incorporated, 7.5 cents; Bonded Oil System, Incorporated, 7.5 cents; American Oil Company, 7.5 cents; Colonial-Beacon Oil Company, Incorporated, 7.5 cents.

Trade Name or Brand of Gasoline.—The Texas Company, Texaco Fire Chief, as per bidder's specifications; The Quincy Oil Company, Quincy Pow-R-Plus; Socony-Vacuum Oil Company, Incorporated, Mobilgas; alternate, Metro 65 Octane; Lincoln Oil Company, Koolmotor; N. M. Samya, as Superior Petroleum Products Company, Richfield Hi-Octane; Pennsylvania Oil Company, Powerful Penn; Tide Water Oil Company, Tydol Gasoline Octane 70; Cities Service Refining Company, Koolmotor; Shell Eastern Petroleum Products, Incorporated, Super Shell; Bonded Oil System, Incorporated, Essolene, refined by Colonial-Beacon Oil Company of Everett, Mass.; American Oil Company, Orange American; Colonial-Beacon Oil Company, Incorporated, Essolene, as per bidder's specifications.

Maximum Price, Exclusive of All Discounts, Per Gallon.—The Texas Company, 9 cents; The Quincy Oil Company, 7.9 cents; Socony-Vacuum Oil Company, Incorporated, 7.5 cents, less 2 per cent, ten days; alternate, 7 cents, less 2 per cent, ten days; Lincoln Oil Company, 8 cents; N. M. Samya, as Superior Petroleum Products Company, 9 cents; Pennsylvania Oil Company, 8 cents; Tide Water Oil Company, 8 cents; Cities Service Refining Company, 8 cents; Shell Eastern Petroleum Products, Incorporated, 8.5 cents; American Oil Company, 8.5 cents; Colonial-Beacon Oil Company, Incorporated, 7.5 cents.

Net Price on Day of Opening of Bids, Exclusive of all Federal and State Taxes.—The Texas Company, 8 cents; The Quincy Oil Company, 7.821 cents; Socony-Vacuum Oil Company, Incorporated, 7.35 cents; alternate, 6.86 cents; Lincoln Oil Company, 7.1775 cents; N. M. Samya, as Superior Petroleum Products Company, 8 cents; Pennsylvania Oil Company, 7.1775 cents; Tide Water Oil Company, 7.425 cents, Article 3 has been crossed out; Cities Service Refining Company, 7.35 cents; Shell Eastern Petroleum Products, Incorporated, 7.5 cents, Article 3 has been crossed out; Bonded Oil System, Incorporated, 7.79625 cents; American Oil Company, 8 cents; Colonial-Beacon Oil Company, Incorporated, 7.35 cents.

Upon July 1 permission was approved by the Mayor to award a contract to the New England Electric Supply Company for furnishing lead-covered cable for the Fire Department, the third lowest bidder, at a total price of \$3,507, less reels to be returned, \$200, making a net total price of \$3,307.

All bidders included the cost of reels in their bids on lead-covered cable, and

stated that reels will be credited at the full prices charged and named in their proposals, providing the reels are returned to bidder within twelve months in good condition.

The bid of the lowest bidder is disqualified because the bidder takes exceptions to Article 3 of the specifications which states that the Fire Department may purchase an additional 25 per cent of the estimated quantities called for in the proposal, if they so desire, at the same prices set forth in the proposal.

As the New England Electric Supply Company have had this contract for the past two years and the Fire Department reports that their service and cable were very satisfactory, it is felt that the best interests of the city would be served by awarding the contract to this company, in view of the fact that they are only \$3 higher than the second lowest bidder and but \$4.50 higher than the lowest bidder.

Bids, opened June 24, were as follows:

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with several concerns and firms and contractors for supplies, etc. Communications from the heads of the several departments interested were as follows:

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, July 1, 1936.

HON. FREDERICK W. MANSFIELD,

Mayor of Boston.

DEAR SIR,—Under an oral agreement with this department the Federal National Linen Service Company has been furnishing hand towels to the various offices in City Hall Annex. This agreement calls for bi-weekly delivery at \$35 a week.

The service rendered by this company in the past two years has been eminently satisfactory and there is nothing to be gained by considering a change or by advertising for bids for said service.

Inasmuch as the annual cost for this towel service totals in excess of \$1,000, I respectfully request permission to award a contract to the Federal National Linen Service Company in a sum in excess of \$1,000 and not in excess of \$1,820 without the usual form of advertising.

Respectfully yours,

ROSSELL G. HALL,

Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

BOSTON, July 7, 1936.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract for storing, deodorizing, disinfecting and washing garbage trucks for the Sanitary Division to the Modern Sanitary Truck Washing Company, 222 Quincy street, Dorchester, the only bidder, at an estimated cost of \$2,790.

The price bid for Item 1 (a) is to cover the months of August, September and October, and the price bid for Item 1 (b) is to cover the months of November and December, as stated in the specifications.

All work to be done under this contract is to be completed December 31, 1936.

The proposal of the Modern Sanitary Truck Washing Company was received and publicly opened and read July 3, 1936.

Respectfully yours,

C. J. CARVEN,

Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, June 26, 1936.

HON. FREDERICK W. MANSFIELD,

Mayor of Boston.

DEAR MR. MAYOR,—On May 25, 1936, your Honor approved my recommendation dated May 23, 1936, to award a contract for Becton-Dickinson hypodermic needles to the C. W. Broadbent Company, the lowest bidder, after public advertising, at the estimated total amount of \$3,415. The bid of the C. W. Broadbent Company was signed by Viola H. Broadbent, executrix of the estate of the late C. W. Broadbent.

I have been advised by the Law Department that inasmuch as the executrix has authority to conduct the business of her late husband only for a period ending May 15, 1936, and since the contract calls for deliveries until December 31, 1936 (and if the option provided for in the contract is exercised, until February 1, 1937), Mrs. Broadbent, as executrix, cannot properly execute or perform this contract. Mrs. Broadbent, through her attorney, has advised this department that she is willing to enter into the contract individually under the terms of her bid as executrix.

Inasmuch as readvertising would not, in my opinion, yield more favorable prices to the city, and inasmuch as the City Hospital has requested immediate delivery of part of the needles which are subject matter of the proposed contract, I respectfully request your permission to award a contract for the Becton-Dickinson hypodermic needles to Viola H. Broadbent at an estimated cost of \$3,415, without further advertising.

Respectfully yours,

D. FRANK DOHERTY,
Superintendent of Supplies.

BOSTON, June 26, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Noyes Buick Sales Company, 855 Commonwealth avenue, Boston, to deliver to the Election Department the following:

One new 1936 Model 81 Buick sedan, fully equipped and delivered, at a price of \$1,500.

As the Noyes Buick Sales Company are the New England agents for the manufacturers, nothing would be gained by publicly advertising.

Respectfully yours,

D. FRANK DOHERTY,
Superintendent of Supplies.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer of 10-inch pipe in Maple terrace, between Maple street and end of terrace, in the West Roxbury district, at an estimated cost of \$990.

A surface drain of 10-inch pipe and three catch-basins, W. P. A. Project, in Bogandale road, between Centre street and end of street, in the West Roxbury district, at an estimated cost of \$6,000.

ACTING MAYOR FITZGERALD ASKS FOR SANE OBSERVANCE OF JULY 4.

The following is a copy of a notice sent out by the Acting Mayor, John I. Fitzgerald:

BOSTON, July 3, 1936.

To the Citizens of Boston.

I urge the citizens of Boston to make this a safe and sane Fourth of July; to guard against accidents and injuries from fireworks at home, or accidents while bathing or motoring.

The Fourth of July has always left a toll of deaths and injuries, and I now urge all to celebrate in a glorious fashion, but to exercise caution more than usual.

JOHN I. FITZGERALD,
Acting Mayor.

FUNDS FOR NEW COURT HOUSE IN PROCESS.

The following is a copy of a telegram received from Congressman McCormack's secretary:

WASHINGTON, July 1, 1936.

HON. FREDERICK W. MANSFIELD, Office of the Mayor, City Hall, Boston.

In the absence of Congressman may I advise you letter received from Assistant Administrator Hackett, Public Works Administration, reads — "The study of the application for funds for the construc-

tion of a court house in Boston (P. W. A. Docket Mass. 1142) has been completed by the examining divisions and it has received their favorable recommendations. However, no allotments can be considered until funds recently authorized by Congress are made available to the Public Works Administration for allotment to non-Federal projects." Talked personally with Colonel Hackett, who states matter of allocation funds now before President Roosevelt for his consideration.

E. T. KINNALLY, Secretary,
Congressman John W. McCormack.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of establishing grade of La Grange street, West Roxbury district, from Washington street to Newton boundary line, substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said improvement, and that it appoints 11 o'clock a. m. of June 24, 1936, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

CORNELIUS A. REARDON,
Secretary.

In Board of Street Commissioners of the City of Boston, June 30, 1936.

Ordered, That this Board, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published June 12, 13, 1936, and June 15, 16, 1936, in the Boston Globe and Boston Post, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making, in said city, of the following public improvement:

The grade of La Grange street, from Washington street to the Newton boundary line, is hereby established and ordered constructed according to plans on file in the office of the Public Works Department of said city and marked as follows:

La Grange street, West Roxbury, Centre street to Vermont street, part No. 1, part No. 2, part No. 3, part No. 4, part No. 5, dated August, 1934; La Grange street, West Roxbury, Washington street to Centre street, part No. 1, part No. 2, part No. 3, part No. 4, part No. 5, part No. 6, part No. 7, part No. 8, dated July, 1934; La Grange street, West Roxbury, Vermont street to Newton boundary line, part No. 1, part No. 2, part No. 3, part No. 4, part No. 5, part No. 6, part No. 7, part No. 8, dated October, 1934.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of establishing grade of La Grange street, West Roxbury district, from Washington street to Newton boundary line, under the order of the Board of June 30, 1936, and awards no damages therefor.

CIRCULAR LETTER NO. 9.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR EXCAVATING, INSTALLING SERVICE PIPES, REPLACING BOXES, ETC. (WATER DIVISION), IN THE WEST ROXBURY DISTRICT.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for excavating, installing service pipes, replacing boxes, etc. (Water Division), in the West Roxbury district, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Excavating, Installing Service Pipes, Replacing Boxes, etc. (Water Division), in the West Roxbury District," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. on Friday, July 17, 1936, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor at the office of the Commissioner of Public Works. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

C. J. CARVEN,

(July 11.) Commissioner of Public Works.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

Coleman Brothers, Incorporated, have been granted a further extension of the time of completion of the contract for repairing and strengthening Chelsea Bridge North, over the Mystic river, from December 23, 1935, to July 15, 1936.

The reason for this extension is due to the wood block paving on the draw span. The paving was laid in December of 1935 as a temporary measure to allow for the opening of the bridge for traffic. The weather at that time was such that it was almost impossible to lay the blocks and properly seal the joints with asphalt. The contractor agreed to relay the paving, where necessary, when the milder weather arrived in the spring.

The Marine Company has been granted an extension of the time of completion of the contract for new floor for west shaft house, Calf Pasture pumping station, dated May 22, 1936, from June 22, 1936, to July 22, 1936, thirty days.

This extension of time is occasioned by the fact that the heavy I-beams required are not carried in stock at Boston, and were shipped from the steel mills of Philadelphia.

The Quincy Dry Dock and Yacht Corporation have been granted an extension of the time of completion of the contract for repairing hull, etc., of ferryboat "Charles C. Donoghue" from June 24, 1936, to July 15, 1936.

FINANCING SEWAGE WORKS BY SPECIAL ASSESSMENT IN IOWA.

The cost of constructing sewage disposal plants in a number of states, and in Iowa in particular, may be levied against the various lots, parts of lots or parcels of ground draining to or susceptible to drainage to, the site of the disposal plant. Such assessments must be in proportion to the benefits to each property and must not, in any case, exceed one-fourth of the fair value of the property in question. These special assessments are payable in the same manner as other municipal improvement costs; that is, in ten annual equal installments, paid at the same time and place as the March 1 installment of ordinary taxes in Iowa. Any property owner may pay off the unpaid portion of such tax at any time. Interest on the deferred payment must not exceed 6 per cent.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 28.

SATURDAY, JULY 18, 1936.

No. 29

BOSTON'S WELFARE RELIEF BURDEN SHOWING BIG DECREASE IN RECENT WEEKS, WITH NUMBER OF CASES BEING CARED FOR BY WELFARE DEPARTMENT LOWEST IN OVER FOUR YEARS—THOSE LISTED LAST WEEK ON DEPENDENT AID RECORDS NUMBERED 17,378, FULLY 7,000 UNDER RECORD—DROP BEING NOTED ALSO IN CASES HANDLED BY SOLDIERS' RELIEF DEPARTMENT—COLLECTIONS FROM OUTSIDE CITIES AND TOWNS AND ALSO ON ACCOUNT OF CITY HOSPITAL INDICATING IMPROVEMENT IN CONDITIONS FOR CITIZENS ALL OVER STATE.

Boston's welfare relief cases, according to reports issued this week from the departments in charge, are at the lowest reduction the city has known since the citizens began to feel the effects of the depression. The drop in welfare aid is noted most especially in the Welfare Department where, for the week ending July 11, the number of dependent aid cases was 17,378 as against 21,075 for the corresponding week in 1935.

The total number of relief cases listed by the Welfare Department for the week was 23,732 as against 26,760 for the same week in 1935. This latter figure not only includes those on the dependent aid list but also those receiving Mothers' Aid and Old Age Assistance. During the week the Welfare Department expended \$114,034.87 in relief, the previous week, \$115,786.39 and for the corresponding week of last year \$130,021. The department has expended to date this year \$3,986,356.61.

One noticeable feature of the work of the department has been the collections from outside cities and towns of the state for persons whose settlement was outside of Boston but who were aided by the city. The amount thus collected was \$285,400.09, while collections on account of the City Hospital amounted to \$42,597.36.

Although veterans' bonus payments, received June 15, benefited, theoretically at least, of the 1,307 families receiving aid in Boston under the Soldiers' Relief act up to May 31, only 181 cases were removed from the city's list up to June 30.

Whether the July monthly report will show a greater increase in self-sustaining veterans' families, remains to be seen.

A drop in the amount of aid paid out is seen to be proportionately greater than the number of cases dropped from the list. In May the expenditure under Soldiers' Relief was \$42,606; in June it dropped to \$25,818, nearly a third.

The Overseers of Public Welfare, administering non-military cases, announced that there were 213 less cases on their list of aid recipients than a week ago. The Overseers discounted 587 cases, but also added 348 new or recurrent cases.

ACTING MAYOR JOHN I. FITZGERALD WARNS OF DANGERS MENACING CITIZENS AT CHARLES AND CAMBRIDGE STREETS AS RESULT OF CHARLESBANK IMPROVEMENTS BY METROPOLITAN DISTRICT COMMISSION—ISSUES STATEMENT POINTING OUT HOW WISHES AND PLEASURES OF DISTRICT'S RESIDENTS HAVE BEEN ABRIDGED AND THREATENED.

Upon July 13 the following statement was issued by Acting Mayor Fitzgerald relative to the traffic dangers at the Charlesbank:

The Charlesbank Park was acquired and built by the City of Boston in 1883. It consisted of the first open air men's gymnasium in this country, at the Leverett street end, the women's gymnasium at the Cambridge street end, and mounds and grass plots between the gymnasiums.

Many of our leading athletes, and young men training for civil service positions, and boys of the district, made use of the gymnasium. Before damming the river in 1910 the people of the district enjoyed salt water bathing in bath houses adjoining the Charlesbank.

The Legislature in 1928 passed a resolve for an unpaid commission to make recommendations for the improvement of the basin. The commission was more interested in the realization of the fulfillment of a plan of artistic and esthetic purpose than the welfare of the people who used the Charlesbank. They did not hold the same high opinion of the Charlesbank as did Dr. Charles W. Eliot, President of Harvard College, when he said at a hearing before a legislative committee in 1901:

"Nor do municipalities exist for profit in money but for the people who live in them, and the supreme object of any city should be the happiness of the community."

The committee report dated February, 1928, showed their utter disregard, in fact, contempt, for the welfare of the people of the West End by saying:

PROPOSALS ADVERTISED.

Bids have been asked by advertisement in the *City Record* for the following departments. The attention of contractors and others is especially called to the closing time of receipt of such proposals. This will be published weekly.

DEPARTMENT OF SCHOOL BUILDINGS.

Advertises for proposals for alterations in the Washington School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of \$5,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, July 29, at 2 p. m.

Advertises for proposals for furnishing and installing furniture and equipment in the addition to the English High School. Surety bond will be required in a sum

"It is true that the Charlesbank Gymnasium is of great benefit, but it is at best of limited area, and certainly does not constitute a sufficient reason for declining to take advantage of the great opportunity offered by the Charles River Basin. . . ."

The commission, among other ideas, recommended a sunken roadway to be built on the embankment from the West Boston Bridge, running parallel to Charles river, up above Harvard Bridge. The residents of Beacon street appeared in force at the hearing and as a result of their strenuous objection the plan was dropped.

Under chapter 371 of the Acts of 1929, approved June 6, 1929, Part II, Section 12, provisions were made for

(a) A vehicular circle at Cambridge street.

(b) A vehicular circle at the dam.

(c) Widening of Charles street.

It provided that the City of Boston should pay the cost of that section between West Boston Bridge and the dam. All other improvements were taken care of by the Metropolitan District Commission.

It must be borne in mind that the fundamental and underlying idea of every plan was that it should result in a beautification of the Charles River Basin, and at the same time provide for recreational facilities for the enjoyment of the citizens.

As the plan was carried out, the Charlesbank was taken away from the people, and in its stead a race track for speeding automobiles developed. There have been many serious and fatal accidents on this highway. It is impossible for women and children to cross this street, to and from the park, without endangering their lives.

equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. POLICE DEPARTMENT ORDERS.

General Order No. 213.

A trial board, consisting of Captains Gleavy, Connolly and Wall, having heard by reference a complaint made by Capt. Francis M. Tiernan, Division 16, against Daniel F. Hurley, patrolman, Division 16, for alleged violation of Rule 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification 1: In that on the 24th day of June, 1936, Patrolman Daniel F. Hurley did fail to report for duty at the 5.45 p. m. roll call.

Specification 2: In that on the 24th day of June, 1936, Patrolman Daniel F. Hurley, while in uniform and not on duty, was under the influence of intoxicating liquor to such an extent that he would be unable to properly perform police duty if called upon so to do,—has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence, accepts the plea of guilty; and in view of the excellent character given Patrolman Hurley by his commanding officer; also the recommendation by his commanding officer that he not be suspended from duty (this being the first time Patrolman Hurley had charges preferred against him); further, his promise to refrain from the use of intoxicating liquor in the future,—the Board respectfully recommends that Specification 1 be placed on file and that on Specification 2 the said Patrolman Daniel F. Hurley perform 210 hours of punishment duty."

The commissioner accepts the finding and recommendation of the Trial Board and hereby orders that the said Patrolman Daniel F. Hurley shall perform 210 hours of punishment duty.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. MCSWEENEY,
Police Commissioner.

CONGRESSMAN McCORMACK WRITES MAYOR OF EFFORTS FOR NEW COURT HOUSE FUND.

The following is a copy of a letter received by Acting Mayor Fitzgerald from Congressman John W. McCormack:

July 10, 1936.

HON. JOHN I. FITZGERALD, Acting Mayor, Boston.

DEAR MR. MAYOR,—I am very pleased to forward you the within letter which I have just received from President Roosevelt in relation to the Suffolk County Court House. I am forwarding this so that the same can be made a part of the file in the Mayor's office.

I am following this matter very closely and will do everything within my power to prosecute to a successful end the approval of a grant by the Federal Government.

With best wishes, I am,

Sincerely yours,

JOHN W. McCORMACK.

THE WHITE HOUSE,

WASHINGTON, July 7, 1936.

MY DEAR MR. McCORMACK,—I have your letter of July third in which you urge the allocation of funds to project Massachusetts 1142, Suffolk County Court House, Boston, Massachusetts.

The Administrator of Public Works informs me that this application has been approved by the examining divisions of the Public Works Administration and that it is among the list of projects now being considered for allocation of funds for the State of Massachusetts.

Very sincerely yours,

FRANKLIN D. ROOSEVELT.

Hon. John W. McCormack,
House of Representatives,
Washington, D. C.

APPEAL TO MAYOR FOR OLYMPIC TEAM FUNDS.

Upon July 10, the following was issued by Hon. John I. Fitzgerald, Acting Mayor of Boston:

A telegram sent to Mayor Mansfield by Avery Brundage relative to raising funds for the American Olympic Team has been received at the Mayor's office. The telegram reads as follows:

"It appears that New England will probably have a score of athletes on American Olympic Team. Very little money has been raised in your community to pay their expenses. Boston sportsmen will contribute if approached with able leadership. New England will certainly take care of its own as other sections are doing. Will you take charge and raise ten thousand for team before next Tuesday?"

The following are members of the American Amateur Athletic Union:

J. Frank Facey, George V. Brown, Herbert Holm, Herbert Forsell, Alfred J. Lill, Charles F. Gorman, William J. Bingham.

Contributions in response to the telegram from Mr. Brundage may be sent to Mr. J. Frank Facey, at 36 Prospect street, Cambridge; George V. Brown, in care of Boston Garden, North Station, Boston, or to any of the other above-mentioned members of the A. A. U.

BUILDINGS RAZED.

The Acting Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

The building at 961-965 Bennington street, Ward 1, all windows and doors are missing, foundation settled, showing fractures throughout, 18 inches of water in basement, condition is a fire hazard and a menace. The owner, Anna M. Rawson of 32 Montmorenci avenue, East Boston, was notified of the unsafe condition of the building, but nothing has been done to remove the cause for com-

plaint. The case was referred to the Law Department for prosecution and on July 1 the owner defaulted.

The building at 51 Brookside avenue, Ward 11, the doors and windows are broken, open to trespass and a fire menace. The owners, John Gorman Estate, Thomas Kelly, executor, 90 Fisher avenue, Roxbury, and Mary Gorman of 69 Chelmsford street, Dorchester, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause for complaint.

The building at 40 Lamson street, Ward 1, the building is badly dilapidated

and dangerous, a fire hazard, open to wind and weather. The owner, Theresa R. Palladino of 56 Irving street, West Medford, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause for complaint.

The building at 58 Austin street, Ward 2, is in a dilapidated condition, windows broken and missing, doors broken, rear side wall sills and studs rotted, wood ell rear rotten and falling down, plate glass in store window gone, opening boarded up, front door open to public, a fire hazard. The owner, Terrance O'Connor Estate, Margaret M. O'Connor, trustee, of 14 Mapleton street, Brighton, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause for complaint.

The buildings at 11, 11A, 15 and 17 Mead street, Ward 2, are open to trespass, dilapidated and a fire menace. The owner, John Melvin Estate, Ida A. Frost et al., trustees, 37 Thomas road, Swampscott, has been notified of the unsafe condition of the buildings, but nothing has been done to remove the causes for complaint.

The building at 4 Codman place, Ward 11, this vacant dwelling has settled on east side and is out of plumb approximately 1 foot 8 inches, unsafe and dangerous. The owners, David W. Butterfield Estate, Frank Kopelman and W. H. Watson, Commissioners in Insolvency, 85 Devonshire street, Boston, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause for complaint.

The building at 33 Pierce street, Ward 18, the piazzas are unsafe and dangerous, the rails are loose and missing, the posts are rotted and out of plumb, extensive repairs necessary to make them safe. The owner, Gedahli Kotkov of 246 Hyde Park avenue, was notified of the unsafe condition, but nothing has been done to remove the cause for complaint.

The building at 218 Marginal street, Ward 1, part of foundation missing, doors and windows gone, leaving building open to trespass and a fire menace. Have been unable to locate the owner of record, Annie Reed, but a notice of the unsafe condition has been posted on the external wall of the building. Nothing has been done to remove the cause for complaint.

The building at 216 Marginal street, Ward 1, the roof is badly leaking, plaster of ceilings gone, doors and windows missing, building dilapidated and a fire menace, unsafe and dangerous. The owner, Sessa Swenson of Marblehead street, North Reading, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause for complaint.

HISTORICAL DATA ABOUT WARDS.

The term "ward" first appears in a fire-protection order, approved by the Town on August 29, 1679, dividing the Town into 4 quarters with 2 wards each. The 8 wards had previously been military districts.

On August 11, 1713, the Selectmen "agreed upon a distribution of the Town into distinct Wards or Precincts."

On February 1, 1715, it was "voted to make a new division of the Town into eight distinct Wards."

On March 9, 1735, it was voted to divide the Town into 12 wards to facilitate the work of the Overseers of the Poor.

On March 13, 1822, the Selectmen divided the Town into 12 wards on the basis of the U. S. Census of 1820.

By an ordinance which took effect on the second Monday of December, 1838, there was a revision of the wards.

On April 29, 1850, the City Council accepted Chap. 167 of the Acts of 1850, which altered the wards on the basis of legal voters rather than on the number of inhabitants.

By ordinance taking effect on November 15, 1865 new ward lines were established.

In the annexation period, 1865-1875, the number of wards was increased from twelve to twenty-one.

By Chap. 243, Acts 1875, the City Council was ordered to cause a new division of the City into twenty-four wards in the year 1875 in such manner as to include an equal number of voters in each ward. This division was made, taking effect on December 13, 1875. On May 27, 1876, the City Council, in accordance with Chap. 242, Acts of 1876, divided one of the wards in two, making a total of 25 wards for the City.

By ordinance passed April 20, 1895, under authority of Chap. 437, Acts of 1888, and Section 96 of Chap. 417, Acts of 1893, ward lines were established on the basis of the number of voters registered at the City election of 1894, there still being 25 wards.

The annexation of Hyde Park, effective January 1, 1912, made an additional ward.

By enactment of December 28, 1914, under authority of Chap. 630, Acts of 1914, the City Council redivided the City into 26 wards.

The latest redivision, established December 30, 1924, under authority of Chap. 410, Acts of 1924, consists of 22 wards.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 29, 1936.

Regular meeting of the City Council of the City of Boston held in the City Council Chamber at two o'clock p. m., President FITZGERALD in the chair, and all the members present except Coun. Doherty.

WEIGHERS OF COAL.

The following was received:

City of Boston,
Office of the Mayor, June 29, 1936.
To the City Council.
Gentlemen—Subject to confirmation by your Honorable Body I hereby appoint the following named as weighers:
Weighers of Coal: Charles F. Haggerty, 16 Kahler avenue, Milton, Mass.; Joseph J. Pszeny, 11 Boardman street, Salem, Mass.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Laid over for one week under the law.

JOYCE KILMER PARK.

The following was received:

City of Boston,
Office of the Mayor, June 11, 1936.
To the City Council.
Gentlemen—I have approved the order adopted by your Honorable Body on May 25, 1936, requesting the Park Commission to name the recreational park on Centre street, West Roxbury, opposite the Veterans of Foreign Wars Highway, the Joyce Kilmer Park, in honor of America's soldier poet of that name.
I have been informed by the chairman of the Park Department that signs designating the area as Joyce Kilmer Park will be erected immediately.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

TRAFFIC SIGNAL LIGHTS, WARD 14.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1936.
To the City Council.
Gentlemen—I transmit herewith two letters from the Traffic Commission relative to your two orders of May 18, 1936, concerning the installation of automatic traffic signal lights at the following locations:
1. Talbot avenue, Harvard street and Blue Hill avenue, Ward 14.
2. Intersection of Warren and Waumbek streets and Elm Hill avenue.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Traffic Commission, June 25, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir—I have the honor to acknowledge receipt of Council order dated May 18, 1936, which reads as follows:

"Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install automatic traffic signal lights at the intersection of Talbot avenue, Harvard street and Blue Hill avenue, Ward 14."

To properly signalize this area it would be necessary to include Angell street, so that the signalized intersection would then properly be Angell street, Blue Hill avenue, Harvard street and Talbot avenue.

The cost of a traffic signal at this location is estimated at \$4,500.
At the present time there are no funds available for this installation.

Respectfully yours,
OWEN A. GALLAGHER,
Acting Commissioner.

City of Boston,
Traffic Commission, June 25, 1936.

APPROVAL OF APPOINTMENT OF JAMES A. BUCKLEY.

The following was received:

City of Boston,
Office of the Mayor, June 15, 1936.
To the City Council.
Gentlemen—I transmit herewith a letter from the Corporation Counsel relative to your order of May 11, 1936, concerning the status of James A. Buckley as clerical assistant of the Municipal Court of the Charlestown District.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Law Department, June 13, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor—I have received a memorandum from your office submitting the following order of the City Council, passed on May 11, 1936:

"Ordered, That his Honor the Mayor, the Budget Commissioner and the Law Department be requested to approve James A. Buckley as clerical assistant of the Municipal Court of the Charlestown District, as of November 16, 1935, at a salary of \$1,700 per annum and said salary to be increased at the rate of \$100 per annum until the amount of \$2,200 be reached; said James A. Buckley having been legally appointed to the said position of clerical assistant on the said 16th day of November, by the Clerk of the Municipal Court of the Charlestown District according to General Laws, chapter 218, section 69."

At a meeting of the Committee on Appropriations of the City Council held on May 22, 1936, which was attended by a representative of this department, my opinion was requested as to whether or not (1) the approval of the Justice of the Municipal Court of the Charlestown District is a condition precedent to the effective appointment by the clerk of said court of a second assistant clerk of said court, (2) the clerk of said court may properly and effectively appoint a clerical assistant without the approval of said justice and (3) James A. Buckley had been properly and effectively appointed clerical assistant in said court by the said clerk on or about November 16, 1935.

I have been advised by the Budget Commissioner that on November 16, 1935, James J. Mullen, clerk of said court, notified the Budget Commissioner that he (said clerk) had that day "appointed Peter J. Flaherty as second assistant clerk of this court, at a salary of twenty-two hundred and fifty dollars per an-

num, to fill the vacancy caused by the death of Maurice M. Hurley" and "appointed James A. Buckley as senior clerk of this court, at a salary of seventeen hundred dollars per annum, to fill the vacancy caused by the promotion of Peter J. Flaherty." Prior to May 22, 1936, Mr. Mullen and Honorable Charles S. Sullivan, Justice of said court, had advised me that the Justice had not approved the purported appointment of said Peter J. Flaherty (who, prior to and on November 16, 1935, was clerical assistant of said court) as second assistant clerk of said court (the Justice stating that the purported appointment had never been properly presented to him).

I have also been advised by the Budget Commissioner that the 1935 and 1936 budgets, approved by you, include an item for one senior clerk (the designation for clerical assistant) for the Municipal Court of the Charlestown District, and that by the County Compensation and Classification Plan (hereinafter referred to) the compensation for said senior clerk is fixed at a minimum annual salary of \$1,700 with an annual increment of \$100 until the maximum annual salary of \$2,200 is reached.

On May 27, 1936, the Budget Commissioner transmitted to me a copy of a letter from James J. Mullen, clerk of said court, to him dated May 23, 1936, in which Mr. Mullen notified him that on said date he appointed Peter J. Flaherty second assistant clerk to fill the vacancy caused by the death of Maurice M. Hurley, that said appointment had been approved by Honorable Charles S. Sullivan, Justice of said court, and that he (Mr. Mullen) had, on said date, appointed James A. Buckley senior clerk of said court to fill the vacancy caused by the promotion of said Peter J. Flaherty. The Budget Commissioner also transmitted a copy of a letter from said Justice to him dated May 26, 1936, in which the Justice notified the Budget Commissioner that "there has been no senior clerk appointed in the Municipal Court of the Charlestown District," and stated further the following:

"... As standing Justice of that court, I am the only one who can make such an appointment."

"My official position is tantamount to that of a head of the department, and under the County Compensation Plan, Document 55 of 1931, clerks of that nature are appointed by the head of the department."

I have been advised by Charles S. O'Connor, Clerk of the Supreme Judicial Court for Suffolk County, James F. McDermott, Clerk for Civil Business of the Superior Court for Suffolk County, William M. Prendible, Clerk for Criminal Business of the Superior Court for Suffolk County, William F. Donovan, Clerk for Civil Business of the Municipal Court of the City of Boston, and William D. Collins, Clerk for Criminal Business of the Municipal Court of the City of Boston, that the uniform practice has been for such clerk to appoint clerical assistants without reference of the appointments to any of the justices of his respective court for approval. John T. Lane, Clerk of the Boston Juvenile Court, has informed me that there are no clerical assistants in said court.

Daniel J. Falvey, Deputy City Auditor, has informed me that the practice in the matter of appointments of clerical assistants by clerks of the district courts in Suffolk County (other than the Municipal Court of the City of Boston) has not been uniform; that in most cases, notices of such appointments have not contained any statement as to approval of the appointment by the justice; but that in a few instances, the notices of such appointments have contained a statement by the clerk or the justice to the effect that the justice of the court has approved the appointment.

Section 10 of chapter 218 of the General Laws (Ter. Ed.) provides as follows:

"The clerk of a district court may, subject to the approval of the justice, appoint one or more assistant clerks, who shall be removable at his pleasure or at the pleasure of the court, for whose official acts the clerk shall be responsible and who shall be paid by him unless salaries payable by the county are authorized in this section or in section fifty-three. Assistant clerks with salaries payable by the county may be appointed in ... the municipal court of the Charlestown district."

"... Second assistant clerks with salaries payable by the county may be appointed in ... the municipal court of the Charlestown district, ..."

Section 69 of said chapter 218 provides as follows:

"The clerk of each district court, except the clerks of the municipal court of the city of Boston for civil and criminal business, shall be allowed annually for clerical assistance such amount as the mayor of the city of Boston, if the district court is in Suffolk county, ... may approve."

Prior to the effective date of chapter 301 of the Acts of 1931 entitled,—

"An Act Making Certain Adjustments in the Provisions of the General Laws Relative to County Offices and Positions, in Consequence of the Enactment of Laws Providing for the Classification of Certain of Such Offices and Positions, and Otherwise Perfecting Said Provisions, and Also Clarifying by the Elimination of Redundant Language and Otherwise the Provisions of said General Laws Relative to State Offices and Positions Subject to Classification."

section 33 of which amended section 69 of chapter 218 of the General Laws, so as to provide as above set forth, said section 69 provided as follows:

"The clerk of each district court, . . . shall be allowed annually for extra clerical assistance such amount as the mayor of the city of Boston, if the district court is in Suffolk county, . . . may approve, upon the certificate of the justice and clerk that extra clerical assistance was actually performed and necessary, stating the names of the persons by whom it was performed and the time occupied."

Section 49 of chapter 35 of the General Laws as most recently amended by section 1 of chapter 182 of the Acts of 1935, provides as follows:

"Every office and position whereof the salary is wholly payable from the treasury of one or more counties, or from funds administered by and through county officials, except the offices of county commissioners and associate county commissioners, justices and special justices of the district courts, clerks and assistant clerks of the district courts other than the municipal court of the city of Boston, trial justices, other offices and positions filled by appointment of the governor with the advice and consent of the council, and probation officers, . . . shall be classified by the board in the manner provided by sections forty-eight to fifty-six, inclusive, and every such office and position, now existing or hereafter established, shall be allocated by the board to its proper place in such classification."

Section 51 of said chapter 35 provides as follows:

"The board shall (a) pass upon and finally adopt and put into effect, with such modifications, changes and additions as it shall deem proper, the classification and compensation plans and rules for their administration proposed by the director of accounts under section fifty: . . ."

Section 56 of said chapter 35 provides as follows:

"For Suffolk county, the duties prescribed for the board by section fifty-one, . . . shall be performed by the city council of the city of Boston, subject to the provisions of the charter of said city; the duties prescribed by sections forty-nine to fifty-five, inclusive, for the director of accounts shall be performed by the budget commissioner of said city, and all other duties prescribed and powers conferred by said sections forty-nine to fifty-five shall be performed by the mayor of said city. . . ."

Pursuant to the provisions of chapter 400 of the Acts of 1930 (incorporated in sections 48 to 56, inclusive, of said chapter 35), the Budget Commissioner proposed compensation and classification plans for the officers and employees of Suffolk County and rules for the administration thereof which were adopted by the City Council on April 13, 1931, and approved by the Mayor on April 15, 1931. (City Document 55, 1921.)

Paragraph 12 of said rules provides as follows:

"Any recommendation for promotions, transfers and new appointments shall be submitted, in writing, by department heads to the Budget Commissioner. Such recommendation, if conforming to the classifications and compensation plans and rules, shall be approved by the Commissioner. . . ."

Section 70 of chapter 218 of the General Laws (Ter. Ed.) provides as follows:

"The clerks of the municipal court of the city of Boston for civil business and for criminal business and the clerk of the Boston juvenile court shall each be annually allowed for clerical assistance such amounts as the majority of the justices of said municipal court and the justice of said Boston juvenile court, respectively, may recommend, subject, however, to the approval of the officers having in Suffolk county the powers of county commissioners."

Section 102 of chapter 221 of the General Laws (Ter. Ed.) provides as follows:

"The clerks of the courts in the several counties, the clerk of the supreme judicial court for Suffolk county and the clerks of the superior court for said county shall each be annually allowed for clerical assistance, to be paid by their respective counties, such amounts as shall be approved by the county

commissioners in a writing signed by them or, in Suffolk county, by vote of the officers having in said county the powers of county commissioners."

1. It is my opinion that the approval of the Justice of the Municipal Court of the Charlestown District is a condition precedent to the effective appointment by the clerk of said court of a first assistant clerk or a second assistant clerk of said court (General Laws, chapter 218, section 10).

2. Based upon the language and history of section 69 of chapter 218 of the General Laws, however, it is my opinion that said clerk may properly and effectively appoint a clerical assistant without the approval of said justice. Allowance to the clerk of an amount for clerical assistance must import the power in the clerk to determine what person or persons shall render such clerical assistance, subject, of course, to the power in the Mayor to limit such amount. Even if the interpretation of section 69 be deemed doubtful or ambiguous, the uniform practice in the matter of appointment of clerical assistants in the offices of the Clerk of the Supreme Judicial Court for Suffolk County, of the Superior Court for Suffolk County, both for civil and criminal business, and of the Municipal Court of the City of Boston, both for civil and criminal business (see similarity of language of section 70 of chapter 218 and section 102 of chapter 221 to said section 69), and the predominating practice in the matter of such appointments in the other district courts for Suffolk County (with the possibility that in these exceptional cases the request for approval of the Justice may have been a matter of courtesy rather than an interpretation of compliance with a legal requirement) would be entitled to great weight and would resolve any such doubt or ambiguity.

See

Burrage v. County of Bristol, 210 Mass. 299.

Tyler v. Treasurer & Receiver General, 226 Mass. 306, 310.

Scott v. Commissioner of Civil Service, 272 Mass. 237, 241.

Power's Case, 275 Mass. 515, 518.

Such power to appoint clerical assistants without the necessity of judicial approval (subject to the express statutory limitation of approval by the Mayor as to the amount to be expended for such assistance) is consistent with the authority of "a public officer clothed with official functions of a highly important nature," to quote the language used by Chief Justice Rugg in defining the duties of a clerk of a district court in Suffolk County in *O'Connell v. Retirement Board of Boston*, 254 Mass. 404, 406.

While paragraph 12 of the rules for the administration of the County Compensation and Classification Plans provides that recommendations for new appointments shall be submitted, in writing, by department heads to the Budget Commissioner, it is my opinion that such rule should not be construed to mean that clerical assistants in the district courts should be appointed by the Justice of the respective court. Such construction would, in my opinion, invalidate said rule, in view of the provisions of said section 69.

3. Based upon the facts furnished me, it is my opinion that Peter J. Flaherty was not properly and effectively appointed second assistant clerk of said court until May 23, 1936; that at least from November 16, 1935, until May 23, 1936, there was no vacancy in the position of clerical assistant of said court; and that as the Mayor had not approved an amount for clerical assistance in excess of the amount of salary of one clerical assistant of said court, James A. Buckley was not properly and effectively appointed clerical assistant of said court until May 23, 1936.

Since the Committee on Appropriations of the City Council has requested my opinion as to the matters herein set forth, I should appreciate your transmitting a copy of this letter to such committee.

Very truly yours,

HENRY E. FOLEY,
Corporation Counsel.

LOAN FOR HOSPITAL BUILDING.

The following was received:

City of Boston,
Office of the Mayor, June 29, 1936.
To the Honorable the City Council.
Gentlemen,—On February 26, 1934, your Honorable Body gave its second and final reading and passage to a loan order, under the provisions of chapter 366 of the Acts of 1933, in the sum of \$1,500,000, for new buildings and alterations, and on April 9, 1934, your Honorable Body authorized me to enter into a grant agreement with the United States of America for a grant to the city to aid in financing said project.

I am transmitting to your Honorable Body copy of a letter from the President of the Board of Trustees of the Boston City Hospital to me dated June 29, 1936, in which he requests the appropriation of the additional sum of \$70,000 in order fully to furnish and equip the new Surgical Operating and Ward Building, and in which he states that said building will be ready for occupancy "perhaps in the early fall."

I submit to your Honorable Body form of loan order for said additional sum of \$70,000 and recommend immediate consideration and adoption by your Honorable Body of said order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Hospital Department, June 29, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—The new Surgical Operating and Ward Building, which is now completed, has been turned over to us and is ready for occupancy.

When it was originally estimated that the cost of the building would be \$1,500,000, it was contemplated that said sum would be only enough for the building itself, without the increase in the Power Plant of the Main Building (because of the additional load due to the new Surgical Operating and Ward Building) and without the furniture and equipment necessary in order fully to equip the building for use.

Because the contract sum for the building was lower than anticipated, \$100,000 became available for the Power Plant and approximately \$80,000 is now available for furniture and equipment. The total estimated cost of all furniture and equipment for the entire building is, however, \$150,000, and the sum of \$70,000 will be needed in order completely to equip the Surgical Operating and Ward Building for use so that it will be ready to open perhaps in the early fall.

I therefore respectfully request that an additional appropriation, in the sum of \$70,000, be made for furnishing and equipping the Surgical Operating and Ward Building; and since there is a possibility of an additional grant from P. W. A., I recommend that an application for such additional grant be made to the Federal authorities.

Yours sincerely,
JOSEPH P. MANNING,
President, Board of Trustees.

Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof and in addition thereto, the sum of \$70,000 be, and hereby is, appropriated, to be expended under the direction of the Hospital Trustees for New Buildings and Alterations and Equipment, in addition to the sum of \$1,500,000 appropriated so to be expended for said purpose by order given its second and final reading and passage on February 26, 1934, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount of \$70,000, the same to be issued outside the limit of indebtedness.

Coun. DOWD—As chairman of the Finance Committee I feel, in view of the fact that the Surgical Building should be opened as soon as possible, the matter might be referred to the Executive Committee with the hope we might be able to give it one reading today. In other words, the hospital has been fully completed for the last two months and I feel we should do everything in our power to assist in opening it. While we are not to blame for the order coming in at this late date, nevertheless the hospital should be equipped and I request we give it first reading today.

Referred to the Executive Committee.

TRANSFER FOR HOSPITAL PROJECT.

The following was received:

City of Boston,
Office of the Mayor, June 29, 1936.
To the City Council.
Gentlemen,—I am in receipt of the inclosed communication from the President of the Board

of Trustees of the Boston City Hospital requesting a transfer of \$20,000 from the Reserve Fund to the H, Relief Projects item in the hospital budget for the current year.

This sum is necessary to maintain the same number of men now at work at the hospital on W. P. A. project. I therefore submit herewith an order providing for the transfer of the above mentioned sum from the Reserve Fund and respectfully recommend adoption by your Honorable Body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Hospital Department, June 25, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—In order to take care of the needs of the W. P. A. beyond June 30, and up until August 1, it will be necessary to have \$20,000.

This amount will carry us until the large appropriation has been made.

Yours sincerely,
JOSEPH P. MANNING,
President, Board of Trustees.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$20,000, to the appropriation for Hospital Department, H, Relief Projects, \$20,000.

Referred to the Executive Committee.

APPROPRIATION FOR RANDIDGE FUND EXCURSIONS.

The following was received:

City of Boston,
Office of the Mayor, June 23, 1936.
To the City Council.

Gentlemen,—The chairman of the Park Commissioners informs me that an appropriation of \$5,000 will be required for transportation and incidental expenses in connection with excursions to be arranged under the Randidge Fund for children in various sections of the city. I believe this to be a project of exceptional merit and accordingly am submitting herewith an order providing for the appropriation of the necessary amount, the same to be charged to the Reserve Fund.

I respectfully recommend adoption of the accompanying order by your Honorable Body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That the sum of \$5,000 be, and the same hereby is, appropriated, to be expended by the Board of Park Commissioners, for recreation purposes, by the transporting of children from the various parts of the city to certain recreational centers within and without the limits of the city, and for other incidental expenses in connection therewith, said sum to be charged to the Reserve Fund.

Referred to Executive Committee.

RESCISSION OF LOANS.

The following was received:

City of Boston,
Office of the Mayor, June 29, 1936.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the City Auditor in which it is recommended that portions of loans authorized in connection with three P. W. A. projects be rescinded. The projects in question have been completed, and because of grant payments received from the Federal Government it has not been necessary for the city to issue the full amount of loans originally authorized. The accompanying orders provide for the rescission of the amounts authorized but not issued. I respectfully recommend adoption of these orders by your Honorable Body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Auditing Department, June 25, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—Three projects in the first P. W. A. program of the city are now officially closed, in that all work originally contemplated under these projects have been completed and the final grant payment from the Federal Government on each project has been received. Largely because of these grant payments it has not been necessary to utilize the total borrowing power originally authorized by the City Council for each project. Since the projects have been completed the excess amount of loans authorized but not issued are no longer required, and therefore, in my opinion, should be rescinded. The following table indicates the amounts in question:

Project. Amount to be Rescinded.
Replacement of the Brookline Avenue Water Main from the Brookline Line to Beacon Street.....\$100,000
Water Main Construction..... 200,000
Northern Avenue Bridge, Reconstruction and Repair..... 100,000

I have had prepared three orders providing for the rescission of the above amounts, and respectfully recommend that these orders be submitted to the City Council.

Respectfully,
CHARLES J. FOX,
City Auditor.

Ordered, That the right to borrow money for Water Main Construction, under authority of chapter 366, Acts of 1933, as amended by chapter 21, Acts of 1934, approved by the Mayor on February 27, 1934, be limited to \$500,000, and that the authorization to borrow in excess of said amount for said purpose, be, and the same hereby is, rescinded.

Ordered, That the right to borrow money for Replacement of the Brookline Avenue Water Main from the Brookline Line to Beacon Street, under authority of chapter 366, Acts of 1933, as amended by chapter 21, Acts of 1934, approved by the Mayor on February 27, 1934, be limited to \$250,000, and that the authorization to borrow in excess of said amount for said purpose be, and the same hereby is, rescinded.

Ordered, That the right to borrow money for Northern Avenue Bridge, Reconstruction and Repair, under authority of chapter 366, Acts of 1933, as amended by chapter 21, Acts of 1934, approved by the Mayor on May 2, 1934, be limited to \$275,000, and that the authorization to borrow in excess of said amount for said purpose be, and the same hereby is, rescinded.

Referred to Executive Committee.

MUNICIPAL EMPLOYMENT BUREAU.

The following was received:

City of Boston,
Office of the Mayor, June 23, 1936.
To the City Council.

Gentlemen,—I am advised by the Director of the Municipal Employment Bureau that the appropriation authorized for the running expenses of the Bureau will be exhausted in about three weeks.

In my opinion the Bureau is doing a worthwhile work and in order that it may continue I submit herewith an order providing for a further allotment from the Reserve Fund of \$10,000. It is estimated that this amount will be sufficient to continue the activities of the Bureau until the end of the year.

I respectfully recommend the adoption of the accompanying order by your Honorable Body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That the sum of \$10,000 be, and hereby is, appropriated, to be expended by the Municipal Employment Bureau, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund.

Referred to Executive Committee.

LOAN FOR PUBLIC WELFARE.

The following was received:

City of Boston,
Office of the Mayor, June 25, 1936.
To the City Council.

Gentlemen,—I am forwarding herewith a loan order in the sum of \$1,000,000 to be used for the purposes provided in chapter 80 of the Acts of 1936, namely, Public Welfare, including Mothers' Aid and Old Age Assistance, Soldiers' Benefits, including State Aid, Military Aid, Soldiers' Burials and Soldiers' Relief, and any Federal Emergency Unemployment Relief project. This sum, together with the \$1,000,000 previously appropriated by your Honorable Body, totals \$5,000,000, the amount of funded borrowings contemplated in the tax program for this year. At a subsequent meeting of your Honorable Body I will introduce an appropriation order allocating the above mentioned sum of \$1,000,000. I respectfully recommend adoption of the accompanying order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That under the provisions of chapter 80 of the Acts of 1936 the City Treas-

urer be authorized to borrow the sum of \$1,000,000 for the purposes provided under said chapter, to be expended as may hereafter be appropriated by the City Council and be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount, same to be issued outside the limit of indebtedness.

Referred to Executive Committee.

FINANCE COMMISSION REPORT ON STANDARD COAL COMPANY.

The following was received:

City of Boston,
Finance Commission, June 15, 1936.
To the Honorable the City Council.

Gentlemen,—On May 4, 1936, the Finance Commission requested the City Auditor to withhold his approval from all bills presented by the Standard Coal Company under a contract to supply coal to the city buildings, pending an investigation by the commission of the quality of the coal delivered by that company. This contractor was not involved in the investigation of coal deliveries to welfare recipients, which has already been reported upon.

The commission has held public hearings on this matter and has taken under oath the testimony on which the findings of this report are based. Mayor Mansfield was invited to send his own shorthand reporter to these hearings. Having accepted that invitation, it is presumed that the Mayor now has a complete transcript of the sworn testimony.

The commission deems it to be its duty to make this report of its findings to your Honorable Body, because public attention was called to delinquencies of the contractor by members of the City Council at formal sessions.

Contract Awarded to Standard Coal Company.

A contract to furnish 5,000 tons of anthracite and 9,000 tons of semi-bituminous coal to various city departments was awarded by the Superintendent of Supplies, Warren W. Loomis, on April 23, 1935, to the Standard Coal Company. The officers of this company are Goldie Kline, president, and Max Kline, treasurer. The company has done considerable business with the city for many years, and its character and reputation were well known to the city authorities. Coal purchased under this contract was for distribution to the buildings of the Library, Park, Public Works and Public Buildings Department.

The Superintendent of Supplies gave notice of his award to the Standard Coal Company on April 23, 1935. On May 2, 1935, the Standard Company filed in City Hall notice of assignment of all sums becoming due the company to the Foreston Coal Company, Inc. This assignment was on record in the City Treasurer's office when Mayor Mansfield approved the award on May 8, 1935.

In 1934, when the Standard Company had a similar contract with the city, all sums payable to the company were assigned to H. N. Hartwell & Son, Inc. These assignments were to the companies from which the Standard Company arranged to obtain coal for delivery under the two contracts. They were required by the two wholesale coal companies before delivery of coal to the Standard Company.

When the Finance Commission requested the auditor to withhold further payments from the Standard Company, the tonnage required by the contract had been delivered and there

remained \$15,205.55 of the total contract price unpaid. The Standard Coal Company, therefore, had already received \$102,279.32, or 87 per cent of the contract price.

The officials of the departments which received coal from the Standard Coal Company have approved all bills as submitted, and the remaining unpaid bills were in process of payment until the Finance Commission requested that a stop-order be issued.

Complaint Against Standard Coal Company.

While the approval by the Mayor of award of the contract was pending in 1935, vigorous protest was made in the City Council against award to this company on the ground that its court record was evidence of unreliability.

When the bid of the company came to public notice, the Sealer of Weights and Measures gave notice to the Superintendent of Supplies that the company had a bad court record.

Notwithstanding these two complaints, award was approved. The Standard Coal Company's bid was \$6,000 less than the next lowest bidder.

Arrangements for Checking Deliveries.

The Supply Department made a contract with Arthur D. Little, Inc., for fuel engineering service in relation to this and other city coal contracts. The Little Company was required to take samples at stipulated intervals and to perform other service intended to ensure the acceptance only of the quality and size of coal specified. This contract required tests as prescribed for coal by the American Chemical Society. The tests so prescribed include a sizing test. The size of the coal required was of the essence of the contract.

A second form of check on the company, but not provided for in the contract, was ordered by Mayor Mansfield within a few days after formal execution of the contract. This was the assignment by the Sealer of Weights and Measures of his deputy to the coal yard of the Standard Coal Company with instructions to weigh every pound of coal that left the yard.

This order resulted from the fact that the Standard Company was found by the Sealer of Weights and Measures to be giving short weight on the first delivery of coal made under the contract. In addition to these checks, it is the duty of the coal inspector permanently employed in the Supply Department to make regular inspections.

Complaints Against Coal Delivered.

From the very start of the deliveries under the contract there was complaint against the quality, the size, and the weight of the coal delivered. These complaints came from every department to which the coal was distributed.

The trouble over short weight subsided when, after the company was haled into court for short weight on a delivery to the Suffolk County Courthouse, a deputy sealer was stationed at the company's yard. This precaution cost the city approximately \$2,000 according to the testimony of the Sealer of Weights and Measures.

The trouble over the size and burning quality of the coal was continuous throughout the life of the contract. Officials or employees of all the departments to which this company delivered coal made complaint that it was often dirt and dust; generally of a size smaller than required; that it produced unsatisfactory heat and frequently not enough to supply hot water and keep the building warm; that it formed large clinkers and damaged the grates and linings of the fire boxes.

All the witnesses who appeared before the commission to give testimony of complaint were city employees. Many of them stated that they had notified the Supply Department by telephone or in writing of the unsatisfactory quality of the coal. At some city buildings it appears that the coal was sometimes fair and sometimes poor. At some others it was uniformly poor. The general impression was that it never could be depended upon to be good quality, regardless of the method or volume of complaint.

The dissatisfaction with the coal delivered cannot be attributed to "idle gossip of disgruntled firemen." The most vigorous complaints registered with the Supply Department came from the business agent of the Public Library Department, James W. Kenney, and from the Superintendent of the Bath Division of the Park Department, James E. O'Reilly, both of whom are veteran officials of the city with established reputations for reliability and capability.

Mr. Kenney's protests were based on his investigation of complaints originating with firemen or custodians in branch libraries, which were sponsored and indorsed in very case by the librarian in charge. A typical complaint of this sort was contained in a letter, written to Kenney and forwarded by him to the Supply Department, from Miss Guerrier, librarian at the West Roxbury Branch. Miss Guerrier wrote in one of several complaints:

"I feel that I ought to report on the poor quality of coal that we received this year. Instead of burning as it should, it forms huge masses of stone-like clinkers and since it is impossible to shake them through the grate, Mr. Mackin has practically to pull the entire fire out every day. This makes his work very difficult and is also wasteful, for it takes much more coal to keep the fire going.

"Usually an inspector comes to test the coal but no one has been here this winter.

"I think that something ought to be done about it for we have never had coal like this before."

Mr. O'Reilly, Superintendent of the Bath Division, wrote to the Deputy Commissioner of Parks, Charles A. Hogan:

"Early in February, I think on the second Saturday, I came to this office, and as a result of talks with the firemen and engineers working in our buildings, I called the Standard Coal Company on the 'phone, and asked for Mr. Cohen, the manager, and told him I intended to lodge a protest against the award of any further contracts for coal to his company for two reasons, one, because the company was delivering coal of poor quality; and two, because of failure to make deliveries with reasonable promptness. . . . Thereupon I made protest in a formal manner against the granting of any further coal contracts to the Standard Coal Company."

Notwithstanding that this complaint was repeated by Mr. O'Reilly to the Supply Department, he states later in this same letter which was dated April 30, more than two months after the incident above mentioned:

"A week ago last Tuesday an inspector from the Supply Department viewed the coal in the coal bin at L street, made the comment that it was very poor quality. . . . It is a curious fact that while the quality of coal received in our houses for the last five or six months has been the cause of some complaint, not until the last five or six weeks, when the Standard Coal Company was making its final deliveries, did this sudden access of very poor coal begin."

All such testimony of officials and employees who used the coal conflicted with the reports of the chemist. The latter made no finding at any time of poor quality. The complaints of the city employees were thereupon disregarded.

The Service Rendered by the Chemist.

It appears that Arthur D. Little, Inc., took samples regularly and made chemical analyses which were reported to the Supply Department. This constituted all the service rendered by the Little Company. The complete set of reports were produced and examined at the hearing of the commission. It could not be found that there was mention of the size of the coal delivered on any one. In other respects the coal delivered was reported by the chemist to be within specified limitations.

The Superintendent of Supplies admitted that to believe the chemist, which he chose to do, he must disbelieve the city employees who testified under oath that the coal was poor.

In contrast, the Finance Commission employed Perry Barker to take and analyze samples at three buildings where the quality was complained of. Barker is fuel engineer for the School Department and acted in the same capacity for the Supply Department under the Fitzgerald, Curley, Peters and Nichols administrations. Mr. Barker reported that in all three instances he found the quality somewhat lower than the quality delivered to the school buildings under another contract, but with similar specifications. The school coal is purchased by the Business Agent of the School Committee. Mr. Barker, however, reported that in these three instances he found that the coal was approximately 57 per cent below the size required by the contract. The maximum variation in size allowed by the contract was 40 per cent.

Mr. Barker informed the Finance Commission that lower quality of the city buildings coal coupled with the abnormal size variation indicated a size and quality that coincided with the results claimed by the city employees who had to use the Standard Coal Company's coal.

The Court Record of the Contractor.

Max Kline, doing business in his own name, or as the Standard Coal Company, has been prosecuted in court for fraudulent sales and deliveries of coal on five occasions. Each time the Sealer of Weights and Measures was the complainant. The record of his business reputation was therefore in the possession of the city at all times.

The record consists of these items:

1. On March 8, 1922, Max Kline was prosecuted for short weight of 975 pounds in a called-for delivery of 6,600 pounds.

2. On December 28, 1922, Max Kline was prosecuted for short weight of 1,130 pounds in a called-for delivery of 9,250 pounds.

3. On August 20, 1926, the Standard Coal Company was prosecuted for short weight of 3,600 pounds in a called-for delivery of 17,600 pounds.

4. On January 20, 1933, the Standard Coal Company was prosecuted for short weight of 1,530 pounds in a called-for delivery of 11,500 pounds.

5. On May 24, 1935, the Standard Coal Company was prosecuted for short weight of 1,100 pounds in a called-for delivery of 16,700 pounds.

The last item in this record was in connection with the first delivery of coal under this contract.

Conclusions.

It is apparent that the Standard Coal Company was not a responsible bidder for the contract. A company which must assign all payments due to its supplying wholesaler before it can receive the merchandise it is contracting to deliver must have poor financial standing. This was known to the city authorities by the long list of assignments on file in the City Treasurer's office.

It is apparent also that the Standard Coal Company was not a firm with which the city can safely do business. Three of the five prosecutions on record against the company or its owner related to instances where the company or its owner gave the city short weight. This was known to the officials making the contract. The Sealer of Weights and Measures offered it as a reason for rejection of their bid. City Councilors called attention to it in Council session repeatedly.

This was a case where the rule of award of a contract to the lowest bidder might have been waived. The bidder was not financially responsible or reliable in business.

The substantial difference in the Standard Company's bid and the bids of reliable dealers should have given warning of what might be expected. This \$6,000 differential was counterbalanced by the cost of availing the weights—\$2,000 to the deputy sealer—and the loss in efficiency of many buildings and employees by the poor character of coal.

The Supply Department rested its defence to some extent on the failure of the chemist to advise specifically that the coal was not up to standard; but the failure of the chemist to mention size in any report, even after it was brought to public attention that the size was complained of, is evidence of slipshod service by both the chemist and the Supply Department.

The Supply Department obviously should have required special reports from the chemist because of the unusual volume of complaints from city employees. The department, however, apparently ignored the fact that the chemist was not making all the tests that the contract required.

The officials of the departments from which complaints came about the quality of the coal are not without blame. They have paid the Standard Coal Company or its assignee approximately \$100,000 and have approved bills for \$15,000 more for coal than many of them were informed by their subordinates was poor coal. If any one of the complaining department officials had refused to approve a bill for the coal delivered because it was poor coal, the city might have obtained what it contracted to buy. Now the company has received its \$100,000 without reprisal of any kind until the Finance Commission asked the auditor to withhold further payment.

Recommendations.

The Finance Commission recommends:

1. That the city establish a black list of coal contractors who have been found to be committing a fraud on the city. On this list immediately should be placed the names not only of the discredited local distributors, but the coal operating companies who knowingly supplied coal to them that was not up to the required specifications. In the case of the city buildings and in the case of the welfare coal, it was coal operating companies which, behind assignments of due bills and complete ownership of stock, directed the business of the bidding company and received the major portion of a profit obtained by fraudulent practices.

2. That the city employ a new fuel engineer. The reputation enjoyed by the laboratory company which analyzed this city coal and the welfare coal did not spring from recognized competence in fuel engineering. What is needed is not a mere chemical analyst, but an experienced fuel engineer who will give to the Supply Department the kind of service which the Business Agent of the School Committee obtains from his fuel engineer. Chemical analysis of samples of coal is only a part of this service. By faithful compliance with the contract made with the city by Arthur D. Little, Inc., this company might have stopped the fraud the coal companies have perpetrated on the city, and the hardship they have caused city employees and welfare recipients.

3. The Supply Department should not con-

time to buy all merchandise if it is to have no responsibility for delivery. The present method gives everybody concerned with the purchase and delivery of goods an opportunity to pass the blame to somebody else if anything goes wrong. What has been found to be true in the coal situation is quite likely to be true in other purchases.

4. The commission believes that the city should pay the Standard Coal Company or its assignee nothing more for the coal delivered under this contract unless and until ordered to do so by a court.

PHILIP A. CHAPMAN,
ROBERT ROBINSON,

Placed on file.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families for the month of July, 1936.

Report accepted; order passed.

REORGANIZATION OF CERTAIN CITY DEPARTMENTS.

Coun. GALLAGHER, for the Committee on Ordinances, submitted the following:

Report on message of Mayor and ordinance (referred May 4) re consolidation of departments, recommending ordinance ought not to pass, without prejudice.

The report of the committee was accepted.

Coun. WILSON—Mr. President, in an important matter of this kind, after an experience of a good many years in this body and having in mind the comment that may be made, adverse or otherwise, I wish my position to be very clear on the record. The proposed plan was worked out by a committee of three professors appointed by President Compton of the Massachusetts Institute of Technology, namely, Col. Robert C. Eddy, who is an associate professor in engineering and business administration, Charles L. Norton, formerly head of the physics department, and Charles B. Breed, head of the civil engineering department. They all stand high in their profession and none has any political axe to grind, but none of them has ever had any practical experience in the administration or any other branch of municipal government and no one of them has previously worked out any such plan of city administration. The Law Department itself of the city has made no study of the problem, but its function has been solely to prepare the proposed form of the ordinance to embody the ideas of the committee. In the preparation of the plan no department heads, we are informed, were personally interviewed or even consulted, nor was any physical survey made of the various departments themselves. The committee considered a written statement submitted to the Mayor with reference to the functions of the various departments and consulted the Municipal Register for the past few years, the 1933 List of City Employees, the Auditor's Monthly Exhibits and the existing statutes and ordinances. The committee of three further cited various surveys made of the city of New Orleans, Montreal, San Francisco, Newark, New Jersey, Wilmington, Delaware, Rochester, New York, Chicago and Atlantic City. I have the highest regard for the good judgment of the gentlemen comprising the committee and every sympathy with any desire to improve city departments' efficiency and economy. Without further study, however, it is a question whether sometimes the cure is not worse than the alleged disease and I strongly believe that on questions of administration the City of Boston cannot easily be compared with the other great cities in the United States. Here we have an executive called the Mayor, but who in effect has most of the powers of a city manager. There is such unusual concentration of authority already in the form of our city government that the legislative branch cannot even unanimously pass over a veto by the Mayor such few items as have been retained for Council consideration. Briefly, I understand the committee of three to have made a theoretical study of the forty-six departments which remain under the control of the Mayor, of which fourteen are found to be not exclusively under his jurisdiction. Of the remaining thirty-two departments, they find four really have special duties and fifteen only perform no engineering functions. The committee therefore considered a total of thirteen existing departments, and created

a new Public Works Department to include twelve engineering divisions and one administrative division. Five of the twelve divisions are considered as staff divisions with engineering duties and seven are considered as line divisions for the protection of certain activities. The purpose of the proposed change is said to be the elimination of unnecessary duplication, lessening of the necessity for filling vacancies in personnel, improved efficiency and greater economy in management. Broadly, the plan promises greater efficiency and economy,—a purpose worthy of adoption but only if the new plan really effects that purpose. The sponsors of the plan claim it avoids conflicts of authority and eliminates duplication of personnel, but your Committee on Ordinances was given no specific information or detail as to where that desired result is concretely effected. Mr. George S. Parker of the Boston Real Estate Exchange stated that he had not read the report, but strongly believed in the principles which it hoped to carry out. I believe in the purpose of approved efficiency and greater economy in city government, but even after reading that report and in the light of nine years membership in the City Council I question whether the plan would accomplish the purpose intended. I agree with Mr. Parker on the abstract principle that in the long run efficiency means economy. I agree with him that one head should coordinate the work and be primarily responsible, but, as I understand, under our present very unusual and distinctive City Charter the Mayor is given those powers and that responsibility to an extraordinary degree. Mr. Parker pointed out that the repeated opening of city streets for the Edison Light and Gas Company work is an incident of existing inefficiency and division of responsibility. Of course, as a matter of fact, permits for street openings, whether for the Edison Light Company, the Gas Company or Telephone Company work, I understand are now all a single department matter and the Public Works Department is supposed to notify all three utility companies that street resurfacing work being contemplated no further openings will be permitted for a definite period of time except in case of emergency. Mr. Eliot Wadsworth of the Chamber of Commerce frankly stated that he had never sat in with the committee, but felt the idea of the proposed plan was an excellent one, and with that statement I believe all of the members of the committee agreed. He stated he did not look on the plan necessarily as an economy measure. He felt it would be an endless task to go through the executive workings of these particular departments, although I assume that very thing should be done before we make any drastic changes; and Mr. Wadsworth said: "In a general way, I have considered this program looking to the concentration of authority and intervening an expert, a general manager you might call him, between all these departments and the Mayor of Boston." Colonel Eddy explained that the Mayor is usually a lawyer. The Public Works Commissioner would be an engineer. There is no occasion for the Mayor to consider engineering matters and went on to say that 90 per cent of the new commission's work would be administrative. In fact, I gather from these expert witnesses who appeared before the Committee on Ordinances that the average Mayor of Boston is not expected to be of sufficient ability to operate as the charter intended. He should be reserved for the more pleasant social functions and duties. I believe that in a city where the responsibilities are more divided than they are in Boston, some such plan might be more imperative, but I really believe the committee overlooks the extraordinarily wide and broad direct powers of the Mayor of Boston as our charter now provides. There is already concentration of authority and responsibility in the City of Boston to an extent probably not to be found in any other city in the United States unless under a city manager. The proposed plan in its outline refers to the economies to be gained, but the committee was furnished no real information or detail, whether long-range or otherwise. Colonel Eddy felt "that it would be presumptuous for any one to give a list of employees that could be dispensed with although there would be savings of that sort. The only immediate change we were advised would be the difference between the salaries of the present department heads listed as \$117,220 and the proposed officials listed as \$102,000, namely, \$15,200; and even that saving was finally reduced at the hearings to only \$3,000 despite the fact that elimination of two of the three Street Commissioners and Deputy Park Commissioner and the three members of the Transit Commission would seem to suggest a saving amounting to over \$42,000. Undoubtedly the proposed plan has many merits, but it would also appear to have items of doubtful value. I have in mind the protest of Peter F. Dolan, a Technology graduate, and for forty years in the Wire Division

of the Fire Department. Even Colonel Eddy frankly stated: "I do not think the efficiency of the Wire Department can be improved," and yet under the proposed plan we break up the present duties of that splendid organization into three separate segments. Now, as I stated, Mr. President, I realize you do not need to be told by me, because you have been carefully over the report, but I believe the committee is entitled to have the results of the hearings a matter of public record. I understand that this ordinance is being sent back to the Mayor "Ought not to pass, without prejudice." It may be he will send it in again. I personally believe more direct concrete study of the various departments and the proposed plan should be made. I have every regard for these three gentlemen who have done such a splendid piece of work. I do not believe the City of Boston, with its concentrated authority in the Mayor, can be compared with any surveys or studies made of New Orleans or Wilmington, Delaware. I am introducing some orders for more detailed information with reference to the vacancies, if any, that have been filled, or that have not been filled. I think it is a matter that has been treated very well in theory, and with every respect for the Mayor, I believe the Mayor is entitled to more detailed information and more of a guarantee that this plan if put through will result in what the committee purports it to result in, because, as I stated, it is not infrequent, especially when you bother with a city government, it is not infrequent that the cure is worse than the disease.

Coun. SHATTUCK—This is not a new matter. It has been before us since last December, or at least it was filed with the previous Council and has been in print and available since last December, the only change being one providing protective provision for persons in these departments who might be affected,—that provision to protect them in their positions. Other than that, it is just the same as the measure which was presented to us last December, so we have had over six months to consider it and study it. It seems to me that it is a step in the right direction; that it is a step in the direction of efficiency and economy. I do not imagine any great economy would be made immediately. I do not know that any very large economy would be made at any time, but I think we would, at least, get more service for each dollar expended, because in these various engineering departments, instead of having a separate engineering force in each one, we would have more consolidation and coordination and the possibility of persons now working in these departments to be transferred from one activity to another according to where the peak load was at the moment. This matter has been not only before us for six months, but before it came to us was studied a long time by these men who are experienced in advising municipalities on other problems and I believe that we should adopt it at this time and for that reason in the committee I voted for the measure and dissented from the adverse vote, and I shall vote against rejection of the ordinance at this time.

Coun. DOWD—The word "economy" is a very familiar word, but to any of us who understand the city finances and the city budget, there is only one place that economy of any kind can be effected. It certainly cannot be effected in our Welfare Department, our Institutions or Police or Fire Departments. I am going to vote against this for one reason—that I see in it an ulterior motive, not within this year perhaps, but within a few years, of either discharging thousands of city employees or reducing their salaries, and I do not believe there are any members of this Council who would sanction any such thing even at the pretext of the word "economy." These professors have done a real fine job in drawing up this report. They have talked about engineers for heads of the departments. What we want is less engineers and somebody at the head of our departments who would have practical knowledge of how to run those departments. They can say what they want, that there won't be a single, solitary civil service employee removed, but we all know it can be done. We have seen it done and by the stroke of a pen those in authority within two years from now could smash thousands of city employees either by discharging or by cutting their salaries, and I will vote against it today and will vote against it so long as the Mayor sees fit to send it in.

Coun. ROBERTS—I feel that we are being driven into a situation where in a year or two, or possibly longer, certain consolidations may be forced upon us and Boston will lose some more of its home rule. If the tax rate goes higher and no economy effected nobody knows what the situation is we will be in. Personally, all of us prefer to know what we are getting into rather than have some economies forced upon us. Now, of course, this report is far from being perfect. Doubtless

it will take many years to see whether or not it is workable, but I feel we have the duty and I feel I will have to vote against the committee report and give these consolidations some chance, if possible, to see if we cannot work out some economies.

Coun. GALLAGHER—This order was sent in something like five or six weeks ago. The committee held three or four meetings. The committee that made this report spent a year and a quarter going over it. It is true what the councilor from Ward 5 says, that a similar order was sent in last December, just at adjournment time. Today we have six new members in this body from that of last year. The committee felt that because of lack of time that it could not intelligently go into the matter. We gave a lot of time to it at the three or four meetings we had. At the time the Council received the order the Committee on Appropriations was going over the budget. If the report of the committee is accepted this afternoon it does not mean the order is killed. The Mayor has the right to send it back here, but, gentlemen, I am of the opinion, as were a majority of the members of the committee, that because of the lack of time the report of the committee should be accepted.

Coun. McGRATH—I don't know if I understand it correctly, but is there a guarantee that none of the city employees will be discharged? I can remember a few years ago, during a campaign, where "there was 65 cents of every dollar in the City of Boston wasted for graft and corruption" and "I won't reduce the welfare recipients" and "I won't kick them off" and "I won't discharge a single city employee." What happened? They are reduced today on the welfare from \$9 to \$8.67. I asked the committee representing the Welfare, when before the Budget Committee, and the excuse they gave was "We want to give them the full money in bills and not have any change." Well, any one who wants to believe that as an excuse can; I do not. "65 cents of every dollar is wasted for graft and corruption." We have the highest tax rate we have ever had in Boston. Now, they are going to guarantee the city employees. I was a member of a committee of three who waited on the Mayor to ask him to put back, for one day, without pay, sixty men that he discharged, so they would not lose their civil service rating, and he refused absolutely to do it, and I do not believe in this report here where he says he won't discharge a single, solitary employee, because I do not think that any one would believe him after what he has already done.

Coun. PETER J. FITZGERALD—I would like to have my position clearly understood on the matter of this consolidation. As a member of your Committee on Ordinances, I listened carefully at the first hearing to Mr. Weinstein explain the legal aspect of the order. At that hearing I requested Colonel Eddy with his two associates be invited to appear before your committee so we might intelligently digest the report. Men can put on paper what they cannot say in person and it was proven in this case. My position is, I am opposed to it. I do not need any further time on it. Their purpose is apparent. They have given the most complicated report that I have ever read. I am not an engineer, nor am I familiar with a college curriculum, but I do know the English language and when Colonel Eddy appeared before our committee he didn't give any specific instance where this was of any benefit to the City of Boston. For example, I asked Colonel Eddy how long he had been with Technology, and he said eight years. I asked if he had ever been identified with any city or town in the capacity of an engineer or a public works commissioner and he replied that he had not. I asked him if he had ever drawn up any report parallel to the one before the committee, and he said he had not. He said he did have some experience in constructing camps, soldiers' camps. Now, some of you boys have served in army camps and I was in a camp at South Carolina. It had no sidewalks; had no edgestones; its toilet facilities were segregated in 30 by 80 feet square, and the water was rusty and the doctor told us the water was good for us if we lacked certain iron for certain glands in our body, but the engineers forgot to add that we needed roller skates after drinking the water. I asked him if he had ever visited any army posts during the construction of the post, and he said that he had not; that he was in Washington studying contour maps. Now, engineering is a practical sort of thing along with the theory, but when you take a department such as the Public Works Department and have the interest of the taxpayers at heart and you have the interest of the city employee at heart, you are not voting on theory, especially when that theory does not prove that there is a saving. Eventually it means the actual reduction in employees. I do not question the motives of the Municipal Research Bureau, nor question

the motives of the Chamber of Commerce, but they are not kidding me. There is only one thought they have in mind and that is to reduce the personnel of the City of Boston. Let us be on the level with this thing. I do not want any more time and although I dislike to disagree with the Mayor on this, I told him that I could not and would not support it in view of the evidence submitted by Colonel Eddy and nobody present in that room who heard the gentleman talk and explain this thing would under any circumstances have any respect for any man who would want to vote for it. We need no further time, and unless these men bring in something that is really practical, that is an actual saving to the taxpayers of Boston, I won't even countenance it. It did not belong here in the first place. I am just as much interested as anybody in the tax rate of Boston. I have a home-owning district and when I vote I want to vote right according to my conscience, and when I vote on this matter and vote according to my conscience I know I am doing no wrong, but if I was to vote simply on a theoretical report such as this and if all men voted merely on theoretical reports on great financial matters, the taxpayers would be in real jeopardy, and I hope we will proceed with the rejection of this report.

The question came on the passage of the ordinance.

Coun. ROBERTS—Mr. President, I ask for a roll call.

The ordinance was rejected, the vote on its passage being:

Yeas—Coun. Roberts and Shattuck—2.

Nays—Coun. Agnew, Brackman, Dowd, Finley, Peter J. Fitzgerald, John I. Fitzgerald, Gallagher, Gleason, Kerrigan, Kilroy, McGrath, Mellen, George A. Murray, Peter A. Murray, Rosenberg, Selvittella, Tobin, Wilson—18.

Later in the session Coun. NORTON said:

Mr. President, I ask unanimous consent to be recorded "Yes" on the acceptance of the report of the committee. I understood the committee reported in that the consolidation bill ought not to pass, without prejudice. I want to vote "No" on that particular phase of it. I would like to be recorded as "Yes" on the passage of the consolidation bill itself.

President FITZGERALD—If there is no objection the councilor will be so recorded.

PAYMENT TO A. R. DOYLE, INC.

Coun. PETER A. MURRAY offered the two following orders:

Ordered, That chapter 324 of the Acts of 1936, entitled "An Act Authorizing the City of Boston to pay a Certain Sum of Money to A. R. Doyle, Inc., for Labor and Materials Furnished to Said City," be, and hereby is, accepted.

Ordered, That under the provisions of chapter 324 of the Acts of 1936, there be allowed and paid to A. R. Doyle, Inc., the sum of \$1,420.10 for labor and materials furnished by said corporation to said city under a contract approved November 14, 1935, entitled "Sheet Asphalt Pavement in Beaver Place, City Proper," said sum to be charged to the Reserve Fund.

Severally referred to Executive Committee.

REPAVING OF HATCH STREET.

Coun. KERRIGAN offered the following: Ordered, That the Commissioner of Public Works be requested through his Honor the Mayor, to repave with smooth pavement Hatch street, Ward 7.

Passed under suspension of the rule.

PAYMENT TO THOMAS E. GOGGIN.

Coun. KERRIGAN and GEORGE A. MURRAY offered the following:

Ordered, That chapter 422 of the Acts of 1936, entitled "An Act Authorizing the County of Suffolk to Pay Certain Compensation to Thomas E. Goggin of Boston" be, and hereby is, accepted.

Referred to Executive Committee.

CREDIT TO EDMUND V. AHERN.

Coun. GEORGE A. MURRAY offered the following:

Ordered, That chapter 335 of the Acts of 1936, entitled "An Act Authorizing the City of Boston to allow a Credit to Edmund V. Ahern in Connection with Certain Licenses Issued to Him by Said City," be, and hereby is, accepted, and the Licensing Board is hereby authorized to make the credit allowance in accordance with the provisions of said act.

Referred to Executive Committee.

SIDEWALK ON TRAIN STREET.

Coun. McGRATH offered the following: Ordered, That the Commissioner of Public Works make a sidewalk along Train street, entire length, both sides, Ward 16, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

SIDEWALKS IN WARD 6.

Coun. GEORGE A. MURRAY offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk in front of 309 E street and along Silver street for a distance of approximately 100 feet from the corner of E street, Ward 6, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

NAMING OF JOHN L. GLEASON SCHOOL.

Coun. DOWD offered the following: Resolved, That the City Council of Boston request the School Committee, through his Honor the Mayor, to name the school now being erected at John Eliot square, Roxbury, the John L. Gleason School in honor of the late Representative John L. Gleason.

Passed under suspension of the rule.

RESCINDING OF PUBLIC WELFARE ORDER.

Coun. DOWD offered the following: Ordered, That his Honor the Mayor demand that the Public Welfare Department rescind the order which in effect states that if anyone in a recipient's family went to work the entire salary that he received would be taken from the welfare amount.

Coun. DOWD—Mr. President, this is a little touch of economy by the so-called brain trusters of our Welfare Department. Ever since the Welfare Department has been inaugurated any family receiving \$15 a week with seven or eight children, if one went to work and got \$7 or \$8 a week and had to go to Dedham or some other suburban town, they would at least allow them carfare and \$3 a week to dress on, but under the new rule made by the brain trusters at 43 Hawkins street, if a child goes to work and makes \$10 and the family is receiving \$15, the department will take the entire \$10 away, leaving the young man or young woman without any carfare, so I am asking the Mayor to rescind that order.

Coun. SHATTUCK—I would like to ask the gentleman if this brain trust is part of the same brain trust they have in Washington?

Coun. DOWD—Probably he can answer that question because most of the brain trusters in Washington are Republicans.

Passed under suspension of the rule.

RECESS.

The Council, on motion of Coun. GALLAGHER, took a recess, subject to the call of the Chair, at 3 p. m. The members reassembled in the Council Chamber and were called to order by President FITZGERALD at 5 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GALLAGHER, for the Executive Committee, submitted the following:

1. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, viz:

Gino Gallozzi, North End Union Hall, July 1, 1936.

Ursula M. Loughran, Hotel Somerset, June 11, 1936.

Ethel M. Gegan, Whitton Hall, June 23, 1936. Report accepted; leave granted under usual conditions.

2. Report on order (referred today) authorizing the County of Suffolk to pay compensation to Thomas E. Goggin—recommending order ought to pass.

The report was accepted and the order passed.

3. Report on order (referred today) authorizing the City of Boston to accept authorizing city to extend credit to Edmund V. Ahern—recommending order ought to pass.

Report accepted and the order passed.

4. Report on order (referred today) for acceptance of chapter 324 of the Acts of 1936, authorizing payment of money to A. R. Doyle, Inc.—recommending order ought to pass.

Report accepted and order passed.

5. Report on order (referred today) that under provisions of chapter 324 the city pay A. R. Doyle, Inc., \$1,420.10—recommending order ought to pass.

Report accepted and order passed.

6. Report on message of Mayor and order (referred today) for various departmental transfers, recommending various orders ought to pass.

Report accepted; said order passed, yeas 17, nays 0.

7. Report on message of Mayor and order (referred today) for transfer of \$5,000 from Reserve Fund for Randidge Fund—recommending order ought to pass.

Report accepted; said order passed, yeas 17, nays 0.

8. Report on message of Mayor and order (referred today) for transfer of \$20,000 from Reserve Fund to Hospital Department, to H. Relief Projects—recommending order ought to pass.

Report accepted; said order passed, yeas 16, nays 0.

9. Report on message and order (referred today) for rescinding certain balances and loans authorized but not issued re Brookline Avenue Water Main, Water Main Construction, Northern Avenue Bridge—recommending order ought to pass.

Report accepted; said order passed, yeas 15, nays 0.

10. Report on message of the Mayor (referred today) for loan of \$70,000 for Hospital Buildings, Alterations, etc.—recommending order ought to pass.

Report accepted; said order passed, yeas 15, nays 0.

11. Report on message and order of Mayor (referred today) for loan of \$1,000,000 for Public Welfare, Soldiers' Relief, State Aid, etc.—recommending order ought to pass.

Report accepted, yeas 15, nays—Coun. Shattuck—1, and the order received its first reading.

12. Report on message of Mayor (referred today) for appropriation of \$10,000 for Employment Bureau—recommending passage of the order in following new draft, viz.:

Ordered, That the sum of \$5,000 be, and hereby is, appropriated, to be expended by the Municipal Employment Bureau, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund.

Report accepted. The order failed of passage (15 votes being required) yeas 14, nays—Coun. Norton, Roberts, Shattuck and Wilson—4.

Coun. TOBIN—I move reconsideration and assignment for Thursday's meeting.

The motion was carried.

Coun. ROBERTS—Mr. President, what is the reason for meeting next Thursday?

Chairman GALLAGHER—Unless we pass some loan order there will be payless days.

TEMPORARY MATRON, CHARDON STREET HOME.

Coun. BRACKMAN, KERRIGAN and DOWD offered the following:

Ordered, That his Honor the Mayor be requested to instruct the Board of Overseers of Public Welfare to employ a temporary matron during the ten weeks' vacation period at the Chardon Street Home, to prevent the matrons now employed from being required to work seven days per week.

Passed under suspension of the rule.

LOAN FOR TRAFFIC SIGNALS.

Coun. McGRATH called up, under unfinished business, No. 4 on the calendar, as follows:

4. Ordered, That the sum of \$50,000 be, and the same hereby is, appropriated, to be expended under the direction of the Boston Traffic Commission, for automatic traffic signals at various intersections and points in Boston, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On May 4, 1936, the foregoing order was read once and passed, yeas 16, nays 2.

Order passed, yeas 15, nays 0.

Coun. NORTON—I ask unanimous consent to be recorded against the one million dollar loan order.

Chairman GALLAGHER—There being no objection the councilor is so recorded. I wish to state it is essential that every member be present Thursday at one o'clock.

Coun. McGRATH—Why?

Chairman GALLAGHER—To appropriate money to pay city employees.

ELEVATED SUMMER SCHEDULE.

Coun. PETER J. FITZGERALD offered the following orders:

Ordered, That his Honor the Mayor request the trustees of the Boston Elevated Railway to revise their summer schedule on all lines affecting the Dorchester district.

Ordered, That his Honor the Mayor request the Board of Trustees of the Boston Elevated Railway to restore the Dudley street bus line operating between Fields Corner Station via Dorchester avenue, Savin Hill avenue, Stoughton street to Dudley Street Station.

Coun. PETER J. FITZGERALD—The Boston Elevated has put their summer schedule into effect and they have cut down the running time and they have also cut out cars on the rapid transit line, and on the Dudley street line they have abolished the line until September, and it has caused great inconvenience to the car-riders in my district on the Dudley street line and those in Wards 15 and 16, and also to the entire Dorchester section who are affected by the cut in schedule of the rapid transit.

Orders passed under suspension of the rule.

BANDSTAND AT FRANKLIN FIELD.

Coun. ROSENBERG offered the following:

Ordered, That his Honor the Mayor confer with the trustees of the White Fund to consider the advisability of the erection of a bandstand at Franklin Field.

Coun. ROSENBERG—I will be very brief on this order, but I introduced the order asking the Mayor to confer with the trustees of the White Fund to consider the advisability of erecting a bandstand on Franklin Field. Every time an order is introduced requesting something of the trustees of the White Fund for Dorchester they seem to ignore it, or they have no funds available for the Dorchester section. I believe the erection of a bandstand on Franklin Field would serve a useful purpose in the same manner that the Parkman Bandstand has served on the Common, for the purpose of band concerts for the enjoyment of the public and for holding open air meetings, and I ask that this order be passed under suspension of the rule.

The President ruled the order out of order.

TRAFFIC CONDITIONS IN WARD 14.

Coun. ROSENBERG offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to investigate traffic conditions at Wollaston terrace and Woodrow avenue, Ward 14, and make suitable changes to correct the present hazardous conditions at this location.

Passed under suspension of the rule.

CHEVERUS ROAD.

Coun. McGRATH offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Cheverus road, Ward 16, as a public highway.

Passed under suspension of the rule.

LABAN PRATT ROAD.

Coun. McGRATH offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Laban Pratt road, Ward 16, as a public highway.

Passed under suspension of the rule.

ARBROTH STREET.

Coun. McGRATH offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Arbroth street, Ward 16, as a public highway.

Passed under suspension of the rule.

INFORMATION RE CONSOLIDATION OF DEPARTMENTS.

Coun. WILSON offered the following:

Ordered, That the Budget Commissioner be requested, through his Honor the Mayor, to submit to the City Council a complete list of the positions to be affected by the proposed consolidation of departments and the proposed "elimination of unnecessary duplication in department work," giving in each instance (a)

the name of the employee, (b) his department, (c) position held, (d) present salary.

Passed under suspension of the rule.

Ordered, That the Budget Commissioner be requested, through his Honor the Mayor, to submit to the City Council a complete list of all city employees who have died, or been retired, or promoted, during (a) 1934, (b) 1935, and (c) 1936,—giving in each case the name of the employee, position held, amount of annual pay, whether the position has been filled, and at what present salary.

Passed under suspension of the rule.

HEALTH UNIT FOR DORCHESTER.

Coun. WILSON offered the following:

Ordered, That the trustees of the George Robert White Fund be respectfully requested, through his Honor the Mayor, to provide a so-called Health Unit, centrally located, for the five Dorchester wards of the city, prior to the expenditure of accumulated income for a planatorium or a municipal stadium.

Coun. WILSON—On that third order with reference to requesting action by the trustees of the White Fund, I have in mind, of course, the manner in which the money has been spent to date, including the North End building in 1924, East Boston in 1926, South Boston in 1927, Roxbury in 1927, Charlestown in 1929, the West End in 1930, Roxbury again in 1933 and the beautiful and delightful prado in your own ward constructed in 1933 or 1934. The annual income from that fund runs around \$200,000, and I would assume enough income has accrued during the past two years to furnish to some central part of the five Dorchester wards comprising better than one-quarter of the city one of these health units, and I urge upon them the fairness of again considering that request prior to the building of any planatorium or amphitheater in the Back Bay.

President FITZGERALD—That matter of the health unit in Dorchester is now under consideration and must lie there for ninety days before any action can be taken and the councilor should appear before the Board of Trustees.

Coun. WILSON—Mr. President, may I raise two points. The first is that, of course, if my arithmetic is correct the accrued income in the White Fund would be just about enough to take care of a White Fund unit for Dorchester without considering a planatorium or amphitheater in the Back Bay. The second is, and I know that the other four Dorchester councilors would join me in the wish that our President as one of the five trustees of the White Fund advise us the next time there is a hearing, because some of us have been fighting for such a fund from one to nine years.

President FITZGERALD—It was brought up at the last meeting and it has nothing to do with the Council and there will be no planatorium built by the White Fund. The order is ruled out.

PERAMBULATION OF BOUNDARY LINES.

Coun. WILSON offered the following:

Ordered, That two members of the City Council, the assistant city clerk, and the chief engineer of the Street Laying-Out Department, or their duly appointed substitutes, be, and hereby are, appointed in behalf of the City Council to perambulate the boundary lines and to examine the bound marks between Boston and the adjacent cities and towns of Revere, Everett, Somerville, Newton, Brookline, Dedham and Milton, to report descriptions of the same and to cause bound marks to be erected or removed wherever necessary; the expense incurred under authority of this order, if any, to be charged to the Reserve Fund.

Coun. MELEN—May I ask whoever introduced that order what he means by "perambulate"?

Coun. WILSON—As I understand it, that is a statutory requirement to fix our boundaries and is done every five years and the perambulating in modern days consists of automobile transportation rather than walking the distance.

Passed under suspension of the rule.

CONSTABLES CONFIRMED

Coun. AGNEW called up, from No. 2 on the calendar, the name of Alfred Blaustein.

The question came on confirmation. Committee, Coun. Finley and Mellen. Whole number of ballots 13; yeas 11, no 2, and the appointment was confirmed.

Coun. AGNEW, for Committee on Constables, called up No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor May 25, 1936, of constables authorized to serve civil process upon filing bond, viz.:

James Hadge, Anthony Luongo, John M. McCushing, James D. Martin.

Committee, Coun. McGrath and Mellen. Whole number of ballots 16; yes 14, no 2, and the appointments were confirmed.

FIRE LOSSES.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston consider the advisability of calling together representatives of the insurance companies and Building, Fire, Police and District Attorney's offices relative to the question of reducing Boston's fire losses.

Coun. NORTON—I have been the subject of considerable abuse drawing attention to the fact that the City of Boston has doubled the fire loss of any other city in the world, even though we have reduced the fire loss considerably in the last few years, unquestionably the last year. In my opinion it is not only a question for the Fire Department, it is a question for the Police Department, District Attorney's office and the Building Department cooperating together to prevent such fires in the business district in Boston. Chief Fox is on record as having said that in his opinion many of these fires are not on the level.

Coun. McGRATH—I introduced an order somewhat along this line for the reduction of fire insurance rates, and I suggest that the President appoint a committee. I just asked the President of the Council now if he had appointed the committee along the same line as Councilor Norton, to cooperate with the insurance companies, and reduce fire insurance rates.

The order was passed under suspension of the rule.

LOW COST MILK FOR BOSTON.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston consider the advisability of the possibility of low cost milk for Boston.

Coun. NORTON—it is too bad the Mayor of Boston does not vigorously do something about this problem of milk. Why can't we do what Baltimore and Fall River have done?

The order was passed under suspension of the rule.

Coun. NORTON—I ask unanimous consent to make a statement?

Chairman GALLAGHER—If there is no objection—

Coun. NORTON—I was not here during the debate on ordinance dealing with consolidation. The Mayor of Boston, when running for Mayor, claimed program of efficiency and reduction in city expenses. I suppose he will deny it, but the record will show he did. Today we have had before us one of the most important bills before this body. When it first came I had it sent back, asking that he put in the protective provision for the employees. The Mayor of Boston did that and sent it back to this Council. I claim the Mayor of Boston, if interested in the bill, if he wished the bill to pass this Council, should have taken the time and effort, and interest to have convinced enough of the councilors to have passed the bill. I can give you fifty citations of bills that Mayors of Boston have been interested in in the past where the Council itself was against the bill, but through the intervention of the Mayor and dissemination of additional knowledge the Council has eventually passed the bill. Now, Mr. President, the Mayor has merely unloaded this from his own desk and placed it in the lap of the Council so he can say to certain sections of the electorate of Boston "I did my part." I claim, Mr. President, That he did not do his part. He casually sent it down here and casually let the matter run along. You know what he could have done if he wanted to but he did not.

Adjourned, on motion of Councilor KILROY, at 5.35 p. m. to meet on Thursday, July 2, 1936, at 1 p. m.

PROFITABLE MUNICIPAL MARKETS.

Municipal markets, "white elephants" in many cities, can be made self-supporting and even profitable, according to recent reports on two of them. The Department of Public Markets of New York City reports that within the administration of its present Mayor, Fiorello LaGuardia, the city's markets have changed from inefficient and expensive undertakings into profitable investments. The Benton Harbor, Mich., municipal fruit and vegetable market is described as doing a three-million-dollar annual business by its City Manager in the February issue of "Public Management."

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING FILL.

The Supply Department of the City of Boston invites proposals for furnishing the Park Department, fill, as per specifications to be obtained at the Supply Department, Room 801, City Hall Annex. *There will be a charge of twenty cents (\$0.20) for each blank proposal taken out.* The bidder must leave his proposal and a certified check for \$200, payable to and to become the property of the City of Boston if the proposal is not carried out, at the office of the Supply Department. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read on Friday, July 24, 1936, at 12 m., at Room 801, City Hall Annex. The successful bidder must furnish a bond for one quarter the total estimated amount of the contract with a surety company authorized to do business in Massachusetts, as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

D. FRANK DOHERTY,
(July 18.) Superintendent of Supplies.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO GENERAL CONTRACTORS.

The Superintendent of Construction of the Department of School Buildings of the City of Boston invites sealed proposals for alterations in the Washington School, corner Norman and South Margin streets, West End, Boston, Mass., and giving bond of a surety company satisfactory to the Superintendent of Construction therefor in the full amount of the contract price. Plans ready for contractors noon July 21, 1936. Only proposals obtained at the office of the Superintendent of Construction, 11 Beacon street, Boston, Mass., signed by the bidder and left before 2 p. m. Wednesday, July 29, 1936, at said office, with a certified check for \$5,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Superintendent of Construction. The Superintendent of Construction reserves the right to reject any or all proposals. A deposit of a certified check in the sum of \$25 will be required in order to procure a complete set of specifications, said sum to be refunded to all but the successful bidder if specifications are returned prior to noon of Wednesday, August 5, 1936. Mutilation of the specifications will be deemed sufficient cause for the forfeiture of the said deposit.

WM. W. DRUMMEY,
(July 18.) Superintendent of Construction.

PITTSBURGH'S TRAFFIC SAFETY RECORD.

Pittsburgh has been adjudged the safest city in the United States in 1932, and the second safest in 1933 and 1934 among cities with populations over 500,000. Registrations in the city increased 4.4 per cent, gasoline consumption 7.7 per cent. In 1935, despite a 2.4 per cent decrease in traffic volume, adult fatalities increased 30 per cent, total fatalities 24 per cent, as compared with 1934.

THE NOISE NUISANCE.

That city officials are serious about eliminating noise is noted from studies of new anti-noise ordinances enacted by a growing number of municipalities listed in the "United States Municipal News," bulletin of the American Municipal Association and the United States Conference of Mayors. Among the more important of these cities are Philadelphia, Gary, Ind., Louisville, New York and Boston.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

FURNISHING AND INSTALLING FURNITURE AND EQUIPMENT IN THE ADDITION TO THE ENGLISH HIGH SCHOOL, MONTGOMERY STREET, BOSTON, FOR THE DEPARTMENT OF SCHOOL BUILDINGS, CITY OF BOSTON, MASSACHUSETTS NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A. DOCKET NO. MASS. 1092 R.

NOTICE TO CONTRACTORS.

Sealed proposals for furnishing and installing the furniture and equipment for the addition to the English High School, Boston,

Furniture,
Steel wardrobes,
Refrigerators,
Gas ranges,
Kitchen equipment,
Cafeteria equipment,

will be received by the Superintendent of Construction, at the office of the Department of School Buildings, 11 Beacon street, Boston, Mass., until 2 o'clock p. m. Daylight Saving Time, of July 30, 1936, and at that place and time will be publicly opened and read. The proposal submitted to the Superintendent of Construction shall not be separated from the book of specifications. The additional copy of the proposal shall be removed from the book of specifications and after filling out shall be sealed in an envelope and delivered to the Auditor of the City of Boston at the City Hall, School street, Boston, Mass., before the time for the opening of the proposals. A bidder may submit a proposal on one or more items.

The project is to be financed and constructed under the terms of the Emergency Relief Appropriation Act of 1935 and chapter 366 of the Acts of 1933 of the Commonwealth of Massachusetts, as amended. The attention of bidders is directed to the construction regulations prescribed by the P. W. A. Attention is called to the fact that minimum wage rates are established for the project, and are set forth in the contract documents. The employment agency designated by the Government for this project is Edward L. Hanna, Manager, 100 Nashua street, Boston, Mass. All bids must be accompanied by a certified check on a bank located in the Federal Reserve District (5) payable to the City of Boston in the sum of five (5) per cent of the amount of the bid, except that a minimum amount of check shall be fifty (50) dollars. The certified check shall be attached to the proposal, sealed, and delivered to the Superintendent of Construction. The right is reserved to reject any or all proposals and to waive informalities, or to accept any proposal deemed best for the City of Boston, subject to the approval of the State Director, P. W. A. The certified checks of the three lowest bidders will be retained until the contract has been signed by all interested parties. All other certified proposal checks will be returned not less than forty-eight hours after the date of the opening of the proposals.

A bond of an approved surety company will be given by the successful bidder in the full amount of the contract price, except that no bond will be required for contracts under \$1,000. All contracts are subject to the approval of the Mayor. No award can be made without the approval of the State Engineer, P. W. A.

A deposit of a certified check for \$50 made payable to the City of Boston, will be required for each set of plans and specifications, said sum to be refunded not later than seven days after the opening of the bids. Mutilation or failure to return the plans or the specifications shall be deemed sufficient cause for the forfeiture of said deposit.

Specifications and forms of proposals may be obtained at the office of the Superintendent of Construction, Department of School Buildings, 11 Beacon street, Boston, Mass.

WM. W. DRUMMEY,
Superintendent of Construction,
Department of School Buildings.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

PUBLIC DEBT, JANUARY 1, 1933.

Gross funded debt, January 1, 1933, \$165,758,499.95 (including \$119,999.95 issued by State for enlargement of Court House); sinking funds, \$35,737,619.21; other redemption means, \$3,078,263.28; net debt, \$126,942,617.46 or \$7,588,429.94 more than on January 1, 1932. Of said debt (net) \$79,310,526.63 or 62.48 per cent was City debt; \$46,199,623.96 or 36.39 per cent, Rapid Transit debt (representing 4½ per cent investment); \$994,466.87 or 0.78 per cent, County debt; \$438,000 or 0.35 per cent, Water debt.

Debt paid in 1932 was \$9,935,301 but there was an increase in total gross debt of \$5,437,698.99.

Net debt per capita, \$160.62 (approx.); net debt, exclusive of Rapid Transit debt, \$80,742,993.50 or \$102.17 per capita (approx.).

Total foreign white which is 61.19 per cent of all inhabitants, stock, 478,009 (viz., 229,356 plus 248,653) which is 61.19 per cent of all inhabitants.

A SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

OWNED AND RENTED HOMES IN UNITED STATES, NEW ENGLAND AND MASSACHUSETTS, 1930—ALSO BOSTON.

Total homes in UNITED STATES, 29,904,663, of which 14,002,074 or 46.8 per cent were owned, 15,319,817 or 51.2 per cent were rented, and 582,772 were of unknown tenure. CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 28.

SATURDAY, JULY 25, 1936.

No. 30

CITY LAW DEPARTMENT DISPOSES OF 420 TORT CASES AGAINST THE CITY DURING THE FIRST HALF OF THE YEAR, WITH INDICATIONS THAT ALL RECORDS WILL BE BROKEN FOR SUCH RESULTS BY THE CLOSE OF THE YEAR—PAYMENTS PER CASE REACHED THE AVERAGE LOW OF \$127.27—TAX TITLE CASES FOR HALF YEAR REACH TOTAL OF 1,281, WITH \$1,019,775 BROUGHT INTO THE CITY TREASURY.

One of the notable bits of work for the benefit of the city which the Law Department has been performing during the past six months has been the handling of tort cases against the city and in proceedings to enforce tax titles. The following letter from Corporation Counsel Henry E. Foley to Mayor Mansfield discloses the work that has been done:

BOSTON, July 17, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,— I should like to call to your attention, now that the first half of the year 1936 has been completed, indications of progress in the disposition of tort cases against the city and in proceedings to enforce tax titles.

TORT CASES.

During the first half of 1936 a total of 420 tort actions were disposed of, with total payments of only \$53,454.64. The average payment per case was the remarkably low amount of \$127.27. The following comparative table indicates the disposition of tort actions for 1933, 1934, 1935 and the first half of 1936.

YEAR.	Total Actions Disposed of.	Judgments for Plaintiff, Including Trials and Settlements.	Judgments for Defendant, In- cluding Non- suits and Agree- ments for Neither Party.	Total Pay- ments by City.	Average Pay- ment by City Per Action Disposed of.
1933*.....	426	323	103	\$144,993 43	\$340 36
1934.....	702	504	198	138,152 05	196 80
1935.....	628	466	162	97,863 92	155 73
1936, first half.....	420	269	151	53,454 64	127 27

* Excludes General Equipment Corporation settlement, \$85,000.

It is also interesting to note in this connection that the average payment in tort cases in the ten-year period from 1924 to 1933 was \$274.34.

The improvement in the results of tort actions is due in large part to the careful investigation, assignment and preparation of cases. Investigation is conducted promptly, often in response to a telephone call to this department. Prompt and efficient photography has also had the tendency of discouraging groundless claims against the city. One employee of this department is subject to call at any hour of the night. When there is an accident at night, resulting in damage to city property or for which the city may be liable, this employee is commonly notified by the Police Department or by some other department of the city and is thus enabled to appear on the scene of the accident almost immediately, to obtain information and to have photographs taken promptly, if necessary. This innovation, started in 1935, is proving of great value to the department.

TAX TITLES.

During the first half of this year the Tax Title Division of this department disposed of 1,281 cases as compared with 1,598 in the entire year 1935, 421 cases in 1934 and a total of 98 cases in the four-year period from 1930 to 1933, inclusive. As a result this department brought into the City Treasury during the first half of 1936 the sum of \$1,019,775.

In the foreclosure of tax titles and in the disposal of petitions for such foreclosure, this division has constantly given sympathetic assistance to taxpayers and borne in mind the fact that many taxpayers are delinquent through no fault of their own, and that payment rather than foreclosure is in the interest of the city.

Very truly yours,

HENRY E. FOLEY,
Corporation Counsel.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

* Contract awarded.

W. P. A. SUPPLY DEPARTMENT.

Upon July 16 the Acting Mayor approved a contract with the Day Company for furnishing oak panels and partitions to the Public Welfare Department, 43 Hawkins street.

Two bids were received and the low bidder, Day Company, 29 Wareham street, Boston, failed to file their bid according to instructions and deposited both copies of their proposal with the Supply Department, thereby making their bid irregular because of no copy being filed with the City Auditor.

In view of the immediate need of this material by the Public Welfare Department, and no advantage would accrue from readvertising, permission was given to award the contract to Day Company for \$1,857.10, the price bid, without further advertising.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Acting Mayor approved contracts with several firms and contractors for supplies, labor, etc. Communications from the heads of the several departments interested were as follows:

PARK DEPARTMENT.

BOSTON, June 30, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—By vote of the Board of Park Commissioners your approval is respectfully asked to authorize the Board to award, without advertising, a contract to the Gray Line, Incorporated, of Boston to furnish not more than nine buses per day for the transportation of about 250 poor children per day on Randidge Fund excursions to and from Castle Island, for five days per week, from July 1 to August 31, 1936, for the sum of \$10 per bus per day. When going through the East Boston Tunnel an additional charge of 50 cents per bus each way will be made to cover the toll charge. This expense is to be charged to the appropriation, "Transportation of Children, etc., Reserve Fund," and the total charge is not to exceed the sum of \$4,500.

The reason for asking that this contract be awarded to the Gray Line, Incorporated, of Boston is that the Gray Line has been given this contract for the past five years and has given very satisfactory service. The price is the lowest sub-

mitted for this service, and the Board believes that nothing would be gained by advertising.

Very respectfully yours,

DANIEL J. BYRNE,
Secretary.

SUPPLY DEPARTMENT.

BOSTON, July 20, 1936.

HON. JOHN I. FITZGERALD,
Acting Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Beacon Beef Company, Incorporated, 33 Fulton street, Boston, to deliver to the various city departments during the month of August, 1936, the following: Meats, \$2,467.08.

As the next lowest prices on the items involved amount to \$2,525.40, I believe it would be to the best interests of the city to award the contract to the Beacon Beef Company, which did not deposit a duplicate bid at the auditor's office.

Respectfully yours,

D. FRANK DOHERTY,
Superintendent of Supplies.

W. P. A. SUPPLY DEPARTMENT.

BOSTON, July 15, 1936.

HON. JOHN I. FITZGERALD,
Acting Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without advertising for same, to the Royal Typewriter Company, 80 Broad street, Boston, for furnishing eighteen Royal typewriters to the City Planning Board, 245 State street, Boston.

Six of the machines now in use by the Planning Board to be purchased for \$50 each.

One machine, now in use by the Planning Board, with a large carriage, to be purchased for \$60. These machines have been selected by the Planning Board. The total amount is \$360.

Eleven of the machines are new machines and have been selected by the Planning Board as best suited for their needs and will cost as follows:

Four 12-inch machines, \$83.15 each, \$332.60, net; six 14-inch machines, \$87.20 each, \$523.20, net; one 18-inch machine, \$101.38 each, \$101.38, net—\$957.18.

The total amount of this contract will be \$1,317.18.

As the Royal Typewriter Company is the manufacturer, no advantage would accrue by publicly advertising for these machines.

Yours very truly,

D. FRANK DOHERTY,
Superintendent of Supplies.

APPEALS FOR FUNDS.

The following is a copy of a telegram sent to W. P. A. officials at Washington by Acting Mayor Fitzgerald:

BOSTON, MASS., July 13, 1936.

MR. BRUCE MCCLURE, Director, Professional and Service Projects, Works Progress Administration, Washington, D. C.

Boston lifeguard first aid project No. 14-3-552 submitted early May. Employees to be used on beaches established by E. R. A. and W. P. A. funds. Very important that approval come through promptly. Will appreciate your cooperation to expedite approval.

JOHN I. FITZGERALD,
Acting Mayor of the City of Boston.

MORE CHARITABLE ORGANIZATIONS THANK MAYOR MANSFIELD THROUGH CITY TREASURER JOHN H. DORSEY FOR CITY EMPLOYEES' GIFTS.

The following additional letters of thanks have been received by City Treasurer John H. Dorsey, acting for Mayor Mansfield in the distribution of the fund contributed collected during the Emergency Campaign for relief, from city employees and others.

BOSTON INDUSTRIAL HOME.
17 DAVIS STREET, BOSTON, MASS.

April 16, 1936.

MR. JOHN H. DORSEY, *Treasurer*,
21 City Hall, Boston.

DEAR MR. DORSEY,—We have just received a check from the Emergency Campaign of 1935 to the amount of twenty-one dollars eighty-four cents (\$21.84) representing a contribution to the work of our Home from the city and county employees and which I assure you is far more deeply appreciated than any words of mine could possibly express.

We are not affiliated with that campaign or with the one recently conducted for 1936 and for that reason it is particularly gratifying when contributors to that effort designate our work in the allocation of their gifts.

This splendid gift was undoubtedly made some time last year, but as it was only received this morning we cannot be charged with what appears to be an unwarranted delay in its acknowledgment.

With a profound sense of gratitude to each one who had a part in this wonderful expression of interest in our work and for your kindly interest in the matter, believe me to remain,

Gratefully yours,

OLIVER C. ELLIOT,
Superintendent.

BOARD OF TRUSTEES, MASS. WOMEN'S
HOSPITAL.

65 BAY STATE ROAD, BELMONT, MASS.

JOHN H. DORSEY, United Drug Company,
Boston, Mass.

MY DEAR SIR,—The Board of Trustees of the Mass. Women's Hospital wish me to express to you as well as the city and county employees our deep appreciation for the gift of \$15 which recently came to us through the Boston Emergency Campaign.

We are most grateful to all of you for the kindly interest that prompted the gift.

May I ask that you convey our thanks to all concerned in the gift.

Very truly yours,

BESSE SPAULDING, *Secretary.*
(Mrs. Howard T.)

HOME FOR ITALIAN CHILDREN,
INCORPORATED.

1125 CENTRE STREET, JAMAICA PLAIN.

April 24, 1936.

To Our Good Friends, *Employees of the City and County.*

(Care of Mr. JOHN H. DORSEY, City Hall, Boston.)

DEAR MR. DORSEY,—We acknowledge herewith the receipt of the check in the

amount of \$330.64 which was forwarded to us by the Emergency Relief Campaign of 1935, representing subscriptions from the city and county employees made in favor of our Home.

In behalf of the Board of Directors, I extend to you and through you to each of our good friends among the employees of the city and county, our most sincere gratitude and appreciation of their charity and kind remembrance towards helping us care for those dear little children under our charge who through sickness or death have been deprived of the loving care of their own parents.

We can assure you that the donation was most welcome as on account of the existing financial conditions, so many of our good friends who in the past have considered it a pleasure to help, now find it an impossibility, but nevertheless we are most desirous to be able to provide for the 117 little ones under our charge.

Trusting that by the prayers of our little children who remember daily their good benefactors, each of our good friends among the city and county employees will be more than repaid for their kind charity by the choicest of God's blessings, we remain,

Very sincerely and gratefully yours,

HOME FOR ITALIAN CHILDREN,
INCORPORATED.

LUISA A. DeFERRARI,
Treasurer.

MASSACHUSETTS WOMEN'S HOSPITAL.
53 PARKER HILL AVENUE, BOSTON.

April 24, 1936.

MR. JOHN H. DORSEY,
City Hall, Boston, Mass.

DEAR MR. DORSEY,—Kindly extend the grateful thanks of the Massachusetts Women's Hospital to the city and county employees for their gift of \$15 subscribed to us through the Emergency Campaign of 1935.

Very truly yours,

(MRS.) LILA M. LITTLE, R. N.,
Superintendent.

THE BOSTON POST.

May 12, 1936.

MR. JOHN H. DORSEY, City and County
Treasurer, 21 City Hall, Boston.

DEAR MR. DORSEY,—Nelson C. Tisdal, comptroller, Emergency Campaign of 1935, has sent to this office a check for \$31.60 for the "Boston Post Santa Claus" which he states was designated by the city and county employees in connection with their contribution.

We of the *Post* want you folks to know that we are very appreciative of this check but we are much more concerned with the very kind thought which prompted you to think of the "Post Santa Claus Fund" at this time of the year. We regard the Santa Claus work as not only helpful to the little ones who might be forgotten on a day of general rejoicing and thanksgiving but as a permanent lesson in human kindness. We think it tends to promote faith in human beings and heaven knows there is real need of that. Thus we were really very much impressed and pleased by the action of your organization.

Cordially yours,

EDWARD J. DUNN,
City Editor.

On motion of the Superintendent, it was

ORDERED, That the employment of Rudolph N. Marginot, trade instructor, Continuation School, is hereby authorized for such portion of the current summer as may, in the discretion of the Superintendent, be necessary in organizing, in co-operation with the State Department of Education, apprentice classes to be conducted during the next school year, compensation for said service to be at the rate of seven dollars (\$7) per day, the cost to be covered by Federal funds administered by the Commissioner of Education by special distribution to the City of Boston, and reimbursement made by the State Department of Education to the City of Boston for all other expenses in the amount of fifty per cent (50%).

AMENDMENTS TO REGULATIONS

The following was offered:

ORDERED, That the Regulations are hereby amended as follows, to become effective September 1, 1936:

Section 252, paragraph 1. In the first line, insert to immediately precede the words "junior masters" the words—masters (military drill)—so that the paragraph shall read as follows:

Sect. 252. 1. The masters (military drill), junior masters (military drill), and instructors of military drill shall, under the general supervision of the director of physical education, have charge of instruction in that subject.

Paragraph 2. In the second line, insert to immediately precede the words "junior master" the words—master (military drill)—so that the paragraph shall read as follows:

2. The armorer shall, under the general supervision of the master (military drill), junior master (military drill), or instructor of military drill, have charge of keeping the military equipment for the schools in proper condition for use.

Section 302. Insert the following new paragraph as paragraph 2 and re-number present paragraphs 2 to 15 as 3 to 16:

2. Junior masters upon attaining the maximum salary of the rank shall have the rank of master.

Paragraph 11. Strike out the first two paragraphs. In the third paragraph insert to immediately precede the words "junior masters" the word—master—so that the paragraph shall read as follows:

11. The number of masters, junior masters, and instructors to which a Latin or day high school attended exclusively by girls, or attended by boys and girls, is entitled, shall be based upon the num-

ber of pupils attending such school, and in accordance with the following table:

(Table unchanged)

Section 303, paragraph 8. In the first line, insert to immediately precede the word "junior" the words—masters (military drill)—so that the paragraph shall read as follows:

8. Teachers of military drill who shall be masters (military drill), junior masters (military drill), and instructors of military drill, in such numbers as the School Committee may authorize.

Insert the following new paragraph as paragraph 9:

9. Junior masters (military drill) upon attaining the maximum salary of the rank shall have the rank of master (military drill).

Laid over.

The following was offered:

ORDERED, That the Regulations are hereby amended as follows:

Section 165, paragraphs 9 and 10. Strike out the paragraphs and substitute as new paragraph 9 the following:

9. The sessions of day industrial schools shall begin not earlier than 8.20 o'clock A. M., and close not later than 4 o'clock P. M., provided that no session shall be less than six hours and twenty minutes in length, exclusive of the recess period.

Re-number paragraphs 11 to 14 as paragraphs 10 to 13.

Laid over.

ELECTION OF CUSTODIAN REPRESENTATIVE, TRIAL BOARD

A communication was received from the Schoolhouse Custodian, under date of June 22, 1936, reporting that at a meeting of all of the custodians held on June 15, 1936, Mr. John V. Dole was elected as the custodians' representative on the Trial Board.

Placed on file.

LEAVE OF ABSENCE TO CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of June 22, 1936, recommending that all custodians whose services can be dispensed with be granted leave of absence without loss of pay on Monday, June 29, 1936, to attend the Annual Field Day of the Custodians' Association.

Placed on file and leaves of absence granted under the conditions stated.

The Committee adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

PROFITABLE MUNICIPAL MARKETS.

Municipal markets, "white elephants" in many cities, can be made self-supporting and even profitable, according to recent reports on two of them. The Department of Public Markets of New York City reports that within the administration of its present Mayor, Fiorello LaGuardia, the city's markets have changed from inefficient and expensive undertakings into profitable investments. The Benton Harbor, Mich., municipal fruit and vegetable market is described as doing a three-million-dollar annual business by its City Manager in the February issue of "Public Management."

SEWAGE TREATMENT PLANT CONSTRUCTION ON THE INCREASE.

Owing to the economic conditions prevailing during the past year, there was but a relatively small volume of sewage treatment plant construction. Within recent months, however, there has been a decided impetus to new construction of this type growing out of the Public Works Administration allotments. Nearly 700 cities have received allotments of funds from the P. W. A. for sewerage or sewage treatment, involving an aggregate expenditure of well over \$200,000,000.

36,400 MOTOR DEATHS IN 1935.

According to the findings of the National Safety Council motor traffic deaths in 1935 totaled 36,400, compared with 1934's record of 36,000.

The only decrease was among school children up to fifteen years of age. Motor vehicle accidents to children have increased much less than those of adults since 1922, when safety education began on a national scale. October, November and December were the reddest months. Two-thirds of the accidents were in places under 10,000 population; more than 40 per cent of the victims pedestrians.

Thirteen states decreased traffic deaths 7 per cent or more: Delaware, Illinois, Kentucky, Massachusetts, Minnesota, Montana, North Dakota, Oregon, Rhode Island, Utah, Vermont, Wyoming and Washington.

POLICE MOTOR BUSINESS IN JERSEY CITY.

The motor police of Jersey City, N. J., are concentrated in the Traffic Bureau and the Motor Patrol Bureau. The rolling equipment consists of thirty-three motorcycles, thirty-five automobiles, three emergency trucks, seven patrol wagons, an armored payroll car, two wreckers, and a touring car for distinguished visitors.

The Traffic Bureau has charge of the motorcycles, all Harley-Davidsons of 1928-33, which are attached to the eight precincts. Eighteen of these are on duty sixteen hours per day, 8 a. m. to midnight; two are on duty from midnight to 8 a. m. They patrol the heavy-duty highways and the Pulaski Skyway from the Holland vehicular tunnel under the North river.—*American City Magazine*.

A NEW POSITIVE WATER-METER TESTER.

The large majority of waterworks, particularly the smaller ones, seldom have accurate or positive means of testing their meters. Often when a meter is repaired, the man making the repairs simply blows through the meter to see if it runs, when it is again put into service with the assumption that it is accurate. Sometimes meters are hooked up in series with a new meter and water is run through to see if the readings check. This is better than the lung-power method, but still is far from accurate or dependable, in that the test meter may be in error by 2 per cent or even more. Several states have regulations governing water utilities, both municipal and private, and require a positive method of testing water meters in every meter shop.—*American City Magazine*.

NO COST CONTROL FOR REFUSE DISPOSAL.

American cities on the whole may be clean housekeepers, but they don't know how much it is costing them to be clean or whether they are spending too much. Only a few cities are able to report accurately the unit cost of removing garbage and other refuse and of cleaning streets, according to the Public Administration Service of Chicago, Ill., which further reports that at least 90 per cent of the cities in this country have no cost control over this service.

PROCEEDINGS OF CITY COUNCIL.

Thursday, July 2, 1936.

Regular meeting of the City Council in the Council Chamber, City Hall, at 1 p. m. President FITZGERALD in the chair. Absent, Coun. Doherty.

APPOINTMENT BY THE MAYOR.

The following was received:

City of Boston,
Office of the Mayor, July 2, 1936.
To the City Council.

Gentlemen,—Subject to confirmation by your Honorable Body I hereby appoint John D. Garvey, 16 Lyall street, West Roxbury, as a weigher of coal.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.

Laid over one week under the law.

VETO—LOAN ORDER FOR TRAFFIC SIGNALS.

The following was received:

City of Boston,
Office of the Mayor, July 1, 1936.
To the City Council.

Gentlemen,—I herewith return without my signature and with my disapproval a form of loan order read and passed by your Honorable Body on May 4, 1936, and on June 29, 1936, in the sum of \$50,000, for automatic traffic signals at various intersections and points in Boston, said sum to be expended under the direction of the Boston Traffic Commission.

I have been advised by the Corporation Counsel in an opinion dated May 16, 1936, that because of the provisions of chapter 224 of the Acts of 1936, the city may not properly authorize borrowing for traffic signal installation unless a sum equal to ten cents on each one thousand dollars of the assessed valuation of the city for the preceding year has been appropriated from available revenue funds or voted to be raised by taxation for such purpose in the year when the loan is authorized. Inasmuch as such sum has not been appropriated during the year 1936 from available revenue funds or voted to be raised by taxation for traffic signal installation, the city may not properly authorize borrowing for such purpose. It is, therefore, apparent that the order returned herewith is invalid.

I am transmitting herewith copy of the opinion of the Corporation Counsel hereinbefore referred to.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Law Department, May 18, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—I have received a memorandum from your office dated May 6, 1936, in which my opinion is requested as to the necessity of appropriating from revenue or taxes as a condition precedent to the authorization of debt by the city, in view of the provisions of section 5 of chapter 224 of the Acts of 1936.

Said section 5 provides as follows:

"Section seven of said chapter forty-four, as so appearing, and as affected by chapter one hundred and sixty-four of the acts of nineteen hundred and thirty-one, is hereby amended by striking out, in the third line, the words 'as to' and inserting in place thereof the words:—for the purposes set forth in,— by inserting after the word 'cents' in the fifth line the words:—, or in the case of Boston ten cents,— by inserting after the word 'but' in the thirty-eighth line the words:—, except in Boston,— and by inserting after clause (12) the following two new clauses:— (13) In Boston, for acquiring ferry, fire, institutional or police boats, fifteen years. (14) In Boston, for traffic signal, fire alarm or police communication installations, ten years,— so as to read as follows:— Section 7. Cities and towns may incur debt, within the limit of indebtedness prescribed in section ten, for the following purposes, and payable within the periods hereinafter specified, but, except for the purposes set forth in the eleventh clause, no loan shall be authorized in any year under any one of the following clauses unless a sum equal to twenty-five cents, or in the case of Boston ten cents, on each one thousand dollars of the assessed valuation of the city or town for the preceding year has been appropriated from available revenue funds or voted to be raised by taxation for the purposes set forth in such clause in the year when the loan is authorized: (1) For the construction of sewers for sanitary and surface drainage purposes and for sewage disposal,

thirty years. (2) For acquiring land for public parks or playgrounds or public domain under chapter forty-five, thirty years; but no indebtedness incurred for public domain shall exceed one half of one per cent of the last preceding assessed valuation of the city or town. (3) For acquiring land for any purpose for which a city or town is or may hereafter be authorized to acquire land, not otherwise specifically provided for; for the construction of buildings which cities or towns are or may hereafter be authorized to construct; or for additions to such buildings where such additions increase the floor space of said buildings, including the cost of original equipment and furnishings of said buildings or additions, twenty years. (4) For the construction of bridges of stone or concrete or of iron superstructure, twenty years. (5) For the original construction of public ways or the extension or widening thereof, including land damages and the cost of pavement and sidewalks laid at the time of said construction, or for the construction of stone, block, brick or other permanent pavement of similar lasting character under specifications approved by the department of public works, ten years. (6) For macadam pavement or other road material under specifications approved by the department of public works, or for the construction of sidewalks of brick, stone or concrete, five years. (7) For the construction of walls or dikes for the protection of highways or property, ten years. (8) For the purchase of land for cemetery purposes, ten years. (9) For the cost of additional departmental equipment, five years; but, except in Boston, each department shall be considered separately in determining the amount that must be provided from revenue funds or proceeds of taxation before such indebtedness may be incurred. (10) For connecting dwellings or other buildings with common sewers, when the cost is to be assessed in whole or in part on the abutting property owners, five years. (11) For the payment of final judgments rendered after the fixing of the tax rate for the current year, one year. (12) For the establishing of public airports, including the acquiring of land, grading and constructing suitable surface on such field, the construction of necessary buildings and the original equipment and furnishing of same, ten years. The proceeds of indebtedness incurred hereunder may be expended for the establishment of such an airport jointly by two or more municipalities. (13) In Boston, for acquiring ferry, fire, institutional or police boats, fifteen years. (14) In Boston, for traffic signal, fire alarm or police communication installations, ten years. Debts may be authorized under this section only by a two thirds vote."

Based upon said section 5, it is my opinion that the city may not properly authorize borrowing for the purposes set forth in any clause thereof (including those purposes set forth in the fifth, sixth and fourteenth clauses), except the purpose set forth in the eleventh clause, unless a sum equal to ten cents on each one thousand dollars of the assessed valuation of the city for the preceding year has been appropriated from available revenue funds or voted to be raised by taxation for the purposes set forth in such clause in the year when the loan is authorized.

Section 11 of said chapter 224 provides as follows:

"The provisions of sections four to ten, inclusive, shall not apply to debt in the city of Boston authorized prior to the effective date of this act whether or not issued."

Based upon said section 11, it is my opinion that if the city has authorized borrowing prior to the time said chapter 224 became effective, namely, on April 18, 1936, such borrowing would not be subject to the foregoing limitation whether or not any debt has been issued under such authorization.

Very truly yours,

HENRY E. FOLEY,
Corporation Counsel.

Placed on file.

VETO OF SIDEWALK ORDERS.

The following was received:

City of Boston,
Office of the Mayor, June 30, 1936.
To the City Council.

Gentlemen,—I return herewith disapproved and without my signature an order adopted by your Honorable Body on June 29, 1936, for the making of a granolithic sidewalk with granite edgestones in front of 309 E street and along Silver street for a distance of approximately 100 feet from the corner of E street in Ward 6.

I am informed by the Commissioner of Public Works that there are no funds available at the present time for this construction. Under the circumstances I am constrained to veto the order.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.
Placed on file.

City of Boston,

Office of the Mayor, June 30, 1936.
To the City Council.

Gentlemen,—I return herewith disapproved and without my signature an order adopted by your Honorable Body on June 29, 1936, for the making of a granolithic sidewalk with granite edgestones along both sides of the entire length of Train street in Ward 16.

I am informed by the Commissioner of Public Works that there are no funds available at the present time for this construction. Under the circumstances I am constrained to veto the order.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.
Placed on file.

SALE OF LAND, LENOX STREET.

The following was received:

City of Boston,
Office of the Mayor, July 1, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Superintendent of Public Buildings, dated June 19, 1936, relating to an offer to purchase certain property situate on the southwesterly side of Lenox street, Boston, containing 545 square feet of land, more or less, which property was acquired from foreclosure of a tax title held by the city.

I also transmit an order authorizing the sale of said property. The price recited in this order is a minimum price of \$150, the Superintendent of Public Buildings having stated in his letter that the sale of the premises at public auction with a minimum price of \$150 is in the interest of the city.

I respectfully recommend the adoption of this order.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Buildings Department,
June 19, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—In accordance with the provisions of chapter 3, Ordinances of 1935, concerning tax title property, I respectfully submit herewith copy of an offer from S. B. Watson, 75 Windsor street, Boston, as agent for Mrs. Graves, for the vacant land on the southwest side of Lenox street, Boston (formerly No. 128) containing 545 square feet, in the sum of one hundred and fifty dollars (\$150).

The costs to the city up to December 30, 1935, amount to one hundred eight dollars and forty-six cents (\$108.46), which includes the nonpayment of taxes since the year 1931, but does not include interest.

If and when the above amount of one hundred and fifty dollars (\$150) is approved by your Honor and the City Council, the property will then be properly advertised for sale at public auction and sold to the highest bidder. The figure of one hundred and fifty (\$150) will be the minimum price for the property that the city is willing to accept and will be announced as the first bid at a public auction sale.

In my opinion it will best serve the city's interests to proceed on the foregoing basis.

Respectfully yours,

ROSWELL G. HALL,
Superintendent of Public Buildings.

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated August 26, 1935, foreclosed a right of redemption under a tax title filed in the Land Court, Suffolk Registry District, with certificate of title No. 23206, to about 545 square feet of land, situate on the southwesterly side of Lenox street, Boston, as is more fully described in said tax deed, said tax deed being Document No. 118842; and

Whereas, An offer to purchase the said premises has been made by S. B. Watson, agent, in the sum of one hundred and fifty dollars (\$150); now, therefore, it is hereby

Ordered, That the Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized, with the approval of the Mayor of Boston, to sell all the city's right, title and interest in said parcel of land at public auction at a minimum price of one hundred and fifty dollars (\$150); and it is hereby further

Ordered, That the said Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized to execute and deliver, in the name and behalf of the City of Boston, to the purchaser of said parcel of land a written instrument satisfactory in form to the Law Department of the City of Boston conveying all the right, title and interest of said City of Boston in said premises upon the payment to it of the sum bid therefor at said auction.

Referred to the Committee on Public Lands.

SALE OF LAND, WASHINGTON HEIGHTS AVENUE.

The following was received:

City of Boston,
Office of the Mayor, July 1, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Superintendent of Public Buildings, dated June 8, 1936, relating to an offer to purchase certain property situated on the northeasterly side of Washington Heights Avenue East, West Roxbury, which property was acquired from foreclosure of a tax title held by the city.

I also transmit an order authorizing the sale of said property. The price recited in this order is a minimum price of \$100, the Superintendent of Public Buildings having stated in his letter that the sale of the premises at public auction with a minimum price of \$100 is in the interest of the city.

I respectfully recommend the adoption of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Buildings Department,
June 8, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—In accordance with the provisions of chapter 3, Ordinances of 1935, concerning tax title property, I respectfully submit herewith copy of an offer from Mr. Campbell D. Shaw, 212 Belgrade Avenue, Roslindale, for the vacant land at Washington Heights Avenue East, West Roxbury, Lot 13, in the sum of one hundred dollars (\$100).

The costs to the city up to December 30, 1936, amounted to seventy dollars and twenty-six cents (\$70.26), which includes the non-payment of taxes since the year 1930, but does not include interest.

If and when the above amount of one hundred dollars (\$100) is approved by your Honor and the City Council, the property will then be properly advertised for sale at public auction and sold to the highest bidder. The figure of one hundred dollars (\$100) will be the minimum price for the property that the city is willing to accept and will be announced as the first bid at the public auction sale.

In my opinion it will best serve the city's interests to proceed on the foregoing basis.

Respectfully yours,
ROSSELL G. HALL,
Superintendent of Public Buildings.

June 5, 1936.

Mr. Edmund W. Gibley.

Dear Sir,—I make an offer of \$100 for lot of land on Lot 13, Washington Heights Avenue East. Supposed owner D. J. Khoury; 5997 Docket; 2301 File; 125458 Recording of Record.

Respectfully submitted,
CAMPBELL D. SHAW,
Established 1913.

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated June 24, 1935, foreclosed a right of redemption under a tax deed filed in the Land Court, Suffolk Registry District, with certificate of title No. 12337, to about 5,132 square feet of land situate on the northeasterly side of Washington Heights Avenue East, West Roxbury, as is more fully described in said tax deed, the said tax deed being Document No. 107476; and

Whereas, An offer to purchase the said premises has been made by Mr. Campbell D. Shaw in the sum of one hundred dollars (\$100); now, therefore, it is hereby

Ordered, That the Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized, with the approval of the Mayor of Boston, to sell all the city's right, title and interest in said parcel of land at public auction at a minimum price of one hundred dollars (\$100); and it is hereby further

Ordered, That the said Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized to execute and deliver, in the name and behalf of the City of Boston, to the purchaser of said parcel of land a written instrument satisfactory in form to the Law Department of the City of Boston conveying all right, title and interest of the said City of Boston in said premises upon the payment to it of the sum bid therefor at said auction.

Referred to the Committee on Public Lands.

SALE OF LAND, CAMDEN PLACE.

The following was received:

City of Boston,
Office of the Mayor, July 1, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Superintendent of Public Buildings, dated June 24, 1936, and a copy of a letter from J. M. Dupont to the Superintendent of Public Buildings, dated June 22, 1936, relating to an offer to purchase certain property situate on Camden place, Boston, which property was acquired from foreclosure of tax titles held by the city.

I also transmit an order authorizing the sale of said property. The price recited in this order is \$325 for 16 Camden place and \$350 for 15 Camden place, the Superintendent of Public Buildings having stated in his letter that a sale of said property at the said price would be advantageous to the City of Boston.

I respectfully recommend the adoption of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Buildings Department,
June 24, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—In accordance with the provisions of chapter 3, Ordinances of 1935, concerning tax title property, I respectfully submit herewith copy of an offer from Mr. J. M. Dupont, 364 Quincy street, Dorchester, for the vacant land at 16 Camden place, Boston, in the sum of \$325, and for 15 Camden place, Boston, in the sum of \$350.

The costs to the city on 16 Camden place amount to \$593.95 from the year 1930 up to December 30, 1935. The costs on 15 Camden place amount to \$360.47 from 1930 to 1935. These costs include the nonpayment of taxes but do not include interest.

As your Honor will note in the copy of the offer attached the buyer intends to erect a new building on the premises which will, when completed, bring into the city in additional taxes approximately \$3,000 per year. I am strongly in favor of accepting this offer and recommend that the property be sold at private sale as a public auction would require considerable time and delay a deal which I consider most advantageous to the City of Boston.

As a further incentive for this sale, the construction of the proposed building will put several people to work.

Respectfully yours,
ROSSELL G. HALL,
Superintendent of Public Buildings.

364 Quincy Street,
Dorchester, Mass., June 22, 1936.
Major Roswell G. Hall, Superintendent,
Department of Public Buildings,
City Hall, Boston.

Dear Sir,—In connection with premises located at 16 Camden place and 22 Camden place, Boston, and now owned by the City of Boston, I wish to make offers of \$325 and \$350, respectively.

In taking this matter up with his Honor the Mayor, I should like to convey to him the following facts for consideration.

I have acquired all the other lots of this area at prices ranging from \$75 to \$325, to wit, one lot from the South Weymouth Co-operative Bank, \$150; another lot from the office of Joseph Wiggins, as administrator, for \$220; another lot owned by Cargiano, at the price of \$75, etc. These lots, individually, due to the zoning laws of the City of Boston, are now valueless for building purposes, there being only sixteen feet of frontage. The purpose for which this land is desired is to erect an addition to a standing building. When the contemplated addition is completed it will be taxable by the City of Boston for approximately \$80,000; and the cost of taking out building, sewer, and other permits will run into well over \$100, thus giving the city another source of revenue.

If this land can be acquired immediately, building operations will start within a very short time, thereby giving employment to many mechanics.

Will you also bring to the attention of his Honor the Mayor the fact that most of these lots have been a bone of contention for a great number of years, inasmuch as taxes have been concerned, and by making it possible for the contemplated erection to be carried out, this now practically valueless property will soon become fruitful and revenue-yielding.

I should very much appreciate your attention to subject matter and a very early reply, inasmuch as I should like to definitely formulate my plans for immediate operations.

Respectfully yours,
J. M. DUPONT.

Whereas, The City of Boston by decrees of the Land Court, Suffolk Registry District, dated March 25, 1935, and October 7, 1935, respectively, foreclosed the rights of redemption under two tax deeds recorded with Suffolk Deeds, Book 4390, page 587, and Book 5291, page 108, respectively, to two parcels of land situate in Camden place, Boston, Massachusetts, and more fully described in said tax deeds; and

Whereas, An offer to purchase the said property has been made by J. M. Dupont in the sum of three hundred and fifty dollars (\$350) for the property numbered 15 Camden place and three hundred and twenty-five dollars (\$325) for the property numbered 16 Camden place; now, therefore, it is hereby

Ordered, That the Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized, with the approval of the Mayor of Boston, to sell all the city's right, title and interest in said parcels of land for the sums of three hundred and fifty dollars (\$350) for the property numbered 15 Camden place and three hundred and twenty-five dollars (\$325) for the property numbered 16 Camden place; and it is hereby further

Ordered, That the said Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized to execute and deliver, in the name and behalf of the City of Boston, to the purchaser thereof a written instrument, satisfactory in form to the Law Department of the City of Boston, conveying all right, title and interest of said City of Boston in said property upon the payment to it of three hundred and fifty dollars (\$350) for the property numbered 15 Camden place and three hundred and twenty-five dollars (\$325) for the property numbered 16 Camden place.

TRANSFER OF FUNDS.

The following was received:

City of Boston,
Office of the Mayor, July 2, 1936.
To the City Council.

Gentlemen,—I am in receipt of the inclosed communications from the Commissioner of Public Works and the Traffic Commissioner requesting the sums of \$15,000 and \$900, respectively, be transferred to their budgets from such funds as are available.

The sum of \$15,000 requested by the Commissioner of Public Works is needed to carry on the various relief projects during the month of July, and the sum of \$900 requested by the Traffic Commissioner is needed to replace equipment and supplies destroyed by fire.

I am therefore forwarding herewith orders transferring the above sums from the Reserve Fund and respectfully recommend adoption by your Honorable Body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department, June 30, 1936.
To His Honor the Mayor.

It is estimated that the sum of \$15,000 will be needed by the Paving Service of the Highway Division to carry on the various emergency relief projects during the month of July.

I therefore respectfully request that this sum be transferred from such funds as are available to Item H, Relief Projects, of the Highway Division.

Yours respectfully,
C. J. CARVEN,
Commissioner of Public Works.

City of Boston,
Traffic Commission, June 30, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—A fire occurred in this office on the night of June 8, 1936, which resulted in serious damage to the office and destroyed practically all the stationery on hand; two typewriters, certain other items of office equipment and seriously damaged a Ditto machine and a calculating machine.

It is necessary that the destroyed equipment and supplies be replaced at once.

As you are aware the budget allowances for this department represent the minimum normal requirements for the year and will not take care of an emergency expenditure of this nature. I respectfully request, therefore, that the allowances in the following budget items be strengthened by the transfer from available sources of the amounts indicated.

B-39, General Repairs.....\$100 00
The emergency expenditure in this item is for repair of typewriters, Ditto machine and calculating machine.
C-7, Furniture and Fixtures..... 20 00
Replacement of office chair cushions, etc.

C-9, Office Equipment..... 280 00
Replacement of two typewriters, three pencil sharpeners and a Bostich Stapling machine.
D-1, Office Supplies..... 500 00
All of the stationery and other office supplies were stored in a wooden cabinet which was entirely destroyed.
Very truly yours,
WILLIAM P. HICKEY, Commissioner.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer:
From the appropriation for Reserve Fund, \$15,000, to the appropriation for Public Works Department, Paving Service, H, Relief Projects, \$15,000.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer:
From the appropriation for Reserve Fund, \$900, to the appropriation for Boston Traffic Commission, B-39, General Repairs, \$100; C-7, Furniture and Furnishings, \$20; C-9, Office, \$280; D-1, Office, \$500.
Referred to the Executive Committee.

DEPARTMENT TRANSFERS.

The following was received:

City of Boston,
Office of the Mayor, July 1, 1936.
To the City Council.

Gentlemen,—The attached requests for transfers within departmental appropriations have been examined and investigated by the Budget Commissioner. I accordingly recommend adoption of the accompanying orders by your Honorable Body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Public Buildings Department:
From the appropriation for H, Relief Projects, \$150, to the appropriation for B-10, Rent, Taxes and Water, \$150.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Soldiers' Relief Department:

From the appropriation for F-8, State and Military Aid, Soldiers' Relief and Burials, \$898.45, to the appropriation for A-1, Permanent Employees, Visitors, etc., 15 (16) at \$1,600 to \$2,000 a year, \$845.26; A-2, Temporary Employees, \$53.19.

Referred to the Executive Committee.

REORGANIZATION OF CITY DEPARTMENTS.

The following was received:

City of Boston,
Office of the Mayor, July 1, 1936.
To the City Council.

Gentlemen,—In view of the action of your Honorable Body at its last meeting in rejecting the proposed reorganization of city departments "without prejudice," and in consideration of the further fact that some members of your Honorable Body expressed themselves as not having had the time thoroughly to examine into the project, I assume that a resubmission of the proposed reorganization would not be unfavorably received.

Therefore, I am resubmitting the ordinance in question in order that more study may be given to it and with the hope that your Honorable Body will conclude that the passage of this ordinance will be for the best interests of the city. I strongly recommend the passage of the ordinance.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

(Appended was a copy of the proposed ordinance as submitted on May 4, 1936.)

Referred to the Committee on Ordinances.

EMBANKMENT ROAD CORNER.

The following was received:

City of Boston,
Office of the Mayor, June 8, 1936.
To the City Council.

Gentlemen,—I inclose herewith a report from the Boston Traffic Commissioner relative to the order adopted by your Honorable Body on May 4, 1936, relative to the advisability of rounding off the westerly corner of Embankment road and Beacon street.

Evidently this proposal meets with the approval of the Traffic Commission which suggests that it be transmitted to the Board of Street Commissioners for the purpose of making the necessary land-takings.

I quite agree with the view of the Traffic Commission and it seems to be a very reasonable and desirable improvement which can be made at a very slight expense. I am adopting the suggestion of the Traffic Commission and am forwarding a copy of the Traffic Commissioner's letter to them for consideration and report.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Traffic Commission, June 4, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated May 4, 1936, which reads as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to consider the advisability of rounding off the westerly corner of Embankment road and Beacon street so as to permit a freer movement of traffic from Embankment road into Beacon street, and, if deemed advisable to report what steps the Traffic Commission recommends for accomplishing this purpose."

The section of Beacon street between Embankment road and Berkeley street is the most heavily-traveled street in the City of Boston. The major portion of the westbound traffic in this street enters the area by making a right turn from Embankment road. The curb corner at this point juts out so that it seriously retards the movement of vehicles making the turn and therefore adds to the serious congestion at the intersection of Beacon street and Embankment road. In our opinion, this sharp turn from Embankment road into Beacon street constitutes a difficult and hazardous traffic situation. It would be materially improved by cutting back the corner on a larger radius.

About four years ago the same proposal as the present Council order contemplates was under advisement by this commission and the inclosed plan designated as C-6, was prepared showing the proposed widening of this intersection which, if effected, would greatly relieve the existing congestion and permit cars two abreast to make the turn from Embankment road into Beacon street, thereby enabling 30 per cent more cars to clear the intersection in a given time.

As the plan indicates, the parcel of land necessary to be taken by eminent domain to accomplish this small widening would be very small and the project correspondingly inexpensive.

It is respectfully suggested that this proposal be transmitted to the Board of Street Commissioners who have authority under the law to make the necessary land-taking.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

Report accepted; order passed.

TAX TITLE LOAN.

President FITZGERALD called up, under unfinished business, No. 3 on the calendar, viz.:

8. Ordered, That under the provisions of section 1, chapter 281, of the Acts of 1936, amending section 2 of chapter 49 of the Acts of 1933, the City Treasurer be authorized to secure the approval of the Emergency Finance Board to the issuance of notes of the city in the amount of \$4,000,000, said notes to be sold at their face value to the Commonwealth and the proceeds to be used to pay revenue loans of 1935.

On June 18, 1936, the foregoing order was read once and passed, yeas 19, nays 0.

Coun. WILSON—That is the four-million dollar loan order?

President FITZGERALD—It is.

Coun. WILSON—Mr. President, as a matter of record I wish to state that I have tried consistently to vote against the city borrowing money to pay current bills, but I understand that this present loan proposal is a new undertaking in city finances and a proper arrangement under any financial set-up. I understand we have on our hands at the present time some \$20,000,000 of outstanding taxes of past years and we have taken a lot of tax titles, if I understand the figures correctly. It is now proposed to borrow \$4,000,000 against these back tax titles and back taxes and discharge an earlier loan of \$4,000,000. In effect we thus borrow \$4,000,000 against uncollected taxes of prior years and pay off loans of like amount, or almost the same amount, already made against anticipated taxes for this year. In other words, it is just like any business house raising money on the slow moving accounts receivable and when these frozen assets have been liquidated, they being the security for the loan, they must be applied against the loan rather than being surplus money left around to play with. I therefore consider this plan is distinct from earlier loans to pay current bills and is one which I understand is now being tried this year for the first time and is sound financing. It amounts to raising cash on existing slow

accounts receivable and the back taxes as and when collected must be applied to the payment of this loan rather than being free for still further appropriations, whether this year or in 1937; and for that reason I feel I can consistently vote for this particular loan order of \$4,000,000.

The order was passed, yeas 20, nays—Coun. Shattuck—1.

EMPLOYMENT BUREAU TRANSFER.

President FITZGERALD called up, under unfinished business, No. 4 on the calendar, viz.:

4. Ordered, That the sum of \$5,000 be, and hereby is, appropriated, to be expended by the Municipal Employment Bureau, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund.

Coun. NORTON—On this matter, I have opposed the Employment Bureau, Mr. President, in past years, and I am not going to vote for it today, but I would like to say for the record that even though I opposed the bill through the years, they have down there a man in charge, Mr. Samuel Warren, who seems to go out of his way to be of assistance to members of this body. I never ran into a more kindly man, trying to handle an extremely difficult subject; so I am not going to vote on this thing today, Mr. President.

Coun. WILSON—In common with the councilor from Hyde Park, I have consistently opposed this Employment Bureau and I vote today in favor of half the request of the appropriation with some misgivings. I agree with him that Mr. Warren is a man of experience and one who ought to be able to produce something down there in the Municipal Employment Bureau with the pay roll and the personnel he has got. I admit I question whether the goods are being produced, certainly so far as a great majority of the Council are concerned, and I will reserve my rights when the final \$5,000 comes in at a later date, and attempt to find out some more detailed figures than are available at the present time. With that explanation I personally shall vote for this amended figure of \$5,000 today.

Coun. SHATTUCK—Mr. President, this is a matter that comes up about every three months and the appropriation is considered and we cut it down to enough to last for three months, and vote for it with, may be, some misgivings and reservation, and then in three months when the matter comes up again we do the same thing. We have been doing it for a number of years. I do not believe this activity will be modified so long as we keep voting the amount necessary every three months. Misgivings do not do any good. I shall vote against it.

The order was passed, yeas 17, nays—Coun. Shattuck—1.

WARD 14 STREETS.

Coun. ROSENBERG offered the following: Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway Johnston terrace, Ward 14.

Passed under suspension of the rule.

CODIFICATION OF SPECIAL STATUTES RELATING TO BOSTON.

Coun. WILSON offered the following orders: Ordered, That the City Auditor be requested, through his Honor the Mayor, to advise the City Council the dates and amounts of payments made incident to the proposed codification of statutes relating to the City of Boston, as to which a sum not to exceed \$20,000 was authorized as long ago as June, 1926.

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to inform the City Council as to what progress, if any, has been made during the past ten years on the proposed codification of statutes relating to the City of Boston, authorized at a cost not to exceed \$20,000 as long ago as June, 1926; and also how much time has been spent by how many employees of the Law Department on such work, and how much further time and money, if any, will be required to complete the work.

Coun. WILSON—In short explanation of those two orders, of course, back in the two years following 1908 there was a codification of the special statutes relating to the City of Boston made at a cost of around \$11,000, and completed in a period of some two years. Back in the spring of 1926 the City Council appropriated a sum of money, or authorized the transfer of a sum of money, not exceeding \$20,000, from the reserve fund, as I remember it, to be utilized for an up-to-date codification or possible revision of all special

acts relating to the City of Boston. That was ten years ago. The amount then authorized was \$20,000, or twice what it cost in 1908. I understand through successive corporation counsels various attaches of that paid office have also worked on the project and it occurred to me that after the expiration of ten long years perhaps there might be some report available on this rather expensive project.

The order was passed under suspension of the rule.

NEXT MEETING.

Coun. GALLAGHER—I move when we adjourn today that we adjourn to meet again on August 3d.

Coun. McGRATH—August 3d? I think we ought to get back here and have the Acting Mayor sign one of these traffic loans so we can get something done while the Mayor is having a good time in Europe. If we can pass one of those orders, I would agree to the adjournment.

President FITZGERALD—The question is on Councilor Gallagher's motion.

The motion was carried.

DEATH OF ADAM DOBROSKY.

Coun. WILSON offered the following: Ordered, That an appropriate committee of the City Council be appointed to confer with the officials of the Boston City Hospital concerning the unfortunate case of Adam Dobrosky, in order to ascertain all true facts relating to same.

Referred to Committee on Hospitals.

Coun. WILSON—Might I ask, Mr. President, who will be the ranking chairman, Mr. Doherty being on vacation or is he expected back shortly?

President FITZGERALD—He will be back next week.

Coun. NORTON—Talking on the motion, the Hospital Committee, who is the chairman?

President FITZGERALD—Coun. Doherty is chairman of the committee. Do you want private hearings?

Coun. NORTON—I believe, Mr. President, before questions of this kind are brought to the public, I have a little feeling on this particular bill. After visiting various hospitals in this country and in Europe, I have come to the conclusion that from the standpoint of the treatment of the poor of Boston, we have the finest hospital in the world and no better citizens in Boston than those who are running the hospital from Mr. J. P. Manning down to the superintendent. I had a case similar to this where the late Frank Finnegan was brought into the Relief Station under similar conditions and I want to say the treatment given to him at that time made me feel very proud to be a member of the city government of Boston. All of my contacts with the hospital have led me to believe there is no city in the world, and I have been in the Bellevue Hospital in New York City and in the hospitals in Paris and Berlin and other places in Europe, and no citizens are receiving better attention than the poor people of Boston are receiving at the Boston City Hospital. I reserve the right to criticize certain expenses of the hospital, but I am not losing sight of the fact it is my candid opinion it gives our poor as fine a break as is given to any people of a large city in the universe.

Coun. WILSON—Without entering into any long argument on the character of the doctors and the five trustees in charge, perhaps I am narrow enough to believe that human life and suffering is even more important than expense even in the Boston City Hospital, great as it is, and as splendidly as it is run the greater part of the time. I do not know what the correct story is with reference to this unfortunate case of April 8. If we read some of the statements in the newspapers correctly, it would almost seem that the Haymarket Relief Station should be closed if matters have reached such a state that it is necessary to telephone from that station in the middle of the day to the main hospital to get permission to make a lumbar puncture or an X-ray. Either that or some shifts are necessary at the Haymarket Relief Station. I do not ask for any long drawn out public hearings unless the same become necessary, but I believe the Hospital Committee, or some committee of the Council, should confer with the trustees of the City Hospital. I am inclined to believe the facts will be laid before the committee. If they are not, and if we do not ascertain the correct facts, and if we ascertain that certain changes are necessary, then we will have a public hearing if we have to get a new committee to get it.

Coun. NORTON—Answering the councilor's statement where he says he considers human life more important than expenses. Yes, we all do. I imagine that he made that statement

as a result of my statement that I was interested in expenses of the hospital. Well, to clarify that for the record, let me state what I was referring to. My remarks were in reference to the cost of food at the hospital where it was found the food paid for was not going to the patients. I said then and say now any one who would rob sick people is not entitled to charity or consideration. I say the cost of raw food at the hospital was more than the cost of raw food at hospitals with double the number of patients, where the food was not going to the sick. I hope no one will ever question my placing expenses ahead of human life.

The order was referred to the Committee on Hospitals.

PARKING ON GALLIVAN BOULEVARD.

Coun. McGRATH offered an order for a loan of \$50,000 for traffic signals.

Coun. McGRATH—Mr. President, I was not here when the Mayor sent the veto letter to the Council of the \$50,000. I have not had an answer on the order I introduced here about a month ago, Mr. President, to forbid the parking of automobiles on Gallivan Boulevard between Adams street and St. Brendan's Church. Last Saturday evening due to the congestion of the traffic in that section, because an individual is more important than the population of the ward, one woman was killed, being knocked 82 feet and both legs cut off, I understand, and another woman is in the hospital probably dead at this time. Last night in the same vicinity a woman was hit and seriously injured. Yesterday morning in the same vicinity a boy after serving mass in St. Brendan's Church was hit by an automobile and seriously injured. I inquired for the first time in the Mayor's office in about six weeks, and asked where the order was and no one seemed to be able to find it. I say there is no individual that owns a store in Ward 16 that is any more important than the public, and I ask at this time that you sign that order as Acting Mayor of Boston to forbid the parking of automobiles in this section. Going back to my order of \$50,000 for traffic lights, the last time I was in the Mayor's office I asked if he would install two traffic lights and after kidding me for about three months about the traffic lights and the surveys he was going to make with the cooperation of the two pastors of St. Mark's Church and St. Ann's Church informed me may be the tax rate would go up. I say to you, Mr. President, if the parochial schools closed down in the City of Boston how much would that increase this tax rate,—and the Mayor on his trip to Europe,—wonderful! I wish I had the money to go and leave the City of Boston with a loan order of \$4,000,000—never mind the traffic lights; never mind accidents. There were four accidents out there in three days in that section and in front of St. Mark's Church. When he got a survey of the accidents he said "Only seven out there in a year and a half." I said that three of them was fatal and I was a witness to three and the other four were serious. I am introducing the order for \$50,000. That is the reason I did not want to adjourn until August 3. You might have the necessary meetings and if you sign it, Mr. Mayor, we will have some protection in Dorchester where we have not had a public improvement in the last eight years.

President FITZGERALD—The Corporation Counsel has ruled that the Mayor could not sign that order.

Coun. McGRATH—Who couldn't sign it? President FITZGERALD—The Mayor. That is the ruling of Corporation Counsel, that the order is illegal.

Coun. McGRATH—On the \$50,000?

President FITZGERALD—Yes.

Coun. McGRATH—Why can't he?

President FITZGERALD—Corporation Counsel has advised him he couldn't.

Coun. McGRATH—He could sign the one for \$10,000 for the Law Department. I am objecting to these other loan orders as I understand it they are unconstitutional.

President FITZGERALD—Those were not loan orders. They were transfers.

Coun. McGRATH—It is according to who wants them.

Order referred to the Committee on Finance.

REINSTATEMENT OF STRIKING POLICEMEN.

Coun. SHATTUCK offered the following: Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to inform the City Council as to whether he proposes to reinstate in the police force any of the men who broke their oaths of office by going on strike in 1919, and what he knows

about the promise alleged by Senator Carroll for the reinstatement of twenty-five of these men.

Coun. SHATTUCK—Mr. President, in the Boston Globe of this morning I saw a news item headed "25 of strikers to join police. Promise is revealed—Curley silent on row." Below there is a statement as follows:

"Although neither would divulge the source of the promise, Senator Edward C. Carroll of South Boston and School Committeeman Maurice J. Tobin last night said that they had been promised that 25 of the 1919 strikers will be reinstated shortly to the Boston Police force."

"The Governor himself last night dispelled any supposition that he was the source of the promise."

It appears, however, further down in the statement that various conferences have been held in the Governor's office by Senator Carroll and Mr. Tobin on this subject, and Carroll says:

"It is true," said Senator Carroll, "that I have taken up the fight of the police strikers with the Governor, and the Governor has agreed to talk it over with us Tuesday at the State House."

"Asked about the commissioner's attitude, the Senator indicated the commissioner was not the source of the promise by saying, 'I don't know anything about Commissioner McSweeney's attitude. But I do know, and I am saying now, that 25 men will be reinstated to the police force.'"

Now, in the first place, if there is an appropriation available for filling the vacancies in the police force, those vacancies should be filled by young and active men of the highest character, not by middle-aged men who went on strike in 1919. In the second place, it is very desirable to know who is running the Police Department. The promoters of this proposition say they have not taken it up with Commissioner McSweeney and yet they have obtained a promise and been to the Governor's office and the inference is they got the promise there, although he does not seem to admit it. I think it is high time we should know who is running the department and whether it is proposed to do any such thing.

President FITZGERALD—Mr. Councilor, are you willing to have your order amended by striking out the words "those who broke their oath" and say "those who went on strike in 1919"?

Coun. SHATTUCK—I suppose it is a fact they did break their oath.

President FITZGERALD—Those on vacation were not here?

Coun. SHATTUCK—Then they didn't go on strike.

President FITZGERALD—Well, they were not taken back.

Coun. DOWD—May I first state that that was a very nice political speech by the councilor from the Back Bay and one, of course, we expect when election time rolls around, but there cannot be any doubt in the mind of any individual here or any one in Boston or Massachusetts, who runs the Police Department. There is only one Police Commissioner and that is the present Police Commissioner, Mr. McSweeney who is running the affairs of the Police Department. Our good councilor from the Back Bay wants the newspapers to leave the impression that the public think the Governor is running the Police Department. Well, we know that that is all wrong, but we do know that it was a Republican Legislature and a Republican Senate that passed the bill authorizing the Police Commissioner to reinstate the striking policemen. What were they doing, simply kidding him, raising their hopes? Now they say they cannot be appointed. I have no objection, and certainly most of the members of the Council have no objection if the Police Commissioner in his wisdom, after a physical examination which is necessary, reinstates some of those policemen, who perhaps were ill-advised or not during the recent police strike in the City of Boston. Because they made a mistake, and I for one am not willing to say they made a mistake, are they going to be penalized all their lives? We see strikers in other institutions in America and they are all covered by our great unions in America, but the striking policemen must bear the penalty of that for the rest of their lives. I am not so much bothered with that as with the insinuation that the councilor has left that the Governor has promised to reinstate the striking policemen. We all know that even Police Commissioner McSweeney, unless he goes to the court, cannot put any more policemen than he has money in the budget and it comes to us first before any one is going to be reinstated, and, so far as I can see in our present budget there is not a five-cent piece to take care of any individual in the police force. We all agree and admit that we need at least 250 more police in the City of Boston. There isn't any question about that, for the protection of the lives and property of the public. So far as striking

policemen are concerned, if they are going to put on some more, I certainly feel that a certain percentage of those men who are physically able should be placed back to work. I cannot agree with the councilor from the Back Bay on the so-called statement of Senator Carroll. We all know newspapers. It might have been said, but I certainly do object to the insinuation being left that the Police Commissioner is being interfered with by the Governor of the Commonwealth because candidly I do not believe it, knowing Police Commissioner McSweeney as I do, that he will not allow any interference, and he has done a real job while he has been there.

Coun. TOBIN—I raise the point of order that the order as written is one that cannot be properly acted on by the Council and ask that it be ruled out of order.

President FITZGERALD—The Chair will refer this order to the Executive Committee so it can be properly amended.

Coun. TOBIN—if it is not properly before us, it cannot be amended in the Executive Committee.

President FITZGERALD—It is properly before us.

Coun. ROBERTS—I ask for a vote on that order now. There is no reason to refer it to the committee.

Coun. DOWD—I move to send it to the Committee on Rules, Mr. President.

The motion of Coun. Dowd to refer order to the Committee on Rules lost. Yeas 9, nays 11.

Yeas—Coun. Dowd, P. J. Fitzgerald, Gallagher, Gleason, Kerrigan, Kilroy, McGrath, P. A. Murray, Tobin—9.

Nays—Coun. Agnew, Brackman, Finley, J. I. Fitzgerald, Mellen, Norton, Roberts, Rosenberg, Selvitella, Shattuck, Wilson—11.

RESCINDING OF WELFARE DEPARTMENT ORDER.

Coun. DOWD offered the following:

Ordered, That his Honor the Acting Mayor demand that the Public Welfare Department rescind their order in reference to one specific case in Roxbury where the family with thirteen children was cut down in their allowance.

Coun. DOWD—I dislike very much to introduce the individual order in so far as the Public Welfare is concerned, but I have in mind a specific case of a family of a man, wife and thirteen children, who have been receiving \$7 from the Welfare and \$13.75 from the W. P. A., a total of \$20 for fifteen people to get along on. Recently this family was cut down to \$1.28 with the addition of \$13.72 from the W. P. A., which makes \$15. I contend that no large family of fifteen people can live in any way on \$15 a week, and I accordingly ask the Acting Mayor to take the matter up.

Passed under suspension of the rule.

TEN-MILE ROAD RACE IN ROXBURY.

Coun. FINLEY offered the following:

Ordered, That the expense for roping off the streets for the ten-mile road race in West Roxbury be charged to the City Council appropriation.

Passed under suspension of the rule.

PENDING PETITIONS FOR ABATEMENT.

Coun. BRACKMAN offered the following: Ordered, That the Acting Mayor be requested to confer with the chairman of the Board of Assessors relative to expediting the great number of petitions for abatement that are pending in that department.

Coun. BRACKMAN—At the present time there is outstanding in the collector's office of the City of Boston for 1935 over \$10,000,000 in uncollected taxes and for 1934 there is almost \$2,000,000 uncollected taxes. I believe most of those have been caused by the failure on the part of the Board of Assessors to act on thousands of petitions for abatement of assessed values that are now pending before the Board of Assessors. So far as I have been able to ascertain from my investigation most of these matters are being tied up by the chairman of the Board of Assessors. I have observed there have been great numbers of people who have sought a hearing in the assessors' office who have been unable to see the chairman of the board on whose desk reposes thousands of petitions for abatement. Now those petitions are tying up the collection of taxes in Boston because most of those people are waiting to get action, either adversely or in favor of their petition before they pay their taxes. Now if the chairman

of the board is too busy to act on questions which fall within his jurisdiction, then we have got to get somebody else to do the work. He has alibied and made excuses that he has had to appear before the Appeals Board and everywhere else, but he has not been able to see the people of Boston relative to giving them a fair hearing on their petitions for abatement. Now we are directly chargeable with the failure on the part of our city employees to carry out their duties and I would be negligent in my duties should I sit by and permit this condition to exist in the office of the Board of Assessors because if the amount uncollectible becomes so large that a great burden is foisted on Boston, there is no question in my mind but that some day we, the members of the City Council, will be blamed for the laxity that exists in that department. I might say in fairness to one member, Mr. Murphy, that he has been the only man on that board who has given 100 per cent of his time, and he has seen every one who has come to him, but his hands are tied by the present chairman of the Board of Assessors. Now I submit that any citizen of Boston has at least a right to a hearing on filing petition for abatement, that he should at least be shown the consideration that that department should show him by acting on his petition and the result will be the City of Boston will collect this \$11,000,000 that is outstanding at the present time.

Passed under suspension of the rule.

ROPING OFF WASHINGTON PARK.

Coun. BRACKMAN and Coun. DOWD offered the following:

Ordered, That the expense of roping off Washington Park during the Roxbury Historical Pageant on June 18 and July 1 be charged to the appropriation of the City Council.

Passed under suspension of the rule.

BUS STOP, KNEELAND AND WASHINGTON STREETS.

Coun. KERRIGAN offered the following:

Ordered, That the Boston Elevated Trustees be requested, through his Honor the Mayor, to provide for a bus stop at the corner of Washington and Kneeland streets in connection with their Bay View-City Proper bus line.

Passed under suspension of the rule.

RECESS.

By direction of the President, the Council at 2.15 p. m. took a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by Coun. GALLAGHER at 2.40 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GALLAGHER, for the Executive Committee, submitted the following, viz.:

1. Report on message and order (referred today) relative to transfers from Reserve Fund to Public Works Department and Traffic Division—that orders ought to pass.
2. Report on message and orders (referred today) for transfers within departmental appropriations—that orders ought to pass.

Coun. TOBIN—May those be taken up separately?

Chairman GALLAGHER—We will first take the order of Public Works, Traffic Division. Report accepted; order passed, yeas 18, nays 0.

Chairman GALLAGHER—We will take up order for within departmental appropriations. Report accepted, order passed, yeas 18, nays 0.

3. Report on message and order (referred June 15) for transfer of \$10,000 from the Reserve Fund for expert assistance, maps, plans, etc., re South Bay Flats—that order ought to pass.

Coun. McGRATH—I move we lay this on the table until the next meeting.

On showing of hands the motion to lay on table until the next meeting was adopted, yeas 8, nays 6.

Coun. BRACKMAN—Mr. Chairman, I further doubt the vote and ask for a roll call.

Coun. AGNEW—I understand this matter was before the Council in executive, and there may be some substantial reason why at this time it should be laid on the table and there may be some councilors who are more convers-

ant with the matter than others and I think it might be advantageous to the Council if this matter should lay on the table if some of the councilors would explain the reason for it.

(Chairman GALLAGHER—The question is on the motion to lay on the table.

The motion to lay on the table was adopted, yeas 10, nays 9:

Yeas—Coun. Agnew, Dowd, P. J. Fitzgerald, Gleason, Kilroy, McGrath, Mellen, G. A. Murray, P. A. Murray, Tobin—10.

Nays—Coun. Brackman, Finley, J. I. Fitzgerald, Gallagher, Kerrigan, Roberts, Rosenberry, Shattuck, Wilson—9.

4. Report on order of Coun. Shattuck (referred today) concerning appointments in the Police Department—recommending passage of the order in the following new draft:

Ordered, That the Police Commissioner be requested to inform the City Council as to whether he proposes to reinstate in the police force any of the men who went on strike in 1919.

Report accepted; order passed.

Adjourned, on motion of Coun. ROBERTS, at 3.15, to meet on Monday, August 3, 1936, at 2 p. m.

REVENUE BOND ACTS.

The 1936 issue of the "Municipal Index" contains a detailed study of the revenue bond acts in the thirty-three states which have enabling acts, and reports of all forty-eight states, showing what advantage has been taken of these acts by cities to finance the construction, operation and maintenance of sewerage systems and sewage treatment plants by service charges.

The table shows the status of revenue bond acts and other enabling acts in the different states, the dates when the acts became effective, and whether or not cities have taken advantage of the opportunity offered for financing bonds by service charges. In the case of states with no enabling acts, the table shows whether cities are charging sewer rentals under some other authority.

MAYORS' COMMITTEE ON FEDERAL LEGISLATION.

As President of the United States Conference of Mayors, Mayor F. H. LaGuardia of New York has appointed the Mayors of fourteen cities as an advisory board on Federal legislation affecting municipalities. The list comprises:

Watkins Overton, Memphis, Tenn., Chairman; Harold H. Burton, Cleveland, Ohio; Joseph K. Carson, Jr., Portland, Ore.; R. E. L. Clancy, Tampa, Fla.; Frank Couzens, Detroit, Mich.; Harry D. Durst, Springfield, Mo.; Meyer C. Ellenstein, Newark, N. J.; Thomas Gamble, Savannah, Ga.; Oscar F. Holcombe, Houston, Texas; Hilary E. Howse, Nashville, Tenn.; James R. Law, Madison, Wis.; J. Fred Manning, Lynn, Mass.; Roy N. Towl, Omaha, Neb.; George J. Zimmermann, Buffalo, N. Y.—*American City Magazine.*

PITTSBURGH'S TRAFFIC SAFETY RECORD.

Pittsburgh has been adjudged the safest city in the United States in 1932, and the second safest in 1933 and 1934 among cities with populations over 500,000. Registrations in the city increased 4.4 per cent, gasoline consumption 7.7 per cent. In 1935, despite a 2.4 per cent decrease in traffic volume, adult fatalities increased 30 per cent, total fatalities 24 per cent, as compared with 1934.

THE NOISE NUISANCE.

That city officials are serious about eliminating noise is noted from studies of new anti-noise ordinances enacted by a growing number of municipalities listed in the "United States Municipal News," bulletin of the American Municipal Association and the United States Conference of Mayors. Among the more important of these cities are Philadelphia, Gary, Ind., Louisville, New York and Boston.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO FIRE ESCAPE (IRON) CONTRACTORS.

The Superintendent of Construction of the Department of School Buildings of the City of Boston invites sealed proposals for erecting and completing fire escape on the Williams School, Homestead and Harold streets, Grove Hall, Boston, Mass., and giving bond of a surety company satisfactory to the Superintendent of Construction therefor in the full amount of the contract price. Only proposals obtained at the office of the Superintendent of Construction, 11 Beacon street, Boston, Mass., signed by the bidder and left before 2 p. m. Monday, August 3, 1936, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Superintendent of Construction. The Superintendent of Construction reserves the right to reject any or all proposals. A deposit of a certified check in the sum of \$25 will be required in order to procure a complete set of specifications, said sum to be refunded to all but the successful bidder if specifications are returned prior to noon of Monday, August 10, 1936. Mutilation of the specifications will be deemed sufficient cause for the forfeiture of the said deposit.

WM. W. DRUMMEY,

(July 25.) Superintendent of Construction.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO BOILER CONTRACTORS.

The Superintendent of Construction of the Department of School Buildings of the City of Boston invites sealed proposals for repairing and retubing horizontal return tubular boilers in various schools, and giving bond of a surety company satisfactory to the Superintendent of Construction therefor in the full amount of the contract price. Only proposals obtained at the office of the Superintendent of Construction, 11 Beacon street, Boston, Mass., signed by the bidder and left before 2 p. m. Monday, August 3, 1936, at said office with a certified check for \$250, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Superintendent of Construction. The Superintendent of Construction reserves the right to reject any or all proposals. A deposit of a certified check in the sum of \$25 will be required in order to procure a complete set of specifications, said sum to be refunded to all but the successful bidder if specifications are returned prior to noon of Monday, August 10, 1936. Mutilation of the specifications will be deemed sufficient cause for the forfeiture of the said deposit.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR NEW PUMPS FOR SUMMER STREET PUMPING STATION.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing and installing new pumps in Summer street pumping station, South Boston, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for New Pumps for Summer Street Pumping Station," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. on Monday, August 10, 1936, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor at the office of the Commissioner of Public Works. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

C. J. CARVEN,

No. 31

BOSTON SHOWING SIGNS OF A BUILDING BOOM, WITH CONSTRUCTION, PLANNED OR UNDER WAY, INCREASED OVER 18 PER CENT OVER LAST YEAR FOR THE CORRESPONDING PERIOD—JULY SHOWING STILL GREATER ACTIVITY WITH AT LEAST TWO MILLION-DOLLAR STRUCTURES BEING PLANNED FOR 1936—ALREADY OVER \$1,000,000 AHEAD OF 1936 IN GRAND TOTAL OF REPAIRS AND CONSTRUCTION.

Building construction in Boston for the year 1936, based upon the showing for the first six months of the year, will have shown a remarkable increase, and that in this as in other departments of the city's affairs the depression is rapidly being overcome, according to report from the Building Department, presented to Mayor Mansfield. According to the report to the end of June the showing is 18 per cent better than for the first six months of the year preceding, and increasing with each month. The July figures will, according to the department, raise the percentage very much since plans for this month and the applications call for the construction of at least two structures to cost in the vicinity of one million dollars. The figures from the report follow:

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

DEPARTMENT OF SCHOOL BUILDINGS.

Boston, July 28, 1936.

HON. JOHN I. FITZGERALD,
Acting Mayor.

Re: P. W. A. Project Docket No. Mass. 4217W.R. R. G. Shaw Addition.

DEAR SIR,—We have an emergency condition of a minor nature at the Robert Gould Shaw School. This comes at the very conclusion of the P. W. A. program there and one of the operations is the change of installation, at the request of the school authorities, from a coal to an oil burning plant. We put in a new boiler which is in place and O. K., but upon carrying along the contract to change the fire pit of the existing two boilers to meet the oil-burner condition, we find that when the building was built in 1916 that the brickwork surrounding these horizontal tubular boilers is totally inadequate, dangerous and insufficient to support the boilers, particularly in view of the necessary vibration that will come from an oil installation. The P. W. A. authorities are thoroughly acquainted with this work and the requirements that are necessary to make it right. Because of the urgency of the matter, we have instructed, with the approval of the P. W. A. authorities, the contractor to proceed on a material and labor basis to make the necessary remedy in the brickwork. If these boilers should drop, the damage would be tremendous. At the time of this writing it is impossible for us to acquaint your Honor with the total cost, but a reasonable expectation would be that it will be under \$1,000. We are having our resident man take the time and measure the materials and when we have further information we shall be pleased to acquaint you.

Respectfully yours,

WILLIAM W. DRUMMEY,
Superintendent of Construction.

SUPPLY DEPARTMENT.

Boston, July 28, 1936.

HON. JOHN I. FITZGERALD,
Acting Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to Armour & Co., 21 South Market street, Boston, which is the second lowest bidder of Item 21 on the meat bids for August, 1936.

Wattendorf & Co., 36 North street, Boston, is the low bidder, but refuses to accept the item.

Respectfully yours,

D. FRANK DOHERTY,
Superintendent of Supplies.

W. P. A. SUPPLY DEPARTMENT.

Boston, July 22, 1936.

HON. JOHN I. FITZGERALD,
Acting Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without

advertising for same, to C. L. Berger & Sons, Incorporated, for furnishing twenty-two transits for the City Planning Board. The machines have been rented from C. L. Berger & Sons upon a rental-purchase plan and are as follows:

Seven transits, from January 1, 1936, to June 30, 1936; 3 transits, from March 11, 1936, to June 30, 1936; 4 transits, from March 19, 1936, to June 30, 1936; 2 transits, from March 31, 1936, to June 30, 1936; 1 transit, from April 28, 1936, to June 30, 1936; 3 transits, from May 8, 1936, to June 30, 1936; 2 transits, from June 15, 1936, to June 30, 1936.

When this project started it was necessary to hire these transits with as little delay as possible to meet the emergency and C. L. Berger & Sons' price of \$390 for each transit, on a rental-purchase basis, was the lowest bid received.

Up to June 30, 1936, we have paid C. L. Berger & Son \$2,329 in rentals, and, after conferring with Mr. W. A. Berger, it was agreed that the city could purchase the twenty-two transits at \$365 each and pay for them each month upon the rental-purchase plan of \$951.50 for the first five months and \$943.50 for the sixth month.

Twenty-two transits, \$390 each, \$8,580; rental paid, \$2,329—\$6,251; special discount, \$550—total amount of contract, \$5,701.

There is only one other concern that can furnish transits and its price is substantially higher than C. L. Berger & Sons' price and there would, therefore, be no purpose served in advertising.

In view of this fact and the amount of money already paid in rentals, and the fact that the city will save the special discount of \$550, it is my opinion that the best interests of the city would be served by making this purchase now.

Respectfully yours,

D. FRANK DOHERTY,
Superintendent of Supplies.

POLICE DEPARTMENT ORDERS.

General Order No. 214.

The resignation of Patrolman Paul A. Petzold of Division 10, having been presented while charges against him are pending, it is hereby accepted, to take effect as of Saturday, July 25, 1936, at 5.45 o'clock p. m., seven days notice waived.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. Mc SWEENEY,
Police Commissioner.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town polity, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

A NEW POSITIVE WATER-METER
TESTER.

The large majority of waterworks, particularly the smaller ones, seldom have accurate or positive means of testing their meters. Often when a meter is repaired, the man making the repairs simply blows through the meter to see if it runs, when it is again put into service with the assumption that it is accurate. Sometimes meters are hooked up in series with a new meter and water is run through to see if the readings check. This is better than the lung-power method, but still is far from accurate or dependable, in that the test meter may be in error by 2 per cent or even more. Several states have regulations governing water utilities, both municipal and private, and require a positive method of testing water meters in every meter shop.—*American City Magazine.*

FELLOWSHIP STUDIES IN TRAFFIC
CONTROL.

Fifteen graduate fellowships, each with a stipend of \$1,200-plus up to \$200 for travel and field investigation have been announced by the Bureau for Street Traffic Research of Harvard University. The regular annual tuition fee of \$400 will be deducted from the fellowships, which have been made available through a gift to the University by the Automobile Manufacturers' Association. The officers of instruction are Miller McClintock, Director of the Bureau, and Maxwell Halsey, Assistant Director. Each of two full courses in street and highway traffic control consists of three one-hour periods a week, and additional problems, assignments and field work.

REVENUE BOND ACTS.

The 1936 issue of the "Municipal Index" contains a detailed study of the revenue bond acts in the thirty-three states which have enabling acts, and reports of all forty-eight states, showing what advantage has been taken of these acts by cities to finance the construction, operation and maintenance of sewerage systems and sewage treatment plants by service charges.

The table shows the status of revenue bond acts and other enabling acts in the different states, the dates when the acts became effective, and whether or not cities have taken advantage of the opportunity offered for financing bonds by service charges. In the case of states with no enabling acts, the table shows whether cities are charging sewer rentals under some other authority.

POLICE MOTOR BUSINESS IN
JERSEY CITY.

The motor police of Jersey City, N. J., are concentrated in the Traffic Bureau and the Motor Patrol Bureau. The rolling equipment consists of thirty-three motorcycles, thirty-five automobiles, three emergency trucks, seven patrol wagons, an armored payroll car, two wreckers, and a touring car for distinguished visitors.

The Traffic Bureau has charge of the motorcycles, all Harley-Davidsons of 1928-33, which are attached to the eight precincts. Eighteen of these are on duty sixteen hours per day, 8 a. m. to midnight; two are on duty from midnight to 8 a. m. They patrol the heavy-duty highways and the Pulaski Skyway from the Holland vehicular tunnel under the North river.—*American City Magazine.*

THE MUNICIPAL WATER-WORKS TREND.

In 1800 there was but one municipally-owned water-works plant in the United States. Now there are 7,853 municipally-owned installations, or 72.8 per cent of the entire number. In the United States there are ninety-four cities of over 100,000 population. All but eleven of these own their water works. Municipal plants serve 96.1 per cent of the population of the ninety-four cities, while private plants serve only 3.9 per cent.

FIRE DEPARTMENT ORDERS.

General Order No. 39.

I. JEREMIAH P. MALONEY.

It is with deep regret that the Fire Commissioner announces the death, on July 22, 1936, of Jeremiah P. Maloney of the Maintenance Division of this department. He was appointed to the Maintenance Division on August 10, 1925.

The funeral was held from his late residence, 85 Savin Hill avenue, at 8.15 a. m., Saturday, July 25, 1936, followed by services at St. William's Church, Dorchester avenue, at 9 a. m. A detail from the Maintenance Division represented the department at the funeral.

VI. NEW A. D. T. RUNNING CARDS.

New cards, dated July 20, 1936, for pages 2, 6, 10, 11, 12 and 15 of the A. D. T. assignment book are being issued to the department today. These cards will replace old pages 2, 6, 10, 11, 12 and 15, which should be returned to Headquarters, in the envelopes provided, on or before Monday, August 3, 1936.

VII. COMMENDATIONS.

Hoseman Joseph B. Dougan of Engine Company 14 is hereby commended for volunteering and giving blood in transfusion to Capt. Florence Donahoe, pensioner of this department, on July 16, 1936.

Hoseman John J. Kelley of Engine Company 14 is hereby commended for volunteering and giving blood in transfusion to the mother of Lieut. Henry M. Wheeler of Ladder Company 19, on July 16, 1936.

Ladderman William O. Cheswell of Ladder Company 1 is hereby commended

for volunteering and giving blood in transfusion to Ladderman Michael F. Fleming of Ladder Company 9, on July 21, 1936.

The Fire Commissioner is in receipt of the following letter from Otis Clapp & Son, Incorporated, which he is pleased to publish for the information of the department:

July 22, 1936.

DEAR SIR,—I want you to know how much we appreciated the prompt and especially intelligent treatment of the fire that we had at 439 Boylston street about two weeks ago. Our chemists say that your men did exactly the right thing in the best possible way to minimize our discomfort and damage. I want to heartily thank you and your men for your assistance.

I was away at the time or I would have written this more promptly.

Yours very truly,

OTIS CLAPP & SON, INC.,
L. T. CLAPP.

By order of Fire Commissioner EDWARD F. McLAUGHLIN.

THOMAS H. DOWNEY,
Acting Chief of Department.

PROFITABLE MUNICIPAL MARKETS.

Municipal markets, "white elephants" in many cities, can be made self-supporting and even profitable, according to recent reports on two of them. The Department of Public Markets of New York City reports that within the administration of its present Mayor, Fiorello LaGuardia, the city's markets have changed from inefficient and expensive undertakings into profitable investments. The Benton Harbor, Mich., municipal fruit and vegetable market is described as doing a three-million-dollar annual business by its City Manager in the February issue of "Public Management."

PITTSBURGH'S TRAFFIC SAFETY RECORD.

Pittsburgh has been adjudged the safest city in the United States in 1932, and the second safest in 1933 and 1934 among cities with populations over 500,000. Registrations in the city increased 4.4 per cent, gasoline consumption 7.7 per cent. In 1935, despite a 2.4 per cent decrease in traffic volume, adult fatalities increased 30 per cent, total fatalities 24 per cent, as compared with 1934.

Total for the 14 counties (39 cities and 316 towns), 4,249,614 or 397,258 (i. e., 10.3 per cent) over 1920. Of said total, 2,940,335 (i. e., 69.19 per cent) were in the cities and 1,309,279 (i. e., 30.81 per cent) in the towns. The four counties, Suffolk, Middlesex, Essex and Bristol, contain 63.00 per cent of the State's inhabitants.

If the municipalities having a population of 5,000 or over are properly called urban, then the percentage of urban population in the entire State reaches the notable figure of 90.71, while the rural shows but 9.29 per cent.

JAMAICA SPENDS \$1,000,000 ANNUALLY ON ROAD CONSTRUCTION AND MAINTENANCE.

Jamaica, an English possession, has a highway system which is almost entirely constructed of waterbound macadam, some 70 miles of which has been surface-treated. Many of the roads are under the supervision of the Department of Public Works and various parochial boards. There are about 2,500 miles of bridge and foot paths. The highway system connects all parts of the island in a very satisfactory manner, and the problem is not that of the construction of new roads, but the improvement of old ones, the surfacing and widening of these roads, and protective coatings. The roads are well maintained and, as there are not many heavy trucks, the maintenance is satisfactory. There are approximately 4,000 miles of highways, or 1.11 square miles of area to one mile of highway.

About a million dollars per year is spent on new construction and maintenance, the machinery used being both European and American.

(From a report of the American Road Builders' Association.)

SEWAGE TREATMENT PLANT CONSTRUCTION ON THE INCREASE.

Owing to the economic conditions prevailing during the past year, there was but a relatively small volume of sewage treatment plant construction. Within recent months, however, there has been a decided impetus to new construction of this type growing out of the Public Works Administration allotments. Nearly 700 cities have received allotments of funds from the P. W. A. for sewerage or sewage treatment, involving an aggregate expenditure of well over \$200,000,000.

ORDERED, That the employment of not more than one toolkeeper in the unit classes in machine shop practice, conducted in the Hyde Park High School, is hereby authorized; compensation to be at the rate of four dollars (\$4) a day of seven hours.

The three orders passed.

A communication was received from the Superintendent, under date of July 6, 1936, reporting that subject to the approval of the School Committee, and in accordance with the foregoing orders, he has appointed the following-named persons to the Unit Classes in Machine Shop Practice in the Hyde Park High School for the terms specified:

Francis Lee, Albert J. Pfau, instructors, July 6 to 31, 1936.

Thomas Aykroyd, Joseph D. Mahoney, instructors, Aug. 3 to 28, 1936.

Stephen J. Kurpeski, toolkeeper, July 6 to Aug. 28, 1936.

Placed on file and the appointments approved.

Chairman: I would like the Superintendent to explain the summer work at the Hyde Park High School.

Superintendent: In the last four years the State Department in charge of industrial education, because of the lack of opportunity for such work, was obliged to cut down the numbers and we were obliged to limit admissions to the cooperative industrial courses. The result now is with the revival of business in machine shops, there are no available trained machinists and so, with the authority and help of the State Board, we, the School Committee, have established at the Hyde Park High School for the summer an intensive course for some 40 boys who had previously taken the course in machine shop practice, so that by the close of the summer they will

be ready to go directly into employment in the machine shops about the city.

Chairman: Is that to be totally State-aided?

Superintendent: From Federal funds administered by the State. We receive reimbursement for all the salaries and one-half the cost of custodian service, material, light, heat and power.

EXTENSION OF VALIDITY OF TEACHERS COLLEGE CERTIFICATES

The Superintendent offered the following:

ORDERED, That the period of validity of Teachers College Elementary School, Class B Certificate issued from June, 1927, to June, 1932, inclusive, under which permanent appointments have not been made, is hereby extended to June 30, 1941; and be it further

ORDERED, That the Board of Superintendents is hereby directed to restore the Elementary School, Class B Certificate of graduates of the class of 1927, which expired June 30, 1936.

The rules were suspended and the orders passed.

4. ORDERED, That for the year ending August 31, 1937, any teacher or member of the supervising staff who may be designated by the Superintendent in accordance with the regulations to fill a vacancy caused by the death, disability or absence of a principal of a school or district, or of a director,

associate director, assistant director in charge of a department, or supervising nurse, for a continuous period exceeding two weeks, shall be paid at the rate of \$1.00 per day of service in addition to the regular salary of his rank. A teacher or member of the supervising staff who may be similarly designated to fill the position of assistant director, head of department, co-ordinator, submaster, master's assistant, master's assistant, special classes, assistant in charge, Day School for Immigrants, or first assistant kindergarten (either one or two sessions), shall be paid at the rate of fifty cents (50c.) per day for each day of service, in addition to the regular salary of his rank.

5. ORDERED, That for the year ending August 31, 1937, any junior master or assistant, Latin and day high schools, who may be designated by the Superintendent in accordance with the regulations as acting head of department in charge of a single subject where there are in the proposed department not less than two thousand pupil hours, taught by at least four teachers, whole or part-time, shall be paid at the rate of fifty cents (50c.) per day for each day of service, in addition to the regular salary of his rank.

6. ORDERED, That for the year ending August 31, 1937, there be allowed and paid to William F. Linehan, Dean, The Teachers College, three hundred sixty dollars (\$360) in addition to the regular salary of his rank for service in connection with the conduct of summer courses in The Teachers College of the City of Boston.

7. ORDERED, That for the purpose of effecting a proper salary adjustment there be allowed and paid to Helen S. Eaton, first assistant, kindergarten, two sessions, Washington Allston District, seventy-one dollars and seventy-three cents (\$71.73), such amount to be added to her salary payment for the month of September, 1936, only.

8. ORDERED, That for the purpose of effecting a proper salary adjustment there be allowed and paid to Mary L. Holmes, first assistant, kindergarten, two sessions, Theodore Lyman District, fifty-seven dollars and seven cents (\$57.07), such amount to be added to her salary payment for the month of September, 1936, only.

9. ORDERED, That for the purpose of effecting a proper salary adjustment there be allowed and paid to Josephine McCarthy, first assistant, kindergarten, two sessions, Theodore Lyman District, seventy-eight dollars and sixty-seven cents (\$78.67), such amount to be added to her salary payment for the month of September, 1936, only.

10. ORDERED, That during the school year 1936-37 the Superintendent is hereby authorized to fix the compensation of all persons giving lectures and improvement courses for teachers other than those whose compensation is fixed

in the salary schedule for teachers and members of the supervising staff.

Question came on the adoption of the ten orders establishing a general salary schedule for the year ending Aug. 31, 1937.

The ten orders were passed collectively by the following vote:

YEAS—Messrs. Lyons, Mackey, Smith, Sullivan and Tobin—5.

NAYS—0.

Chairman: I would like to say that some questions appeared in the press during the last week as to possible discontinuance of provision for additional compensation for "teachers specially assigned," particularly for teachers assigned to boys' classes in grades above the third and teachers placed in charge of annexes. The provision for compensation for these special assignments will continue.

CITY OF BOSTON—DEPARTMENT OF SCHOOL BUILDINGS

July 6, 1936

School Committee,
City of Boston,
15 Beacon Street,
Boston, Mass.
Gentlemen:

Under date of July 2, 1936, the School Committee of the City of Boston forwarded to the Board of Commissioners of School Buildings the following proposed order:

ORDERED, That from the balance of \$760,000 of the sum of \$800,000 appropriated by the School Committee February 28, 1934, for one new intermediate school in the Shurtleff District, South Boston, out of the sum of \$2,000,000 appropriated by the City Council of the City of Boston by order passed February 12, 1934, and February 26, 1934, and approved by the Mayor February 27, 1934 (\$40,000 of said appropriation of \$800,000 having been transferred by order of the School Committee passed December 16, 1935, and approved by the Mayor December 21, 1935), the sum of \$18,000 is hereby transferred and added to the appropriation in the sum of \$800,000 for the new intermediate school in the Washington Irving District, West Roxbury, which appropriation was made by the School Committee October 15, 1934, out of the sum appropriated by the City Council by order passed July 6, 1934, and July 23, 1934, and approved by the Mayor July 24, 1934.

Acting in accordance with the provisions of Chapter 351 of the Acts of 1929, the Board of Commissioners of School Buildings at its meeting held July 6, 1936, voted to approve the proposed order dated July 2, 1936.

Respectfully yours,
Board of Commissioners of School Buildings

By Richard J. Lane,
Chairman.

Placed on file.

The following was offered:
ORDERED, That from the balance of \$760,000 of the sum of \$800,000 appropriated by the School

Committee February 28, 1934 for one new intermediate school in the Shurtleff District, South Boston, out of the sum of \$2,000,000 appropriated by the City Council of the City of Boston by order passed February 12, 1934 and February 26, 1934, and approved by the Mayor February 27, 1934 (\$40,000 of said appropriation of \$800,000 having been transferred by order of the School Committee passed December 16, 1935 and approved by the Mayor December 21, 1935), the sum of \$18,000 is hereby transferred and added to the appropriation in the sum of \$800,000 for the new intermediate school in the Washington Irving District, West Roxbury, which appropriation was made by the School Committee October 15, 1934, out of the sum appropriated by the City Council by order passed July 6, 1934 and July 23, 1934 and approved by the Mayor July 24, 1934.

The order passed by the following vote:

YEAS—Messrs. Lyons, Mackey, Smith, Sullivan, and Tobin—5.

NAYS—0.

DELEGATION OF AUTHORITY TO SIGN FOR ASSIGNMENT OF WAGES

On motion, it was ORDERED, That the School Committee herewith delegates to the individual members of this Committee the power and authority to sign the "Assignment of Wage" forms for employees of the Boston School Department.

LEAVES OF ABSENCE TO CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of July 6, 1936, recommending that the following-named custodians be granted leave of absence on one-half net compensation for the periods specified because of personal illness:

John F. Barry, custodian, Philip H. Sheridan School-house, June 18 to July 3, 1936.

William P. Flanagan, custodian, Capen School-house, June 26 to July 9, 1936.

Jeremiah L. Lynch, custodian, Bunker Hill School-house, Sept. 1, to 30, 1936.

Placed on file and leaves of absence on one-half net compensation granted for the periods specified.

TRANSFERS OF CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of July 6, 1936, recommending that the following-named custodians, who stand at the head of their respective lists, be appointed as indicated, to take effect July 10, 1936:

Henry J. Mahoney, from the Bigelow to the Horace Mann School-house

Edward C. Sheehan, from the Quincy E. Dickerman to the Ellis Mendell School-house

Frank J. Leonard, from the Morrison Building to the Phillips Brooks School-house

Placed on file and the transfers approved, to take effect on the date stated.

APPOINTMENTS OF CUSTODIANS DURING SUMMER

A communication was received from the Schoolhouse Custodian, under date of July 6, 1936, recommending that he be authorized to make appointments of custodians during the summer months to fill vacancies, provided that such appointments shall be in accordance with the Civil Service rules and regulations.

Placed on file and the authority granted.

CHANGE IN RESIDENCE REQUIREMENT

The following was offered:

ORDERED, That the rules and regulations be amended to provide that hereafter no person shall be admitted to the certificate examinations, or be eligible for appointment to temporary or permanent service, who has not maintained continuous domicile in the City of Boston from a date one year prior to taking the certificate examinations; and provided, further, that all candidates for appointment to the Boston schools who are required to be residents of the City of Boston shall continue to have domiciles in this city during their employment in the Boston public schools, failure to continue such domiciles to operate as resignation from the service.

Chairman: I would like to explain that that is a change from the residence rule which has been in effect for the Boston school system for the last three years—since 1933. Our former residence rule provided that no person who was not a bona fide resident of Boston on March 27, 1933, was eligible for appointment to the Boston schools. Eventually the rule would have worked a hardship for twenty years from that date it would have made it impossible for any teachers to be appointed. The Committee has thought it was fairer to allow a rule which provides that those who wish to be eligible for appointment must have been a resident at least a year before taking the examinations, thereby being actual Boston residents and eligible to take the examinations.

Mr. Tobin: I would like to point out also that the rule under which we were operating in the opinion of most everyone was clearly illegal because all the time we denied actual citizens of Boston the privilege of taking the examinations. The important part of this order is that any teacher now in the service who moves outside the city automatically severs his or her connection with the department.

Mr. Smith: That is not so. Mr. Tobin read the order (as above).

Superintendent: But a man appointed ten years ago wouldn't.

Mr. Tobin: I so move at this time that any person now in the Boston system and residing within the confines of the City of Boston who moves from the city to an outside city, that such action shall be equivalent to resignation, because I think that if we exact this requirement from those coming in-

to the system that we should likewise expect those within the service to remain in the city.

Dr. Lyons: I agree heartily with the substance of Mr. Tobin's thought but I would have to vote against that. It was through my efforts that the original law was passed and I would have to say that those in the service accepted their positions under certain conditions which were as they have been up to this present time. I would feel that I was breaking faith with those who had accepted positions under those conditions, so I would vote no on that. I very heartily agree with the order but it is very pleasing to me that those in the future who come into our system will be obliged to maintain residence in the City and be party to the upbuilding of it and incidentally spending the money which they receive from the taxpayers of Boston.

Mr. Tobin: If it is logical for the Committee to insist that those who are to be admitted to the service in the future must be residents, is it not just as logical to insist that those permanent teachers who are now residents should be compelled to continue as residents of the city. If one is logical, the other is logical.

Superintendent: The Superintendent would like to point out that while he agrees heartily with the motion—it is unwise for any teacher in our service to move out of the city—he wonders if it is legally possible to add now a condition to what has always been considered a contract when the teacher was appointed. We have assumed always that the teacher made a contract with the School Committee and this would be adding a new condition to a contract already accepted and I doubt very much if you could legally make that hold water.

Dr. Lyons: And while they have only a moral contract, I feel that it should be binding.

Chairman: I think the disposition of this would be to send the order to the Corporation Counsel for a ruling before action by this Board.

Mr. Tobin: I was under the impression that the qualifying clause at the termination of this order embodying the part that all those now in the service would have to continue to reside in the city, provided they now reside within the confines of the city.

Mr. Smith: The last statement reads—that all candidates for appointment to the Boston schools who are required to be residents of the City of Boston shall continue to have domiciles in this city during their employment in the Boston public schools, failure to continue such domiciles to operate as resignation from the service. In other words, we are here talking about "candidates for appointment."

Chairman: That was my understanding of the order.

Dr. Mackey: I was of the belief in March, 1933, when I made the original motion on the Boston residence bill, that anybody that was appointed after March 27, 1933, would have to remain a resident of Boston because in making that rule, and hav-

ing the cooperation of this Board, I felt as Mr. Tobin feels that if the taxpayers of Boston are paying our teachers, that it is their duty to leave their money to the local neighborhood store—whether it be a drugstore or otherwise. Therefore, I am heartily in accord with Mr. Tobin's motion and at the same time I feel that it is the duty of this Board, who represent the citizens of Boston, that we should especially at this time due to unemployment and depression, take care of the boys and girls of our city who are now unemployed, but I have been of the belief on that motion in March, 1933, that they would have to remain in Boston after their appointment.

Superintendent: They do, Doctor.

Dr. Mackey: Therefore, Mr. Campbell, I feel as Mr. Tobin feels that the others should be required to live in Boston and pay taxes to the City of Boston rather than leaving it to outside cities and towns.

Dr. Lyons: I am quite happy to think that all who came in under the provisions of the Doctor's order in 1933 have been and shall have to in the future maintain a residence in Boston. The only thing I don't like to see is the fact about making it retroactive. I consider it would be a breach of faith with those who came in with no strings attached. That is my feeling.

Dr. Mackey: As I understand this rule in the Rules and Regulations, Chapter IV, Section 265, paragraph 12—"All persons who upon appointment were required to be legal residents of the City of Boston shall continue to have domiciles in this city during their employment in the Boston public schools. Failure to continue Boston residence shall operate as resignation from the service."

Chairman: Doesn't that refer to those who came in after March 27, 1933? Mr. Tobin's presentation would be those who were in the service before March 27, 1933 and by his new motion be prevented from moving out of the city.

Mr. Tobin: In order that there may be no doubt as to what I have in mind in presenting this order, I would like to make it clear that I am actuated in presenting this order by the fact that we have had a tremendous reduction in the assessed valuation of the residential property of the city. I would like to point out that in 1931, the peak year of the assessed valuation, the assessed valuation was approximately two billion dollars; that since that time it has been reduced to one billion, six hundred and fifty million dollars, or a reduction of 16%. The tendency in the City of Boston is to have a higher and higher percentage of those who can afford to live in only the low rent districts and I would like to build up as good a high rent district in the city as possible. Now where there are teachers who are at present legal residents of the City of Boston, I think it is only reasonable to expect that they should continue to support that city, especially as the assessed valuation is getting lower and lower. It is not alone in Boston that this practice is in ef-

fect. It is operated in practically every community in metropolitan Boston. I don't want to make Boston provincial. I wish that we were back in the old days when we had a free exchange of teachers from one community to another. A teacher could be appointed in any city of Massachusetts no matter where he lived. Every city has set up barriers if not in the rules under which committees operate, actually appointments are confined solely to those who live within the city. The City of Boston is compelled to do it for its own protection and so I am perfectly willing to present my order and then to have it tabled, pending a decision on the part of the Corporation Counsel and then it can come up later for free and open discussion.

Mr. Smith: I don't see how we can take any action on Mr. Tobin's order unless we take action on the first order.

Chairman: Started out as an interpretation of the order which was just presented.

Dr. Mackey: I will second the motion because after a long study I feel that this amendment to the original residence order gives stronger protection to the Boston residents who wish to become teachers in our service than my original order.

Chairman: Question is on the passage of the original order under a suspension of the rules.

In answer to roll call, the members voted as follows:

YEAS—Messrs. Lyons, Mackey, Smith, Sullivan, and Tobin—5.

NAYS—0.

Chairman: Now on the amendment of Mr. Tobin's—

Mr. Tobin: Instead of an amendment, I will make it an original motion. Since we have acted on the main question, the previous order is not open to amendment, so the Secretary will just change my order from an amendment to a straight order and refer it to the Corporation Counsel.

Mr. Smith: I would like to have the motion read.

Mr. Tobin: That all employees in the Boston School Department who are now legal residents shall continue to live within the confines of the City of Boston and maintain a legal residence therein. Failure to do so shall be the equivalent of resignation.

Chairman: The motion will be referred to the Corporation Counsel for action at the next meeting.

ADMISSION OF PRESS

Mr. Smith: There is a motion presented by me and laid over that I wish action on tonight, namely, that the minutes of our conferences be open to the Press. After serving on this Committee for six months I can see no reason why any member of this Board should care whether the Press has access to the minutes of our conferences. We never have any discussion that may prove damaging. We can, by a four-fifths vote, eliminate the Press. I feel that if my motion is passed tonight the citizens will feel that their rights and privileges are being safeguarded. I am sure

there has been nothing discussed in conference since the first of the year when I came on the Board that could not have been discussed in public meeting. I can see no argument against making the minutes of our conferences open to the Press.

Dr. Lyons: I am very happy to second that motion.

Mr. Tobin: I should like to offer an amendment to the proposal made by Mr. Smith and to probably broaden it out just a little. I am perfectly willing to permit the Press of the city to have access to the conference notes. I am willing to go further and permit them into the conferences provided that nothing they hear therein shall be printed in the public pages until such time as public action has been taken in a public meeting. I think it should be very clear to any fair-minded person that many problems come before the Committee that require thought, study, and detailed consideration, and to have these problems presented to the public and the Press before the Committee has had opportunity to thoroughly digest them and form opinions that would be to the benefit of the department, would be to establish an order in the Committee that would be damaging rather than progressive or helpful, and for that reason, provided the members of the Committee are agreeable, I should like to amend the motion to read—

That the Press shall be admitted to the conferences of the School Committee provided that the material discussed shall not be printed until formal action has been taken in the public meeting.

Mr. Smith: My motion is that the minutes of our conferences be made open to the Press. I have made three attempts to bring about a change of procedure in this Committee since I have taken my seat. First, I moved for open meetings and the abolition of all conferences; secondly, I moved to invite the Press to all conferences; and third, I moved that the minutes of conferences be made open to the Press. The first two motions—for all public meetings and that the members of the Press be invited to our conferences—both were defeated in the past. I am sincere in my conviction that the present procedure of these meetings should be altered. I have the utmost confidence in the Press and they will not violate any confidences. I know the citizens of Boston will feel that their rights and privileges are safeguarded if the Press has access to the minutes of our conferences. I feel that we should do what is right and just for the citizens of Boston whom we represent.

Dr. Lyons: I feel there isn't any reason why the Press should not have access to the minutes or be present at our conferences. I feel there would be no danger whatsoever to individuals because it would be a very small matter which the Press would respect that if any matters came up that would have to do with character or anything of that sort, this Committee could, as Mr. Smith suggested, by four-fifths vote, go into executive session and those matters could be held sacred. In reference to the Press sitting in at our conferences and the public, through the Press,

getting full knowledge to its last detail of what we do in our procedures, I would go to the extent of carrying that into public meeting, but on two occasions Mr. Smith's motions have not carried. I feel that the Press should have access to our entire proceedings.

Mr. Smith: If I thought this Board would go back and take up my defeated motion, either that the Press be invited to our conferences or that all conferences be abolished and that all our meetings be open, I would be glad to withdraw the motion that the minutes of our conferences be made available for the Press.

I now withdraw the motion on the table, and move that our meetings be made open and all conferences abolished, and that we only go into executive session by four-fifths vote to discuss something of a private nature regarding some person's character.

The motion was seconded by Dr. Lyons.

Mr. Tobin: I think that the members of the Committee if they will look back upon this evening's conference, can think of three or four items upon each of which the members spent about half an hour in discussion. At the start most of the members were unfamiliar with the subject matter. Each member had to think out loud. That is, we took a problem in the embryo and by discussion and suggestions the various members finally came to conclusions and were able to make logical decision. I, for one, after four and a half years' experience, could not think of voting for Mr. Smith's order because of the love and affection I have for a great school system. I know of nothing that would break down and destroy the system any more rapidly than for this Committee to pass upon questions that they did not thoroughly understand and upon which there was not a free, open, and frank discussion.

I think every member of the Committee will agree that if all matters to be taken up for consideration were to be offered right here in the public, it would be impossible to have free, open, and frank discussion such as we have in the conference. Every question discussed in conference eventually has to come into the public meeting and there be acted upon in the open with everyone there who cares to come to the meeting and with the action known to everyone who cares to read the minutes and there see the results. I am perfectly willing to permit the Press to come into our conferences and listen to discussion in order that they may have a background for the various questions that finally are passed upon in open meeting but I am not willing to have any question discussed in the public print before the Committee has a chance to discuss the material before it. It is an attempt to think out loud in the presence of a great many people. We meet in conference to discuss questions of policy and I don't think we can honestly make decisions on these questions of policy here in the open where we will lack frank discussion. As long as I am a member of the Committee, and if I should be misunderstood by every citizen and member of the service, I could not vote for such an order.

Dr. Lyons: I would say that there isn't anything I might debate or discuss or take up for the first or last time in the conference upstairs that I could not do just as clearly and efficiently in open done, it isn't the fault of the system. All these years we have been having conferences, anything that any member felt was not properly discussed and decided could have been brought in here for discussion. The conference gives us opportunity to discuss so many technical things. The vast majority of the discussions in conference are matters of detail, matters that have to do with the regulations that are intricate, and we often have to get information on this or that one. It would be difficult to do that sort of work in the public meeting.

Dr. Mackey: As a matter of fact, the Superintendent took the words out of my mouth. I perfectly agree with Mr. Tobin, and as Mr. meeting. I think, as my colleague Mr. Smith has stated since he came here, that we will solve a lot of the problems that have been facing us for the past few years by having discussion in open meeting. I think we will succeed far greater in giving an accounting of our stewardship to the people who put us in here than by continuing the prosaic system, as I call it, that has been going on here for a number of years. It is not fair to the public or to ourselves. I would rather come down here in public meeting and have to form conclusions here in public so there will be no misunderstanding on the part of the citizens whom we represent.

Superintendent: I'd like to point out that the procedure under which the Committee has acted for many years has in itself all the safeguards that the new procedure could provide. Every member of the School Committee and the Superintendent, too, has the right to say at the conference: "I shall discuss that question fully in public meeting." Now, if it hasn't been Campbell has so stated, it is the privilege of any member of this Board, and in my four and a half years on this Board it has been done in many cases, to bring a question to the open meeting for discussion. That is our privilege and duty as members of this Committee. As Mr. Tobin has stated, there have been questions that I believe no member of this Committee could really and truly decide on one occasion or at one conference.

I know that this evening there were several questions brought before this Committee that I would not want to vote on immediately. I think I know this system as well as any member of this Board and I perfectly agree with Mr. Tobin and with Mr. Campbell that there are questions that require a great deal of time and consideration, and I may say, without going into further discussion, that I am in accord with Mr. Tobin's statement.

Dr. Lyons: The Superintendent made mention of the fact, which was true, that each member of this Committee and all the Committees down through the past, have had access to public meetings at which to bring about debates which have taken place upstairs. It is rather a serious matter, when you have

debated and discussed and gone into detail on a subject for perhaps half an hour, or an hour and a half, with all its details and ramifications, for a member to bring that subject matter down here and go through the whole thing all over again. It would be a waste of time in the first place and then there would be a certain lack of frankness brought about by that procedure.

We are colleagues. We have our differences, and no matter how a man might feel—even in public debates a certain amount of heat develops—and in many cases during my service there have been matters that I wanted to bring downstairs which had been discussed in conference, but there were certain things that prevented it. You don't feel, after you have thought a thing over carefully, like reopening a subject after heat has been there, knowing that you are going to throw this all into the Press. It is almost impossible for a member to do it after having gone through those lengthy debates. I would like to be more explicit, but I am not going to be, but I don't see any matter, whether it be insignificant or great, that could not be debated just as freely or just as clearly in public meeting, in the presence of the public and Press, as it could be upstairs, and I am also firmly convinced, after almost seven years of service, that we would not only save time but our meetings would be conducted more expeditiously and with greater satisfaction to all concerned, and particularly would make each and every member of this Committee get down to finer mind on our business in knowing that we are facing the public and that we are not behind closed doors, and let every man take the result.

I am willing to accept whatever criticisms may come as a result of open public meetings. I will say this also, which I think is a very necessary thing. The conference reports are small—a small, detailed substance of what is said—and many times the details of a debate put an entirely different face on a matter that has been settled or is in the process of being settled. I don't think we should have anything said in this Board again, or should have in the past, without having a verbatim stenographic report of all those meetings, and that report taken by an outside stenographer who has nothing to do with the personnel within the building. We have a very excellent Secretary in Miss Cronin and I want to pay public respects to her. She has done her work well during all these years but I think, as a matter of big public business, every word that is uttered in the conference room should be taken down in perfect stenographic report. Miss Cronin would be unable to do that, of course.

Chairman: I would like to confine discussion at the present time to the question before us—as to whether the meetings shall all be public, and call for a vote on that.

Mr. Tobin: Before that goes to a vote, I should like to make a very brief statement. The end that Mr. Smith desires to obtain and that Dr. Lyons desires to obtain may be secured by either member bringing into the open public meet-

ing any question that he desired, and in that manner the public discussion would be confined to the subject matter that they felt was of sufficient interest to bring down here. Now, at the present time we do have open public meetings. The impression has been gathered throughout the city that we do not have open public meetings. Under the rules, this Committee cannot appropriate five cents without having action in public; the Superintendent cannot nominate or the Committee approve an appointment without bringing it into the open public meeting. A nomination has to be laid over for a period of two weeks unless passed under a suspension. The Superintendent cannot even appoint a temporary evening school teacher; the Schoolhouse Custodian cannot transfer a custodian temporarily for a period of a week; without bringing these things in for public action. In other words, every change of personnel must be handled in public, the appropriation of every dollar must be passed upon in public, the transfer of every dollar must be done in public. In other words, this whole argument is a myth. I have a clear conscience. If we carry out the order now before the Board we will be the only deliberative assembly in the whole world—the only Board that denies to itself the right to study a problem before it is brought up into public. I don't think we have any right to burden the public with problems we do not understand. I think we should bring them into public when we have thoroughly digested the subject matter. Dr. Lyons a few moments ago stated that discussion down here will be lacking in frankness. He said, in effect, that after we have discussed these questions at length upstairs, when we come downstairs they will lack frankness in public debate. That is just the point I am making and I feel that the lengthy debates on these questions upstairs permit the members of the Committee to come down into public meeting and there confine themselves to the subject matter. Every word uttered by a member of the Committee should be a contribution to acquaint the public with the matter before them. At present questions are sometimes discussed for an hour before some of the members seem to understand them and I can picture the type of public meeting we would have if the Committee should attempt to talk over the technical matters and arrive at a logical conclusion. Those who did not understand a question because of ignorance of a matter would stay away from the meeting; there would be a lack of frankness. These things would not help the system. When Mr. Smith made this motion originally, he had not had opportunity to serve on the Committee. He has sat in now for a period of six months and says no question has come before us that he would hesitate to take downstairs into the public. To my mind it is the lack of free, open discussion that will result that will damage the school system.

Mr. Smith: I know of nothing discussed up there in the past six months that could not be discussed in public and that is why I want the public of Boston to know it. I

am a member of this School Committee and I want the public of Boston to know that fact and that is why I want this motion to carry this evening.

Dr. Mackey: There are several items that Mr. Tobin has left out that I believe would also be of value to the public to know. No Civil Service employees' appointments, either clerks, custodians, or employees of other branches of our school system, can be made without being brought into our public meeting. Also, book orders and supply orders and other such items must be acted upon in public. Therefore, I feel as Mr. Tobin does that we are not holding anything at all from the public but that many of these items that come before the Committee and which require the attendance of the Business Manager and the Schoolhouse Custodian and his assistant, as well as the Board of Schoolhouse Commissioners and the Assistant Superintendents at times, in order that we may receive first-hand information, and which must be considered at great length, can be given much more careful deliberation in conference. I feel that there has been nothing come before the Board in the past four and a half years that could not have come before the public or that any member could not have brought before the public at public meetings.

Dr. Lyons: I didn't want to talk too frankly but since there is a question of my sincerity and my frankness, I'd like to say that I have seen lots of things in seven years that I think would not have come to light if they had come in public meeting. I could name some very big issues brought to light in the conference room that never would have been brought to light in public meeting. I could name many during my seven years, so I think frankness is best exemplified in public meeting before the public, and I think we would all be better off for it.

Mr. Tobin: I think it is the duty of any member to bring into the public any matter upon which he disagrees with the majority. I know that if any such question came up I would bring it into the public meeting because every member of the Committee has that privilege and that right. Now the two members in favor of the public meetings probably are acting in all sincerity. They had the privilege down through the years of bringing into public any question upon which they disagreed. I have always exercised that right if I was in disagreement with the opinion arrived at by the majority and felt that the matter was worthy of debate in public, and perusal of the notes will show that is so.

Dr. Lyons: I said sometime back that it is rather difficult sometimes when you are serving with a body of five men to bring things into public meeting that you'd like to keep out. I have seen some measures since I have been on this Board that have been defeated by my insistence on bringing them into public meeting if they were passed. I think this is an example of the necessity for public meetings. I have seen on several occasions—one very important measure

I have in mind—that didn't pass after weeks of debate because I was insistent that it be discussed in public meeting and that I said I would bring in to public meeting if it succeeded in conference. I have lots of things in mind and when it is a question of my frankness or my right to bring matters into public meeting, I tried to say that sometimes it is a very difficult thing to do.

Chairman: I think it is our duty to bring into public meeting anything that we think should be brought in.

Dr. Lyons: It may be a duty but sometimes it is a very difficult duty.

Mr. Tobin: This is true, that any action that has been taken by the Committee in conference must be taken in public and that it is impossible for the Committee to pass on any question that pertains to the appropriation of a dollar, the appointment of a teacher, the temporary transfer of even a custodian for a period of a week. Those items must all come here and every member of the Committee has an opportunity to express himself openly and frankly. What is the status of my motion, Mr. Chairman?

Chairman: It is out. You may bring it in as a new motion after we vote on this matter.

Mr. Tobin: Would Mr. Smith be kind enough to read the order which he is presenting so that I may determine what I am ready to present?

Mr. Smith: I move that all meetings of the School Committee be made open to the public and that we go into executive session only by a four-fifths vote to discuss anything that pertains to the character of an individual.

The motion having been made by Mr. Smith and seconded by Dr. Lyons, the Chairman requested the Secretary to call the roll.

The motion failed of passage by the following vote:

YEAS—Dr. Lyons and Mr. Smith—2.

NAYS—Dr. Mackey, Mr. Tobin, and Mr. Sullivan—3.

Mr. Smith: I move for the passage of my second motion which was defeated at a previous meeting—that the Press be invited to all our conferences.

Mr. Tobin: I move that that be amended to read, "provided that the material discussed in the conference shall be treated as confidential by the Press and that they shall be there present for the purpose of learning the background of the various questions which eventually have to come into public meeting for formal action." This will enable the Press to more clearly and intelligently write on the matter when taken up in public.

Mr. Smith: I object to the word "confidential" there. The main reason I am insisting that the Press be invited is that the citizens of Boston may feel that their rights are being safeguarded. I feel that if we limit the Press—that everything is confidential there and that they cannot print anything that they might think improper to print for the benefit of the citizens of

Boston—it is defeating the purpose for which I made the motion.

Dr. Mackey: I feel that the Press will have a better knowledge of what is going on at our conferences by being invited and then held in confidence until the matters come down to public meeting, as Mr. Tobin has suggested. I second Mr. Tobin's motion.

Mr. Smith: I have the utmost respect for the Press. I know they will never violate a confidence. If anything comes up in conference that is detrimental to a person's character, I know that the Press, being fair-minded, will not print such information.

Dr. Lyons: I will go a little further and say that there will be nothing that will be regarded as confidential except matters pertaining to the character of individuals.

Chairman: I think we should go into executive session for any such action.

The Chairman stated question was on the amendment as presented by Mr. Tobin to provide that the material discussed shall not be printed until formal action has been taken in the public meeting.

Mr. Tobin: Therefore nothing can be printed in public until formal action is taken. I offer that in the best interest of the department and to permit frank, free, and open discussion until we are prepared to bring it downstairs here in public. Would expect them to treat as confidential anything they have heard in conference until final action has been taken. This is opening up the assemblies of this Board to a greater extent than any other assembly in the world. The Boston City Council goes into executive session. At times they invite the Press. The Press never violates the discussion held in that closed conference and is not free subsequently to print what has been said in that executive session. I don't want to tie the hands of the members of this Committee in such manner as to prevent the carrying out of the responsibilities which devolve upon them as a School Committee, and that is exactly what would happen.

Mr. Smith: I am afraid by accepting that amendment we are going to stifle the Press. Suppose a member brings in a certain question for action and we discuss it in conference and the motion should be defeated.—I think it should be the right and the duty of the Press to make it public and if any of our members are so indiscreet as to bring in something that should be exposed, I think the Press ought to have the privilege of printing it. I am afraid by accepting this motion of Mr. Tobin that the Press would be so stifled that we would defeat our own purpose.

Mr. Tobin: I'd like to state that the trend of this entire debate tonight has been to infer that in the past improper actions have resulted from the rules under which we operate. I don't believe so. I know I have a personally confident feeling about my every action and therefore I don't feel that it is necessary and that in the main the question is attempting to build up a confidence that to my way of

thinking is not necessary. We have had here the Superintendent of Schools, a man than whom there is no man in the city who has a higher opinion in the public, who has stated that it is not necessary, but I am willing, for the purpose of giving way to some extent and in the event that there is any feeling that something might go on behind closed doors, to permit the Press to be present there and to permit them to print the material after it has been presented in public meeting. Dr. Campbell says that is not necessary and Miss Cronin and the Business Manager have been sitting at every conference during my four and a half years on the Board. I am perfectly willing to agree to any amendment that will safeguard, if safeguarding is necessary,—any opinion that the public might have to the contrary.

Dr. Lyons: In order to clear the records. During the past two or three years there have been times when the present Superintendent of Schools was in hearty accord with me as a member against some matters which I was determined to take into public meeting if they had been successful in passage. The Superintendent of Schools has very often taken decidedly opposite views to the members of this Board and I think the views that he has expressed sometimes as Superintendent of Schools in private meeting would be well expressed in public and well received.

Superintendent: The Superintendent would like to clarify his position somewhat. The Superintendent believes that the rules and regulations as they stand now are ample to protect all the interests of the public and the children if they are observed; that is, if the members will carry out their sworn duty which is to discuss in public any question which they think ought to be brought out in the public. That is the perfect safeguard. Any member can bring into the public meeting any question which he thinks ought to be laid before the public and if we remember that the Committee can take no vote, no appointing vote, in the conference, that solves the difficulty. As Dr. Lyons stated, the Superintendent often differs in opinion with this or that member and even with a majority of the members, and if any member wanted the Superintendent's opinion to be made public, he has only to take the step of asking for his statement in public and the Superintendent is always ready to give exactly what he thinks on any question that comes up honestly and fairly in public whenever it is asked.

Dr. Lyons: I'd like to ask the Superintendent one question—one of many I could ask but will not because I still have personal reasons for not wanting to do so unless pressed. When I came on this Board after my vacation, I was here about two or three days—I want to ask the Superintendent of Schools publicly if he wouldn't have found it rather a delicate situation to go downstairs with me to have forced a debate on the insurance question that I saw when I came in here?

Superintendent: The Superintendent would have found no more difficulty in a debate in public than he did in private. I would have been perfectly willing. Would have been unhappy. I didn't seek it. It wasn't my province.

Dr. Lyons: As a hypothetical question, if I had brought it down here, wouldn't it have been rather a delicate thing?

Superintendent: Would have been unhappy but I would have been perfectly willing to go through with it.

Dr. Lyons: Would you say that if you were a member of the Committee you would have liked to bring it up?

Superintendent: If I felt it ought to be discussed in public would have it brought in and any other question that I thought should be brought in.

Chairman: Doctor, I think it is your duty to bring in anything you think should be brought in.

Dr. Lyons: A great many things are a duty that are very difficult.

Dr. Mackey: As a matter of fact any time that the Superintendent has disagreed with any member or a majority of the members of the Board, he has come out at the public meeting and shown his disapproval. That is right, isn't it, Mr. Campbell?

Superintendent: No, sir. I can't agree with you on that. I have never felt it was my duty to bring before this Committee in public any action. That is the duty of the members of the Committee. I have never brought but one action here for public discussion and that was after telling the Committee in writing that that was the only recourse left to the Superintendent. I do not make it a practice to bring in here my disagreements with the Board. I leave that to the members because my disagreements are nearly always on technical questions.

Mr. Tobin: Isn't this true, that under the rules and regulations the Superintendent has full power to enter into debate and has the same power and privileges of any member of the School Committee with the exception that he has no right to vote in public? Isn't that correct?

Superintendent: Yes. But the practice of every Superintendent has been to refrain from bringing questions into the public meeting.

Mr. Tobin: Is it necessary to discuss any question that isn't before the Board?

Superintendent: No. The Superintendent is ready here and always has been ready to give an opinion on any question that comes before the Committee. I do not make it my practice to say, "This matter I shall discuss in public meeting" if the members go against a thing in conference.

The Chairman again stated the question—passage of the amendment as presented by Mr. Tobin to provide that the material discussed in conference shall not be printed until formal action has been taken in the public meeting.

In answer to roll call, the motion failed of passage by the following vote:

YEAS—Dr. Mackey and Mr. Tobin—2.

NAYS—Dr. Lyons, Mr. Smith and Mr. Sullivan—3.

The Chairman stated the question now came on the passage of the motion introduced by Mr. Smith that the Press be invited to all the School Committee conferences.

In answer to roll call, the members voted as follows:

Dr. Lyons: Yes.

Dr. Mackey: No.

Mr. Smith: Yes.

Mr. Tobin: I am in something of a quandary. If I were to vote for this I would be doing so only for the purpose of satisfying, if it exists, an opinion on the part of the general public that something goes on behind the doors of the School Committee conferences that should not be made public. Having been a member for four and a half years, I do not feel that there is any need for it. However, I do believe and am perfectly willing to have the Press in before the Committee for the purpose of familiarizing themselves with the questions discussed and perfectly willing to give them opportunity to print anything after the matter has been finally disposed of in public. Since this order broadens out the conferences of the School Committee to a point where the members will no longer have an opportunity to study those questions which should be studied before they go into public meeting with them, I feel that I shall have to oppose it. I believe the members of the Committee are placing themselves under a handicap under which no deliberative assembly in the whole world has ever placed itself. So I have to vote, no.

Mr. Sullivan: Yes. I cast this vote, yes, against my vote of some months ago, because I feel that due to discussion here tonight wherein it has been stated that members should or should not have brought matters to public meeting, the fairest practice for all concerned, including the members of the Committee, is to have the members of the Press present at every conference, with full knowledge that the members of the Press are people of good judgment and people who would want to transmit a fair story of our action and deliberations to the public.

The Chair declared the motion passed, by vote of three to two.

UNFINISHED BUSINESS

POPULATION OF NEW ENGLAND, 1930.

Total population, 8,166,341 (4,024,657 males and 4,141,684 females); total white, 8,065,113 (3,972,465 males and 4,092,648 females); total native white, 6,230,803 (3,067,723 males and 3,163,080 females); native white of native parentage, 3,167,082 (1,572,885 males and 1,594,197 females); native white of foreign or mixed parentage, 3,063,721 (1,494,838 males and 1,568,883 females); foreign-born white, 1,834,310 (904,742 males and 929,568 females); Negro, 94,086 (46,963 males and 47,123 females); Indian, 2,466 (1,273 males and 1,193 females); Chinese, 3,794 (3,233 males and 561 females); Japanese, 352 (277 males and 75 females); Mexican, 107 (69 males and 38 females); all other races, 423 (377 males and 46 females).

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently planned park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

Stage curtains, projection equipment for moving picture booth,
Sheet metal equipment,
Wood working equipment,

will be received by the Superintendent of Construction at the office of the Department of School Buildings, 11 Beacon street, Boston, Mass., until 2 o'clock p. m. Daylight Saving time, of Tuesday, August 11, 1936, and at that place and time will be publicly opened and read. The proposal submitted to the Superintendent of Construction shall not be separated from the book of specifications. The additional copy of the proposal shall be removed from the book of specifications and after filling out shall be sealed in an envelope and delivered to the Auditor of the City of Boston at the City Hall, School street, Boston, Mass., before the time for the opening of the proposals.

The project is to be financed and constructed under the terms of the Emergency Relief Appropriation Act of 1935 and chapter 866 of the Acts of 1933 of the Commonwealth of Massachusetts, as amended. The attention of bidders is directed to the construction regulations prescribed by the P. W. A. Attention is called to the fact that minimum wage rates are established for the project, and are set forth in the contract documents. The employment agency designated by the Government for this project is Edward L. Hanna, Manager, 100 Nashua street, Boston, Mass. All bids must be accompanied by a certified check on a bank located in the Federal Reserve District (1) payable to the City of Boston in the sum of five per cent (5 per cent) of the amount of the bid, except that a minimum amount of check shall be fifty dollars (\$50). The certified check shall be attached to the proposal, sealed, and delivered to the Superintendent of Construction. The right is reserved to reject any or all proposals and to waive informalities, or to accept any proposal deemed best for the City of Boston, subject to the approval of the State Director, P. W. A. The certified checks of the three lowest bidders will be retained until the contract has been signed by all interested parties. All other certified proposal checks will be returned not less than forty-eight hours after the date of the opening of the proposals.

A bond of an approved surety company will be given by the successful bidder in the full amount of the contract price, except that no bond will be required for contracts under \$1,000. All contracts are subject to the approval of the Mayor. No award can be made without the approval of the State Engineer, P. W. A.

A deposit of a certified check for \$50, made payable to the City of Boston, will be required for each set of plans and specifications, said sum to be refunded not later than seven days after the opening of bids. Mutilation or failure to return the plans or the specifications shall be deemed sufficient cause for the forfeiture of the said deposit.

Specifications and forms of proposals may be obtained at the office of the Superintendent of Construction, Department of School Buildings, 11 Beacon street, Boston, Mass.

NO. 32

BOSTON'S ANTI-NOISE LAW IS PROVING SUCCESS AND GREAT BOON TO CITIZENS, ACCORDING TO REPORT BEING PREPARED TO PRESENT TO MAYOR MANSFIELD IN FALL BY HIS ANTI-NOISE COMMISSION — WILLIAM P. LYLE, MEMBER OF BOARD, SAYS MEETING UPON RETURN OF CHAIRMAN, DR. HENRY CHRISTIAN, WILL SHOW THAT MUCH HAS BEEN ACCOMPLISHED IN ABATEMENT OF NUISANCE.

A most favorable report is promised Mayor Mansfield from his Anti-Noise Commission when it makes its report early in September after the meeting of the commission that has been planned for that time. That the report is not for presentation at the present time is due to the fact that the chairman, Dr. Henry Christian, is not in the city and is not expected to be ready to call the meeting for considering the various successful phases of the campaign until early fall.

According to William P. Lyle, a member of the commission, however, the report will be very pleasing as the result of the anti-noise law which has now been in effect some months and has demonstrated not only its value, but its practicability in the comfort and joy Boston citizens have obtained in the way of respite from undue noises. Mr. Lyle says:

"I know our campaign for noise abatement has met with great success because we are receiving fewer complaints. Just before the anti-horn law went into effect, members of the commission were deluged with complaints from irate persons unable to sleep because of the blowing of motor horns, auto cut-outs, noisy parties, starting of parked cars and all the other demons that served to make city life one long nightmare.

"Now, we are almost back to the good old horse and buggy days, so to speak. Take Commonwealth avenue, for instance. A year ago it was the noisiest street imaginable, especially here in the Kenmore square sector. Now all that is changed.

"We have reached that happy stage where our guests and others can get a good night's sleep. And this result has been accomplished through the cooperation of various forces such as the taxicab companies, the milk companies, who have equipped their truck wheels with pneumatic tires, the garbage collection agencies and the more considerate motorists who are gradually learning that horn-tooting is a savage custom. The police, too, have been right on the job.

FINES EFFECTIVE.

"And I wonder how many people realize that this anti-noise ordinance has real teeth in it? For a second offence a motorist who toots his horn after 11 p. m. is subject to a \$10 fine. And no matter what the noise that disturbs your rest you always have recourse to the Police or the Health Department. For years medical science has been trying to find a solution for this noise problem. Physicians have long realized that city noise is one of the great contributing factors to nervous disorders. I think that within a few years there will be a minimum of noise in the great centers of population both night and day. Noises will be outlawed by ordinances.

"I have been able to make the elevators in my hotel virtually noise-proof through the use of rubber. Rubber, you know, is an excellent silencer. Can't use too much of it to suit me. Of course, the coal companies might think I am impractical in this idea, but you must remember that it was a long time before the milk companies thought they could do without the old-fashioned iron tires. Yes, we are really getting somewhere in this crusade.

"When my neighbors and friends called me up to protest against noises I never lost my temper although perhaps I was sleeping soundly at the time the telephone buzzed in my ear. Just told them to call up the police — Station 16 — and they would probably get relief. Now I seldom get a call."

There was the case of Carl Nelson, manager of the Lincolnshire Hotel. He called me one night and said the din on Charles street was so terrific he was afraid he would lose all his guests.

"Get a cop, Carl, and have him stationed outside the hotel and I know you will get relief," advised the anti-noise commissioner.

"Well, it seems Mr. Nelson acted on this advice but the whistle of the policeman in stopping horn-tooting motorists awoke more guests than the horn-tooters, so Mr. Nelson had to send him away.

"And there was Tony, janitor of an apartment building on Newbury street in the rear of the Puritan Hotel, who was in the habit of giving banjo parties three or four nights a week, lasting usually until 2 or 3 a. m. I spoke kindly to him, but Tony did not understand until a policeman called and explained the anti-noise law. There are still banjo parties at Tony's, but promptly at 11 p. m. they cease.

"Of course this anti-noise campaign is a favorite hobby of mine, but I have to stand a lot of ribbing from my colleagues in the hotel business," remarked Mr. Lyle. "Now, Bill," they say to me when I am giving them a party, 'be very careful and don't talk above a whisper.'"

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

Total for the 14 counties (39 cities and 316 towns), 4,249,614 or 397,258 (i. e., 10.3 per cent) over 1920. Of said total, 2,940,335 (i. e., 69.19 per cent) were in the cities and 1,309,279 (i. e., 30.81 per cent) in the towns. The four counties, Suffolk, Middlesex, Essex and Bristol, contain 63.00 per cent of the State's inhabitants.

If the municipalities having a population of 5,000 or over are properly called urban, then the percentage of urban population in the entire State reaches the notable figure of 90.71, while the rural shows but 9.29 per cent.

ANNEXATIONS OF BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included. By 1915 the total was 549,139, or 73.67 per cent of city. By 1925 the total was 607,519, or 77.92 per cent.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

PITTSBURGH'S TRAFFIC SAFETY RECORD.

Pittsburgh has been adjudged the safest city in the United States in 1932, and the second safest in 1933 and 1934 among cities with populations over 500,000. Registrations in the city increased 4.4 per cent, gasoline consumption 7.7 per cent. In 1935, despite a 2.4 per cent decrease in traffic volume, adult fatalities increased 30 per cent, total fatalities 24 per cent, as compared with 1934.

PROFITABLE MUNICIPAL MARKETS.

Municipal markets, "white elephants" in many cities, can be made self-supporting and even profitable, according to recent reports on two of them. The Department of Public Markets of New York City reports that within the administration of its present Mayor, Fiorello LaGuardia, the city's markets have changed from inefficient and expensive undertakings into profitable investments. The Benton Harbor, Mich., municipal fruit and vegetable market is described as doing a three-million-dollar annual business by its City Manager in the February issue of "Public Management."

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR RESURFACING OR REPAIRING WITH BITUMINOUS MATERIALS THE PAVEMENT IN ANY STREET UPON WHICH THERE IS NO MAINTENANCE GUARANTY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for resurfacing or repairing with bituminous materials the pavement in any street upon which there is no maintenance guaranty when ordered to do so by the Commissioner and giving bond therefor of a surety company approved by the Commissioner in the sum of one hundred per cent of the amount of the contract in each district to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each bidder must give the location of the plant which it is intended to operate and the capacity of the same. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Repairing Pavements with Bituminous Materials," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Thursday, August 20, 1936, with a certified check for twenty-five hundred (2,500) dollars for each district, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The boundaries of the districts are to be determined by the Commissioner so as to make the amount of work done in each district about equal. The undersigned reserves the right to reject any or all proposals or to award the contract as he may deem for the best interests of the city so to do.

C. J. CARVEN,
Commissioner of Public Works.

CITY OF BOSTON.

HOSPITAL DEPARTMENT.

P. W. A. PROJECT, DOCKET No. 4207E.

The Board of Trustees of the Boston City Hospital invite sealed proposals for furnishing hospital furniture and equipment, delivering, unpacking, and setting up the same within the new Surgical Operating and Ward Building where and as designated by the Superintendent of the Hospital, or his authorized representative. Proposals, signed by the bidder, and accompanied by a certified check on a Boston bank, in the sum equal to 10 per cent of the amount of the proposal, payable to the City of Boston, will be received at the office of the Superintendent of the Boston City Hospital before 2 p. m., daylight saving time, Tuesday, August 25, 1936, at which place and time they will be publicly opened and read. The certified check will become the property of the City of Boston if the proposal is accepted and the bidder neglects or refuses to comply with the terms of the proposal. All certified checks, except that of the bidder to whom the contract is awarded, will be returned within thirty days after the awarding of the contract. All proposals must be submitted in duplicate and only upon the forms provided herewith. One proposal, accompanied by the certified check, is to be delivered to the office of the Superintendent of the Boston City Hospital, and the other, without check, is to be deposited with the City Auditor, City Hall, before the time of opening the proposals. The Board of Trustees reserves the right to reject any or all proposals, to waive any informalities in a bid when such waiver does not conflict with any local law, ordinance, or provisions of the P. W. A. requirements, or to accept any proposal deemed best for the interest of the City of Boston, subject to the approval of the State Director, P. W. A. The award of contract is conditioned upon funds available for this work and the Board of Trustees reserve the right to hold proposals for a period of thirty (30) days from the date of opening thereof. Specifications, proposal forms, and other contract documents may be obtained at the new Surgical Operating and Ward Building, 754 Massachusetts avenue. There will be a charge of \$15 for each set of such contract documents, which amount will be refunded to the bidder when the documents are returned in good condition. Copies of the specifications and other contract documents will be on file, for the convenience of sub-contractors and others, during the bidding period at the offices of F. W. Dodge Corporation, 855 Park Square Building, Boston; Brown's Letters Corporation, 83 Chauncy street, Boston; Construction Reports, Incorporated, 44 School street, Boston. The project is being financed and prosecuted under the terms of the National Industrial Recovery Act (Title II) of 1933, and chapter 366, Mass. Acts of 1933, as amended, and attention is called to the Construction Regulations prescribed by the P. W. A. Attention is called to the fact that two schedules of minimum wage rates are established for the project and are set forth in the contract documents. Copies of such schedules may be obtained without cost. The office of the United States Employment Service designated by the Government for this project is Massachusetts State Employment Service, Mr. Edward L. Hanna, manager, 100 Nashua street, Boston, Massachusetts. A surety bond will be required in amount, and under conditions set forth in the contract documents.

will be received by the Superintendent of Construction at the office of the Department of School Buildings, 11 Beacon street, Boston, Mass., until 2 o'clock p. m. Daylight Saving time, of Tuesday, August 11, 1936, and at that place and time will be publicly opened and read. The proposal submitted to the Superintendent of Construction shall not be separated from the book of specifications. The additional copy of the proposal shall be removed from the book of specifications and after filling out shall be sealed in an envelope and delivered to the Auditor of the City of Boston at the City Hall, School street, Boston, Mass., before the time for the opening of the proposals.

The project is to be financed and constructed under the terms of the Emergency Relief Appropriation Act of 1935 and chapter 366 of the Acts of 1933 of the Commonwealth of Massachusetts, as amended. The attention of bidders is directed to the construction regulations prescribed by the P. W. A. Attention is called to the fact that minimum wage rates are established for the project, and are set forth in the contract documents. The employment agency designated by the Government for this project is Edward L. Hanna, Manager, 100 Nashua street, Boston, Mass. All bids must be accompanied by a certified check on a bank located in the Federal Reserve District (1) payable to the City of Boston in the sum of five per cent (5 per cent) of the amount of the bid, except that a minimum amount of check shall be fifty dollars (\$50). The certified check shall be attached to the proposal, sealed, and delivered to the Superintendent of Construction. The right is reserved to reject any or all proposals and to waive informalities, or to accept any proposal deemed best for the City of Boston, subject to the approval of the State Director, P. W. A. The certified checks of the three lowest bidders will be retained until the contract has been signed by all interested parties. All other certified proposal checks will be returned not less than forty-eight hours after the date of the opening of the proposals.

A bond of an approved surety company will be given by the successful bidder in the full amount of the contract price, except that no bond will be required for contracts under \$1,000. All contracts are subject to the approval of the Mayor. No award can be made without the approval of the State Engineer, P. W. A.

A deposit of a certified check for \$50, made payable to the City of Boston, will be required for each set of plans and specifications, said sum to be refunded not later than seven days after the opening of bids. Mutilation or failure to return the plans or the specifications shall be deemed sufficient cause for the forfeiture of the said deposit.

Specifications and forms of proposals may be obtained at the office of the Superintendent of Construction, Department of School Buildings, 11 Beacon street, Boston, Mass.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

No. 33

MAYOR MANSFIELD PROMULGATES NEW REGULATIONS TO CHECK "BEANO" CRAZE AND TO CONTROL GAMES AS ONE OF FIRST ACTS UPON RETURNING TO DESK AT CITY HALL, AFTER VACATION TOUR IN EUROPE — CALLS UPON THE FINANCE COMMISSION TO PRESENT EVIDENCE OF LAW VIOLATIONS TO THE DISTRICT ATTORNEY FOR ACTION — NEW REGULATIONS GO INTO EFFECT MONDAY.

Upon August 13, on his return to City Hall, after his vacation tour, Mayor Mansfield, after conferences issued the following statement and rules regulating the Beano game:

I find upon my return considerable dissatisfaction with the Beano situation in Boston. I have always been of the opinion that this game should be suppressed and I had hoped the Legislature would repeal the statute permitting it. This, however, has not been done and Beano may still be carried on under the protection of the law. But, as I said before I went away, it is rapidly developing into a racket where organizations lend their names in return for a very small percentage of the net proceeds of the Beano parties. In an endeavor to check the gambling tendency I issued an order before I went away that no new Beano licenses should be issued, but I find that this has not had much effect upon the situation. Upon my return I find much agitation about it.

I am in conference now with the Law Department and the License Division of my own office and a set of rules is to be drafted and submitted to me for approval, which I hope will meet the situation and remove all undesirable elements from this Beano business. In the meantime, as a preliminary step, all licenses which do not by their own limitations expire daily are cancelled as of Saturday, August 15. Commencing Monday, August 17, new applications must be made by every organization desiring to conduct Beano games and by that time I expect that the new rules will be ready with which applicants must comply before they can obtain a license from this office.

The Finance Commission claims to have evidence of violation of the law on the part of Beano licensees. If the commission has such evidence, obviously it is its duty to submit it at once to the District Attorney for action, which I now call upon it to do.

The commission says it believes that the public good would be served by an absolute prohibition of Beano. I think so. I have always said so. But if it is to be prohibited, that is a task for the Legislature, and since the Legislature has not seen fit to take this step the game Beano is still authorized by law. I do not feel that I, as Mayor of Boston, would be justified in prohibiting absolutely a game which the Legislature has legalized. If I should do that many worthy charities might be deprived of some benefits to which they are legally entitled. But I can attempt to keep Beano within reasonable bounds by new regulations which I have adopted and which are submitted herewith.

These regulations practically follow Judge Adlow's decision recently made in a somewhat similar case involving lottery laws. Only legitimate charitable organizations themselves may be granted licenses. Games may be held no oftener than once a week in any hall. The only legitimate expense which is allowed is for the hiring of suitable premises by an organization for the purpose of conducting a lawful Beano game therein. All money prizes are forbidden. All sweepstake prizes are abolished. No prize shall be of more than \$5 in value. All prizes are to be donated to the organization holding the Beano and not to be purchased for the sake of offering them as prizes. The games themselves must be conducted by members of the organization which has the license for the game and all services rendered in connection with the game must be gratuitous and without cost to the organization. The games must be carried on in the usual quarters of the organization or in such premises as may be hired. All of the total receipts with the single exception of the amount legitimately paid for the hall, not more than one day a week, must go to the benefit of the organization which holds the license. Returns must be made within three days after each Beano party is held of the amount received, amount, if any, paid for suitable premises to hold the game, and the disposition of the net difference between these two amounts. Upon demand by the Mayor's Office the licensee must furnish immediately the names and addresses of recipients of prizes and of any donations of the money received at the game. No games may be held in corridors, stairways or hallways of any building, and all regulations of the Fire, Health, Police and Building Departments must be observed.

NEW "BEANO" REGULATIONS.

(Continued from page 1021.)

TERMS AND CONDITIONS PRESCRIBED BY
FREDERICK W. MANSFIELD, MAYOR
OF THE CITY OF BOSTON, RELATING
TO THE GAME COMMONLY CALLED
BEANO, OR SUBSTANTIALLY THE SAME
GAME UNDER ANOTHER NAME, HERE-
INAFTER REFERRED TO AS "GAME."

1. Every licensee shall be a charitable, civic, educational, fraternal or religious organization, which was duly and regularly organized and established at least one year prior to the time of the filing of the application for a license; and no game shall, under any circumstance or at any time be conducted by an individual or by an organization other than a charitable, civic, educational, fraternal or religious organization as hereinbefore organized and established.

2. Such licensee shall exercise exclusive control and management over and of each game. At least one member of such licensee who has been a member in good standing of such licensee for at least one year prior to the time of the filing of the application for such license shall be in full control and management of each game and at all times during the operation and conduct of such game.

3. No such organization, or any of its subsidiaries, auxiliaries or affiliates, shall conduct a game during more than one day in any one week.

4. No game shall be conducted on the same premises or in the same room or hall more frequently than one day in any one week.

5. No game shall be conducted in a store or other establishment used or available for use as a store on the street floor, nor in any hall or room that has not been recognized as a hall by the Building Commissioner for a period of at least three years prior to the time of the filing of the application for such license, except such halls as have been constructed as halls within said period of three years.

6. Only such portions of a building expressly described in the license and in the application for such license shall be used for the conduct of any game.

7. No game shall be conducted prior to twelve o'clock noon or subsequent to twelve o'clock midnight.

8. The entire receipts of all charges for admission to, and participation in,

any game, except reasonable expenses actually paid for the use of suitable premises within the meaning of these terms and conditions, shall be used by such organization solely for charitable, civic, educational, fraternal or religious purposes.

9. All prizes, tokens or awards used, given, offered or awarded during, after or in connection with the conduct of any games shall be donated and shall be without any charge directly or indirectly to such organization.

10. All services rendered in the conduct of or in connection with any game shall be gratuitous and without any charge directly or indirectly to such organization.

11. No prize in the form of money, or bond, certificate, order or taken for merchandise, or sweepstakes, shall be used, given, offered or awarded, directly or indirectly, during, after or in connection with any game.

12. No prize shall exceed five (\$5) dollars in value.

13. No more than one prize shall be given to the winner of any one game.

14. Every such organization shall file with the Mayor of the City of Boston, on forms available in the Mayor's office, within three days after any game is conducted, a statement of its total receipts and expenses actually paid for the use of the premises as set forth above in paragraph 8 and the disposition of the net receipts. Every such statement shall be made under oath by a duly authorized officer of such organization and shall be open to public inspection. A statement of the name and address of the recipient of each prize and of the net receipts or any part thereof shall be furnished upon request of the Mayor.

15. No minor under the age of sixteen shall be admitted to the room or hall while any game is being conducted.

16. No person shall aid, assist or render any services in connection with any game more frequently than one day in any week.

17. No person shall on a public way, or at the entrance of any building in which any game is conducted, by word of mouth or by amplifying device, announce that any game is in progress or about to commence or solicit or invite persons to enter such building or to play any game.

18. Any room or hall wherein any game is conducted shall be fully and completely lighted at all times during the conduct of such game and at reasonable times before and after such game and no game shall be conducted in any corridor, hallway, or stairway of any building.

19. All provisions of law and of ordinances and all rules and regulations of the Police, Fire, Health and Building Departments shall be fully observed at all times.

FREDERICK W. MANSFIELD,
Mayor of Boston.
HERBERT L. McNARY,
Chief, Licensing Division.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner for permission to raze the following structure as a fire menace or nuisance:

The buildings at 2 Sumner court, 3 Sumner court, and 3 Sumner court rear, Ward 13, are in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner of record, Loretta S. Wesson is dead; her estate has not been probated, and any heirs to the property have not been located. Notices of the unsafe condition have been posted on the external walls of the buildings, and notices left at 2 Sumner court, which was the last place of abode of Loretta S. Wesson. Nothing has been done to remove the unsafe conditions.

TRAFFIC COMMISSION RULINGS.

MAYOR AND MRS. MANSFIELD WELCOMED BACK TO CITY AFTER VACATION SPENT IN EUROPE—MORE THAN THREE HUNDRED FRIENDS AND CITY OFFICIALS GATHER AT DOCK TO CHEER THEIR WELCOME WHILE THE FIRE DEPARTMENT BAND SERENADED.

Mayor Mansfield and Mrs. Mansfield were welcomed back to the hearts of their friends and the City of Boston on Thursday morning after their vacation spent in visiting European points of interest. They returned to Boston on the Eastern Steamship Company's S. S. "Boston" and were greeted at the dock by their friends and many of the heads of the departments of the city as well as intimate friends.

Both Mayor and Mrs. Mansfield expressed delight at being back in Boston and were enthusiastic in praise of their trip, which included audience before His Holiness the Pope and Premier Benito Mussolini. In addition to the friends who greeted the Mayor, the Fire Department band turned out in force and serenaded the couple from the time the boat appeared in the upper harbor until the Mayor departed for his hotel for breakfast. Mayor and Mrs. Mansfield spent some time at the resorts in Southern France rather than following the itinerary outlined for them when they left Boston.

As the Mayor and Mrs. Mansfield came down on to the wharf at 8.15 a. m., the crowd began cheering and the Boston Fire Department band struck up "Hail, Massachusetts."

Every vessel in the harbor blew its whistle as the New York boat came up the harbor, and an airplane swooped

overhead with a large trailer reading "Welcome Home, Mayor Mansfield."

After thanking the crowd for the reception, the Mayor drove immediately to City Hall, where he started his day's work.

Among those who were on hand to welcome the Mayor and his wife were Miss Catherine Roe and Mrs. Peter Lambert, sisters of Mrs. Mansfield, as well as a large delegation of city employees which included practically every department official, and was headed by Acting Mayor John I. Fitzgerald.

Others in the welcoming party included Fire Commissioner Edward F. McLaughlin; Walter Murray, Street Commissioner; William B. Keeler, head of the City Health Department; City Collector John F. Doherty; Public Works Commissioner Christopher Carven; Martin Conroy, Miss Mary L. Thompson, William C. S. Healy, all of the Mayor's secretarial staff, and Arthur O'Keefe, Director of Public Celebrations.

Also, Chief Henry F. Fox and Deputy Chiefs Samuel Pope and Louis Stickel of the Fire Department; Assistant Corporation Counsel Isadore Fox; Frederick Dowling, City Election Commissioner; Park Commissioner William P. Long; Superintendent of Public Buildings Roswell G. Hall; Assistant Corporation Counsel Joseph Brennan; Assistant City Treasurer Arthur Swan and William Hayes, Assistant W. P. A. Administrator.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

DEPARTMENT OF SCHOOL BUILDINGS.

Thomas O'Connor & Co., Incorporated, has been allowed for the issuance of an order of change in contract, making an addition in the sum of \$7,281.69 to the contract for the erection and completion of the Dudley District School, Roxbury street, at Eliot square, Roxbury, Mass. This amount is necessary in order to pay for additional work in connection with the foundations. When the operations for the foundations were started they showed that the solid rock occurred at a lower elevation in the two wings than the borings indicated. This made it necessary to ask the State Director of the P. W. A. for his approval to issue a change of order to cover the additional cost for excavating between the bottom of the footings as shown on the contract drawings and the actual elevations as they shall have to be built. This work is to be paid for at the unit prices contained in the proposal at a preliminary cost of \$9,069. This change has been approved by the State Director of the P. W. A., April 7, 1936, with the understanding that an additional change order would be requested, when the work was completed, for the difference between the estimated cost and the actual cost based upon the unit prices in the proposal. This work is now all completed, and the following are the total quantities:

DEPARTMENT OF SCHOOL BUILDINGS.

Upon August 10 the Acting Mayor approved a contract, without advertising, to the Massachusetts Welding Company,

for installing sixty lunchroom tables in the Washington Irving School, P. W. A. Docket No. Mass 4217R. Due to the necessity of awaiting a transfer of \$18,000 to be approved by the State Emergency Finance Board, accomplished July 8, 1936, and the shortage of time before the opening of school, the named bidder, with the approval of the P. W. A. authorities, were invited to submit their bid on the date mentioned and in the presence of the Government official these bids were opened and tabulated according to their rules and regulations. Bids opened July 27, were as follows: Massachusetts Welding Company, \$3,750; John F. Hynes, Incorporated, \$4,188; Hub Steel & Iron Works, Incorporated, \$4,290; Morandi-Proctor Company, \$4,320; J. L. Hammett Company, \$4,469; Babcock Davis Corporation, \$4,863; W. Curley & Son, \$4,930.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently planned park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

TRAFFIC COMMISSION RULING.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be two (2) weeks, vehicles are excluded from the following street, effective August 13, 1936:

Stanley Street, Dorchester.
 From Bellevue street to Quincy street.

POLICE DEPARTMENT ORDERS.

General Order No. 216.

A trial board, consisting of Captains Cleavy, Connolly and Tiernan, having heard by reference a complaint made by Joseph McKinnon, captain, Division 6, against William T. Downey, patrolman, Division 18, detailed to Division 6, for alleged violation of Rule 36, of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification:—In that on June 26, 1936, at 5.30 p. m., when he reported for duty at Station 6, which duty was patrol duty at Carson Beach Bath House, he was under the influence of liquor to such an extent that he was unfit for and unable to perform the duty to which he was assigned, or any other police duty,—has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty, and the Board respectfully recommends that the said Patrolman William T. Downey be suspended from duty, with loss of pay, for a period of forty-five days, effective at 7.45 a. m., June 27, 1936, and further, that at the expiration of the suspension, the said Patrolman William T. Downey perform 420 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman William T. Downey be suspended from duty, with loss of pay, for a period of forty-five days, effective at 7.45 a. m., June 27, 1936, and that at the expiration of the said suspension he perform 420 hours of punishment duty.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Acting Superintendent of Police will promulgate this order.

EUGENE M. MCSWEENEY,
Police Commissioner.

General Order No. 217.

On July 31, 1936, information was received by members of the Special Service Squad to the effect that a desperate holdup man and ex-convict could be found on the premises of an automobile establishment in Park square, Boston. A squad of officers was immediately dispatched to the place in question and, through the exercise of excellent judgment on their part, this criminal was taken into custody without a struggle. Energetic pursuit of the investigation lead to the capture of another ex-convict, an accomplice to the man arrested. A further check-up of the activities of these men disclosed they were wanted for a number of armed robberies in Beverly, Lynn and Peabody, Mass., and in Woonsocket and Providence, Rhode Island.

Fortin of Division 4, Thomas F. Butler of Division 2, and Nicholas J. Waters of Division 9, all detailed to the Special Service Squad, by giving unstintedly of their own time, and by handling every phase of this case with the utmost intelligence and thoroughness, halted the depredations of these dangerous characters and, unquestionably, prevented the commission of other similar crimes and possible loss of life.

The commissioner highly commends the above named officers for this very efficient police work which has prompted several expressions of appreciation from high police officials of neighboring municipalities and which has reflected considerable credit upon the Boston Police Department as a whole.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. MCSWEENEY,

JAMAICA SPENDS \$1,000,000 ANNUALLY ON ROAD CONSTRUCTION AND MAINTENANCE.

Jamaica, an English possession, has a highway system which is almost entirely constructed of waterbound macadam, some 70 miles of which has been surface-treated. Many of the roads are under the supervision of the Department of Public Works and various parochial boards. There are about 2,500 miles of bridle and foot paths. The highway system connects all parts of the island in a very satisfactory manner, and the problem is not that of the construction of new roads, but the improvement of old ones, the surfacing and widening of these roads, and protective coatings. The roads are well maintained and, as there are not many heavy trucks, the maintenance is satisfactory. There are approximately 4,000 miles of highways, or 1.11 square miles of area to one mile of highway.

About a million dollars per year is spent on new construction and maintenance, the machinery used being both European and American.

(From a report of the American Road Builders' Association.)

A NEW POSITIVE WATER-METER TESTER.

The large majority of waterworks, particularly the smaller ones, seldom have accurate or positive means of testing their meters. Often when a meter is repaired, the man making the repairs simply blows through the meter to see if it runs, when it is again put into service with the assumption that it is accurate. Sometimes meters are hooked up in series with a new meter and water is run through to see if the readings check. This is better than the lung-power method, but still is far from accurate or dependable, in that the test meter may be in error by 2 per cent or even more. Several states have regulations governing water utilities, both municipal and private, and require a positive method of testing water meters in every meter shop.—*American City Magazine.*

PARK DEPARTMENT.

PROPOSALS FOR CONSTRUCTING NEW CONTROL TOWER ON ROOF OF PRESENT TOWER, ADMINISTRATION BUILDING, EAST BOSTON AIRPORT.

The Park Commissioners of the City of Boston, 33 Beacon street, Boston, invite proposals for constructing new control tower on roof of present tower, Administration Building, East Boston Airport. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed, and marked "Proposal for Constructing New Control Tower on Roof of Present Tower, Administration Building, East Boston Airport," and left before 2 o'clock on Tuesday, August 18, 1936, at the office of the Park Department, with a certified check for \$300, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of at least 100 per cent of the contract price, of a surety company approved by the Commissioners, to secure the due protection of the city. The Commissioners reserve the right to reject any or all proposals.

TRAFFIC TUNNEL BONDS, CITY OF BOSTON, ACT OF 1929, SERIES C, \$150,000.

(Chapter 297, Acts of Massachusetts, 1929, as amended by chapter 287, Acts of Massachusetts, 1932, and chapter 455, Acts of Massachusetts, 1935.)

These bonds shall be due on the first day of September, 1966, but may be called, retired and cancelled by the City of Boston after twenty years from the date of this loan on any date upon which interest is payable on these bonds, by payment by the City of Boston of the amount of the face of the bond, with any unpaid accumulated interest to date fixed for redemption, and when so called, interest shall cease.

All loans will be issued in Coupon Bond Certificates of \$1,000 each, and will be paid on the dates specified for each loan, all with interest payable semi-annually on the first days of March and September in each year, at the office of the City Treasurer, Boston.

In comparing bids, preference will be given to the bidder whose bid provides for the lowest net interest cost to the City (total interest for the duration of the loan from September 1, 1936, less the amount of premium bid).

The bonds will be dated September 1, 1936, and will be ready for delivery and payment on or about September 28, 1936. Interest will begin September 1, 1936, and will cease on the dates on which the bonds are payable.

These bonds are exempt from taxation in Massachusetts and from the Federal Income Tax.

Proposals must be sealed and addressed to John H. Dorsey, City Treasurer, Boston, Mass., endorsed "Proposals for Loans." Each proposal must be accompanied by a certified check on a Boston National Bank or Trust Company, or by cash, equal to one per cent of the amount of loans bid for, the check made payable to the City of Boston, John H. Dorsey, City Treasurer. The check or cash of any bidder to whom an award is made will be retained as part payment for the loans awarded. All other checks or cash will be returned.

Accrued interest from September 1, 1936, to date of delivery is to be paid by the purchaser.

All proposals will be opened in the office of the City Treasurer, Thursday, August 20, 1936, at 12 o'clock m., Eastern Daylight Saving Time. The City Treasurer reserves the right to reject any or all bids or to accept such bid or bids as may seem to him to be the most advantageous to the City.

JOHN H. DORSEY,
 City Treasurer.

CITY OF BOSTON.

HOSPITAL DEPARTMENT.

P. W. A. PROJECT, DOCKET NO. 4207E.

The Board of Trustees of the Boston City Hospital invite sealed proposals for furnishing hospital furniture and equipment, delivering, unpacking, and setting up the same within the new Surgical Operating and Ward Building where and as designated by the Superintendent of the Hospital, or his authorized representative. Proposals, signed by the bidder, and accompanied by a certified check on a Boston bank, in the sum equal to 10 per cent of the amount of the proposal, payable to the City of Boston, will be received at the office of the Superintendent of the Boston City Hospital before 2 p. m., daylight saving time, Tuesday, August 25, 1936, at which place and time they will be publicly opened and read. The certified check will become the property of the City of Boston if the proposal is accepted and the bidder neglects or refuses to comply with the terms of the proposal. All certified checks, except that of the bidder to whom the contract is awarded, will be returned within thirty days after the awarding of the contract. All proposals must be submitted in duplicate and only upon the forms provided herewith. One proposal, accompanied by the certified check, is to be delivered to the office of the Superintendent of the Boston City Hospital, and the other, without check, is to be deposited with the City Auditor, City Hall, before the time of opening the proposals. The Board of Trustees reserves the right to reject any or all proposals, to waive any informalities in a bid when such waiver does not conflict with any local law, ordinance, or provisions of the P. W. A. requirements, or to accept any proposal deemed best for the interest of the City of Boston, subject to the approval of the State Director, P. W. A. The award of contract is conditioned upon funds available for this work and the Board of Trustees reserve the right to hold proposals for a period of thirty (30) days from the date of opening thereof. Specifications, proposal forms, and other contract documents may be obtained at the new Surgical Operating and Ward Building, 754 Massachusetts avenue. There will be a charge of \$15 for each set of such contract documents, which amount will be refunded to the bidder when the documents are returned in good condition. Copies of the specifications and other contract documents will be on file, for the convenience of subcontractors and others, during the bidding period at the offices of F. W. Dodge Corporation, 855 Park Square Building, Boston; Brown's Letters Corporation, 38 Chauncy street, Boston; Construction Reports, Incorporated, 44 School street, Boston. The project is being financed and prosecuted under the terms of the National Industrial Recovery Act (Title II) of 1933, and chapter 366, Mass. Acts of 1933, as amended, and attention is called to the Construction Regulations prescribed by the P. W. A. Attention is called to the fact that two schedules of minimum wage rates are established for the project and are set forth in the contract documents. Copies of such schedules may be obtained without cost. The office of the United States Employment Service designated by the Government for this project is Massachusetts State Employment Service, Mr. Edward L. Hanna, manager, 100 Nashua street, Boston, Massachusetts. A surety bond will be required in amount, and under conditions set forth in the contract documents.

JOSEPH P. MANNING,
 President of the Board of Trustees,
 Boston City Hospital.

PROCEEDINGS OF SCHOOL COMMITTEE.

July 28, 1936

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon street, at 3:05 o'clock p. m., the Chairman presiding.

Present: Messrs. Lyons, Mackey, Smith, Sullivan, and Tobin.

SECRETARY PRO TEMPORE

In the absence of the Secretary, Louise Kane was elected Secretary pro tempore.

APPROVAL OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

Mr. Tobin: Mr. Chairman, in the first meeting of July, the Boston Daily Record carrying the report of the Boston School Committee—I think of July 6—carried a statement supposed to have been made by me, urging that all teachers now residing outside the City of Boston should be compelled to move into the City of Boston. I did not make such a statement and it was an error. What I did say was that the teachers in the Boston system, who now reside within the City of Boston, should be compelled in the future to reside within the confines of the city, and it in no way affected the residence of those who were regularly appointed from outside while residents of other communities.

DEATH

The Superintendent reported the death of the following-named teacher who had been retired on pension:

Norcross District—Kate E. Fitzgerald, July 9, 1936.

Placed on file.

RESIGNATIONS

The following resignations, reported by the Superintendent to take effect on the date stated, were presented:

Girls Latin School — Helen A. Austin, assistant, Aug. 31, 1936.

Clarence R. Edwards Intermediate District—Hazel A. Howard, assistant, intermediate, Aug. 31, 1936.

Martin District — Grace M. Sweeney, assistant, elementary, Model School, Aug. 31, 1936.

Robert Gould Shaw District — Genevieve F. Campbell, assistant, intermediate, Aug. 31, 1936.

Samuel Adams District—Frances M. Hendrick, assistant, elementary, Aug. 31, 1936.

Accepted.

Dr Lyons: May I ask if the resignations were on account of old age?

Secretary: All five were married—one was high school, two intermediate, and two elementary.

RETIREMENT ON PENSION

The Superintendent offered the following:

ORDERED, That the following-named teacher is hereby retired on pension in accordance with the provisions of Chapter 589 of the Acts of 1908, as amended by Chapter 617 of the Acts of 1910, Chapter 569 of the Acts of 1912, and Chapter 304 of the Special Acts of 1915, the date of retirement and rate of pension to be as hereinafter specified:

John Marshall District—Florence A. Fitzsimmons, first assistant, kindergarten, Aug. 31, 1936, \$600.

Passed unanimously.

CERTIFICATION OF AMOUNT PAID FOR PENSIONS

On motion of the Superintendent, it was

ORDERED, That the Chairman of this Committee is hereby authorized in its behalf and in accordance with the provisions of Section 16 of Chapter 32 of the General Laws, to certify to the Teachers' Retirement Board, under oath, the amount of pensions paid by the City of Boston for the year ending July 1, 1936, to teachers and members of the supervising staff who have been retired since July 1, 1914, on whose account the City of Boston is entitled to reimbursement.

REPORT ON AUDITS OF BOOKS AND ACCOUNTS

A communication was received from Charles E. DiPesa and Company, under date of July 13, 1936, submitting reports on the audit of the books and accounts of the Business Manager and of the Secretary for the three months ending June 30, 1936.

Placed on file.

NAMING OF HIGH SCHOOL IN ROSLINDALE

The following order, laid over at the meeting of July 13, 1936, was taken up and read:

ORDERED, That the new high school, located in the former Washington Irving Intermediate School building, is hereby named the Roslindale-West Roxbury High School.

Mr. Tobin: I move that we amend the order by striking out the words "West Roxbury" in order that the school may be named the Roslindale High School.

Dr. Mackey. I am willing, as the result of about an hour's conference with representatives from West Roxbury, that my original motion, which was the naming of the West Roxbury-Roslindale School be amended. I understand that there has been a compromise after a discussion between both factions, and as long as the West Roxbury people and the representatives of their various civic and social and fraternal organizations are agreeable, I will change and agree with Mr. Tobin that we call it the Roslindale High School instead of the West Roxbury-Roslindale High School, as I moved in the order several weeks ago.

Chairman Sullivan. I understand that you second Mr. Tobin's motion.

Dr. Mackey. I will second Mr. Tobin's motion.

Chairman Sullivan. Is there any other discussion? (No response.) The Secretary will call the roll.

A roll call being ordered, the order as amended passed by the following vote:

YEAS—Messrs. Lyons, Mackey, Smith, Sullivan and Tobin—5.

NAYS—0.

SALARY OF CUSTODIAN OF ADMINISTRATION BUILDING

The following was offered:

ORDERED, That the salary of the custodian of the Administration Building is hereby increased by the sum of six dollars (\$6) per week, to take effect July 24, 1936, and to continue until otherwise ordered, the additional compensation now allowed being for the purpose of adjusting the compensation of his employees.

Dr. Mackey: I make a motion that this salary increase be made retroactive to the time that this night watchman took his position, on the same basis as the other custodians.

Chairman Sullivan: Do I hear any second to that? Dr. Mackey's amendment is that that salary be made retroactive to the time when other men were put on night service.

Dr. Lyons. I will second the motion, yes. I think as a matter of justice it should be.

Chairman Sullivan. Is there any discussion?

Dr. Mackey. Let us have a vote.

Mr. Tobin. This is a motion I have not heard before. It may run into such a tremendous sum of money. While I would be in favor of it, since it is my original motion that this adjustment be made, I feel that I have shown an interest in the individual who is to be benefited by it, and I propose to vote to retain the order in its original status.

Mr. Smith. I agree with Mr. Tobin. I favored the increase of salary to put him on a par with other night men. I agree with Mr. Tobin also and I am afraid it would run into large money and would be inclined to vote No on Dr. Mackey's amendment.

Dr. Lyons. My thought in the matter is that if he is being unjustly treated, and if it did not go into too big money,—and I do not see how it could,—I would vote Yes.

Superintendent Campbell. May I suggest that I think Mr. Sullivan (the Business Manager) has ruled that we could not go back of January 1 of the year in which you were appropriating, that the money for the previous year has already been spent. Am I right on that?

Chairman Sullivan. I think you are correct.

Dr. Mackey. May, then, I make an amendment to that motion, that he be paid his back salary, which he is justified in having, from January 1, 1936?

Mr. Tobin. That is all right.

Chairman Sullivan. Do you second that?

Dr. Lyons. May I ask Mr. Chairman, for information, about how much money will be involved?

Dr. Mackey. \$6 a week.
Dr. Lyons. \$6 a week from January last?

Dr. Mackey. About \$184.

Dr. Lyons. I agree with the doctor's amendment and will be willing to vote for it.

Mr. Smith. Mr. Chairman, I am in favor of the amendment to the motion of Dr. Mackey. I think it is only typical of what we do in making other salary increases. We go back with the secretaries and clerks and everybody else to January 1. Therefore, I agree to going back and making this retroactive to January 1, 1936.

Chairman Sullivan. Is there any further discussion on the amendment? (No response.) The question is, whether the adjustment be made in the night custodian's salary in this building to adjust his salary to those of other men in similar positions, retroactive to January 1, 1936.

Dr. Mackey. In relation to the discussion may I say this, in rebuttal to Mr. Smith: That I have seen the time here on numerous occasions, and often since you came on this Board, that we have made compensation retroactive.

Mr. Smith. I have agreed to making it retroactive to January 1.

Dr. Mackey. January 1, 1936?

Mr. Smith. I agree to that.

A roll call being ordered, the order as amended passed by the following vote:

YEAS—Messrs. Lyons, Mackey, Smith, Sullivan, and Tobin—5.

NAYS—0.

Mr. Tobin. In other words, the night custodian of this building is to have his monthly compensation, or his weekly compensation, increased to the extent of \$6 a week, retroactive to January 1, 1936?

Chairman Sullivan. Yes. Is there anything further to come before the meeting?

USE OF AMERICAN MADE GOODS IN SCHOOLS

Dr. Mackey. Mr. Chairman, I feel that a very important item of our school system, and for the best interests of our country, is that all contracts be given only to American concerns. Personally I have had the misfortune of going to some schools and seeing foreign articles of school items. May I say now that it is about high time that the citizens of Boston should be supported by this Committee as well as others. May I also say that I think the State of Massachusetts, including Boston, should be given first preference. I would like to know, on that basis, the names of the countries that are now supplying our school system, and the various states that are supplying our school system. I would like to have it by the next meeting. I am absolutely in favor of American goods and not foreign goods, such as English, Japanese, or otherwise. I think every American should stick up for his own country. It is about high time that this Committee as well as others should do that.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary pro tempore.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 3, 1936.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., Coun. GALLAGHER in the chair. Absent, Coun. John I. Fitzgerald, Peter A. Murray, Norton and Shattuck.

ADDITIONAL APPROPRIATION FOR SUMNER TUNNEL.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1936.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Commissioner of Public Works advising that several of the items in the budget of the Sumner Traffic Tunnel are either insufficient or no appropriation was made in the original budget, and to meet the requirements for the balance of the year an additional appropriation of \$1,800 will be required. I submit herewith an order providing for the appropriation of this amount from the income of the Sumner Traffic Tunnel, and respectfully recommend its adoption by your Honorable Body.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

City of Boston,
Public Works Department,
July 24, 1936.

To His Honor the Mayor.

Dear Sir,—For the proper operation and maintenance of the Sumner Tunnel during the remainder of the year, it will be necessary to make the following transfers from the income of the Sumner Tunnel, Public Works Department, and I respectfully request that these transfers be made:

C-9, Office, \$500.
F-15, Deposit Adjustments, \$300.
E-1, Building, \$1,000.

Reasons:

C-9. For purchase of new safe.
F-15. This is a new budget item for which no money was requested or allowed. The transfer is necessary in accord with recommendations of auditors to City Auditor.

E-1. More materials purchased than anticipated.

Respectfully yours,
C. J. CARVEN,
Commissioner of Public Works.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1936, an additional sum of \$1,800 be, and the same hereby is, appropriated from the income of the Traffic Tunnel for the following purposes:

C-9, Office, \$500.
E-1, Building, \$1,000.
F-15, Deposit Adjustments, \$300.
Referred to the Executive Committee.

ADDITIONAL FUNDS FOR NEW DISTRICT WELFARE BUILDINGS.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1936.
To the City Council.

Gentlemen,—I have been advised by the Overseers of the Public Welfare that the new district welfare buildings in East Boston and Dorchester are practically completed and are ready for occupancy and it will be necessary to purchase furniture and office equipment. For this purpose the sum of \$3,500 will be needed and can be made available by transfer from the appropriation for the New Charities Administration Building. I therefore recommend adoption of the accompanying order by your Honorable Body.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Welfare Department, New Charities Administration Building, \$3,500, to the appropriation for Public Welfare Department, New District Welfare Buildings, Furnishing and Equipping, \$3,500.

Referred to the Executive Committee.

LOAN ORDER FOR PUBLIC WELFARE, SOLDIERS' RELIEF AND W. P. A. PROJECTS.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1936.
To the City Council.

Gentlemen,—Under date of June 25, 1936, the Mayor submitted to the Council a loan order in

the sum of \$1,000,000, the proceeds to be used under the provisions of chapter 80 of the Acts of 1936 for Public Welfare, Soldiers' Relief and W.P.A. project expenses. This order has received one reading by the Council and its second and final reading will be considered at today's meeting. The Mayor in submitting this loan order stated that "at a subsequent meeting of your Honorable Body I will introduce an appropriation order allocating the above-mentioned sum of \$1,000,000."

I am advised by the Budget Commissioner that appropriations provided in the budget for Mothers' Aid in the Public Welfare Department and W. P. A. project expenses in the Hospital and Paving Departments are running low and that they should be strengthened forthwith in order to avoid any possibility of temporary suspension of these activities. In view of the evident emergency I submit herewith an appropriation order in which allocation of the \$1,000,000 has been made by the Budget Commissioner. I recommend adoption of this order after the loan order to which it is related has received its second and final reading.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

Ordered, That the sums hereinafter specified be, and hereby are, appropriated for the several departments and for the objects and purposes hereinafter stated; that the same be met from a loan of \$1,000,000 to be made under chapter 80 of the Acts of 1936 in accordance with a recommendation submitted by the Mayor to the City Council on June 25, 1936.

TRANSFERS WITHIN DEPARTMENTS.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1936.
To the City Council.

Gentlemen,—The attached requests for transfers within departmental appropriations have been examined and investigated by the Budget Commissioner. These transfers represent emergency matters which will not permit of delay. I accordingly recommend adoption of the accompanying orders by your Honorable Body.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Hospital Department, Sanatorium Division:

From the appropriation for D-2, Food and Ice, \$25, to the appropriation for E-13, Miscellaneous Materials, \$25.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Public Works Department, Paving Service:

From the appropriation for C-17, Miscellaneous Equipment, \$7.54; E-2, Highway, \$5,000, to the appropriation for B-39, General Repairs, \$3,000; B-42, Miscellaneous Services, \$2,000; G-12, Medical, Surgical, Laboratory, \$7.54.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Public Works Department, Sewer Service:

From the appropriation for B-6, Hire of Teams and Auto Trucks, \$260.80; C-2, Machinery, \$200; D-1, Office, \$200; E-1, Building, \$50; H, Relief Projects, \$300, to the appropriation for B-10, Rent, Taxes and Water, \$80.80; B-15, Motorless Vehicle Repairs, \$100; B-16, Care of Animals, \$100, C-17, Miscellaneous Equipment, \$200, D-13, Chemicals and Disinfectants, \$200, E-9, Machinery, \$50, F-11, Workmen's Compensation, \$300.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Superior Court, Civil Session, General Expenses:

From the appropriation for B-34, Jurors, \$2,500, to the appropriation for B-29, Stenographic and Copying, \$2,500.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Superior Court, Civil Session, Clerk's Office:

From the appropriation for A-1, Permanent Employees, Clerks, Senior, 21 (19) at \$1,800 to \$2,200 a year, \$1,000, to the appropriation for A-1, Permanent Employees, Clerks, Principal, 14 (16) at \$2,100 to \$2,600 a year, \$1,000.

From the appropriation for D-1, Office, \$50, to the appropriation for C-10, Library, \$50.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Penal Institutions Department, House of Correction:

From the appropriation for B-39, General Repairs, \$6,000; B-42, Miscellaneous Services, \$1,000; C-2, Machinery, \$550; D-13, Chemicals and Disinfectants, \$500, to the appropriation for B-18, Cleaning, \$50; B-28, Expert, \$600; D-5, Medical, Surgical, Laboratory, \$500; D-8, Laundry, Cleaning, Toilet, \$500; D-11, Gasoline, Oil and Grease, \$400; E-1, Building, \$5,000; E-9, Machinery, \$500; E-10, Electrical, \$500.

Referred to the Executive Committee.

LOAN FOR POLICE COMMUNICATION SYSTEM.

The following was received:

City of Boston,
Office of the Mayor, August 3, 1936.
To the Honorable the City Council.

Gentlemen,—On June 15, 1936, his Honor the Mayor transmitted to your Honorable Body a form of loan order for the additional sum of \$85,000 for the P. W. A. Project of Police Communications System (P. W. A. Docket No. 8200). Your Honorable Body has, however, taken no action on said loan order.

On July 22, 1936, the State Director, P. W. A., advised me that delay in providing the additional necessary funds to complete the project would constitute a violation of the terms of the Grant Agreement between the city and the United States of America.

In order to prevent the possibility of the city's losing a Federal Grant on the entire project, I strongly urge and recommend that your Honorable Body give its first reading of said loan order at its meeting today, and its second reading and passage of said loan order at its meeting on August 17, 1936.

Respectfully,

JOHN I. FITZGERALD, Acting Mayor.

Placed on file.

TRANSFER FROM GEORGE F. PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1936.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners, requesting the transfer of the sum of \$50,000 from the income of the George F. Parkman Fund to the maintenance and improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,

JOHN I. FITZGERALD, Acting Mayor.

City of Boston,
Park Department, July 10, 1936.
Hon. John I. Fitzgerald,
Acting Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$50,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... \$50,000

When making up the budget estimates for the year 1936, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1936, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
WILLIAM P. LONG, Chairman.

Ordered, That the sum of \$50,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners for the maintenance and improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... \$50,000

Referred to the Executive Committee.

REINSTATEMENT OF STRIKING POLICEMEN.

The following was received:

City of Boston,
Office of the Mayor, July 29, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Police Commissioner, relative to your order of July 2, 1936, concerning the possible reinstatement in the police force of any of the men who went on strike in 1919.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

Office of the Police Commissioner,
354 Berkeley Street.

July 21, 1936.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Mr. Gilmore,—With reference to your communication of July 6, inclosing copy of City Council order of July 2 relative to informing the City Council as to whether the Police Commissioner proposes to reinstate in the police force any of the men who went on strike in 1919, you will please find quoted below a statement that was issued to the Press, which is self-explanatory.

"I have never agreed to reinstate any striking police officers, and never said that I would or would not do so.

"This matter has been agitated for seventeen years, and is one that affects the citizens of Boston and the morale of the Police Department probably more than any other question. I do not propose to be hurried or stampeded into any decision upon this matter, and intend taking plenty of time to consider it."

Yours respectfully,
E. M. McSWEENEY,
Police Commissioner.

RESCINDING ORDER OF WELFARE DEPARTMENT IN SPECIAL CASE.

The following was received:

City of Boston,
Office of the Mayor, July 15, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Welfare Department, relative to your order of July 2, 1936, concerning the rescinding of an order of that department in reference to a specific case where there is a family with thirteen children.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

City of Boston,
Overseers of the Public Welfare, July 14, 1936.
Mr. John F. Gilmore, Jr.,

Assistant Secretary, Mayor's Office,
Dear Sir,—This is to acknowledge receipt of your communication of July 6, 1936, inclosing the following order from the City Council dated July 2, 1936:

"Ordered, That his Honor the Acting Mayor demand that the Public Welfare Department rescind their order in reference to one specific case in Roxbury where the family with thirteen children was cut down in their allowance."

I beg to reply that inasmuch as no special family was mentioned we are unable to identify the case. We have a case, however, where there are thirteen children and in which the father of the family receives \$13.72 from the W. P. A. and where we are supplementing to the extent of \$1.28.

The Catholic Charitable Bureau is also assisting to the extent of \$5 a week and three quarts of milk daily. Formerly the Overseer's aid was \$7 a week but this was reduced to \$1.28 as the result of a recent vote of the Board of Overseers which stated that no supplementary relief above the \$15

maximum be allowed in dependent aid cases without a specific vote of the Board.

Yours truly,
JOHN C. L. DOWLING, Executive Director.

REVISION OF SUMMER SCHEDULE ON BOSTON ELEVATED.

The following was received:

City of Boston,
Office of the Mayor, July 15, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Boston Elevated Railway, relative to your order of June 29, 1936, with reference to a revision of their summer schedule on all lines affecting the Dorchester district.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

Boston Elevated Railway,
Office of the Trustees.

July 6, 1936.

Mr. John F. Gilmore, Jr.,

Assistant Secretary, Mayor's Office.
Dear Sir,—The trustees have considered request contained in order of the City Council of June 29 for revision of summer schedule on all lines affecting the Dorchester district.

It is not generally appreciated that the riding on the Elevated during July and August decreases over 25 per cent. Each summer it becomes necessary, without wasting service which would add to the deficit, to adjust the schedules to this reduced load for these months. This is done with great care and after detailed checking. In September the service is again restored to the requirements of the increased riding.

Very truly yours,
H. W. HARRIMAN, Chairman.

BETTER LIGHTING FACILITIES AT BLUE HILL AVENUE AND HAZLETON STREET.

The following was received:

City of Boston,
Office of the Mayor, July 15, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Commissioner of Public Works, relative to your order of May 4, 1936, concerning provisions for better lighting facilities at Blue Hill avenue and Hazleton street, Ward 14.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

City of Boston,
Public Works Department, July 14, 1936.
Mr. John F. Gilmore, Jr.,

Assistant Secretary, Mayor's Office.
Dear Sir,—I beg leave to acknowledge receipt of your note of May 7 with attached order of City Council dated May 4 and reading as follows:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to provide better lighting facilities at Blue Hill avenue and Hazleton street, Ward 14," and to state that in compliance with the order of the City Council a large 1500 candle power lamp was installed at the junction of Blue Hill avenue and Hazleton street, July 2, 1936.

Respectfully yours,
C. J. CARVEN,
Commissioner of Public Works.

PROHIBITING PARKING AUTOMOBILES ON GALLIVAN BOULEVARD.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Boston Traffic Commission, relative to your order of May 25, 1936, concerning the prohibiting of the parking of automobiles on both sides of Gallivan Boulevard, between Adams street and Cushing Hill road, Ward 16.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

City of Boston,
Traffic Commission, July 13, 1936.
Hon. John I. Fitzgerald,
Acting Mayor.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated May 25, 1936, which reads as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to prohibit the parking of automobiles on both sides of Gallivan Boulevard, between Adams street and Cushing Hill road, Ward 16."

This matter was considered at a meeting of the Boston Traffic Commission on July 10, 1936,

and it was voted to prohibit parking for a trial period of sixty days, beginning July 20, 1936, in the south side of Gallivan Boulevard, from Granite avenue to Cushing Hill road.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

REPAVING HATCH STREET.

The following was received:

City of Boston,
Office of the Mayor, July 10, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Commissioner of Public Works, relative to your order of June 29, 1936, concerning the repavement with smooth pavement on Hatch street, Ward 7.

Respectfully,
JOHN I. FITZGERALD, Acting Mayor.

City of Boston,
Public Works Department, July 9, 1936.
Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—I beg leave to acknowledge receipt of your note of July 3, 1936, with attached order of City Council dated June 29, 1936, and reading as follows:

"Ordered That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Hatch street, Ward 7."

and to state that Hatch street, from East Eighth street to Marine road, has a length of 267 lineal feet, roadway width of 19 feet and sidewalks on either side 5 feet in width. The existing pavement is a tar macadam laid in 1913.

To resurface with a smooth pavement and perform the necessary regulating will cost \$1,900. Until a loan for the reconstruction of streets is obtained this work cannot be considered, as at the present time there is no money available for street construction.

Very truly yours,
C. J. CARVEN,
Commissioner of Public Works.

RESTORATION OF DUDLEY STREET BUS
LINE.

The following was received:

City of Boston,

Office of the Mayor, July 10, 1936.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Boston Elevated Railway, relative to your order of June 29, 1936, concerning the restoration of the Dudley street bus line operating between Fields Corner Station via Dorchester avenue, Savin Hill avenue, Stoughton street to Dudley Street Station.

Respectfully,

JOHN I. FITZGERALD, Acting Mayor.

Boston Elevated Railway, Office of the Trustees.

July 9, 1936.

Mr. John F. Gilmore, Jr.,

Assistant Secretary, Mayor's Office.

Dear Sir,—Replying to your letter of July 3, with reference to order of the City Council, requesting restoration of the Dudley street bus line operating between Fields Corner Station via Dorchester avenue, Savin Hill avenue, Stoughton street and Dudley Street Station, during the summer months the riding on the Elevated system decreases about twenty-five per cent as compared with other months of the year, and it is necessary, to avoid increasing the deficit, to adjust our mileage as equitably as possible to correspond with the reduced riding. It was for that reason that operation of the Savin Hill-Dudley street coach line has been discontinued for the summer months.

The Uphams Corner car line traverses the same streets between Uphams Corner and Dudley street, and the section between Uphams Corner and Dorchester avenue is served by a coach line, so that by transfer, there is service the entire length of the coach line which has been temporarily discontinued.

Very truly yours,

EDWARD DANA,

Executive Vice-President and General Manager.

APPROPRIATION FOR CEMETERY DIVI-
SION.

The following was received:

City of Boston,

Office of the Mayor, August 1, 1936.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting that under the provisions of chapter 117, Acts of 1913, an appropriation of \$40,000 be made from the income of the Cemetery Fund for maintenance expenses of the Cemetery Division. The budget of this latter division as approved by your Honorable Body contemplated use of this income as now proposed. In order to continue the regular activities of the Cemetery Division, it is necessary to secure this appropriation at once.

In view of this emergency I submit herewith an appropriation order and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,

JOHN I. FITZGERALD, Acting Mayor.

City of Boston,

Park Department, July 30, 1936.

Francis J. Murray,

Budget Commissioner.

Dear Sir,—When making up the budget appropriation for the Park Department, Cemetery Division, the sum of \$40,000 was deducted from the labor items contained therein, to be replaced later from the income of the City of Boston Cemetery Fund.

As the balances on these items are now getting low, I respectfully ask that, in accordance with chapter 117, Acts of 1913, a request be made for an appropriation of \$40,000, same to be distributed to the said items, as follows:

Superintendent of Parks and Cemeteries, 1 at \$3,600 per year.....	\$616 18

OPINION OF LAW DEPARTMENT RE
JITNEY LICENSES.

The following was received:

July 20, 1936.

To the Honorable the City Council.

Gentlemen,—There has been transmitted to me the following order passed by your Honorable Body:

"Ordered, That the Corporation Counsel furnish the City Council with an opinion as regards to the following matters, to wit:

1. Has the City Council any authority to revoke a jitney license granted to a transportation company where it appears that said company has consistently violated and is continuing to violate rules and regulations properly adopted by the Boston Traffic Commission and also several sections of chapter 90 of the General Laws and ordinances of the City of Boston.

2. Assuming that said transportation company having been granted a jitney license by the City Council is violating provisions of the General Laws and ordinances adopted by the City Council and rules properly adopted and promulgated by the Boston Traffic Commission, has the City Council any authority to pass an ordinance providing for the revocation of such license upon proof that said company is, in fact, violating the law?"

The common carriage of passengers by motor vehicle is now governed by the provisions of chapter 159A of the General Laws added by section 1 chapter 408 of the Acts of 1931.

Section 1 of said chapter provides as follows:

"Section 1. No person shall, except as otherwise provided in this chapter, operate any motor vehicle upon any public way in any city or town for the carriage of passengers for hire, in such a manner as to afford a means of transportation similar to that afforded by a railway company, by indiscriminately receiving and discharging passengers along the route on which the vehicle is operated or may be running, or for transporting passengers for hire as a business between fixed and regular termini, without first obtaining a license for such operation from the city council of such city or the selectmen of such town, in this chapter called the licensing authority; provided, that, in respect to any boulevard or way under the jurisdiction of the metropolitan district commission, such commission shall constitute the licensing authority. Any such license issued by a city council under this section shall be subject to the approval of the mayor. The fee for any such license shall not exceed ten dollars. Such license may limit the number of vehicles to be operated thereunder. Any person, receiving a license under this section and operating a vehicle or vehicles thereunder, shall, in respect to such operation, be subject to such orders, rules or regulations as shall be adopted by the licensing authority under this chapter. No license, certificate or permit shall be required under this chapter in respect to such carriage of passengers as is exclusively interstate."

Section 3 of said chapter provides:

"Section 3. If a person desiring to operate any motor vehicle for the purposes and in the manner aforesaid over a route covering at least twenty miles holds a license therefor in the terminal municipalities and also a license in all but one of the intervening municipalities, or in case seven or more municipalities intervene, in all but one or two thereof, the department of public utilities, hereinafter in this chapter called the department, on petition of such person, shall act as the licensing authority in the one or two municipalities, as the case may be, in which such person's application for such an original license has not been favorably acted upon within three months after the filing thereof. The department, before issuing such a license, shall give a public hearing thereon after notice to the licensing authority of such a municipality, and if the department finds that public convenience and necessity requires that the applicants be allowed to operate motor vehicles through such a municipality and over a route as aforesaid, it may issue a license therefor and shall specify therein the route or routes over which such motor vehicles shall be operated therein, but operation under such a license shall be limited to through traffic without stopping in

such municipality for taking on or discharging passengers, except in case of a railroad or railway company operating a bus line as a part of its system."

Section 4 of said chapter provides:

"Section 4. Each license issued after July eighteenth, nineteen hundred and twenty-seven, under the provisions of general law applicable thereto or under this chapter, and not since revoked, shall remain in force and effect as to the routes and for the number of vehicles specified in such license or operated thereunder, notwithstanding any limitation therein contained as to the time it shall remain in effect, until revoked as hereinafter provided. After public notice and hearing, the licensing authority may, for good and sufficient reasons to be stated in the order of revocation, revoke in whole or in part such a license issued by such authority, but unless within thirty days after any such order of revocation, except an order made by the department or by the metropolitan district commission, acting as such licensing authority, the licensee consents thereto in writing, such order shall not be valid until approved by the department after public notice and hearing."

By virtue of the provisions of sections 1 and 3 above quoted of said chapter 159A, no person may operate a motor vehicle upon any public way (other than a boulevard or way under the jurisdiction of the Metropolitan District Commission) in any city of the Commonwealth for the carriage of passengers for hire in such a manner as to afford a means of transportation similar to that afforded by a street railway company, by indiscriminately receiving and discharging passengers along the route of operation, or for transporting passengers for hire as a business between fixed and regular termini unless (a) the carriage is exclusively interstate or (b) a license for such operation is obtained from the city council of such city with the approval of the mayor, except that in the latter instance, if the route of operation covers at least twenty miles and the operator holds a license therefor in the terminal municipalities and a license in all but one of the intervening municipalities (or if there are seven or more intervening municipalities in all but one or two), and such one or two municipalities, as the case may be, fail to issue a license within three months after the filing of an application therefor, a license from such municipality is unnecessary if a license for operation therein is granted by the Department of Public Utilities.

By virtue of the provisions of section 4 above quoted of said chapter 159A, every license issued for such operation and outstanding after July 18, 1927, whether issued under the provisions of applicable general law or under chapter 159A and not revoked remains in effect as to the routes and for the number of vehicles specified in the license or operated thereunder until revoked as in said chapter 159A authorized (notwithstanding any limitation therein contained as to the time it should remain in effect.) Section 4 of said chapter 159A authorizes, in my opinion, the revocation (in whole or in part) of any license for the common carriage of passengers for hire by motor vehicles, regardless of when such licenses were issued, by the licensing authority (in the case of cities, the city council with the approval of the mayor, except in the limited instances above indicated, i. e., except where the licensing authority is the Metropolitan District Commission or the Department of Public Utilities) but only after public notice and a hearing and for good and sufficient reasons stated in the order of revocation, but unless within thirty days after an order of revocation is made by a city council, the licensee consents thereto in writing, such order shall not be effective until approved by the Department of Public Utilities after public notice and hearing.

In view of the foregoing, it is my opinion that your Honorable Body may, with the approval of the Mayor revoke, in whole or in part, any license granted by it whether granted under the provisions of chapter 159A or under the provisions of predecessor general laws, for the common carriage of passengers for hire by motor vehicle provided that such revocation (1) follows public notice and a hearing (2) is for good and sufficient reason stated in the order of revocation and (3) either (a) is consented to in writing by the licensee within thirty days after the order is made or (b) is approved by the Department of Public Utilities after public notice and hearing.

Consistent and continued violation of valid rules and regulations of the Boston Traffic Commission or of substantial prohibitions of General Laws or ordinances constitute, in my opinion, if established, good and sufficient reason for revocation.

An ordinance such as is referred to in the above quoted order of your Honorable Body would not, in my opinion, increase your powers of revocation. (See, however, sections 93 to 110, inclusive, of the Revised Ordinances of 1925).

Very truly yours,

HENRY E. FOLEY,
Corporation Counsel.

Placed on file.

The order was given its second and final reading and passage, yeas 17, nays 0.

FINANCE COMMITTEE REPORTS.

Coun. DOWD, for the Committee on Finance, submitted the following:

1. Report on message and order (referred June 15) for loan of \$85,000 for police communication system—that the same ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. DOWD—Mr. Chairman, in my opinion there are two substantial reasons why the Council should pass this loan order this afternoon. First and foremost we originally appropriated \$350,000 for radio equipment in the City of Boston Police Department. As a matter of fact they have tried the two-way station in one station, Station 9, where they have five cars equipped with radio receiving sets, and it has proved successful. The Federal Grant on that \$350,000, which has not been received by the city and will not be received until the entire communication set is established, would amount to \$88,500 on the \$350,000. The second reason why it should be passed is because of the fact according to the Superintendent of Police and the Police Commissioner, in their opinion it is absolutely essential that a two-way radio be established throughout the City of Boston. Therefore I respectfully suggest in view of the fact that today is one of the last meetings when we can act on it that the Council pass this.

The order was read once and passed, yeas 16, nays 0.

2. Report on the order (referred July 2) for a loan of \$50,000 for traffic signals—that the order ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. DOWD—Mr. Chairman, I believe this is an order which should not be let go to the Mayor without saying a word or two on it. Recently in the last two or three months in various sections of Boston there have been a great many accidents.

Let me say to the Mayor of Boston, if one life is going to be saved by the installation of \$50,000 worth of lights, then by all means the Mayor should appropriate that money. The Council has done everything it can. There is nothing more we can do than to pass the loan order and allow the Mayor to act on it. I can mention various spots in Boston, Charlestown, East Boston, Roxbury, Dorchester, and other sections of Boston where accidents have occurred in the last three months due to the fact that our traffic light system is not adequate. We have spent enough money in traffic lights in sections where they never should have been put, and where the masses of the people live it is very apparent it has been neglected, and I trust the Mayor of Boston will act on this, and I reiterate that if one life is lost due to the fact this fails to go through on the executive end, then the Council should not be held responsible.

Coun. McGRATH—Mr. Chairman, this is an order that I introduced, and the Mayor did not see fit to appropriate the money and I reintroduced the order. I would like to say if we cannot borrow this \$50,000, there is the Reserve Fund. I guess it is unlimited. Any time he needs money he can get it from the Reserve Fund. I would like to have him take this \$50,000 from the Reserve Fund and I am speaking in the interest of Ward 16 where there is only one light in the district,—a ward that probably pays as much taxes as any ward in Boston as a residential ward, and I would like to see this order passed.

Coun. BRACKMAN—Mr. Chairman, I will only take about a minute to say a few words on this order. I think this order is about as important as any piece of legislation we can have this year. This involves the safety of the people of our city. At the present time we do not have adequate traffic signals and as a result people are being injured on the streets of Boston every day, and if we save one life this \$50,000 will have been well spent.

Coun. WILSON—Mr. Chairman, I am in favor of this and the purpose of introducing this order was to send it along with No. 4 on the calendar where one particular spot downtown, which is fairly well covered at the present time, was concerned, but my understanding was that the order was sent back on the basis that under some new law 10 per cent of the loan order must also appear in another form, and I ask the Chair to confer with the City Clerk to advise us if that is so, and if it is, let us revamp the loan order and send it along in a manner so that it cannot be sent back on a technicality. Let us vote for something that can be signed or not signed.

Coun. DOWD—Mr. Chairman, I do not see any reason why it should be sent back to the Executive Committee. My understanding of the law is that if we pass this loan to the Mayor, then he will have to supply out of the tax rate 10 cents for each thousand dollars of valuation for the last three years. That is a problem for the Mayor of the city to solve. I do not think it is up to the Council. If the Mayor wants this traffic loan to pass, then he will provide sufficient money to finance it.

Coun. WILSON—Mr. Chairman, may we know what the ruling of the city clerk is?

Chairman GALLAGHER—I have been advised by the city clerk that what Councilor Dowd had to say on the order is substantially correct.

The order was read once and passed, yeas 17, nays 0.

3. Report on the order (referred May 11) for a loan of \$50,000 for granolithic sidewalks—that the order ought to pass.

The report of the committee was accepted. The order was read once and passed, yeas 16, nays 0.

CLAIMS REPORTS.

Coun. SELVITELLA, for the Committee on Claims, reported as follows:

1. Report on the petition of Rudolph B. Slamin (referred August 3)—recommending the passage of the following:

Ordered, That the sum of thirty-three dollars and eighty cents be allowed and paid to Rudolph B. Slamin in reimbursement for amount of judgment issued against him on account of his acts as an employee of the Police Department, said sum to be charged to the Reserve Fund.

Report accepted; said order passed.

2. Report on the petition of Cornelius J. Sullivan (referred August 3)—recommending the passage of the following:

Ordered, That the sum of ninety-six dollars and forty-five cents be allowed and paid to Cornelius J. Sullivan in reimbursement for amount of judgment issued against him on account of his acts as an employee of the Street Cleaning Division, Public Works Department, said sum to be charged to the Reserve Fund.

Report accepted; said order passed.

3. Report on the petition of John F. Ryan (referred June 29)—recommending the passage of the following:

Ordered, That the sum of one hundred dollars be allowed and paid to John F. Ryan in reimbursement for amount of judgment issued against him on account of his acts as operator of a motor vehicle belonging to the Sanitary Division, Public Works Department, said sum to be charged to the Reserve Fund.

Report accepted; said order passed.

4. Report on the petition of Daniel W. Donahue

(referred June 29)—recommending the passage of the following:

Ordered, That the sum of five hundred and forty dollars and thirty-eight cents be allowed and paid to Daniel W. Donahue in reimbursement for amount of judgment issued against him on account of his acts as operator of a motorcycle belonging to the Police Department, said sum to be charged to the Reserve Fund.

Report accepted; said order passed.

PAYMENT TO PEARL I. CUMMINGS.

Coun. FINLEY offered the following:

Ordered, That chapter 435 of the Acts of 1936, entitled "An Act Authorizing the City of Boston to Pay a Sum of Money to Pearl I. Cummings of Said City," be, and hereby is, accepted.

Ordered, That under the provisions of chapter 435 of the Acts of 1936 there be allowed and paid to Pearl I. Cummings the sum of \$350 to compensate her for damages to her automobile which was struck by a motor vehicle of the Fire Department of said city, said sum to be charged to the Reserve Fund.

Referred to Executive Committee.

PAYMENT TO JOHN McGRATH.

Coun. MURRAY offered the following:

Ordered, That chapter 424 of the Acts of 1936, entitled "An Act Authorizing the Payment by the City of Boston of a Certain Sum of Money to the Parents of John McGrath of Said City," be, and hereby is, accepted.

Ordered, That under the provisions of chapter 424 of the Acts of 1936 the sum of two hundred and fifty dollars be allowed and paid to the parents of John McGrath, a minor, who was seriously injured on October fifth, nineteen hundred and thirty-five, by a vehicle of the Public Works Department of said city, in full compensation for medical, hospital and other expenses and damages on account of said injuries, said sum to be charged to the Reserve Fund.

Referred to Executive Committee.

RENTING OF BICYCLES ON SUNDAY.

Coun. ROSENBERG offered the following:

Ordered, That the Corporation Counsel be requested to petition the General Court at its next session for the enactment of legislation to permit the letting of bicycles on the Lord's Day.

Coun. ROSENBERG—It seems as though recently there has sprung up a very popular sport, and that is, to ride bicycles. It seems as though the blue sky law now in effect with reference to Sunday sports prevents the letting of bicycles on Sundays. The young men have their day of freedom on Sunday and are getting out in the public parks, highways and are enjoying themselves, or going down to beaches and different places and it appears that under the present blue sky law you cannot rent out a bicycle on Sunday. You can go down and rent an auto, or a boat, and engage in other sports that are licensed under the law. I notice in looking at the General Laws that at one time in the history of the Commonwealth people were not able to operate an automobile on Sunday and as a result the General Law was put into effect allowing the operation of automobiles on Sunday. The use of the bicycle is a healthy and youthful sport and I believe the amending of the General Laws recommended by the City of Boston will serve a useful and healthful purpose.

The order was passed under suspension of the rule.

CLEANING OF STREETS.

Coun. ROSENBERG offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to inaugurate a street cleaning campaign in Ward 14 for the health and protection of the residents of the district.

Coun. ROSENBERG—It appears as though Ward 14—I don't know how the other sections of the city is being considered with reference to street cleaning, but it appears out in my district as though the people have got to go out and clean the streets themselves. I have been receiving letters from residents of the various streets, some saying that the Street Cleaning Department does not go up their street any more. I was out through some of the sections and found voluntary street gangs are gotten up and the debris gathered together and burned up. I think that should not be tolerated in a city like ours with so many people on the W. P. A. who ought to be able to keep the streets of Boston clean in the summertime when we need to keep them clean for the health and protection of the residents of the city.

Coun. McGRATH—I appreciate the effort the councilor is making, but I do not think that it should be confined to Ward 14, but should be all around the city.

Coun. DOWD—Is there any objection to the order being amended to read the entire city?

Coun. ROSENBERG—No.

The order as amended was passed under suspension of the rule.

FIRE HAZARD AT BOSTON AIRPORT.

Coun. SELVITELLA offered the following:

Ordered, That a special committee of five members of the City Council be appointed to investigate fire hazardous conditions at the Boston Airport and make such surveys as to these conditions so as to report on the advisability of maintaining a permanent fire apparatus at the Boston Airport.

Coun. SELVITELLA—Following the wonderful suggestion contained in an editorial in the Boston Record last evening, I filed this order so as to investigate the seriousness of the fire hazard at the Boston Airport. I am told that there is over a million dollars' worth of airplanes stored at the airport, as well as close to three quarters of a million dollars worth of buildings. Some of the commercial companies have threatened that unless some effort is made on the part of the city to give them fire protection that they will move out or limit their planes in Boston. The nearest fire station to the airport is over a quarter of a mile away and in case of a slight fire which would increase to a catastrophe, I am afraid that the entire group of planes, which I am told mount to \$125,000 each, would be destroyed in less than half an hour, and it is with that thought in mind that I am asking that a special committee be appointed to investigate this condition.

Coun. McGRATH—I have a similar order to investigate the fire insurance rates, and I think it would be well to wait until Mr. Fitzgerald, our president, gets back here so we can find out if he had appointed a committee. I think it would be a good idea if some insurance men were appointed to that committee because they understand the condition better than the ordinary citizen.

Coun. GALLAGHER—This relates only to the airport.

Coun. McGRATH—But I think the insurance men in the Council should go on the committee.

Order passed under suspension of the rule.

SATURDAY MORNING OFF BY EMPLOYEES AT BOSTON CITY HOSPITAL.

Coun. DOWD offered the following:

Ordered, That the Acting Mayor be requested to instruct the authorities of the Boston City Hospital to allow all employees of said hospital, who can be spared, Saturday morning off during the summer months, the same privilege which has been extended to all other departments of the city.

Coun. DOWD—I do not believe that employees should be let off if it would affect the health or life of any patient, but I do believe that the majority of the employees there should be extended the same privilege that has been extended to every other department in the City of Boston. As I understand it the Mayor sent a general order to all department heads stating that all employees who could be spared Saturday morning be spared and I am accordingly asking the Acting Mayor to extend the same privilege to every city department.

Passed under suspension of the rule.

CLEANING OF STREETS IN SOUTH BOSTON.

Coun. KERRIGAN and Coun. MURRAY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to take immediate steps to clean all the streets in South Boston as a safeguard to the health of the community.

Passed under suspension of the rule.

PROPER ALLOWANCE FOR FOOD AND OTHER INCIDENTAL EXPENSES FOR WELFARE RECIPIENTS IN CERTAIN CASES.

Coun. BRACKMAN offered the following:

Ordered, That the Board of Overseers of the Public Welfare Department, be requested through his Honor the Mayor, to make proper allowances in fixing the budget of recipients for food and other incidental expenses where a recipient has a certain income from employed children.

Coun. BRACKMAN—Mr. President, it has come to my attention that the Overseers of the Public Welfare have promulgated a rule that if a child of a welfare recipient is earning some money, then that is deducted from the budget given the recipient without making any allowance for carfare or lunch money or other expenses of that child. In my district there is a family of seven children and the father and mother. One of the children recently secured a position in which she received \$12 a week. Out of the total of \$15 there was immediately deducted \$12, leaving \$3 paid to this recipient each week. Now we can all

understand that a child of this kind who works must have clothing to go to work in; must spend carfare and lunch money, and it is grossly unfair to deduct this entire sum of money from the amount given the recipient. Now, this is one of the dumb rules that this Board has promulgated, among others, this year, and I ask this order be referred to the Executive Committee and that we send for Mr. Dowling to come here and explain why this rule should be in effect.

Coun. DOWD—One month ago I introduced a similar order. Let me first pay my tribute to some of these hard-boiled trustees of the Public Welfare, who sit down there and who live on the fat of the land and care not for the individual who knows not where his next meal or next month's rent is coming from. All they have to do is sit there and figure out how much hardship they can impose on the poor individuals who are receiving aid. God knows they themselves are not safe, for some day they might be down at that house of horrors asking for aid and they would like to be dealt with a little more gently than they are dealing with people at the present time. What Councilor Brackman says is the truth; an individual getting \$15 a week with seven or eight children and one child goes to work, a girl, and a girl has to clothe herself and has to have carfare and lunch money. It would be better for that family to stay on the welfare than to allow the girl to take the job. It would appear every time the Mayor leaves the city this welfare board goes on a rampage and promulgates some such rule as this. I would like to ask Mr. Dowling, if he appears here, and we know very well he won't, why it is a man getting \$4 a week has to work two days. I was of the opinion that Lincoln freed the slaves, but they are bringing them back to Boston under the guise of the public welfare. In other words, every man getting aid there has got to work an additional day. Just think of a man getting \$4 a week and having to work two days for it, and a man working four days has got to work five days. There would be a possibility, if a man were allowed one day off, of his being able to get a position some place, or have an opportunity of looking for a position in order for him to get off the welfare roll, but under the present set-up there is not a possible chance and I want to congratulate Mr. Leonard, one of the trustees, for having the courage to fight this order which they put through. I hope when the Mayor arrives in town, he will put a stop to the activities of this so-called social group who would socialize every individual in Boston if they so desired and thought they were able to get away with it. There are two things I would like to ask Mr. Dowling: First, the order that Councilor Brackman has spoken about and why he is making the welfare recipients work two days for \$4 a week in these times.

Referred to Executive Committee.

OPINION ON RESTRICTING OF PARKING OF AUTOMOBILES IN CERTAIN PLACES.

Coun. AGNEW offered the following:

Ordered, That the Corporation Counsel be requested to furnish the City Council with his opinion as to whether or not it is within the powers of the City Council or of the Traffic Commission, under the provisions of chapter 319 of the Acts of 1928, or any other provision of law, to prohibit or restrict the parking of automobiles in private ways or alleys or in public alleys.

Passed under suspension of the rule.

Coun. GALLAGHER—Before we take a recess, I would ask all those who can possibly stay, to stay until after recess as we have many matters here that require fifteen votes.

RECESS.

On motion of Coun. FINLEY the Council voted at 3.10 p. m. to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by Coun. GALLAGHER at 4.10 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GALLAGHER, for the Executive Committee, submitted the following:

1. Report on order (referred this day) that chapter 435 of the Acts of 1936 be accepted—that same ought to pass.

Report accepted; said order passed.

2. Report on order (referred this day) that chapter 424 of the Acts of 1936 be accepted—that same ought to pass.

Report accepted; said order passed.

3. Report on message and order (referred this day) transferring \$3,500 from the appropriation for the new Charities Administration Building to District Welfare Building—that same ought to pass.

Report accepted; said order passed, yeas 16, nays 0.

4. Report on message and order (referred this day) for transfer from income of the traffic tunnel for expense of the traffic tunnel—that same ought to pass.

Report accepted; said order passed, yeas 16, nays 0.

5. Report on message and order (referred this day) for transfer of \$50,000 from the Parkman Fund for Maintenance of Common and Parks—that same ought to pass.

Report accepted; said order passed, yeas 16, nays 0.

6. Report on message and order (referred this day) for transfer of \$40,000 from Cemetery Fund to the Cemetery Division of the Park Department—that same ought to pass.

Report accepted; said order passed, yeas 16, nays 0.

Report accepted; said orders passed, yeas 16, nays 0.

8. On message and order (referred today) allocating the loan of \$1,000,000 for welfare, etc.—that same ought to pass.

Report accepted; said order passed, yeas 14, nays—Coun. Wilson, 1.

9. On the message and order (referred this day) that the Public Welfare make proper allowance in fixing the budgets of welfare recipients—that same ought to pass.

Report accepted; said order passed.

CONFIRMATION OF APPOINTMENTS.

The Chair called up No. 1 and No. 2 on the calendar under unfinished business, viz.:

1. Action on appointments submitted by the Mayor June 29, 1936, of Charles F. Haggerty and Joseph J. Pszeny, to be Weighers of Coal.

2. Action on appointment submitted by the Mayor July 2, 1936, of John D. Garvey, to be a Weigher of Coal.

Question came on the confirmation of the above appointments. Committee, Coun. Agnew and Selvitella.

Whole number of ballots 16; yeas 16, nays 0, and the appointments were confirmed.

HORSE RACING.

Coun. McGRATH offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to petition the Legislature for legislation that three thousand dollars daily will be charged for Horse Racing in the State of Massachusetts, plus a breakage and a charge of 15 per cent. Also, that racing be held only three days of the week, namely, Monday, Wednesday and Saturday.

Coun. McGRATH—I introduced an order some time ago asking that the employees of the dog tracks be limited to 10 per cent from out of the State of Massachusetts. I have been investigating down there the last couple of weeks and it is hard to find anyone from Boston. In the State of Maryland they charge \$3,000 a day for racing. I think it would be well if we had some legislation charging \$3,000 and the surplus over the fee that is now charged, the difference, be given to the Welfare Department to help support the welfare recipients.

Referred to the Executive Committee.

IMPROVEMENTS IN WARD 8.

Coun. DOWD offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Sherwood street, Ward 8, as a public highway.

Passed under suspension of the rule.

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Pike street, Ward 8, as a public highway.

Passed under suspension of the rule.

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor to accept and lay out Perch street, Ward 8, as a public highway.

Passed under suspension of the rule.

REPAIR OF FOUNTAIN IN PARK AT SEVER AND MAIN STREETS.

Coun. MELLEEN offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to repair the fountain in the park, bounded by Main and Sever streets, so that the water may be turned on for the enjoyment of the children of that district.

Passed under suspension of the rule.

REPAYMENT TO HOME FOR DESTITUTE CATHOLIC CHILDREN.

Coun. MELLEN offered the following:

Ordered, That the Board of Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to repay from the fund established for the purpose to the Home for Catholic Destitute Children the amount of money advanced by the Home to the hospital for blood transfusions at the hospital for children in the charge of the Home for Catholic Destitute Children.

Coun. MELLEN—That last order calls for a word of explanation. Some of the children have needed blood transfusions, and through negligence or oversight the Home did not realize that there was a fund to pay for that. Consequently, the Home had to take \$250 out of its own treasury and pay the City Hospital. Because that Home does such good work and alleviates the burden of the city, I believe they should have the money paid back.

Passed under suspension of the rule.

STORAGE OF OIL BY WHITE FUEL COMPANY.

Coun. GEORGE A. MURRAY offered the following:

Resolved, That the City Council be recorded with the state fire marshal as being unalterably opposed to the granting of additional storage facilities for gasoline and fuel oil to the White Fuel Company at 888 East First street, South Boston.

Coun. MURRAY—Back in 1933 the City Council at that time, or a councilor from South Boston, saw fit to introduce an order disapproving the action of the Street Commissioner and the Mayor of Boston in granting permit to this White Fuel Company. Since that time there has been much agitation. The White Fuel Company saw fit to take the action to the Supreme Court of Massachusetts on the ground that the action of the Board of Street Commissioners, in rescinding the permit they had granted, was not proper, in view of the fact that proper notice had not been given. The Supreme Court upheld the White Fuel Company and then the City of Boston at a later date brought another action and they set forth as their ground that there had been an abuse under that permit. Consequently the Supreme Court upheld the city so far as this permit was concerned. This company under House Bill 1841 that was passed by the Massachusetts Legislature petitioned the fire marshal of this state, which bill set forth the fact that licensees who had received licenses prior to 1933 could have the license renewed if the Fire Commissioner at his discretion saw fit to do so. Last week the people of South Boston went before the fire marshal and there at a public hearing reported their protest and this order here now is a notice to the fire marshal of this state that the people of South Boston would not approve of any action on his part in so far as the granting of this permit is concerned. This was permit granting them the right to store some three million five hundred thousand gallons of range and fuel oil. Mr. President, I know that you can picture the terrible situation the people of Boston will be confronted with if this permit is granted. This section of South Boston that I know you know so well, will become a terrible oil field and this will be an opening wedge to oil companies to follow and they will be given a license to come over to South Boston and there open a coal and oil business. I know that you can picture the site on which this company intends to build. It is the most beautiful part of South Boston, in the City Point section, and I say in this order, Mr. President, this order is introduced so this body might be recorded as being against any such oil field.

Passed under suspension of the rule.

PAVING WEST FOURTH STREET.

Coun. GEORGE A. MURRAY and Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement West Fourth street, between Dorchester street and Dorchester avenue, Ward 6.

Passed under suspension of the rule.

ADDITIONAL DAY'S WORK BY WELFARE RECIPIENTS.

Coun. SELVITELLA offered the following:

Ordered, That the Board of Overseers of the Public Welfare Department, through his Honor the Mayor, be requested to reconsider their vote with reference to additional days of work without compensation.

Coun. SELVITELLA—This order is directed to the Board of Overseers requesting them to change or reconsider their previous action in increasing the number of days that welfare recipients are obliged to work. It is almost parallel to slavery to ask these men who formerly worked one or two days a week on an average to work five days a week for the same amount of money.

There doesn't seem to be any rhyme or reason to this ruling and I am interested more in trying to rid the welfare department than to increase their numbers and if the opportunity to seek employment is denied it will increase the welfare tolls, and so long as this rule is in effect these men will be denied the opportunity of seeking employment, being obliged to work every day of the week.

Passed under suspension of the rule.

INVESTIGATION OF BEANO GAMES.

Coun. WILSON offered the following:

Ordered, That the City Council Committee on License Fees conduct a public investigation of facts relative to the granting of licenses for, and the operation of, Beano games in Boston, especially with reference to the actual identity and character of the most frequent licensees, the amount of alleged receipts and expenses, and the supposed charitable, civic, educational, fraternal and religious purposes for which the alleged net proceeds have been and are being applied.

Coun. WILSON—Mr. President, none of us, of course, are against holding whist parties, or these Beano parties for the benefit of any church or charitable organization and, of course, chapter 31 of the Acts of 1934 was passed ostensibly to make legal the holding of prize whist parties and Beano parties for various churches of various denominations throughout the state without the possibility of police interference. All of us, being over twenty-one years of age, know that the result of the passage of that statute has been to cloak the promotion, primarily, of Beano games throughout the City of Boston and I assume in other cities and towns of the state. The permissive features of this chapter of 1934 have allowed these organized promoters to use the charitable, fraternal or educational specifications of the statute as a screen to operate Beano parlors on practically every easily accessible street corner in the City of Boston. Of course, under the terms of that chapter and that statute such games were permitted provided the proceeds charged for admission to participants in such games were donated solely to charitable, civic, educational, fraternal and religious purposes; and provided further that said game called Beano is conducted under a license authorized to be granted by the mayor of the city in which said game is to be conducted and upon such terms and conditions as the mayor may prescribe. Now I understand from consulting the License Division of the Mayor's office that the Mayor of Boston has made certain excellent provisions covering the control of these gambling games in the City of Boston. It has been provided by the Mayor's office that under no circumstances are money prizes to be offered. Of course, that rule is being violated every afternoon and every evening of the week. It is also provided that the games cannot be run in the name of an individual, but must be conducted in a hall and that there must be a complete report of the game filed within forty-eight hours after the games are played. Now when we see these Beano parlors, new ones, opening right up here on Washington street, at the corner of Beach and Washington street, with the come-on agents on the sidewalk beckoning the gullible and easy public into the Beano game, I think the time has come when the City Council of this city in some effort to protect the people,—if we can put it that way,—against themselves, certainly against the using of this statute by these promoters, should make some reasonable effort to check up the details with which these reports are going into the Mayor's office within forty-eight hours of each game completed. There are disagreeable rumors throughout the City of Boston that these games are played because they have protection and I venture to offer no guess as to the correctness of these rumors, but I think the time has come when we see one parlor after another opening obviously not for charitable, educational or fraternal purposes, but for the promotion of the bank accounts of the rings that are running them, that some definite investigation should be made both of the proceeds and the distribution of the proceeds of the games under this statute of 1934.

Passed under suspension of the rule.

BLINKER AT SULLIVAN AND MAIN STREETS.

Coun. MELLEN offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to consider the advisability of placing blinker lights at the corner of Sullivan and Main streets, Ward 2, to prevent further accidents at this point.

Passed under suspension of the rule.

DRINKING FOUNTAIN AT TRAINING FIELD IN CHARLESTOWN.

Coun. MELLEN offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to remove the drinking fountain in the training field in Charlestown, and replace it with an adjustable fountain which can be cooled.

Passed under suspension of the rule.

SIDEWALK, LINCOLN STREET.

Coun. MELLEN offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Lincoln street, Charlestown, Ward 2, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

RE-ROUTING OF TRAFFIC IN CHARLESTOWN.

Coun. MELLEN offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to make a report on the order recently introduced in the City Council relative to the re-routing of traffic in Chelsea, Adams, Joiner and Park streets in Charlestown.

Passed under suspension of the rule.

ARC LIGHT AT F AND ATHENS STREETS.

Coun. GEORGE A. MURRAY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to provide for the installation of an arc light at the corner of F and Athens streets, Ward 6.

Passed under suspension of the rule.

REPAVEMENT OF C STREET.

Coun. GEORGE A. MURRAY and Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement C street, between Broadway and Old Colony avenue, South Boston.

Passed under suspension of the rule.

BETTER LIGHTING FACILITIES ALONG BLUE HILL AVENUE.

Coun. ROSENBERG offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to make proper arrangements for better lighting facilities along Blue Hill avenue at the junction of Warren street, Grove Hall.

Coun. ROSENBERG—I merely want to say that I have introduced this order not for traffic lights, but for better lighting facilities due to the fact that two persons have been killed in the last year at this particular section.

Passed under suspension of the rule.

NEXT MEETING.

Coun. FINLEY—I move when we adjourn today we adjourn to meet two weeks from today. The motion was carried.

Adjourned at 4.35 p. m., on motion of Coun. ROSENBERG, to meet on Monday, August 17, 1936, at 2 p. m.

MAYOR MANSFIELD WITHDRAWS FROM UNITED STATES SENATORIAL RACE.

Upon August 13, Mayor Mansfield issued the following statement:

I shall withdraw from the contest for United States Senator. My only purpose in allowing papers to be filed was to make sure that the Democrats of this state would have an opportunity in the primaries of voting for someone in opposition to Governor Curley. Since there are two other worthy candidates, Lieutenant Governor Hurley and Mayor Greenwood, of Fitchburg, for that position, it is no longer necessary for me to remain in the contest. The people elected me to be Mayor of Boston and I much prefer to attend to that job until it is finished. I shall file my notice of withdrawal immediately.

At the conference with Lieutenant Governor Hurley and Mayor Greenwood today the general situation was discussed and I informed those gentlemen of my decision. Whether or not they both remain in the contest is for them to say.

No. 34

MAYOR AND CITY COUNCIL HAVE RIGHT TO REVOKE JITNEY LICENSES— CORPORATION COUNSEL, IN ANSWER TO REQUEST FOR RULING, HANDS DOWN OPINION THAT BODY, WITH APPROVAL OF THE MAYOR, MAY DEPRIVE ANY OFFENDING COMPANY OR ORGANIZATION FROM THE RIGHTS OF THE LICENSE, WHEN PRESENTED WITH PROOF OF BREACH OF THE LAWS GOVERNING TRAFFIC REGULATIONS.

The following opinion has been handed down from the Law Department concerning the regulations and the control of jitney licenses in the City of Boston, following a request by the City Council for an interpretation of the law.

BOSTON, July 20, 1936.

To the Honorable the City Council.

GENTLEMEN,—There has been transmitted to me the following order passed by your Honorable Body:

"Ordered, That the Corporation Counsel furnish the City Council with an opinion as regards to the following matters, to wit:

"1. Has the City Council any authority to revoke a jitney license granted to a transportation company where it appears that said company has consistently violated and is continuing to violate rules and regulations properly adopted by the Boston Traffic Commission and also several sections of chapter 90 of the General Laws and ordinances of the City of Boston?

"2. Assuming that said transportation company, having been granted a jitney license by the City Council, are violating provisions of the General Laws and ordinances adopted by the City Council and rules properly adopted and promulgated by the Boston Traffic Commission, has the City Council any authority to pass an ordinance providing for the revocation of such license upon proof that said company is, in fact, violating the law?"

The common carriage of passengers by motor vehicle is now governed by the provisions of chapter 159A of the General Laws added by section 1 of chapter 408 of the Acts of 1931.

Section 1 of said chapter provides as follows:

"SECTION 1. *No person shall, except as otherwise provided in this chapter, operate any motor vehicle upon any public way in any city or town for the carriage of passengers for hire, in such a manner as to afford a means of transportation similar to that afforded by a railway company, by indiscriminately receiving and discharging passengers along the route on which the vehicle is operated or may be running, or for transporting passengers for hire as a business between fixed and regular termini, without first obtaining a license for such operation from the city council of such city or the selectmen of such town, in this chapter called the licensing authority; provided, that, in respect to any boulevard or way under the jurisdiction of the metropolitan district commission, such commission shall constitute the licensing authority. Any such license issued by a city council under this section shall be subject to the approval of the mayor. The fee for any such license shall not exceed ten dollars. Such license may limit the number of vehicles to be operated thereunder. Any person, receiving a license under this section and operating a vehicle or vehicles thereunder, shall, in respect to such operation, be subject to such orders, rules or regulations as shall be adopted by the licensing authority under this chapter. No license, certificate or permit shall be required under this chapter in respect to such carriage of passengers as is exclusively interstate.*"

Section 3 of said chapter provides:

"SECTION 3. If a person desiring to operate any motor vehicle for the purposes and in the manner aforesaid over a route covering at least twenty miles holds a license therefor in the terminal municipalities and also a license in all but one of the intervening municipalities, or, in case seven or more municipalities intervene, in all but one or two thereof, the department of public utilities, hereinafter in this chapter called the department, on petition of such person, shall act as the licensing authority in the one or two municipalities, as the case may be, in which such person's application for such an original license has not been favorably acted upon within three months after the filing thereof. The department, before issuing such a license, shall give a public hearing thereon after notice to the licensing authority of such a municipality, and if the department finds that public convenience and necessity require that the applicant be allowed to operate motor vehicles through such a municipality and over a route as aforesaid, it may issue a license therefor and shall specify therein the route or routes over which such motor vehicles shall be operated therein, but operation under such a license shall be limited to through traffic without stopping in such municipality for taking on or discharging passengers, except in case of a railroad or railway company operating a bus line as a part of its system."

(Continued on page 1043.)

May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

JITNEY LICENSES.

(Continued from page 1041.)

Section 4 of said chapter provides:

"SECTION 4. Each license issued after July eighteenth, nineteen hundred and twenty-seven, under the provisions of general law applicable thereto or under this chapter, and not since revoked, shall remain in force and effect as to the routes and for the number of vehicles specified in such license or operated thereunder, notwithstanding any limitation therein contained as to the time it shall remain in effect, until revoked as hereinafter provided. After public notice and hearing, the licensing authority may, for good and sufficient reasons to be stated in the order or revocation, revoke in whole or in part such a license issued by such authority, but unless within thirty days after any such order of revocation, except an order made by the department or by the metropolitan district commission acting as such licensing authority, the licensee consents thereto in writing, such order shall not be valid until approved by the department after public notice and hearing."

By virtue of the provisions of sections 1 and 3 above quoted of said chapter 159A, no person may operate a motor vehicle upon any public way (other than a boulevard or way under the jurisdiction of the Metropolitan District Commission) in any city of the Commonwealth for the carriage of passengers for hire in such a manner as to afford a means of transportation similar to that afforded by a street railway company, by indiscriminately receiving and discharging passengers along the route of operation, or for transporting passengers for hire as a business between fixed and regular termini unless (a) the carriage is exclusively interstate or (b) a license for such operation is obtained from the city council of such city with the approval of the mayor, except that in the latter instance, if the route of operation covers at least twenty miles and the operator holds a license therefor in the terminal municipalities and a license in all but one of the intervening municipalities (or if there are seven or more intervening municipalities in all but one or two), and such one or two municipalities, as the case may be, fail to issue a license within three months after the filing of an application therefor, a license from such municipality is unnecessary if a license for operation therein is granted by the Department of Public Utilities.

By virtue of the provisions of section 4 above quoted of said chapter 159A, every license issued for such operation and outstanding after July 18, 1927, whether issued under the provisions of applicable general law or under chapter 159A and not revoked remains in effect as to the routes and for the number of vehicles specified in the license or operated thereunder until revoked as in said chapter 159A authorized (notwithstanding any limitation therein contained as to the time it should remain in effect). Section 4 of said chapter 159A authorizes, in my opinion, the revocation (in whole or in part) of any license for the common carriage of passengers for hire by motor vehicles, regardless of when such licenses were issued, by the licensing authority (in the case of cities, the city council with the approval of the mayor, except in the limited instances above indicated,

i. e., except where the licensing authority is the Metropolitan District Commission or the Department of Public Utilities) but only after public notice and a hearing and for good and sufficient reasons stated in the order of revocation, but unless within thirty days after an order of revocation is made by a city council, the licensee consents thereto in writing, such order shall not be effective until approved by the Department of Public Utilities after public notice and hearing.

In view of the foregoing, it is my opinion that your Honorable Body may, with the approval of the Mayor, revoke, in whole or in part, any license granted by it whether granted under the provisions of chapter 159A or under the provisions of predecessor general laws, for the common carriage of passengers for hire by motor vehicle provided that such revocation (1) follows public notice and a hearing, (2) is for good and sufficient reason stated in the order of revocation and (3) either (a) is consented to in writing by the licensee within thirty days after the order is made or (b) is approved by the Department of Public Utilities after public notice and hearing.

Consistent and continued violation of valid rules and regulations of the Boston Traffic Commission or of substantial prohibitions of General Laws or ordinances constitutes, in my opinion, if established, good and sufficient reason for revocation.

An ordinance such as is referred to in the above quoted order of your Honorable Body would not, in my opinion, increase your powers of revocation. (See, however, sections 93 to 110, inclusive, of the Revised Ordinances of 1925.)

Very truly yours,

HENRY E. FOLEY,
Corporation Counsel.

FIRE DEPARTMENT ORDERS.

General Order No. 41.

I. BOSTON AUTOMATIC FIRE ALARM.

The following Boston Automatic signal numbers will be added to the running cards of that company in this department:

Signal 282, 1-7 Dorchester street (front building).

Signal 283, 1-7 Dorchester street (rear building).

Apparatus to respond, Engine 1, Ladder 5, District Chief 6. Nearest box, No. 7165.

A new page, No. 11, dated August 3, 1936, for the Boston Automatic Fire Alarm book is being issued to the department today. The new page will replace old page 11, dated June 14, 1935. Company commanders will return the old card to Headquarters in the envelopes provided, on or about Tuesday, August 18, 1936.

Boston Automatic Signal Number 412, in building 72 and 74 East Dedham street, has been discontinued, as of July 31, 1936.

II. A. D. T. SIGNAL.

The following A. D. T. signal is to be added to the running cards of that company in this department:

Signal 542, Whitwell Trust, 74-78 India street, Boston. Apparatus to respond, Engine 25, Ladder 8, District Chief 3. Nearest box, No. 1294.

III. COMMENDATIONS.

At 11:37 a. m., July 27, 1936, the department responded to a still alarm for

a fire in an inclosed areaway in the rear of 36 Prince street, city.

During the fire Hoseman William C. Carroll of Engine Company 8 was trapped in the areaway by flames from an explosion of tins of alcohol. He lost his sight momentarily, due to the hot flash of fire, and his clothing caught fire. Hoseman Bartholomew F. Clements of Engine Company 8, seeing the dangerous position of Hoseman Carroll, removed his coat and rushed into the areaway. He threw the coat over Hoseman Carroll's head and pulled him to safety. Hoseman Clements was burned about the face and neck while assisting Hoseman Carroll. Because of the great risk to which Hoseman Clements exposed himself in the performance of his duty, the Fire Commissioner is pleased to commend him highly and refer this rescue to the Board of Merit for consideration.

Ladderman James Conway of Ladder Company 19 is hereby commended for volunteering and donating blood in transfusion to a patient in the Carney Hospital on July 24, 1936, while off duty.

Ladderman Lawrence T. Morgan of Ladder Company 12 is hereby commended for sounding an alarm of fire from Box 3163 on July 25, 1936, while off duty. Ladderman Morgan searched the building before the arrival of apparatus but found no one at home. He also assisted the companies working at the fire.

General Foreman John D. Buckley of the Maintenance Division is hereby commended for extinguishing a fire in an automobile on July 27, 1936, before the arrival of apparatus.

Apparatus Operator John J. Frazier of Engine 22 is hereby commended for responding to and working at fire, still alarm, opposite 202 Southampton street, July 27, 1936, while off duty.

Hoseman William W. Molway of Engine Company 28 is hereby commended for responding to and working at fire, Box 2396, July 27, 1936, while off duty.

Ladderman William E. Blake of Ladder Company 29 is hereby commended for extinguishing a fire in an awning over a store on August 2, 1936, while off duty.

Hoseman John P. Geary of Engine Company 32 is hereby commended for volunteering and donating blood in transfusion to Ladderman Michael F. Fleming of Ladder Company 9 on August 3, 1936.

Apparatus Operator John J. Lowney of Engine Company 34 is hereby commended for volunteering and donating blood in transfusion to a patient at the Boston City Hospital on August 6, 1936.

By order of Fire Commissioner
EDWARD F. McLAUGHLIN.

HENRY A. FOX,
Chief of Department.

CIRCULAR LETTER NO. 10.

CITY OF BOSTON,
MAYOR'S OFFICE, August 14, 1936.

To the Heads of Departments.

The heads of the various city departments are requested to instruct all employees to pay immediately their current excise, pol and personal taxes, also any previous taxes which may be outstanding and to require the exhibition of a receipt showing that they have been paid.

Yours truly,

FREDERICK W. MANSFIELD, Mayor.

THE NOISE NUISANCE.

That city officials are serious about eliminating noise is noted from studies of new anti-noise ordinances enacted by a growing number of municipalities listed in the "United States Municipal News," bulletin of the American Municipal Association and the United States Conference of Mayors. Among the more important of these cities are Philadelphia, Gary, Ind., Louisville, New York and Boston.

LAND-TAKING IN BRIGHTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Brighton, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Everett street extension, bounded:

Northerly by Soldiers Field road, thirteen and 9-100 feet, easterly by another part of Everett street extension, five hundred one and 78-100 feet; southerly by Western avenue, twelve and 12-100 feet; and westerly by another part of Everett street extension, four hundred ninety-eight and 24-100 feet, containing six thousand square feet, more or less.

The sewerage works to be constructed are as follows: Four hundred and fifty linear feet of 10-inch pipe sanitary sewer and four hundred and sixty linear feet of 12-inch and 15-inch pipe surface drain, in the above described premises, being part of the private way known as Everett street extension, between Soldiers Field road and Western avenue.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on the easterly side of Everett street extension, between Soldiers Field road and Western avenue will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1156, Sewerage Works, Everett St. Extension, Brighton, July 20, 1936, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Gilbert H. Hood, lot 1, \$355.32.

Bernard Malone and Mary E. Malone, lot 2, \$576.00.

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in Everett street extension, Brighton district, under the order of the Board of August 3, 1936, and awards no damages therefor.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of O'Connell road, Dorchester district, as a highway, from Washington street to Valley road, under the order of the Board of August 5, 1936, and awards no damages therefor.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer of 10-inch pipe and a surface drain of 10-inch pipe in Arundel park, between Ashmont street and 142 feet southeasterly, in the Dorchester district, at an estimated cost of \$990.

A sanitary sewer of 10-inch pipe and a surface drain of 12-inch pipe in Everett street extension, between Western avenue and 450 feet northerly, in the Brighton district, at an estimated cost of \$4,000.

A sanitary sewer of 10-inch pipe and a surface drain of 12-inch pipe in Bellevue Hill road, between La Grange street and 260 feet northerly, in the West Roxbury district, at an estimated cost of \$2,400.

FELLOWSHIP STUDIES IN TRAFFIC CONTROL.

Fifteen graduate fellowships, each with a stipend of \$1,200-plus up to \$200 for travel and field investigation have been announced by the Bureau for Street Traffic Research of Harvard University. The regular annual tuition fee of \$400 will be deducted from the fellowships, which have been made available through a gift to the University by the Automobile Manufacturers' Association. The officers of instruction are Miller McClintock, Director of the Bureau, and Maxwell Halsey, Assistant Director. Each of two full courses in street and highway traffic control consists of three one-hour periods a week, and additional problems, assignments and field work.

POLICE DEPARTMENT ORDERS.

General Order No. 218.

Acting under the provisions of chapter 521, Acts of 1922, creating the Contributory Retirement System, the Boston Retirement Board has notified this Department that it has approved for retirement, on account of accidental disability, Patrolman Lewis F. Jones of Division 16, who is a member of said Contributory Retirement System; such retirement to take effect at midnight, Monday, August 31, 1936.

Wherefore, in view of this operation of law, the Police Commissioner states that on and after August 31, 1936, at the hour stated, the said Patrolman Lewis F. Jones shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. MCSWEENEY,
Police Commissioner.

Police Commissioner.

PROFITABLE MUNICIPAL MARKETS.

Municipal markets, "white elephants" in many cities, can be made self-supporting and even profitable, according to recent reports on two of them. The Department of Public Markets of New York City reports that within the administration of its present Mayor, Fiorello LaGuardia, the city's markets have changed from inefficient and expensive undertakings into profitable investments. The Benton Harbor, Mich., municipal fruit and vegetable market is described as doing a three-million-dollar annual business by its City Manager in the February issue of "Public Management."

\$50,000,000 WATER-SUPPLY PROJECT IN CALIFORNIA.

The city of San Jose has entered into contract with the Water Properties Company, Ltd., of San Francisco, to provide the city water from the head waters of the American river in the vicinity of Lake Tahoe. The agreement is for thirty years, during which time the municipality will acquire title to the local distribution system and receive a proportionate share of the production and transmission systems.

FIVE PER CENT OF CITY BUDGET PAID FOR REFUSE DISPOSAL.

Nearly one million dollars, or about 5 per cent of the total cost of the general city government of Los Angeles, Cal., is spent every year for the collection and disposal of refuse, under the direction of the Bureau of Engineering of that city. The Refuse Collection Division operates six days a week, and enough men are provided to compensate for a five-day week for all the personnel employed.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

PUBLIC DEBT, JANUARY 1, 1933.

Gross funded debt, January 1, 1933, \$165,758,499.95 (including \$119,999.95 issued by State for enlargement of Court House); sinking funds, \$35,737,619.21; other redemption means, \$3,078,263.28; net debt, \$126,942,617.46 or \$7,588,429.94 more than on January 1, 1932. Of said debt (net) \$79,310,526.63 or 62.48 per cent was City debt; \$46,199,623.96 or 36.39 per cent, Rapid Transit debt (representing 4½ per cent investment); \$994,466.87 or 0.78 per cent, County debt; \$438,000 or 0.35 per cent, Water debt.

Debt paid in 1932 was \$9,935,301 but there was an increase in total gross debt of \$5,437,698.99.

Net debt per capita, \$160.62 (approx.); net debt, exclusive of Rapid Transit debt, \$80,742,993.50 or \$102.17 per capita (approx.).

Per capitas are based on U. S. Census Bureau's estimated population on January 1, 1933.

Loans authorized but not issued (within debt limit), \$1,898,000; same outside of debt limit, \$2,680,000; total, \$4,578,000.

Foreign-born whites, 229,356 (111,261 males and 118,095 females) or 9,563 less than in 1920; sex ratio 94.2 to 100. The foreign-born whites are 29.36 per cent of total population. Negroes, 20,574 (10,223 males and 10,351 females) or 2.63 per cent of population; sex ratio, 98.8 to 100. The Negro population has increased 4,224 since 1920 and 4,993 since 1915. Other races, 1,858 females; 55 to 64 years, 63,416 (30,671 (1,551 males and 307 females), or 0.24 per cent, comprise 1,595 Chinese, 69 Japanese, 43 Indian, 26 Mexican and 125 miscellaneous. Total foreign white which is 61.19 per cent of all inhabitants. stock, 478,009 (viz., 229,356 plus 248,653) which is 61.19 per cent of all inhabitants.

A SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

OWNED AND RENTED HOMES IN UNITED STATES, NEW ENGLAND AND MASSACHUSETTS, 1930—ALSO BOSTON.

Total homes in UNITED STATES, 29,904,663, of which 14,002,074 or 46.8 per cent were owned, 15,319,817 or 51.2 per cent were rented, and 582,772 were of unknown tenure. Native white families, 20,968,803; foreign-born white families (the head of the family being a foreign-born white person), 5,736,491; Negro families, 2,803,756; other races, 395,613.

The native white families owned 10,255,682 homes and rented 10,314,500 homes; the foreign-born white families owned 2,968,707 homes and rented 2,690,300 homes; the Negro families owned 669,645 homes and rented 2,050,217 homes; the other races owned 108,040 homes and rented 264,800 homes.

Total homes in NEW ENGLAND, 1,981,499, of which 915,441 or 46.2 per cent were owned, 1,042,521 or 52.6 per cent were rented, and 23,537 were of unknown tenure. Native white families, 1,203,304; foreign-born white families, 753,231; Negro families, 22,864; other races, 2,100.

NO. 35

MAYOR MANSFIELD WELCOMES DELEGATES TO THE AMERICAN BAR ASSOCIATION CONVENTION TO BOSTON — EXTENDS GREETINGS OF CITIZENS TO ASSEMBLY AT SYMPHONY HALL AT OPENING SESSION, CALLING ATTENTION TO ATTRACTIONS OF HISTORIC CITY AND EXPRESSING HOPE THEIR STAY MAY BE MEMORABLE AND THEIR DELIBERATIONS INSPIRING TO THE PEOPLE OF THE ENTIRE COUNTRY.

The following is the address by Mayor Frederick W. Mansfield at opening of American Bar Association Convention, Monday, August 24, 1936, at Symphony Hall:

Mr. Chairman, President Ransom, and Fellow Members of the American Bar Association.

It is a great pleasure to greet you today, to welcome you as distinguished visitors to Boston and to express the hope that you may have a very successful and enjoyable meeting. It is related of Webster that upon an occasion when he was returning to address a Boston and New England audience after many years' absence at Washington, he was in some doubt as to the proper form of salutation with which to commence his oration. In casting about in his mind for the apt phrase that would be most fitting he recalled that he was returning to his own people — that he was to speak to men of his own sturdy stock — men whom he loved and with whom he had much in common. That thought was enough — it supplied the cue for which he was searching, and when he walked upon the platform he addressed his audience in that ringing, eloquent and memorable phrase, "Brethren of the kindred tie!"

And so when I arise to greet you today I do so in two capacities — as Mayor of the City of Boston and also as "Brethren of the kindred tie!" for laying aside for the moment this temporary habit of the mayoralty I recall that I, too, have much in common with you, that I am a member of the bar and of this association and that I, too, am a member of, and delegate to, this convention. I am interested in the labors that confront you, in the work the association has done and is doing, in the opportunities that present themselves to you as educated women and men trained to cope competently with the perplexing difficulties that arise daily in these restless times, to lead the people of this nation — indeed of the world — to a proper solution of their problems — to find the remedies and to apply them.

World Looks to Profession.

The world may not look to us for light and leading in these matters, but surely the people in our own country are justified in believing that if the lawyers, the educators, the scientists and the learned women and men of America cannot help them, then there is very little hope that the many vexed questions of the hour will ever be satisfactorily answered.

But with every year since the American Bar Association was founded under the leadership of one of Boston's most distinguished citizens and ablest lawyers, Moorfield Storey, as one of its first presidents, we have shown some progress — in some years not much perhaps, in other years more — but never losing ground, always advancing, and now we can rejoice in our growth through the years, in our increasing influence upon the thought of the present period and in the realization of the tremendous capacity for good that our association enjoys. For we have that capacity — we have the opportunities — and we must achieve the results which are expected of the united thought of so many members of a learned profession. And I know that we shall not fail. I know that much will be accomplished; that stubborn and awkward subjects will be approached boldly, treated courageously and will be adequately disposed of without evasion.

But I must not permit my interest in this convention as a lawyer altogether to overshadow the fact that as visitors to Boston you should be properly greeted by its chief executive. And as Mayor of the City I am most happy to extend to you the cordial greetings of all of our citizens — to welcome all old and many new friends and to say to you that Boston wishes you not only to be happy here — to be interested in our historic shrines and quaint streets and places — but also make your sojourn here so memorable that you will say when you depart, "The Boston Convention from every view was the best we have ever had."

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

**MAYOR MANSFIELD PAYS SIGNAL HONOR TO AMERICAN BAR ASSOCIATION
— ILLUMINATES OLD STATE HOUSE IN UNIQUE CEREMONY AS TRIBUTE
TO DELEGATES AND ANNOUNCES CONSIDERATION OF PLAN FOR
LIGHTING OTHER BOSTON HISTORIC SHRINES AND PUBLIC BUILDINGS
SO VISITORS' ATTENTION MAY BE CALLED TO THEM AND CITIZENS
MAY TAKE GREATER PRIDE IN FACT THAT THEY ARE AMONG
BOSTON'S DEAREST AND NOBLEST POSSESSIONS.**

Following are the remarks of Mayor Frederick W. Mansfield at illumination of the Old State House on August 24 in honor of the American Bar Association Convention:

Mr. Chairman, Fellow Citizens.

Among the many duties that press upon the busy Mayor of every large city is that of officiating at public functions of every kind and, in accordance with that custom, I have been called upon during my term in office to participate in many public ceremonies. But none has given me such genuine pleasure and satisfaction as the very happy occasion which brings us together this evening.

I have long felt that the historic shrines of Boston merited more attention not only from school children and visitors to our city but from our own citizens themselves. We are proud to possess these sacred relics of the past — the Old State House — the Old South Church — Faneuil Hall — the Home of Paul Revere — the Old North Church — and many others equally as important if not so conspicuously situated.

There has been a growing custom throughout the country, at night to illuminate public buildings of architectural beauty and in some cases of merely local significance. Many states illuminate their capitols, statues, memorials to their heroic dead.

Surely it is but fitting that Boston, which possesses so many of these reminders of the past, should secure them from being forgotten or falling into oblivion. But today the busy citizen on our winding and narrow streets, with his mind on his own immediate problems, frequently passes these ancient landmarks without giving them a thought. The stranger alone, or now and then a schoolboy, is seen to pause and gaze upon them with awe and patriotic pride.

At night when the roar of daily business has been hushed these various buildings are likely to be forgotten and overlooked altogether unless something is done to revive the interests and the patriotic fervor which the citizens of Boston have always held for these ancient evidences of our struggle for liberty.

First Ceremony.

And I am very happy indeed to participate in the first ceremony of its kind held in Boston and, by turning the electric switch, which I shall presently do, to illuminate one of the most important old buildings still remaining standing in the United States. It is my intention to see that this illumination which is inaugurated tonight in honor of the American Bar Association shall become a permanent feature of our municipal life and I venture to predict that when these lights have once been lighted and turned upon this beautiful old building that the citizens of Boston will never allow their flame to falter.

And I am also happy to announce that I have under consideration the flood lighting of the Old South Church, Faneuil Hall, the spire of the Old North Church, and Paul Revere's Home.

The Edison Electric Illuminating Company of Boston has very generously cooperated with the city and is supplying the flood lights and equipment without cost, charging only a very modest sum for the use of the electric current. I have no doubt that arrangements may be made with the Edison Company which will enable the city to illuminate these other important old buildings at a cost practically negligible when compared with the great good which must ensue by the promotion of patriotic feelings in the hearts of our citizens, which surely must be the result of thus strikingly calling to the public notice the beauty of these old buildings, and to revive in the public mind their glorious history.

I am privileged as Mayor of the City of Boston to illuminate physically a sacred shrine which has illuminated us all, spiritually and patriotically.

HOSPITAL DEPARTMENT.

Upon August 20 the Mayor approved the sale of between two and three hundred dollars worth of old brass, copper, etc., which have accumulated here. The following is a list of the bids received:

Boston Junk Company, \$247.32; B. Greenfield & Son, \$190.60; John J. Lennon, \$190.33.

PARK DEPARTMENT.

Upon August 24 the Mayor approved the award of a contract to M. Solimando for constructing new control tower on roof of present tower, Administration Building, East Boston Airport. Bids, opened Tuesday, August 18, were as follows:

John F. Shea Company, Incorporated, \$3,750; J. A. Singarella Corporation, \$3,545; A. Orlando, Incorporated, \$3,368; M. Solimando, \$3,179.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Upon August 20 the Mayor approved a contract with W. H. Ellis & Son Company, for repairing foundations, etc., of the Meridian Street Bridge, under alternative bid of 1-B, at an estimated cost of \$3,375. The following bids were received August 18:

Item 1 A.—W. H. Ellis & Son Company, \$3,145; J. F. Shea Company, Incorporated, \$3,571; A. Orlando, Incorporated, \$4,348; J. P. Cavanagh, \$5,490.

Item 1-B.—W. H. Ellis & Son Company, \$3,375; J. F. Shea Company, Incorporated, \$3,871; A. Orlando, Incorporated, \$4,548; J. P. Cavanagh, \$5,990.

PUBLIC WORKS DEPARTMENT (Ferry Service).

Upon August 24 the Mayor approved a contract with the Bethlehem Shipbuilding Corporation, Ltd., for repairing hull, etc., of the ferryboat "Lieutenant Flaherty," the second lowest bidder, at an estimated cost of \$11,255, an increased price of \$3 over the bid submitted by the Quincy Dry Dock and Yacht Corporation. The Bethlehem Corporation is located in East Boston, while the lowest bidder has its plant in Quincy, and in connection with the necessary inspection, etc., the expense incurred in carfares to and from Quincy is a considerable item. In 1935 this Quincy concern repaired the ferryboat "Palumbo," and the item for carfares amounted to \$169.40, and in 1936 the added cost for carfares while inspecting the repairs of the "Donoghue" totaled \$134.40, both boats being repaired by the Quincy Dry Dock and Yacht Corporation, the work being done in Quincy. The additional expense to be incurred by having this work done in Quincy as against the work being performed in East Boston is estimated at \$150, and far exceeds the difference in price between the low and the second bidder under this proposal. In addition, the Bethlehem Shipbuilding Corporation, Ltd., has prop-

erty in East Boston assessed for \$635,500 on which they pay taxes. The work to be done under this contract is to be completed within six weeks after approval of the contract by the Mayor. The following bids were received August 17:

Quincy Dry Dock and Yacht Corporation, \$11,252; Bethlehem Shipbuilding Corporation, Ltd., \$11,255; The Marine Company, \$11,662.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon August 26 the Mayor approved a contract with J. D'Amico for sewerage works in Bellevue Hill road, West Roxbury, between La Grange street and Bellevue park, at an estimated cost of \$2,081.99. The following bids were received August 24:

Clay Pipe.—J. D'Amico, Incorporated, \$2,081.99; R. Zoppo, \$2,154.13; M. De Sisto Company, \$2,166.50; L. Balboni, Incorporated, \$2,348.63; J. Williams, \$2,403.53; Roxbury Concrete Construction Company, Incorporated, \$2,738.21.

Concrete Pipe.—J. D'Amico, Incorporated, \$2,081.90; R. Zoppo, \$2,154.13; M. DeSisto Company, \$2,185; L. Balboni, Incorporated, \$2,359.73; J. Williams, \$2,370.23; Roxbury Concrete Construction Company, Incorporated, \$2,741.91.

Upon August 26 the Mayor approved a contract with the Roxbury Concrete Construction Company, Incorporated, for sewerage works in Everett street extension, between Western avenue and Soldiers Field road, Brighton, at an estimated cost of \$2,643.47. The following bids were received August 25:

Clay Pipe.—Roxbury Concrete Construction Company, Incorporated, \$2,648.47; M. DeSisto Company, \$2,730; John Williams, \$3,012.91; R. Zoppo, \$3,296.87; L. Balboni, Incorporated, \$3,606.10; Keystone Engineering and Contracting Company, \$3,959.25; V. J. Grande Company, \$4,587.25.

POLICE DEPARTMENT ORDERS.

General Order No. 220.

A trial board consisting of Captains Gleavy, Connolly and Wall, having heard by reference a complaint made by Leonard E. J. O'Connell, captain, Division 18, against George A. Kelly, patrolman, Division 18, for alleged violation of Rule 36 of the Rules and Regulations of the Police Department, to wit:

Rule 36, Section 6: In that on the second day of August, 1936, the said Patrolman George A. Kelly refused to obey the orders of his superior, to wit, Sergt. Edmond V. Gallahue.

Rule 36, Section 8: In that on the second day of August, 1936, the said Patrolman George A. Kelly, while on duty and in uniform, was disrespectful and uncivil towards the said Sergt. Edmond V. Gallahue,—has submitted the following finding and recommendation:

"The Board, having heard all the witnesses and considered all the evidence, finds the said Patrolman George A. Kelly guilty of Specification 1 and not guilty of Specification 2 and respectfully recommends that he be reprimanded in General Orders."

The commissioner accepts the finding and recommendation of the Trial Board and hereby orders that the said Patrolman George A. Kelly be reprimanded in General Orders.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. MCSWEENEY,
Police Commissioner.

General Order No. 221.

Whereas, It appears that Patrolman William J. Mason of Division 4 has performed faithful service in the Police Department for sixteen and nine-twelfths years and that the Medical Board, provided for by chapter 521 of the Acts of 1922, has certified that the said Patrolman Mason is physically incapacitated,—it is the judgment of the Police Commissioner that the said Patrolman Mason is permanently physically incapacitated for useful service in the Police Department on account of injuries received in the actual performance of duty as a police officer; therefore, it is hereby

Ordered, That, with the approval of his Honor the Mayor, the said Patrolman Mason be retired from active service in the Police Department under the provisions of chapter 353, Acts of the year 1892, as amended by chapter 6, Acts of the year 1920, and chapter 387, Acts of the year 1930, and that his name be placed upon the department pension roll with pay at the rate of one thousand and fifty (1,050) dollars per annum, said sum being one half of the amount of compensation received by him in the office from which he is retired; to take effect as of 7.45 o'clock a. m., Wednesday, August 26, 1936.

The Acting Superintendent of Police will promulgate this order.

EUGENE M. MCSWEENEY,
Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 42.

I. RETIREMENT.

The following retirement is hereby announced to take effect at 8 a. m., Friday, August 21, 1936:

Apparatus Operator Francis A. Regan, Engine Company 34.

Apparatus Operator Regan was appointed to this department on May 9, 1913. He leaves the department with the best wishes of his associates.

II. ASSIGNMENT CARDS.

As announced in General Orders No. 39, c. s., new assignment cards are being issued to the department today for fire alarm boxes Nos. 1482, 2125, 263, 2637, 3129, 3199, 3375, 5124, 5174, 5189 and 6175.

III. CHANGE IN NUMBER AND LOCATION OF FIRE ALARM BOX.

Effective at 12 noon, September 1, 1936, the number of fire alarm box 12-2415 will be changed to 2417. The new location will be Wyman street, opposite Bolster street, auxiliary Wyman School. The new box will be connected into Circuit 52 and the assignments will be the same as for Box 2415. A new assignment card for Box 2417 will be issued at an early date. In the meantime, company commanders will see that the proper record is made in the assignment boxes and that the necessary change is made on assignment card for Box 2415.

IV. NOTICE FROM MAYOR OF BOSTON.

The following notice, dated August 14, 1936, has been received from his honor the Mayor:

OFFICE OF THE MAYOR,
BOSTON, August 14, 1936.

To the Heads of Departments.

The heads of the various city departments are requested to instruct all employees to pay immediately their current excise, poll and personal taxes, also any previous taxes which may be outstanding and to require the exhibition of a receipt showing that they have been paid.

Yours truly,

FREDERICK W. MANSFIELD, Mayor.

In accordance with the foregoing, company commanders and heads of divisions will interview all members under their direction and have them show receipts for poll taxes and personal property taxes. Company commanders and heads of divisions will report to the commissioner on Form 5, on or before Wednesday, August 26, 1936, the names of all members who fail to show the required receipts.

V. ELECTION, BOSTON FIREMEN'S RELIEF FUND.

The election of trustees of the Boston Firemen's Relief Fund will be held on Monday, September 14, 1936. Ballots will be distributed throughout the department on Monday, August 24, 1936, and company commanders will see that all ballots are forwarded to district headquarters in sufficient time to be delivered at department headquarters not later than 1 p. m., September 14, 1936. Polls close at 1 p. m., Monday, September 14, 1936, and no ballots will be accepted for counting after that time.

By order of Fire Commissioner
EDWARD F. McLAUGHLIN.

HENRY A. FOX,
Chief of Department.

EAST BOSTON WELFARE UNIT OPENS.

The following is a copy of a letter from John C. L. Dowling, Executive Director, Overseers of the Public Welfare, to Joseph F. Mellyn, Secretary to the Mayor:

BOSTON, August 21, 1936.

MR. JOSEPH F. MELLYN,
Secretary to the Mayor.

DEAR SIR,—The East Boston district unit of this department will open for business on next Monday, August 24, 1936, at 9 a. m., and we confidently expect that the Dorchester unit at Hancock street will be ready for occupancy on September 15, 1936.

Yours truly,

JOHN C. L. DOWLING,
Executive Director.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Arundel park, bounded:

Northerly by Ashmont street, ten feet; easterly by another part of Arundel park, one hundred and forty-five feet; southerly by the same, ten feet, and westerly by the same, one hundred and forty-five feet, containing fourteen hundred and fifty square feet, more or less.

The sewerage works to be constructed are as follows: One hundred and forty-two linear feet of 10-inch pipe sanitary sewer and one hundred and forty-two linear feet of 10-inch pipe surface drain, in the above described premises, being part of the private way known as Arundel park, leading southerly from Ashmont street for a distance of approximately one hundred and forty-five feet.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on the easterly side of Arundel park, leading southerly from Ashmont street for a distance of approximately one hundred and eighty feet, and the abutting lot of land on the westerly side of Arundel park, for a distance of approximately one hundred and twenty-eight feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1157, Sewerage Works, Arundel Park, Dorchester, August 7, 1936, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 17, 1936.

Regular meeting of the City Council of the City of Boston held in the City Council Chamber at 2 o'clock p. m., President FITZGERALD in the chair, and all the members present except Coun. P. J. Fitzgerald, Norton and Selvitella.

APPOINTMENT OF CONSTABLE.

The appointment by the Mayor was received of Samuel C. Baker of 35 Waumbeck street, Roxbury, to be a constable of the City of Boston for the term ending April 30, 1937, authorized to serve civil process upon filing bond.

Laid over for one week under the law.

APPOINTMENTS OF MINOR OFFICERS.

The following appointments by the Mayor were received, viz.:

Weights of Goods: Patrick J. O'Rourke, 996 River street, Hyde Park, Mass.; George A. Legrow, 22 Calhoun street, Everett, Mass.

Weights of Coal: Ida B. Lavien, 41 Gleason street, Dorchester, Mass.; George F. Hartnett, 10 Akron street, Roxbury, Mass.

Laid over for one week under the law.

COST OF CODIFICATION OF STATUTES.

The following was received:

City of Boston,
Office of the Mayor, August 17, 1936.
To the City Council,

Gentlemen,—I transmit herewith a letter from the City Auditor, relative to your order of July 2, 1936, concerning the dates and amounts of payments made incident to the proposed codification of statutes relating to the City of Boston, authorized in 1926.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Auditing Department, August 3, 1936.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I submit the following information in response to the order adopted by the City Council at its meeting of July 2, 1936, in which it was requested that the Council be advised as to "the dates and amounts of payments made incident to the proposed codification of statutes relating to the City of Boston."

According to the records of this office, an appropriation of \$20,000 was authorized by the Council in 1926 for this work, and of this amount \$19,921.97 was actually expended. With the exception of \$21 paid to the Commonwealth of Massachusetts for copies of the statutes of various years, this amount was disbursed solely for pay rolls. Between June 6, 1926, and February 28, 1929, the following persons were paid the amounts indicated after their names:

John F. Myron.....	\$6,631 91
David A. Marshall.....	6,631 91
Harold J. Field.....	6,637 15

Respectfully,
CHARLES J. FOX, City Auditor.

Placed on file.

STREET ACCEPTANCES, WARD 8.

The following was received:

City of Boston,
Office of the Mayor, August 17, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Acting Chairman of the Board of Street Commissioners, relative to your three orders of August 3, 1936, concerning the acceptance and laying out as public highways of the following streets in Ward 8:

1. Perch street.
2. Pike street.
3. Sherwood street.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Street Laying-Out Department,
August 12, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Attention: Bernard J. Dunn, Assistant Secretary.
Honorable dear Sir,—I have Mayor's office memo, finder date of August 10, 1936, with the attached City Council orders relating to Perch street, Pike street and Sherwood street all located in Ward 8.

I am informed by Mr. Sullivan, the chief engineer of this department, that there are no plans available for the laying out and construction of these streets. Plans will be made at the earliest opportunity.

Public hearings will be held when the plans are completed and the orders for the laying out and construction of these streets will doubtless be passed and submitted to your Honor for approval.

Respectfully,
WALTER A. MURRAY,
Acting Chairman.

Placed on file.

SALES OF TAX TITLE PROPERTY.

The following were received:

City of Boston,
Office of the Mayor, August 17, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Superintendent of Public Buildings, dated July 14, 1936, and a copy of a letter from Harry Sidell, dated July 13, 1936, relating to an offer to purchase certain property situate at No. 7 Kemble street, Roxbury, which property was acquired from foreclosure of a tax title by the city.

I also transmit an order authorizing the sale of said property. The price recited in this order is a minimum price of \$251.30, the Superintendent of Public Buildings having stated in his letter that the sale of the premises at public auction with a minimum price of \$251.30 is in the interest of the city.

I respectfully recommend the adoption of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Buildings Department,
July 14, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—In accordance with the provisions of chapter 3, Ordinances of 1935 concerning tax title property, I respectfully submit an offer from Mr. Harry Sidell for his client Mr. Joseph Sidell, 16 Stanwood street, Roxbury, for the land at No. 7 Kemble street, Roxbury, in the sum of two hundred fifty-one dollars and thirty cents (\$251.30).

The taxes owed the city amount to two hundred fifty-one dollars and thirty cents (\$251.30) from the years 1931-1936, inclusive. This includes the nonpayment of taxes since the year 1930, but does not include interest or Land Court charges.

If and when the above amount of two hundred fifty-one dollars and thirty cents (\$251.30) is approved by your Honor and the City Council, the property will then be properly advertised for sale at public auction and sold to the highest bidder. The figure of two hundred fifty-one dollars and thirty cents (\$251.30) will be the minimum price for the property that the city is willing to accept and will be announced as the first bid at the public auction sale.

In my opinion, it will best serve the city's interests to proceed on the foregoing basis.

Respectfully,
ROSWELL G. HALL,
Superintendent of Public Buildings.

Harry Sidell,
Counselor at Law,
One Beacon Street,

Boston, Mass., July 13, 1936.

George P. Donovan, 80 Joy Street, Boston, Mass.
Re: 7 Kemble Street, Roxbury.

Dear Sir,—In answer to yours of the 8th instant, I wish to advise you that my client has authorized me to increase the offer to \$251.30, for the above-mentioned lot of land.

Very truly yours,
HARRY SIDELL.

Whereas, The City of Boston, by a decree of the Land Court, Suffolk Registry District, dated April 29, 1936, foreclosed a right of redemption under a tax deed filed in the Land Court, Suffolk Registry District, with Certificate of Title No. 33147 to about 1,536 square feet of land, situate on the southerly side of Kemble street, as is more fully described in said tax deed, said tax deed being Document No. 113997; and

Whereas, An offer to purchase the said premises has been made in the sum of two hundred fifty-one and 30-100 dollars (\$251.30), now, therefore, it is hereby

Ordered, That the Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized, with the approval of the Mayor of Boston, to sell all of the city's right, title and interest in said parcel of land at public auction at a minimum price of \$251.30; and it is hereby further

Ordered, That said Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized to execute and deliver, in the name and behalf of the City of Boston, to the purchaser of said parcel of land a written instrument satisfactory in form to the Law Department of the City of Boston, conveying all right, title and interest of the said City of Boston in said premises upon the payment to it of the sum bid therefor at said auction.

Referred to the Committee on Public Lands.

City of Boston,
Office of the Mayor, August 17, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Superintendent of Public Buildings, dated June 29, 1936, relating to an offer to purchase

certain property situated at No. 105 Bellamy street, Brighton, which property was acquired from foreclosure of a tax title by the city.

I also transmit an order authorizing the sale of said property. The price recited in this order is a minimum price of \$100, the Superintendent of Public Buildings having stated in his letter that a sale of the premises at public auction with a minimum price of \$100 is in the interest of the city.

I respectfully recommend the adoption of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Buildings Department,
June 29, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—In accordance with the provisions of chapter 3, Ordinances of 1935, concerning tax title property, I respectfully submit an offer from Mr. Jeremiah A. Coakley, 124 Brayton road, Brighton, Mass., for the vacant land, lot No. 105, Bellamy street, Brighton, in the sum of one hundred dollars (\$100).

The costs to the city up to December 30, 1935, amount to ninety-one dollars and thirty-seven cents (\$91.37), which includes the nonpayment of taxes since the year 1930, but does not include interest.

If and when the above amount of one hundred dollars (\$100) is approved by your Honor and the City Council, the property will then be properly advertised for sale at public auction and sold to the highest bidder. The figure of one hundred dollars (\$100) will be the minimum price for the property that the city is willing to accept and will be announced as the first bid at the public auction sale.

In my opinion it will best serve the city's interests to proceed on the foregoing basis.

Respectfully yours,
ROSWELL G. HALL,
Superintendent of Public Buildings.

Whereas, The City of Boston, by a decree of the Land Court, Suffolk Registry District, dated October 10, 1935, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5292, page 500, to about 5,723 square feet of land situate on the northerly side of Bellamy street, Brighton, as is more fully described in said tax deed; and

Whereas, An offer to purchase said premises has been made by Jeremiah A. Coakley in the sum of one hundred dollars; now, therefore, it is hereby

Ordered, That the Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized, with the approval of the Mayor of Boston, to sell all the city's right, title and interest in said parcel of land at public auction at a minimum price of one hundred dollars; and it is hereby further

Ordered, That said Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized to execute and deliver in the name and behalf of the City of Boston to the purchaser of said parcel of land a written instrument, satisfactory in form to the Law Department of the City of Boston, conveying all right, title and interest of said City of Boston in said premises upon payment to it of the sum bid at said auction.

Referred to the Committee on Public Lands.

City of Boston,
Office of the Mayor, August 17, 1936.
To the City Council.

Gentlemen,—I transmit herewith a letter from the Superintendent of Public Buildings, dated July 16, 1936, and a copy of a letter from Mr. Charles Kafulas, dated July 15, 1936, relating to an offer to purchase certain property situated in the rear on the westerly side of Washington street, Dorchester (Lot No. B2), which property was acquired from foreclosure of a tax title by the city.

I also transmit an order authorizing the sale of said property. The price recited in this order is a minimum price of \$72, the Superintendent of Public Buildings having stated in his letter that a sale of the premises at public auction with a minimum price of \$72 is in the interest of the city.

I respectfully recommend the adoption of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Buildings Department,
July 16, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—In accordance with the provisions of chapter 3, Ordinances of 1935, concerning Tax-Title Property, I respectfully submit an offer from Mr. Charles Kafulas, 336 Talbot avenue, Dorchester, for the vacant land, Lot No. B2, containing 507 square feet of land, situated in the rear on the westerly side of Washington street, Dorchester, in the sum of seventy-two dollars (\$72).

The costs to the city up to December 30, 1935, amount to seventy-one dollars and thirteen cents (\$71.13), which includes the nonpayment of taxes since the year 1930, but does not include interest.

If and when the above amount of seventy-two dollars (\$72) is approved by your Honor and the City Council, the property will then be properly

advertised for sale at public auction and sold to the highest bidder. The figure of seventy-two dollars (\$72) will be the minimum price for the property that the city is willing to accept and will be announced as the first bid at the public auction sale.

In my opinion it will best serve the city's interests to proceed on the foregoing basis.

Respectfully,
ROSWELL G. HALL,
Superintendent of Public Buildings.

336 Talbot Avenue,
Dorchester, Mass.,
July 15, 1936.

Mr. George Donovan,
Real Estate Department, City of Boston,
80 Joy Street.

Dear Sir,—I hereby offer to the City of Boston, as owner, seventy-two dollars (\$72) for a lot of land in Ward 17 described as follows:

About five hundred seven (507) square feet of land lying in the rear from the westerly side of Washington street, adjoining an estate now or formerly of William Minot, trustee, being Lot B2, C. B. Humphrey plan, dated November 2, 1929, registered in the Suffolk Registry District of Land Court, certificate number 23421. Said land is situated in Block 150 R2 in the Dorchester district.

Very truly yours,

CHARLES KAFSULAS.

Whereas, The City of Boston, by a decree of the Land Court, Suffolk Registry District, dated August 30, 1935, foreclosed a right of redemption under a tax deed filed in the Land Court, Suffolk Registry District, with Certificate of Title No. 23421 to about 507 square feet of land, lying in the rear from the westerly side of Washington street adjoining an estate now or formerly of William Minot, trustee, being Lot B2, C. To the City Council.

Gentlemen,—I transmit herewith a letter from the Superintendent of Public Buildings, dated July 15, 1936, and a copy of a letter from M. B. Holsberg to the Superintendent of Public Buildings, dated July 13, 1936, relating to an offer to purchase certain property situate on the northwesterly side of Washburn avenue, East Boston, which property was acquired from foreclosure of a tax title held by the city.

I also transmit an order authorizing the sale of said property. The price recited in this order is \$227.35, the Superintendent of Public Buildings having stated in his letter that a sale of said property at the said price would be advantageous to the City of Boston.

I respectfully recommend the adoption of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Buildings Department,
July 15, 1936.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—In accordance with the provisions of chapter 3, Ordinances of 1935, concerning tax title property, I respectfully submit an offer from Maurice B. Holsberg for his client Emma Goldinger for the vacant land on the northwesterly side of Washburn avenue, East Boston, containing 7,665 square feet of land, lot No. 15, in the sum of two hundred twenty-two dollars and thirty-six cents (\$222.36).

The costs to the city up to June 26, 1935, amount to two hundred twenty-seven dollars and thirty-five cents (\$227.35), which includes the nonpayment of taxes since the year 1931, but does not include interest.

This property was owned by the Goldinger family at the time that the city took possession, and I recommend that Emma Goldinger be allowed to redeem it at a private sale for the amount of the above offer.

In my opinion it will best serve the city's interests to proceed on the foregoing basis.

Respectfully,
ROSWELL G. HALL,
Superintendent of Public Buildings

18 Tremont Street,
Boston, Mass., July 13, 1936.
Major Roswell G. Hall,

Superintendent of Public Buildings.
Dear Sir,—My client, Emma Goldinger, is desirous of redeeming a lot of land on the northwesterly side of Washburn avenue in East Boston, containing 7,665 square feet and situated in Block 5, Section 7, in the East Boston district, shown on the Boston Assessors' Books of Plans of said city, filed in the Registry of Deeds, which property has been purchased by the city for taxes and has gone through the Land Court. The tax lien number in the Land Court is 6064.

I understand that it will require \$222.36 to redeem the property, and I understand my client is willing to pay this amount for redemption.

Please let me know what is necessary to be done by my client to further put through this matter.

An early reply will be greatly appreciated.

Very truly yours,

M. B. HOLSBERG.

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated June 26, 1935, foreclosed the right of redemption under a tax deed recorded with Suffolk Deeds, Book 5365, page 172, to about 7,665 square feet of land situate on the northwesterly side of Washburn avenue, East Boston, as is more fully described in said tax deed; and

Whereas, An offer to purchase the said premises has been made by Maurice B. Holsberg, in behalf of his client, Emma Goldinger, in the sum of two hundred twenty-two and 36-100 dollars (\$222.36); now, therefore, it is hereby

Ordered, That the Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized, with the approval of the Mayor of Boston, to sell all of the city's right, title and interest in said parcel of land for the sum of two hundred twenty-two and 36-100 dollars (\$222.36); and it is hereby further

Ordered, That the said Superintendent of Public Buildings be, and he hereby is, authorized to execute and deliver, in the name and behalf of the City of Boston, to the purchaser thereof a written instrument satisfactory in form to the Law Department, conveying all right, title and interest of said City of Boston in said premises upon the payment to it of two hundred twenty-two and 36-100 dollars (\$222.36).

Referred to the Committee on Public Lands.

Placed on file.

CONSOLIDATION OF DEPARTMENTS.

Coun. GALLAGHER, for the Committee on Ordinances, submitted a report on the message of the Mayor and ordinance (referred July 2) for the consolidation of certain departments with the Public Works Department—recommending that the ordinance be rejected, without prejudice.

The question came on the acceptance of the committee's report.

Coun. GALLAGHER—Mr. President, in returning this ordinance for the consolidation of certain departments to the City Council with the recommendation that it ought not to pass, without prejudice, it seems only fair to make a short explanation. Under the provisions of the charter when the Mayor submits an ordinance to the City Council with an explicit recommendation for its adoption it is necessary that the ordinance in the exact form in which it is submitted be approved or rejected within sixty days, otherwise it becomes effective at the end of that period without approval by the City Council. No matter what faults appear it cannot be amended or approved except by the parliamentary procedure of rejecting it and introducing a substitute ordinance. This particular ordinance was first submitted to the Council on December 16, 1935, and in consequence of the technical difficulties involved by the fact that the sixty-day period covered parts of the terms of two different Councils the Council was constrained to reject it. The ordinance was again submitted on May 4, 1936, on the same day that the annual budget reached the Council. The attention of the Council was completely engaged in the consideration of the budget during the month of May, and during June the committee gave some consideration to the ordinance. Several objections to it were raised, not only by the departments concerned but by the members of the committee, and in view of the fact that unless action was taken before July 3 the ordinance, defective or not, would become law, the Council rejected it on June 29, without prejudice. The ordinance was immediately resubmitted on July 2 and unless rejected or withdrawn becomes effective on August 31. For the committee and for myself I am frank to say that the months of July and August are particularly inopportune periods in which to expect serious consideration of such an important matter and no action along that line has been taken by the committee. In order to avoid a repetition of the embarrassment caused by this time limitation on our consideration of this matter, I propose to introduce, if the Mayor's ordinance is rejected, without prejudice, a substitute ordinance in exactly the same form. The Council will thus have an opportunity of considering an ordinance which will be susceptible to amendment, and will have ample time to inquire into its merits or demerits.

Coun. DOWD—The only thing I object to and to which I am going to make an amendment is the words "without prejudice." As a matter of fact, the Council has now acted about three times on this and reported back three times "ought not to pass, without prejudice." I want to vote today, "ought not to pass," so that we might definitely apprise the Mayor that it is the contention of the City Council, after three different occasions of having an opportunity to study it, that we do not see where it is of any real benefit to the City of Boston whatsoever to have this ordinance before us. As we have repeatedly said in this Council on previous occasions, a consolidation of departments will mean only one thing, regardless of what we are told now. It will eventually mean the discharge of hundreds, yes, thousands, perhaps, of city employees, and as long as I am a member of the City Government I do not want to see that happen and I do not want to have a voice or vote in that matter. So I am going to amend that and move that we kill this order for all time, that we say to the Mayor of Boston we do not believe in consolidation, that it is not going to benefit the city financially one way or the other, that the only thing it is going to do is to put the city under a group of a few engineers that might have the theoretical experience, but not the practical experience. For that reason, if the chairman of Ordinance has no objection, I move you, sir, that the words "without prejudice" be stricken out.

Coun. GALLAGHER—Mr. President, I have no objection.

The report of the committee was accepted, and the question came on the rejection of the ordinance without prejudice, Coun. DOWD moving that the words "without prejudice" be stricken out.

Coun. BRACKMAN—Mr. President, this is a very important matter and I think the committee is trying to give it every consideration that it can. In line with what the chairman of the committee has said, that it has been almost impossible to get the committee to function as well as it might because of the summer recess and because of the time the budget came in here, I don't think we ought to attempt to pass on this now. There may be a lot of merit to this bill if we amend it properly so it will make for some efficiency in the departments. If we dismiss it at this time without prejudice and have an opportunity again to have the committee meet and to iron out any difficulties that may be connected with this order, I think it would be only the right and fair thing to do, so I hope this motion to strike out "without prejudice" will not pass.

The motion to strike out the words "without prejudice" was carried, and the question came on the rejection of the ordinance.

The ordinance submitted by the Mayor was declared rejected.

Coun. ROBERTS doubted the vote and called for a roll call.

The ordinance was rejected, the vote on its passage being yeas 16, nays—Coun. Brackman, Roberts and Shattuck—3.

LOAN FOR POLICE SIGNAL SERVICE.

The President called up, under unfinished business, No. 3 on the calendar, viz.:

3. Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof and in addition thereto, the sum of \$85,000 be, and hereby is, appropriated, to be expended under the direction of the Police Commissioner, for Police Communications System, in addition to the sum of \$350,000 appropriated so to be expended for said purpose by order given its second and final reading and passage on February 28, 1934, and to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount of \$85,000, the same to be issued outside the limit of indebtedness.

The order was given a second and final reading, yeas 18, nays—Coun. Shattuck—1.

RECESS TAKEN.

The President declared a recess for the purpose of going into executive session at 2.33 p. m. The members reassembled in the Council Chamber and were called to order by President FITZGERALD at 3.08 p. m.

SOUTH BAY LANDS.

On motion of Coun. SHATTUCK the Council voted to take from the table No. 7 on the calendar, viz.:

7. Whereas, The City of Boston may have title to certain land originally constituting flats and situate in that part of Boston called the South Bay; and

Whereas, It is necessary to determine whether the city has such title and, if it has, promptly to preserve the same by appropriate legislation; now, therefore, it is hereby ordered, that the sum of ten thousand dollars be, and it hereby is, appropriated, to be expended by the Corporation Counsel, for such expert assistance and for the acquisition and making of such maps, plans, surveys and engineering data as he may deem necessary for the purpose of determining and enforcing the rights, if any, of the city in and to the lands and flats abutting on or included in the South Bay, the sum so appropriated to be charged to the Reserve Fund.

Coun. SHATTUCK—Mr. President, this is an order for the appropriation of \$10,000 for investigation of certain rights of the City of Boston in flats in the South Bay which run up from the South Station to Massachusetts avenue. It appears from the report of the Corporation Counsel that the city has ownership or claims ownership to a large part of the flats, but there has been some encroachment on those flats and that some of these encroachments have lasted for a good many years and unless something is done very soon through the statute of limitations any rights the city has will be lost. It therefore seems to me wise to bring up this investigation at this time to authorize the appropriation and to protect the city's rights. I am not ordinarily in favor of special appropriations, but I think this is a good investment that the city should protect its valuable rights in those flats.

Coun. McGRATH—Mr. President, on the \$10,000 for the investigating of the flats, I would like to see the City of Boston go into this situation, but I don't know why we should need \$10,000 appropriated for it. We have probably more assistant corporation counsel now, and it seems to me that \$10,000 is a great deal of money to investigate this matter. I think we might probably cut it down to nearer \$2,000.

The order was passed, yeas 18, nays—Coun. McGrath—1.

LOANS FOR TRAFFIC SIGNALS AND SIDEWALKS.

Coun. DOWD called up Nos. 5 and 6 on the calendar, viz.:

5. Ordered, That the sum of \$50,000 be, and the same hereby is, appropriated, to be expended under the direction of the Boston Traffic Commission, for automatic traffic signals at various intersections and points in Boston, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On August 3, 1936, the foregoing order was read once and passed, yeas 17, nays 0.

6. Ordered, That the sum of fifty thousand dollars be, and the same hereby is, appropriated, to be expended under the direction of the Commissioner of Public Works, for the construction of granolithic sidewalks, and that to meet said

expenditure the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On August 3, 1936, the foregoing order was read once and passed, yeas 16, nays 0.

The orders were read a second time and again passed, yeas 18, nays—Coun. Shattuck—1.

TRANSFER FOR WELFARE BUILDINGS.

The Chair called up No. 4 on the calendar, viz.:

4. Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Welfare Department, New Charities Administration Building, \$3,500, to the appropriation for Public Welfare Department, New District Welfare Buildings, Furnishing and Equipping, \$3,500.

On August 3, 1936, the foregoing order was read once and passed, yeas 16, nays 0.

The order was read a second time and again passed, yeas 19, nays 0.

EXECUTIVE COMMITTEE REPORTS.

Coun. GALLAGHER, for the Executive Committee, submitted the following:

1. Report on the message and orders (referred today) for transfers in various departments—that the order ought to pass.

Report accepted; orders passed, yeas 19, nays 0.

2. Report on the petition of Gina Galozzi (referred today) for children to appear at Maverick Garden Hall—recommending that a permit be granted.

Report accepted; permit granted on the usual conditions.

CHARLESTOWN IMPROVEMENTS.

Coun. MELLEEN offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to consider the advisability of installing two wading pools on some of the vacant property now owned by the City of Boston and located at strategic points in Charlestown.

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to consider the advisability of making a Prado out of the unsightly lot in historic Harvard square, Charlestown.

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to provide for the installation of flood lights in City square, Charlestown, so that pedestrians will not be in danger when crossing.

The orders were severally passed under suspension of the rule.

FIRE SIREN, UPHAMS CORNER.

Coun. KERRIGAN offered the following:

Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to replace the fire warning siren at Uphams Corner for the safety and protection of pedestrians, especially children, and also automobile traffic.

Passed under suspension of the rule.

BICYCLE RIDING IN PLAYGROUNDS.

Coun. ROSENBERG offered the following:

Ordered, That the Park Commissioner, through his Honor the Mayor, be requested to set aside sections in the parks and playgrounds to permit bicycle riding in playgrounds which is now prohibited at some recreation centers.

Passed under suspension of the rule.

ACCEPTANCE OF BRESNAHAN ACT.

Coun. AGNEW offered the following:

Ordered, That chapter 339 of the Acts of 1936, entitled "An Act making Katherine G. Bresnahan eligible to receive upon retirement certain allowances under the Boston Retirement Act," be, and hereby is, accepted.

Passed under suspension of the rule.

IMPROVEMENTS AT WASHINGTON PARK.

Coun. BRACKMAN offered the following:

Ordered, That the Park Commissioners be requested, through his Honor the Mayor, to make repairs to benches in Washington Park, Roxbury.

PUBLIC WELFARE REGULATIONS.

Coun. DOWD offered the following:

Ordered, That the Public Welfare Committee of the City Council wait upon his Honor the

Mayor, and request that the Board of Overseers rescind the two orders recently put into effect by the Board.

Coun. DOWD—Mr. President, some two weeks ago we had the executive secretary of the Board before our Executive Committee, and to a certain extent he agreed with the two orders, namely, that the men on the welfare work one day extra in addition, the man working for \$4 has got to work two days and a man getting \$10 has got to work four days. Two weeks has elapsed and no action has been taken. I realize that no action will be taken until a committee of the City Council waits on his Honor the Mayor with the request that action be taken on those two orders, and if I go down with that committee I will not only request, but I will demand it, or that he remove the two members who are against it.

The order was declared passed.

Coun. AGNEW—May I ask permission to make a statement at this time?

President FITZGERALD—With unanimous consent. Any objection?

Coun. AGNEW—Relative to the order of Councilor Dowd just introduced, whether or not it was his idea to have that order referred to the Committee on Public Welfare and have the Committee of Public Welfare wait on the Mayor, or whether it was to pass without any committee action.

Coun. DOWD—I presume it would be better to refer it to the committee in order that the committee would get it. Otherwise it might not be heard of again.

President FITZGERALD—The order will be referred to the Committee on Welfare.

Coun. AGNEW—I was going to suggest that the committee meet immediately after this meeting is over and go to the Mayor's office relative to that order.

REPORT ON BEANO GAMES.

Coun. WILSON—Reporting for the Committee on License Fees:

An order passed by the City Council as long ago as February of this year first pointed out that Beano in Boston had already grown into a racket far beyond the charitable intent of the 1934 Legislature and at that time it was urged that the control of this particular gambling mania which had been left by statute with the Mayor's office for proper regulation should be tightened up. At that time it was charged that professional promoters were the chief beneficiaries, that continued racketeering in the guise of charity should be stopped, and that the entire situation called for an investigation as to the identity of the most frequent licensees, the amount of actual receipts and expenses, and the supposed charitable purposes for which the proceeds were applied. That was last February.

Convinced that continued failure by the licensing authority since February to tighten up on proper rules and regulations had only encouraged the opening of additional Beano palaces in downtown Boston, a further order was passed by the City Council on August 3 calling for an immediate public hearing and an investigation of the entire situation by the City Council Committee on Licenses. The first public hearing was promptly held by your committee on Friday, August 7, at which time it was plainly disclosed that although this craze had grown to tremendous proportions since the first of the year, the supposed benefits to charity were grossly disproportionate to the income at the various licensed establishments. Figures produced by the Licensing Division of the Mayor's office showed from Beano returns on file over a period of many weeks that actual payments to the charity sponsors were invariably less than 5 per cent of the daily gross receipts.

Apparently the situation has at last been ironed out. Newspaper support of our investigation having focused public attention on this long-continued evil the licensing authority has at last decided to correct the abuses which have grown more and more flagrant since the first of the year. Unless subsequent developments demand otherwise your committee therefore contemplates no further action at this time. The committee has no desire to fight windmills or conduct post mortems. The committee feels that proper enforcement of those regulations now laid down by the Mayor following and resulting from recent action taken by the City Council should from now on keep Beano activities within the charitable field originally contemplated by the Legislative Act of 1934.

Robert Gardiner Wilson, Jr., Chairman.

David M. Brackman.

George W. Roberts.

John J. McGrath.

That report is signed by all the committee with the exception of Councilor Selvitella, who is absent today.

In explanation of that report by the committee, as I assume all of the Council are probably aware, under the terms of the 1934 Statute which permitted Beano in cities and towns in the state, the question of the rules and regulations under which they should be operated was left entirely in the case of cities to the Mayor; and so in the City of Boston the question of the rules and regulations covering the situation and requests for the carrying out of those rules and regulations is entirely a matter within the province of the Mayor's office. The Committee had that in view when it held its hearings, but acted on the supposition that the matter having been first broached and raised as

long ago as February some definite steps should be taken to assure some degree of action by the proper licensing authority.

Coun. MELLEN—Mr. President, may I ask the chairman of the committee how many Beano parlors were shut down because of the investigation?

President FITZGERALD—Is the councilor in position to answer?

Coun. WILSON—If I read the newspapers correctly—and I am a constant reader of the newspapers—my understanding is that there are no professional Beano games in Boston, starting today, and that as a result the games which are operated are those games which are held once a week strictly for the churches and the veteran organizations and those charitable organizations who were the ones who were intended to be benefited when the Legislature passed the act in 1934. I do not understand that there are any professional Beano parlors now operating in Boston.

Coun. MELLEN—May I ask the chairman, through you, that between the months of February and August those Beano parlors did operate, did they not?

President FITZGERALD—Will you put the question again, councilor?

Coun. MELLEN—That between the month of February, in which month the order was first introduced, and the present month of August those Beano parlors did operate and without any restrictions?

Coun. WILSON—I don't know the purpose of the inquiry, but for the purpose of the record I understand that following the introduction of an order as long ago as last February, which was not referred to a committee of which I was chairman, the Beano parlors then in operation professionally in Boston not only continued, but a mushroom growth of Beano sprang up all over the City of Boston, in the downtown district making of Washington street primarily a Beano headquarters instead of business establishments, and that it was not until the passage of the order by the Council on August 1 and referred to the Special Committee on Licenses that any real effort was made either to propound any regulations which would have any teeth in them or to enforce the regulations which were existent.

Coun. ROBERTS—Mr. President, when these hearings were commenced, as I understood it, a representative from the Corporation Counsel's office said there was need of some additional legislation. I think it has become quite apparent since the Mayor's return in the last few days that no new legislation is needed. The statute was quite clear that all the proceeds should go to charity, and it was quite apparent to us in our hearings that at no time were the proceeds of the large games entirely given to charity; in other words, it was open violation of the law and it was up to the licensing authority or the Police Department or both to stop them. I am not entirely certain that the Police Department could not have stopped them even with the license where it must have been apparent from their returns that not even a major proportion of the proceeds was going to the charities where they were intended to go. I am sincerely hoping that the new regulations by the Mayor will remedy this situation, not only for Boston, but for some of the outlying cities. I read in the paper that the mayor of one outside city who had introduced some pretty drastic regulations said that because some of the Beano games in nearby towns were sending buses to his town for patrons, he was going to open up again. I am glad to see as a result of the action taken by the Council that some of the holes have been plugged up.

NEXT MEETING.

President FITZGERALD—Councilor Agnew moves that when we adjourn, we adjourn to meet again on Tuesday, September 1.

Coun. FINLEY—I arise to object to a postponement until, I think, September 14—is that the date?

President FITZGERALD—September 1; that is two weeks from tomorrow.

Coun. FINLEY—Well, that is satisfactory.

The motion was carried.

CIVIL SERVICE FOR POLICE SUPERINTENDENTS.

Coun. WILSON offered the following:

Resolved, That the Boston City Council hereby records itself as favoring the adoption of Civil Service rule to be heard on Wednesday, August 19, providing that a superintendent or deputy superintendent of the Boston Police Department upon ceasing to hold such position shall be forthwith reinstated to the same position in classified rank in which he served prior to appointment as superintendent or deputy superintendent.

Coun. WILSON—Very probably, Mr. President, there has been quite a bit of discussion between Civil Service and the office of the Police Commissioner concerning the status of the police superintendent and the deputies, there being some theory that if a deputy or superintendent accepts promotion and in a later administration if he loses the job of deputy superintendent or superintendent strangely enough he does not revert to the captaincy which he had before his promotion. I

understand a hearing is scheduled for Wednesday, August 19, at 11.30 for the adoption of the Civil Service rule which will make it possible for a superintendent of the Boston Police and the deputies to take those positions, and in case they later lose the position due to a change in the office of commissioner, for example, they, of course, as logic would suggest, should revert to the rank of captain.

The order was passed under suspension of the rule.

DAMAGES BY RENTED AUTOMOBILES.

Coun. WILSON offered the following:

Ordered, That the Legislative Committee of the City Council draft and introduce such legislation in the Massachusetts Legislature as will make an automobile owner legally responsible in damages in cases where the automobile has been rented by the owner to a person or concern and where a third person although in the exercise of due care suffers property damage due to the negligent operation of such automobile rented to such person or concern.

Coun. WILSON—I may be wrong, Mr. President, on the law, but I am laboring under the impression that with the cars of these various U-Dryvit concerns operating in Boston and other cities, there is no possibility of holding the companies themselves in a case where the rented car, for example, is in a "smashup" and demolishes another car. It seems to me that in a city such as Boston, with the streets full of traffic and with so many of these U-Drive-Yourself concerns, some of them, if not most of them, of doubtful financial standing, that there should be some special legislation put through as will protect the average car operator against the owners of these cars which are rented out promiscuously to anybody who has got the price to hire them for two or three hours.

Coun. P. A. MURRAY—I might say that the City of Boston is one of the worst offenders in that because where a truck is driven by a W. P. A. or an E. R. A. or a welfare worker and they break up a fence or smash up a car, the Law Department comes back and says you can't do anything because it is in the P. W. A. or the E. R. A. and we are not responsible. I think it is about time that we pin it down where, no matter who it is run by, there shall be some responsibility, no matter who is operating it or regardless of who runs the cars.

The order was passed under suspension of the rule.

LIST OF TAX TITLE PROPERTIES.

Coun. WILSON offered the following:

Ordered, That the Superintendent of Public Buildings, in charge of various city properties by virtue of City Ordinance passed October 7, 1935, furnish to the City Council:

1. A complete list of all tax title properties in his custody or control where demolition work has already been done or is now being done and giving in each instance (a) the address of the parcel; (b) the 1935 assessed value on the land and on the buildings; (c) the supposed amount now due on the property for taxes, interest and costs; and (d) the amount expended or planned to be expended for demolition work.

2. A complete list of all tax title properties in his custody or control where repairs or renovation work has been done or is now being done, giving in each instance (a) the address of the parcel; (b) the 1935 assessed value on the land and on the buildings; (c) the supposed amount now due on the property for taxes, interest and costs; (d) the amount expended or planned to be expended for repair or renovation.

3. A complete list of all tax title properties in his custody or control as to which the city is now obtaining revenue in the form of monthly rental or otherwise, giving in each instance (a) the address of the parcel; (b) the 1935 assessed value on the land and buildings; (c) the supposed amount now due on the property for taxes, interest and costs; (d) the area of the parcel where the same is vacant land; (e) the amount of present rental being paid by the week, by the month, or annually; and (f) the name and address of the lessee.

4. A complete list of all tax title properties actually sold by the city since the passing of the above ordinance on October 7, 1935, giving in each instance (a) the address of the parcel; (b) the price obtained, and (c) the supposed amount due on the property for taxes, interest and costs down to the date of such sale.

Coun. WILSON—Mr. President, also very briefly, Councilor Finley raised the point in Executive concerning the respective powers of two committees of the Council. One matter which, of course, would be before his committee would be the progress, if any, being made by the City of Boston which since last October has certainly been in the real estate business, whether they like it or not. Somewhere between seven hundred and a thousand tax title properties are now or should be now under the jurisdiction of Mr. Hall, Superintendent of Public Buildings. We were told last summer that there was considerable rush and it was a matter of an emergency for this body to pass a new ordinance which should leave in Mr. Hall's hands the operation of these various tax title properties, both on the question of demolition for a question of public safety, on the question of renting for revenue of such parcels as we cannot sell, and especially including the vacant parcels,

and most especially unloading of the properties to possible purchasers to clean them up and get them back into income-producing, tax paying parcels. I realize that Mr. Hall has been laboring under great difficulties for one reason or another, and that one of the reasons was that he had contemplated a W. P. A. project which would give him men and money to help out in his investigation and clearing up of the situation. I therefore ask a report of these detailed matters which I believe should be before Councilor Finley's committee when the information comes through, because if it was an emergency last summer and if it was an emergency when the Council passed a city ordinance on October 7 of last year, offhand I would consider that it is still an emergency with hundreds of additional properties being put through the Land Court by the office of the Corporation Counsel. This information is directed to obtain advice for the Council as a definite proposition as to the cases where properties are now being demolished at the city's expense, where properties have been or are being rented and the basis on which they are being rented, and most especially on the question of sales of property. We had, I understand, a few more come through today. The Committee on Public Lands, I think, has six or seven, but the only progress apparently made on getting the City of Boston out of the real estate business since October 7 is the renting of a few pieces in Boston for an almost nominal rental and the sending through of orders on not more than seven properties aggregating in value perhaps not more than \$2,000 out of upwards of a thousand parcels that have come back into the lap of the city of a probable assessable value of upwards of a million dollars.

Coun. ROBERTS—If the councilor has no objection I would like to introduce an order at this time with reference to the tax title properties so as to clear up the difficulty he has mentioned.

The order was passed under suspension of the rule.

SALE OF TAX TITLE PROPERTY.

Coun. ROBERTS offered the following:

Ordered, That all matters pertaining to the sale of tax title property be referred to the Committee on Public Lands and the Committee on Tax Title Property, sitting jointly, and that the chairman of the Committee on Public Lands be designated chairman of the joint committees.

Passed under suspension of the rule.

Adjourned, on motion of Coun. McGRATH, at 3.40 p. m. to meet on Tuesday, September 1, 1936, at 2 o'clock p. m.

AMENDED DAMAGES.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of August 29, 1933, as amended, determining damages caused by the making of the public improvement consisting of the widening and relocation of Weld street, be, and the same hereby is, amended, by adding to said order the amount \$100 as an award to LeRoy H. Crandall; that the amount \$100 be, and the same hereby is, awarded to LeRoy H. Crandall for the damages so sustained.

MAYOR MANSFIELD'S SON TO WED.

Upon August 24 the following statement was issued from the office of the Mayor:

The Mayor's son, Walter R. Mansfield, and Miss Dorothy F. Howlett of West Roxbury are to be married on September 11 at the Church of the Holy Name in West Roxbury. The bridesmaid will be Dorothy Hoar, a cousin of Miss Howlett's, and the best man will be Samuel Sibley Dennis of West Roxbury, a friend of both, and roommate at college and intimate friend of Walter Mansfield. There will be a reception after the ceremony at the Hotel Lafayette for the family and relatives.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town polity, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1640 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

DROP IN WELFARE RELIEF CONTINUES TO INDICATE RETURN TO BETTER TIMES — PROGRESS, WEEKLY REPORT BY DIRECTOR JOHN C. L. DOWLING TO MAYOR MANSFIELD, SHOWS 17,184 ACTIVE CASES ON DEPENDENT AID AS AGAINST 21,365 AT THE SAME PERIOD IN 1935 — \$112,615.86 SPENT DURING WEEK AS AGAINST \$150,962 IN SAME WEEK OF 1935.

Fewer persons in Boston now are forced to seek welfare relief than at any time in the past four years, according to Welfare Director John C. L. Dowling.

"There is no question but that business conditions now are much better than at any time since I took over my position as head of the Welfare Department, and the demands for relief have lessened to a great extent," said Mr. Dowling.

He quoted figures to show that the city is spending less a week for dependent aid than it did during the same period of 1935.

Among the figures cited by Director Dowling were the fact that during last week there were but 17,184 active cases on the Welfare dependent aid list as against 21,365 for the same week in 1935. There was expended during the week \$112,615.86 as against \$150,962 during the corresponding week of last year. To date, for the purpose of dependent aid the Welfare Department has expended the sum of \$4,782,127.68. The figures for the week in all departments are as follows:

MAYOR MANSFIELD RESUBMITS TO THE CITY COUNCIL THE PROPOSED ORDINANCE FOR CONSOLIDATION OF CERTAIN MUNICIPAL DEPARTMENTS—URGES THAT EMPLOYEES WOULD NOT BE DISCHARGED OR SALARIES REDUCED BY ADOPTION OF MEASURE.

Upon August 27 Mayor Mansfield re-submitted to the City Council the proposed ordinance for the consolidation of departments along with the following communication:

Boston, August 27, 1936.

To the City Council.

Gentlemen,—I am resubmitting herewith the proposed ordinance for the consolidation of certain city departments and earnestly urge that your recent rejection of this measure be reconsidered and that it be adopted as a city ordinance.

The debate which preceded the action of your Honorable Body indicates that apparently the chief reason for rejection of the order was that some of the councilors thought that ultimately it would result in the discharge of many city employees or reducing their salaries. My purpose in presenting this measure was not to effect the discharge of city employees. The chief purpose was and is to eliminate duplications of work in vari-

ous departments, to prevent waste, to modernize and simplify cumbersome methods and to promote greater efficiency in conducting the work of the city.

When the proposed ordinance was first presented fear was expressed that many city employees would lose their Civil Service, pension and retirement rights. In order to reassure your Honorable Body and the city employees themselves I caused to be presented to the Legislature proposed legislation to guarantee these rights to the city employee. That legislation was adopted and is now chapter 152 of 1936.

Consolidation of these departments would not result in the wholesale discharge of city employees. If the number of city employees is to be reduced it will be solely as the result of resignations, retirements or deaths.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.

OVERTIME ALLOWED.

The heads of the various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law:

Municipal Court for Civil Business (Clerk's Office).

Approval has been given for the payment of overtime performed during the period from January 15 to April 15, to the following employees for the amounts specified:

Frank L. Tierney, Edward J. O'Hara, 145 hours, \$145 each; Thomas J. Flavin, John M. Kelly, Thomas Lynch, Edward Brennan, Thomas Flaherty, Joseph Doherty, 95 hours, \$95 each. Total, \$860.

This overtime is necessary each year in order to bring the previous year's index into book form, which includes filing, checking, typing and corrections. The work can be performed more satisfactorily by employees of this office on an overtime basis, as they are better acquainted with the work than outsiders. Because the index is in use during regular office hours by the public, the work has to be performed outside the regular office hours. Provision has been made for this work in Item A-3 of the 1936 budget of this court.

EXTENSION OF CONTRACTS.

ART COMMISSION.

An extension of time has been granted on the two contracts for the repairs and alterations of the Bunker Hill Memorial tablets, Winthrop square, Charlestown. The first contract, with D. F. and W. G. Burns, Incorporated, general contractors, for \$3,990, was to be completed within ninety days, but required eighteen additional days. The second contract, with the Gorham Company, bronze contractors, for \$1,300, was to be completed within eighty days, but required twelve additional days because the stone monuments were not ready to receive the bronze tablets. Both contractors carried on the work with due diligence. A flooding of the granite quarry and an acute and unexpected shortage in skilled granite workers were responsible for the delay.

OVERSEERS OF THE PUBLIC WELFARE.

P. J. Cantwell & Son have been granted an extension of time until September 30, for the completion of the contract for the erection of a Public Welfare building at Maverick and Bremen streets, East Boston.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

FIRE DEPARTMENT ORDERS.

General Order No. 44.

I. NEW FIRE ALARM BOXES.

A new fire alarm box, No. 1611, will shortly be installed at Shawmut avenue and Corning street. It will be connected into Circuit 61 and the assignments will be the same as for Box 1615. A new assignment card will be furnished for this box at a later date. In the meantime company commanders will see that the proper record is made in the assignment boxes.

A new fire alarm box, No. 12-1322, will be installed in the following location as soon as the building is completed: Bus Terminal, Eastern Massachusetts Street Railway Company, Haymarket square. It will be connected into Circuit 10 and assignments will be the same as for Box 1322. Company commanders will mark company number on the back of assignment cards for Box 1322 and send them to Headquarters on or before September 4, 1936, so that the location for Box 12-1322 may be printed thereon.

II. EXAMINATION FOR PROMOTION TO DEPUTY CHIEF.

The Department of Civil Service and Registration of the Commonwealth of Massachusetts announces that an examination for promotion to the grade of deputy chief in the Boston Fire Department will be held on Saturday, September 26, 1936. This examination is open to all of the district chiefs in the Boston Fire Department.

The subject and weights of the examination are as follows: Seniority, 5; report, 2; practical questions, 10; personality and fitness determined by an oral interview, 3; total, 20.

Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical examination.

Application blanks may be obtained from the office of the Fire Commissioner, 60 Bristol street, Boston. The vouchers on these blanks need not be filled out. When completed applications should be sent to the Division of Civil Service, Rooms 143-152 State House, Boston. Applications must be on file not later than Saturday, September 12, 1936, at 12 noon. Applicants will be notified of the time and place of examination.

Exchange of time off will be allowed so that the officers desiring to take the examination can do so without interfering with the efficiency of the department.

III. COMMENDATIONS.

Hoseman John B. McDonald of the Maintenance Division is hereby commended for assisting a child who had been seriously injured in a fall from a roof and bringing her to the City Hospital, on August 20, 1936, while off duty.

Hoseman Francis P. Willcutt of Engine Company 48 is hereby commended for responding to and working at a still alarm, August 21, 1936, while off duty.

Hoseman Robert J. Callahan of the Fire Prevention Division is hereby commended for holding a fire in check and working with the apparatus, at Box 1273, August 24, 1936.

By order of Acting Fire Commissioner HENRY A. FOX.

THOMAS H. DOWNEY,
Acting Chief of Department.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of February 19, 1935, determining damages caused by the making of the public improvement, consisting of the widening, relocation and construction of Faneuil street, be, and the same hereby is, amended, by striking from said order the amount \$1 awarded to Boston Elevated Railway Company in said order and inserting in place thereof the amount \$700; that the amount \$700 be, and the same hereby is, awarded to Boston Elevated Railway Company for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of July 1, 1936, determining that no person sustains damages by the making of the public improvement, consisting of establishing of grade on La Grange street, West Roxbury, be, and the same hereby is, amended, by striking out in the first and second lines of said order the words: "that no person sustains in his estate," and by striking out in the last line of said order the word: "no." That said order be further amended by adding thereto Helen G. Hamlet, \$80. That the amount \$80 be, and the same hereby is, awarded to Elmer J. MAYOR PLEASED OVER REGISTRATION OF VOTERS.

Upon August 27 the following statement was issued by the Mayor:

The high-water mark reached by the registration of voters is highly gratifying. The Election Board, under my instructions, has placed every facility at the service of the voter and the interest shown by the record-breaking registration indicates that the people are intensely interested in the local, state and national elections for this year.

PITTSBURGH'S TRAFFIC SAFETY
RECORD.

Pittsburgh has been adjudged the safest city in the United States in 1932, and the second safest in 1933 and 1934 among cities with populations over 500,000. Registrations in the city increased 4.4 per cent, gasoline consumption 7.7 per cent. In 1935, despite a 2.4 per cent decrease in traffic volume, adult fatalities increased 30 per cent, total fatalities 24 per cent, as compared with 1934.

SEWAGE TREATMENT PLANT CONSTRUCTION ON THE INCREASE.

Owing to the economic conditions prevailing during the past year, there was but a relatively small volume of sewage treatment plant construction. Within recent months, however, there has been a decided impetus to new construction of this type growing out of the Public Works Administration allotments. Nearly 700 cities have received allotments of funds from the P. W. A. for sewerage or sewage treatment, involving an aggregate expenditure of well over \$200,000,000.

PROFITABLE MUNICIPAL MARKETS.

Municipal markets, "white elephants" in many cities, can be made self-supporting and even profitable, according to recent reports on two of them. The Department of Public Markets of New York City reports that within the administration of its present Mayor, Fiorello LaGuardia, the city's markets have changed from inefficient and expensive undertakings into profitable investments. The Benton Harbor, Mich., municipal fruit and vegetable market is described as doing a three-million-dollar annual business by its City Manager in the February issue of "Public Management."

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING COFFEE.

The Supply Department of the City of Boston invites proposals for furnishing coffee to the various city departments according to specifications to be obtained at the office of the Supply Department, Room 801, City Hall Annex. *There will be a charge of twenty cents (\$0.20) for each blank proposal taken out.* Bidders must use the form of proposal to be obtained at this office and the successful bidder must furnish a bond for one quarter the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. Bids, with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Superintendent of Supplies, Room 801, City Hall Annex, before 12 m., Wednesday, September 16, 1936, at which time and place they will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

D. FRANK DOHERTY,
Superintendent of Supplies.

(Sept. 5.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the Superintendent of Supplies, Room 801, City Hall Annex, until 12 m., Friday, September 18, 1936, at which time and place they will be publicly opened and read, for furnishing hay, grain and straw to the various city departments. *There will be a charge of twenty cents (\$0.20) for each blank proposal taken out.* The bidder must include the cost of delivery. The bidders are requested to bid on United States No. 1 timothy hay. The grade of hay must comply with the federal hay grades, and No. 2 white oats to test no less than thirty-four nor more than thirty-eight pounds to bushel graded under federal standards. The hay and oats must be weighed by sworn weighers and on the scales designated by the Superintendent of Supplies. All articles covered by this contract shall be the growth production of the United States. The bidder must use the form of proposal to be obtained at Room 801, City Hall Annex. Proposals must be accompanied by a certified check for \$200. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The successful bidder must furnish a bond for one quarter the total estimated amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder. No reservations or stipulations submitted by the various bidders will be considered by the Superintendent.

Sheet metal equipment,

will be received by the Superintendent of Construction at the office of the Department of School Buildings, 11 Beacon street, Boston, Mass., until 2 o'clock p. m., daylight saving time, of Friday, September 18, 1936, and at that place and time will be publicly opened and read. The proposal submitted to the Superintendent of Construction shall not be separated from the book of specifications. The additional copy of the proposals shall be removed from the book of specifications and after filling out shall be sealed in an envelope and delivered to the Auditor of the City of Boston at the City Hall, School street, Boston, Mass., before the time for the opening of the proposals.

A bidder may submit a proposal on one or more items.

The project is to be financed and constructed under the terms of the Emergency Relief Appropriation Act of 1935 and chapter 366 of the Acts of 1933 of the Commonwealth of Massachusetts, as amended. The attention of bidders is directed to the construction regulations prescribed by the P. W. A. Attention is called to the fact that minimum wage rates are established for the project, and are set forth in the contract document. The employment agency designated by the Government for this project is Edward L. Hanna, Manager, 100 Nashua street, Boston, Mass. All bids must be accompanied by a certified check on a bank, payable to the City of Boston, in the sum of five (5) per cent of the amount of the bid, except that a minimum amount of check shall be fifty (50) dollars. The certified check shall be attached to the proposal, sealed, and delivered to the Superintendent of Construction. The right is reserved to reject any or all proposals and to waive informalities, or to accept any proposals deemed best for the City of Boston, subject to the approval of the State Director, P. W. A. The certified checks of the three lowest bidders will be retained until the contract has been signed by all interested parties. All other certified proposal checks will be returned not less than forty-eight hours after the date of the opening of the proposals.

A bond of an approved surety company will be given by the successful bidder in the full amount of the contract price, except that no bond will be required for contracts under \$1,000, except where labor is performed at the site in the installation of said equipment. All contracts are subject to the approval of the Mayor. No award can be made without the approval of the State Engineer, P. W. A.

A deposit of a certified check for \$50, made payable to the City of Boston, will be required for each set of plans and specifications, said sum to be refunded not later than seven days after the opening of bids. Mutilation or failure to return the plans or the specifications shall be deemed sufficient cause for the forfeiture of the said deposit.

Specifications and forms of proposals may be obtained at the office of the Superintendent of Construction, Department of School Buildings, 11 Beacon street, Boston, Mass.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN DAVENPORT BROOK IN HIBBARD AVENUE, PLEASANT HILL AVENUE AND MORTON STREET, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Davenport brook in Hibbard avenue, Pleasant Hill avenue and Morton street, Dorchester. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Davenport Brook, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Tuesday, September 15, 1936, with a certified check for three thousand (3,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor at the office of the Commissioner of Public Works. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

MAYOR MANSFIELD SUPPORTED IN BATTLE AGAINST QUABBIN RESERVOIR PROJECT CONTRACTS BY OPINION FROM CORPORATION COUNSEL AFTER INVESTIGATION OF FACTS AT HAND—PROGRESS OF WORK AND CONTRACTS UNDER WHICH OPERATIONS PROCEEDED OUTLINED IN BRIEF UPON WHICH MAYOR ACTED TO SAVE CITIZENS ADDED BURDEN.

The following opinion as to the legality of Quabbin Reservoir contracts was presented to Mayor Mansfield by Corporation Counsel Henry E. Foley:

Boston, September 10, 1936.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—You have requested me to inquire into and advise you with reference to the validity of certain work orders alleged to have been issued on or after August 21, 1936, by the Metropolitan District Water Supply Commission to The Two Companies, Inc., and to Cenedella & Co. in connection with the Quabbin Reservoir project.

From such examination as I have been able to make to date, the following appear to be the facts:

I. Contract of May 15, 1935, with The Two Companies, Inc.

Under date of May 15, 1935, a contract was entered into between the Commonwealth of Massachusetts, acting through the Metropolitan District Water Supply Commission, and the C. J. Maney Company, Inc., and B. Perini & Sons, Inc., doing business under the name of The Two Companies, for the construction of a core wall to sound rock at the site of the main dam of Quabbin Reservoir in the towns of Belchertown, Enfield and Ware, Massachusetts. Subsequently, these two corporations caused a new corporation to be formed under the name of The Two Companies, Inc., and said contract was assigned to the latter corporation with the permission of the Commonwealth. This contract is sometimes referred to as Contract No. 38. It contemplated a substantial amount of earth and rock excavation to make an open cut trench along the line of the core wall. Earth excavation was to be paid for at the rate of 65 cents a cubic yard. Rock excavation, as ledge, was to be paid for at the rate of \$7.50 a cubic yard. The contract specifically provided, with respect to this rock excavation, that blasting would not be permitted in general but that the excavation must be carried into sound rock as required by barring and wedging.

The contract further provided that, for the doing of extra work ordered pursuant thereto, the contractor would receive the reasonable cost of such work as determined by the engineer, plus fifteen per cent of such cost., (See Article XVIII and Item 31 of Article XXIII.)

II. Contract of October 2, 1935, with Cenedella & Co., Inc.

Under date of October 2, 1935, a contract was entered into between the Commonwealth of Massachusetts acting through the Metropolitan District Water Supply Commission, and Cenedella & Co. for the excavation of three diversion channels and for the doing of appurtenant work at the site of Quabbin Reservoir in the towns of Dana, Hardwick and Greenwich, Massachusetts. This contract is sometimes referred to as Contract No. 49.

Section 1 of Article V of said contract provides as follows:

"Work to be Done. The work to be done under this contract is the excavation of an open trench between the middle and east branches; the relocation of a section of highway at the north end of this channel, and the construction of a timber bridge across it; the excavation of an open channel at the outlet of Shaft 11A of the Quabbin Aqueduct; the excavation, generally in the wet, of an open channel at the lower intake at Shaft 12 of the Quabbin Aqueduct; the clearing of areas along the sites of the three aforesaid channels and elsewhere; the grubbing of areas alongside the channel at Shaft 11A and on the highway relocation; and the construction of other appurtenant works; and includes furnishing all labor, supervision, materials, plant, tools and equipment, doing all pumping, building all guards, temporary fences, trestles and other temporary works and doing all incidental work in accordance with the terms of the contract and the requirements of the Engineer."

For work to be paid for under Item 7 of Article XXIII of said contract, the contractor was to be paid \$1 a cubic yard. Section 7.1 of Article V defined the work for which such payment was to be made as follows:

"Work Included. Under Item 7 the Contractor, when and if ordered, shall furnish and place suitable material, generally gravel or rock from the existing tunnel spoil banks, on the banks of the lower intake channel at Shaft 12 in the manner and to the extent ordered to smooth them up and protect them from future scour. Material removed under Item 5 from the excavation for this lower intake channel may be used by the Contractor only to the extent permitted by Engineer."

This contract also provided that, for the doing of extra work ordered pursuant thereto, the contractor would receive the reasonable cost of such work, as determined by the engineer, plus fifteen per cent of such cost.

The aggregate estimated amount to be paid the contractor under said contract was \$79,050.

III. CONTRACT OF AUGUST 24, 1936, WITH BENJAMIN FOSTER COMPANY.

Under date of August 24, 1936, a contract was entered into between the Commonwealth of Massachusetts, acting through the Metropolitan District Water Supply Commission, and Benjamin Foster Company for the construction of the embankment of the main dam of Quabbin Reservoir in the towns of Belchertown, Enfield and Ware. This contract is sometimes referred to as Contract No. 52.

Section 1 of Article V of this contract provides, in part, as follows:

"The work to be done under this contract is . . . completing the excavation of the spillway channel begun under a previous contract; grading, trimming, loaming, grassing and rip-rapping the slopes of the spillway and outlet channels;

The contract provided that the contractor was to be paid, for earth excavation for the spillway channel, at the rate of 45 cents a cubic yard (Item 3 of Article XXIII) and for rock excavation, where blasting was permitted, at the rate of \$1.30 a cubic yard (Item 5 of Article XXIII).

It was contemplated that part of the rock excavation was to be used for rip-rap and the contractor was to be paid 70 cents a cubic yard for light rip-rap, estimated as the greater portion, and \$1.50 a cubic yard for heavy rip-rap.

Section 3.1 of Article V of said contract provided that:

"Work Included. Under Items 2, 4 and 5, the Contractor shall excavate through whatever materials may be encountered, both above and below the water level in the river, to the ordered lines and grades, the spillway channel and the auxiliary spillway, and shall do any other ordered excavating in open cut including that required for access roads; for grading of the boat-house ramp, the side slopes and bottom of the outlet channel, and the downstream toe of the dam; for installing the dam drainage system and for sealing and trimming of the open cut trench excavation along the center line of the dam near both ends of the core wall. Item 2 includes all materials so excavated except rock, which is defined in Article I; Item 4 includes such rock excavation for the core wall or spillway as is ordered to be done without blasting, as specified in Section 3.2; and Item 5 includes all other rock excavation."

In the printed statement entitled "Information for Bidders," which was submitted to bidders for Contract No. 52, the following appears:

"Attention is also called to the fact that under another contract now in progress at the site, the Commission is excavating a substantial portion of the discharge end of the spillway channel and using suitable excavated material to build up the foundation embankments, and therefore the finished grading upon which the hydraulic fill starts will be somewhat higher than shown on the plans and a part of the excavation of the spillway channel shown thereon will have been made; that certain portions of the work of this contract cannot be commenced until the existing contract is completed, and that a considerable quantity of rolled impervious embankment may be required to be placed and some grading to be done under this contract to complete the foundation embankment before the placing of hydraulic fill can be commenced."

The work of excavation referred to in said statement as "now in progress" would seem to be that of earth excavation hereinafter referred to in paragraph IV of this letter.

IV. CERTAIN WORK AWARDED TO THE TWO COMPANIES, INC., IN ADDITION TO THAT EXPRESSLY PROVIDED FOR IN CONTRACT NO. 38.

Work of The Two Companies, Inc., under Contract No. 38, was proceeding to completion more rapidly than had been expected and when nearing completion negotiations were commenced by The Two Companies, Inc., for authority to excavate in the spillway. Whereupon, under date of May 8, 1936, The Two Companies, Inc., was authorized, among other things, by Mr. Frank E. Winsor, Chief Engineer, pursuant to a vote of the Commission, to excavate not exceeding 200,000 cubic yards of earth overlying the rock in a limited portion of the spillway channel, using such portion of the materials excavated as might be found suitable, in the opinion of the engineer, "to build consolidated pervious embankment under Item 7 (of Article XXIII of Contract 38) and rolled impervious embankment not in core under Item 9 (of said Article)." It was stated that payment for earth excavation was to be made at the price fixed in Items 2 and 3 of Article V of Contract No. 38, namely, 65 cents a cubic yard, and that the building of embankment with such excavated materials was to be paid for under Item 7 at the rate of 5 cents a cubic yard—whether or not portions of the material came within the specifications of Item 9 (i. e., rolled impervious embankment not in core to be paid for under Item 9 at 60 cents a cubic yard).

The Two Companies, Inc., under date of May 11, wrote Mr. Winsor expressing their willingness to proceed under the authorization of May 8 and at the prices stated, but expressed the hope that they be permitted to make the entire earth excavation in the spillway channel and not be limited to 200,000 cubic yards.

Under date of June 26, 1936, The Two Companies, Inc., again wrote Mr. Winsor that it was their understanding that the 200,000 cubic yard limit, contained in the letter of authorization of May 8, had been removed and that they were authorized to excavate up to "approximately 260,000 cubic yards, or such earth excavation as may be required in the spillway channel northerly from the railroad to Station 18." This was apparently acceded to and the greater part, if not all, of such earth excavation was completed prior to the execution of the contract with Benjamin Foster Company.

Up to this time the authorization of earth excavation in the spillway channel was apparently limited to excavation between the points named and no rock excavation, as ledge, was authorized. The Two Companies, Inc., however, under date of June 30, 1936, again wrote the Commission, this time in part as follows:

"As a result of, and in accordance with several conferences held with you, the latest being of this date, we herewith propose to excavate rock in such portions of the spillway channel between stations approximately 31 and 18 as may be directed. Said work to be done under the terms and conditions of Contract 38."

Payment for rock excavation as ledge under Contract No. 38 was, as above stated, to be paid for under Item 4 of Article XXIII of said contract at the

rate of \$7.50 a cubic yard. This price was largely determined by the necessity of excavation by barring and wedging and by use of light explosives at the place provided in said contract for such excavation.

The rock excavation referred to in the letter of The Two Companies, Inc., of June 30 appears to be not such as must be done in this way and there is reason to believe that the price proposed is grossly excessive.

No action was taken on the last mentioned proposal of The Two Companies, Inc., by the Commission prior to the award of Contract No. 52 to Benjamin Foster Company, under date of July 16, 1936.

V. THE VOTES OF AUGUST 21, 1936, AND SUBSEQUENT DEVELOPMENTS.

It is worthy of note that, while bids on the Benjamin Foster Company contract were opened on July 2, 1936, considerable opposition developed to the award of this contract and the award was not made until July 16 and the contract was not executed until August 24, 1936.

On July 28, 1936, the term of Mr. Davenport, as a member of the Commission, expired. Mr. Edward Kelley was appointed as his successor on August 12, 1936.

Regular meetings of the Commission are held on Mondays. Due to the inability of one or more members to attend the regular meeting of Monday, August 17, was not held. On the evening of Thursday, August 20, Mr. Lavelle requested the Commission's secretary to cause a special meeting to be called the next day, Friday, August 21. The purpose of the meeting was not told to the secretary. The secretary notified both Messrs. Hultman and Kelley of the proposed meeting. He was unable, however, to tell either member the purpose of the meeting.

At Friday's meeting only Commissioners Lavelle and Kelley were present. The following two votes appear in the records as having been passed:

"Voted, That The Two Companies, Inc., are hereby authorized to begin work of excavation of approximately one hundred and fifty thousand cubic yards of earth excavation in the spillway of the Main Dam of Quabbin Reservoir between Stations 15 and 4; which excavation is to be placed in the embankment in the same manner as the excavation already completed in the spillway. It was further voted that The Two Companies, Inc., be authorized to excavate all ledge between Stations 31 and 15 at the Main Dam of Quabbin Reservoir, all of which work is to be done at the prevailing contract prices specified in contract No. 38 now being performed by Two Companies, Inc."

"Voted, That Cenedella & Co. now doing work for the Metropolitan District Water Supply Commission under contract No. 49 at the Quabbin Reservoir be authorized to construct an access road to be built to Shaft 12 of Quabbin Aqueduct, the approximate length of this road being twelve thousand feet. It was further voted by the Commission that Cenedella & Co. be authorized to cover the entire area at Shaft 11A that has been cleared with gravel at a depth of not less than one or more than three feet, and that Cenedella & Co. are to be paid under Item 7 of contract No. 49, namely, one dollar per cubic yard for grading measured in the borrow bank."

A.
THE AWARD TO THE TWO
COMPANIES, INC.

After the meeting, The Two Companies, Inc., were advised of the vote of authorization above set forth. The authorization covered additional earth excavation in the spillway channel and rock excavation. At the time the authorization was given Contract No. 52, which included in its scope this work, had been bid upon and awarded to Benjamin Foster Company. The Two Companies, Inc., had bid for this contract and were unsuccessful. The authorization, therefore, for this work to The Two Companies, Inc., appears extraordinary.

Whether or not the award to The Two Companies of this additional earth excavation imposes a greater financial burden on the Commonwealth, in view of the proposed use of the materials in the embankment, is a matter on which I am not prepared to advise you at this time. I have retained the firm of Metcalf and Eddy, consulting engineers of national reputation, to advise me on this and other matters.

The award, however, to The Two Companies, Inc., of the work of rock excavation in the spillway channel at a price of \$7.50 a cubic yard seems, on the best advice I have received to date, plainly excessive. Not only is it excessive, but the Benjamin Foster Company had agreed to make this excavation at a price of \$1.30 a cubic yard under Contract No. 52. Assuming that there are approximately 40,000 cubic yards to be excavated (and there is reason to believe this is a fair estimate of the amount) the Commonwealth by the award of this work to The Two Companies, Inc., stands to lose, if the work is done under such award, approximately \$248,000.

I understand that the work which The Two Companies, Inc., was authorized by the August 21 vote to perform has been stopped by order of the Commission pending further order.

B.
THE AWARD TO CENEDELLA & CO.

Under date of July 23, 1936, Cenedella & Co. wrote Mr. Hultman to the effect that work under Contract No. 49 was about ninety-eight per cent completed and suggested that it be authorized (a) to build an access road to Shaft 12 and (b) to fill with gravel the area cleared by it at Shaft 11A under Contract No. 49, this filling to be paid for at the rate provided under Item 7 of Article XXIII of Contract No. 49, namely, \$1 a cubic yard.

This communication was referred to Mr. Winsor who recommended that the work not be awarded; advising that no plans had been drawn for the road; that a substantial part of the land where it was proposed to construct the road was not owned by the Commonwealth; that the road would not be needed for some three years; and that there was no necessity for filling with gravel the cleared area at Shaft 11A.

The records of the Commission, however, show the vote of August 21 above set forth, and that the Commission failed to rescind this vote despite the fact that Commissioner Hultman subsequently stated, among other things, that \$1 a cubic yard was an excessive price for gravel fill in the proposed location and that a fair price would be 25 cents a cubic yard.

Both Messrs. Winsor and Hultman are in accord with this view of the price and with the view that the work covered by Contract No. 49 is not related to the work covered by the vote of August 21.

MAYOR MANSFIELD CALLS ATTENTION OF HEADS OF CITY DEPARTMENTS TO SIX-DAY WEEK LAW FOR CITY EMPLOYEES—CITES OPINION OF LAW DEPARTMENT ON SUBJECT.

The following copy of an opinion from Corporation Counsel Foley has been made public by Mayor Mansfield:

Boston, September 3, 1936.

To City Department Heads, City of Boston:
Re: An Act establishing a six-day week, so-called, for certain public employees and persons employed on public works.

GENTLEMEN,—Your attention is directed to the provisions of sections 1 and 2 of chapter 367 of the Acts of 1936, amending sections 30 and 34 of chapter 149 of the General Laws. A copy of said chapter 367 is submitted herewith. The amendments affected by said chapter will become operative on September 18, 1936.

Section 30, as so amended, provided in effect, among other things, that the service of all laborers, workmen and mechanics employed on and after the effective date of said chapter 367 by the city or by any contractor or subcontractor for or upon any public works of the city shall be restricted not only to eight hours in any one day and to forty-eight hours in any one week but also to six days in any one week, and prohibits any officers of the city, and any such contractor or subcontractor or other person whose duty it is to employ, direct or control the service of such laborers, workmen or mechanics not only from requiring or permitting any such laborer, workman or mechanic to work more than eight hours in any one day and more than forty-eight hours in any one week, but also from requiring or permitting any such laborer, workman or mechanic to work more than six days in any one week, except in cases of extraordinary emergency.

Section 34, as so amended, requires that every contract, except for the purchase of material or supplies, involving

I understand that the work which Cenedella & Co. was authorized by this vote to perform has been stopped by order of the Commission, pending further order.

VI. CONCLUSION.

The authority of the Metropolitan District Water Supply Commission comes from the provisions of chapter 375 of the Acts of 1926 and chapter 321 of the Acts of 1927, and amendatory acts.

Section 9 of said chapter 375 provides as follows:

"The supreme judicial court or any justice thereof and the superior court or any justice thereof, during a sitting of the court or in vacation, on the petition of the commission or of any city, town, corporation or person interested, or of the attorney of any such petitioner, shall have jurisdiction in equity or otherwise to enforce the provisions of this act and of any rule, regulation or order made under the authority of the same and to prevent any violation of said provisions, rules, regulations or orders; provided, however, that no suit in which the right of the commission to make any taking authorized by this act is questioned shall be brought except in the supreme judicial court for the county in which said taking has been made or is to be made, nor unless the said suit is brought within six months after the passage of this act."

Section 24 of said chapter 321 provides as follows:

the employment of laborers, workmen or mechanics, to which the city is a party, shall contain a stipulation that no laborer, workman or mechanic working within the Commonwealth, in the employ of the contractor, subcontractor or other person doing or contracting to do the whole or a part of the work contemplated by the contract, shall be required or permitted to work more than eight hours in any one day, or more than forty-eight hours in any one week, or more than six days in any one week, except in cases of extraordinary emergency, and said section further provides that a contract not containing the aforesaid required stipulation shall be null and void.

In view of the foregoing no contract of the kind referred to in said section 34 may be entered into by the city on or after September 18, 1936, without the required stipulation. I suggest as a form of stipulation the following:

"No laborer, workman or mechanic working within the Commonwealth, in the employ of the contractor, subcontractor or other person doing or contracting to do the whole or a part of the work contemplated by this contract, shall be required or permitted to work more than eight hours in any one day, or more than forty-eight hours in any one week, or more than six days in any one week, except in cases of extraordinary emergency."

This or some similar clause must be contained in every contract entered into by the city on or after September 18, 1936, regardless of the time of advertisement, except contracts for the purchase of material or supplies, provided that the contract involves the employment of workmen, laborers or mechanics.

Very truly yours,

HENRY E. FOLEY,
Corporation Counsel.

"The supreme judicial court or any justice thereof and the superior court or any justice thereof, during a sitting of the court or in vacation, on the petition of the commission or of any city, town, corporation or person interested, or of the attorney of any such petitioner, shall have jurisdiction in equity or otherwise to enforce the provisions of this act and of any rule, regulation or order made under the authority of the same and to prevent any violation of said provisions, rules, regulations or order; provided however, . . ."

The facts above stated have been determined after careful examination into the matter. Due to limitations of time and difficulty in obtaining information, these facts are subject to further examination and verification.

The facts above stated indicate, in my opinion, an improper exercise of discretion by the Commission. The indications are so strong, that I recommend that, in the event the Commission attempts to revive the authorizations contained in the votes above set forth and in the event that no additional facts sufficient to justify such revival appear, a bill in equity be filed by the City of Boston and such other municipalities affected as care to join to seek injunctive relief for their protection.

Very truly yours,

HENRY E. FOLEY,
Corporation Counsel.
